DESIRABLE VEGETABLES FOR 1929

**SALZER'S
HALE'S
BEST
MUSKMELON**

SALZER'S HALE'S BEST MUSKMELON

A new, prolific melon, originating in the Imperial Valley in California. The flesh is salmon colored, exceptionally thick, with small seed cavity, and of excellent flavor. It is extremely early. The melons are oval, about 8 by 4½ inches, heavily netted, and ship farther than any other kind. Ideal for the home garden, as well as for early market.

633—Pkg., 10c; oz., 16c;
¼ lb., 53c; ½ lb., \$1.02;
1 lb., \$1.95, postpaid.

SALZER'S MOUNTAIN GLOBE ONION

This very early strain of Yellow Globe Danvers Onion was bred in the mountains of Colorado. The onions are of fine globe shape, deep yellow color, very firm, and ripen two to three weeks earlier than the standard strain, and hence, valuable where the seasons are short. Good keeper and heavy yielder.

786—Pkg., 11c; oz., 26c;
¼ lb., 86c; ½ lb., \$1.68;
1 lb., \$3.25, postpaid.

**SALZER'S
MOUNTAIN
GLOBE ONION**

**SALZER'S
SUNNYBROOK
PEPPER**

SALZER'S FAMOUS SUNNYBROOK PEPPER

Earliest of all. Grows 15 inches high and bears in great profusion, usually sweet peppers, which run from 3 inches wide to about 2½ inches deep. Skin is smooth, glossy, brilliant scarlet; flesh very thick and sweet. In a class by itself. 110 days.

934—Pkg., 15c; ½ oz., 30c; oz., 53c; ¼ lb., \$1.75; 1 lb., \$6.50, postpaid.

**SALZER'S
RED RIVER
EARLIANA
TOMATO**

(Tomatoes one-half actual size.)

SALZER'S NEW RED RIVER EARLIANA TOMATO

Bred and developed by Prof. A. F. Yaeager of the N. D. Agricultural College. One of the earliest, most meaty tomatoes grown, and a very heavy cropper, bearing profusely, slightly flattened, very smooth fruits, of bright scarlet color, medium size, and very firm. Excellent quality. Valuable for short season sections, for market and home gardeners alike. 1178—Pkg., 15c; ¼ lb., \$1.15; ½ lb., \$2.10; 1 lb., \$7.75; 1 lb., \$14.85, postpaid.

SALZER'S JUMBO WATERMELON

SALZER'S COCOZELLE SQUASH

The best and finest flavored Summer Squash. The dwarf bushes produce heavily, large, elongated, smooth, dark green fruits, which become marbled with yellow and lighter green. Best for use when 7 inches long. 1088—Pkg., 10c; oz., 16c; ¼ lb., 51c; ½ lb., \$1.85, postpaid.

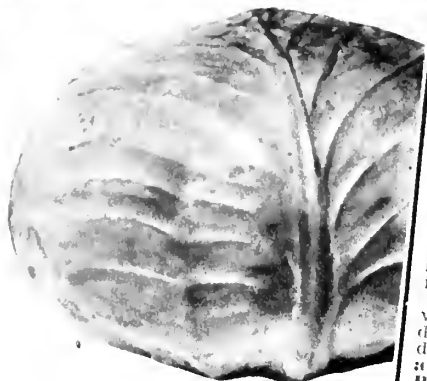

SALZER'S JUMBO WATERMELON

Melons packed one to a wash tub. The illustration is of an express shipment made by J. R. Fleming & Company, Texas, average weight, 73 pounds each. The dark green melons are very large, melting with thick, sugary maturity. The skin is entirely free from hard centers. Splendid for both truckers and home gardeners, who want both size and quality.

691—Pkg., 12c; oz., 24c; ¼ lb., \$1.53; ½ lb., \$2.95, postpaid.

NEW AND MERITORIOUS

Penn State Ballhead Cabbage

Penn State Ball-head Cabbage

Developed by the Pennsylvania State College of Horticulture, this splendid strain has yielded heads weighing 25 pounds each, and there are records of yields of as much as 26 tons per acre in this country. It is an improvement of the old type of Danish Ball Head Cabbage. The heads are large, round, very compact, and are produced uniformly under many different conditions. Shows a very marked resistance to Black Leg which has been causing untold losses to cabbage growers. The heavy solid heads are of the best keeping qualities. 263—Pkg., 15¢; ½ oz., 27¢; oz., 49¢; 2 oz., 80¢; ¼ lb., \$1.62; ½ lb., \$3.12; 1 lb., \$6.00, postpaid.

Salzer's Unrivalled Wax

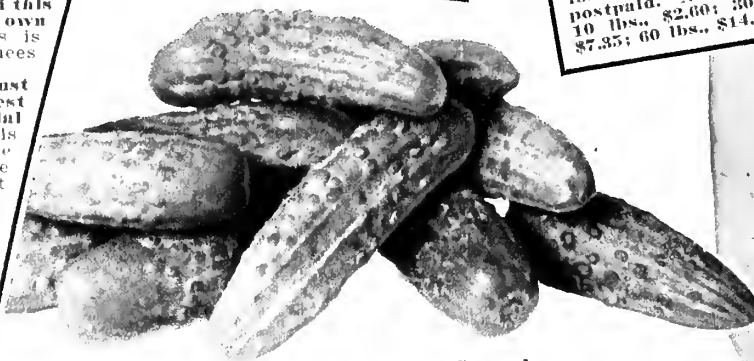

A grand new wax bean, a sport of the Select Golden Wax which we developed and introduced in 1927. Pods are long and flat, entirely stringless, brittle and of best quality. The plants are strong and vigorous and one of the heaviest bearers known. Beans are a clear light yellow color and there is not any tendency to stay green as in some types of wax beans, but they rapidly color up all over. Seems even more rust proof than Golden Wax. 75 — Pkg., 14¢; ½ lb., 26¢; 1 lb., 43¢; 2 lbs., 77¢; 5 lbs., \$1.74, postpaid. Not prepaid, 10 lbs., \$2.60; 30 lbs., \$7.35; 60 lbs., \$14.40.

Picklers' Special Cucumber

Helms, the renowned Pickle King, owner of the 57 varieties, developed this new variety for his own canneries' use. This is the strain that produces his canned pickles.

It is the most robust grower and heaviest producer of commercial pickles known. It is the proper shape, nice and small, extra fine quality, takes the salt well and shows up well when canned, firm and a fresh green color. Yields in the greatest profusion. 471—Pkg., 11¢; oz., 20¢; 2 oz., 35¢; ¼ lb., 62¢; ½ lb., \$1.15; 1 lb., \$2.25, postpaid.

Picklers'

Special

Cucumber

Creamy Heart Lettuce

A new, black-seeded, cabbage head lettuce of the butter type, medium green color and of medium size. The head is firm and solid and the heart is a very rich cream color. It has a very firm tender, buttery flavor, matures early, is slow to go to seed, and stands the heat of summer well.

It is much superior in every way to many of the other butter types of lettuce, both in quality, earliness and ability to form sound, solid heads. Is a sure header and yields a fine, heavy crop of best quality lettuce. 579 — Pkg., 12¢; oz., 27¢; 2 oz., 42¢; ¼ lb., 75¢; ½ lb., \$1.43; 1 lb., \$2.75, postpaid.

SOW SALZER'S SEEDS

I have an Oxheart Tomato grown from seed purchased from you last spring, that weighs one lb. one oz. and measures 13 inches around. My Cabbage and other seed did fine also.—Mrs. Jacob Weller, R. D. 4, Box 157, Ionia, Mich.

I won first prize on your Red Beauty Beets at the State Fair, against fourteen entries.—Mrs. Oscar Hellwarth, R. D. 7, Celina, Ohio.

One Package Each Of Above Four Varieties, For 49c, Postpaid

VEGETABLES FROM 1928

Lake
Champlain
Muskmelon

LAKE CHAM- PLAIN MUSK- MELON

Lake Champlain has been carefully bred for extreme earliness and extra-tiveness. If you want a very heavy yield of delicious, extra-early melons, then plant Lake Champlain. One grower reports almost 2,000 half-bushel basketsful per acre.

The melons are medium sized, nicely netted, the flesh is thick and deep, of a beautiful golden yellow color, and is lusciously sweet and sugary. It is one of the best melons ever produced. 624—Pkg., 10c; oz., 15c; 2 oz., 28c; ¼ lb., 49c; ½ lb., 91c; 1 lb., \$1.75, postpaid.

SALZER'S EARLY GIANT PEPPER

A new, very large and very early pepper that will produce heavy crops in the northern parts of the country. The fruits are 5 in. long and 3½ in. through; deep green, turning to brilliant red. Flesh thick and of a very sweet, pleasant flavor. Salzer's Early Giant is not only very large, but the plants are enormous yielders, as many as 33 peppers having been picked from one single bush. Best for home gardeners, and truckers will find it profitable.

932—Pkg., 15c; ¼ oz., 42c; oz., 74c; 2 oz., \$1.36; ¼ lb., \$2.64; ½ lb., \$5.18; 1 lb., \$10.00, postpaid.

SALZER'S LAX- TON'S PROG- RESS

This fine new variety from England is going to supplant a good many older types. The vines are dwarf, 15 to 18 in. high, and the deep green pods are often 4½ in. long. By actual count, they contain one more pea to the pod and more pods to the vine than any of the older Laxtonian type. Our tests show it to be the earliest dwarf, large podded pea. The peas are of a delicious, melting quality, sweet and tender, and pronounced by all who have tasted them.

359—Pkg., 15c; ¼ lb., 26c; 1 lb., 43c; 2 lbs., 77c; 5 lbs., \$1.59, postpaid. Not prepaid: 10 lbs., \$2.02; 30 lbs., \$7.25; 60 lbs., \$13.00.

SALZER'S OXHEART TOMATO

But here, sir, you will find the last word in tomatoes! Attractively different shape—looks almost like a Delicious Apple. 1½ in. large size. Doesn't it—large quality unsurpassed table quality, heavy yielder. It is really healthy vines—it is something novel and so good, you will like it immensely.

The skin is smooth, pink in color, and the fruits are almost seedless. The flesh frequently shows an inch seed cavity, and in single seed cavity, and in flavor it is of the first class, luscious and delicious. Owing to its just being developed, it is not yet entirely true to type, but almost all of the seed will bear oxheart-shaped tomatoes, and the balance of the fruits will be very desirable. 1177—Pkg., 15c; ¼ oz., 36c; ½ oz., 65c; oz., \$1.20; 2 oz., \$2.24; ¼ lb., \$4.25, postpaid.

SALZER'S DOLLAR VEGETABLE COLLECTION

1565—25 Packages for \$1.00 postpaid. During the dull season each year, in order to give employment to our help, we fill literally millions of packages of seeds for these collections by machinery, and can therefore sell them so cheaply. The seeds used are all of the same high Salzer quality, all are northern grown and carefully tested at our great Cliffwood Farms. Mrs. Jas. E. Holdread, R. D. 2, Ladysmith, Wis., writes: "I had a fine garden this summer and have my supply of vegetables for the winter, all grown from Salzer's Seeds. I am greatly in favor of planting Northern Seeds for this cold Northwest, and shall always recommend your seeds."

I am well pleased with the results from your seed.—John M. Stewart, R. D. 1, Sherburn, Minn.

SEEDS that have been tested in actual outdoor trials at our Cliffwood Farms! When you Sow Salzer's Seeds, you know that every possible means has been used to give you sound seeds, the best that are obtainable, and that Salzer's Seeds have not only been tested in the laboratory, but that large trials have been made at Cliffwood Farms for germination, hardiness, earliness and trueness to type, under actual growing conditions. Situated as we are, subject to very late spring and very early fall frosts, only the earliest and best seeds will produce their fruits or flowers. When you Sow Salzer's Seeds, you have sixty-one years of integrity back of the purchase,—sixty-one years of seed merchandising and a reputation for fair dealing and for selling only sound seeds to all customers. We welcome the small purchaser as well as the large buyer. If you have never used Salzer's Seeds, let at least a trial order this year convince you of their merit.

SERVICE that cannot be excelled! Immediately upon receipt, seed orders are put through for quick shipment. Daily air-mail service through La Crosse further expedites smaller shipments, and freight and express shipments have instant attention, so as to reach destination without delay. Plants, shrubs, and bulbs are shipped when weather permits, and this year, we are prepared to send these items either from La Crosse, or from our nurseries in Iowa or Ohio, enabling us to serve you from any one of three points and thereby prevent any possible congestion in our nurseries when the "weather breaks."

SAVINGS that quickly amount to dollars! The first consideration in purchasing seeds is quality, and after that comes price. One may very frequently pay a much higher price for greatly inferior seeds, but we know that no one can purchase better seeds for more money. Our prices this year are lower than ever before. Substantial price cuts have been made over last year and former years, due to our constantly increasing volume of business, which will mean material savings for you.

SALZER'S SEEDS STAND SUPREME

Outdoor Trials of Seed at Cliffwood Farms

I raised one of your Oxheart Tomatoes that weighed one and three-fourths pounds.—Horace M. Gibson, Westport, Mass.

Wax Beans

SALZER'S PROLIFIC BLACK WAX

An improved strain of the old favorite German Black Wax Bean, and is a larger and better grower, and a much heavier bearer than the original variety. Pods are 4 to 5 inches in length, quite round, very meaty, brittle, and stringless, and of a fine deep golden-yellow color. Of vigorous growth and bears splendidly for a long period. Matifies in 42 days. If you like the old German Black Wax Bean, you will certainly like this new strain even better.

66—Pkg., 5c; ½ lb., 23c; 1 lb., 39c; 2 lbs., 69c; 5 lbs., \$1.42, postpaid. Not prepaid, 10 lbs., \$2.30; 30 lbs., \$6.30; 60 lbs., \$12.00.

CLIFFWOOD EARLY WONDER WAX

Without question this is the most wonderful wax bean introduction of recent years, and the best for the market and the home garden. Belongs to the flat podded class and grows a strong plant eighteen inches high and two feet across. Plants are heavily loaded with pods five to seven inches long, flat, plump, meaty, and of a clear, handsome, waxy yellow color. Very tender, brittle, of fine texture and quality, and is the very earliest wax-podded bean. It is a bountiful yielder and bears for a long season; it is practically rust-proof and it thrives and yields heavily in either a rainy season or in dry, hot weather. Appears to be absolutely unaffected by bad weather. Ready to pick in 35 days. If you have not as yet tried our New Early Wonder Wax, by all means give it a trial this season. You will not be sorry.

74—Pkg., 15c; ½ lb., 26c; 1 lb., 43c; 2 lbs., 77c; 5 lbs., \$1.59, postpaid. Not prepaid, 10 lbs., \$2.62; 30 lbs., \$7.25; 60 lbs., \$13.95.

WARDWELL'S DELICIOUS WAX

It is a most vigorous grower, matures in 48 days, and produces heavy crops of long, showy pods, 5½ to 6 inches in length, and ½ inch broad, of a handsome golden yellow color. Tender, stout, straight and flat, fleshy, brittle and fine grained, fine flavor and almost stringless even when fully developed. Of strong, upright bush growth, 15 inches in height. Is a splendid shipper, and a great all around favorite on account of its large size, handsome appearance and excellent quality. It is an exceptionally brittle bean.

73—Pkg., 10c; ½ lb., 27c; 1 lb., 45c; 2 lbs., 81c; 5 lbs., \$1.65, postpaid. Not prepaid, 10 lbs., \$2.78; 30 lbs., \$7.75; 60 lbs., \$14.85.

SELECT GOLDEN WAX

The standard flat wax-podded bean, and although it is not the earliest bush wax bean, yet it is so sure to produce heavy crops of large and attractive pods, that it is a great favorite all over with market gardeners. And if good for market gardeners, it is equally good for the home garden. Whether sown early or late, it bears heavily. The pods are of large size, thick-flat, brittle, entirely free from strings at all stages until maturity, and the quality is excellent. Color is a rich golden yellow, bushes grow about 10 inches high. It is rust-proof, and yields well on all soils. Matifies in 45 days.

58—Pkg., 5c; ½ lb., 23c; 1 lb., 38c; 2 lbs., 67c; 5 lbs., \$1.38, postpaid. Not prepaid, 10 lbs., \$2.22; 30 lbs., \$6.05; 60 lbs., \$11.50.

NEW STRINGLESS KIDNEY WAX

Enormously Prolific, Stringless,
Meaty, Tender and of
Delicious Flavor.

This comparatively new variety, originated a few years ago by an Eastern grower, is a most valuable acquisition to the garden. Robust in growth, with long pods, entirely stringless, fleshy, and of superb quality. Plants are of erect bush habit, about 18 to 20 inches in height, and are most prolific. They are free from all diseases; even in wet seasons the foliage seems to be proof against blight, and the pods are always free from rust. Pods are fleshy, flattened in form, from 6 to 7 inches in length, $\frac{3}{8}$ inch thick, and $\frac{1}{2}$ inch broad, and of a rich lemon-yellow color. They are remarkable for their brittleness, exceptional flavor, and their absolute freedom from strings. Matures in 45 days.

Mr. C. D. Crabtree, 322 Depot Ave., Dixon, Ill., writes: "Your New Stringless Kidney Wax is by far the best stringless wax bean I ever grew."

64—Pkg., 10c; $\frac{1}{2}$ lb., 24c; lb., 40c; 2 lbs., 71c; 5 lbs., \$1.46, postpaid. Not prepaid, 10 lbs., \$2.38; 30 lbs., \$6.55; 60 lbs., \$12.50.

New
Stringless
Kidney
Wax

ROUND PODDED KIDNEY WAX

The pods measure from five and one-half to six inches, are entirely stringless, round, of light yellow color, very brittle, very handsome, and of the finest quality. It is one of the earliest wax beans grown and very productive. Matures in about 40 days. Also known as "Brittle Wax" beans. Plants are of vigorous growth, with large foliage, and are completely loaded with the handsome pods.

68—Pkg., 10c; $\frac{1}{2}$ lb., 26c; lb., 43c; 2 lbs., 77c; 5 lbs., \$1.59, postpaid. Not prepaid, 10 lbs., \$2.62; 30 lbs., \$7.25; 60 lbs., \$13.90.

GIANT STRINGLESS PENCIL POD

Its exceptional stringlessness appeals to all. Medium early and prolific. One of the best for home use and near markets. Pods are six to seven inches long. Golden yellow color, straight, brittle, tender and meaty. Fine flavor and entirely stringless. Successive plantings should be made from May to August. Matures in about 45 days.

57—Pkg., 10c; $\frac{1}{2}$ lb., 24c; lb., 39c; 2 lbs., 69c; 5 lbs., \$1.42, postpaid. Not prepaid, 10 lbs., \$2.30; 30 lbs., \$6.30; 60 lbs., \$12.00.

Wax Beans, Pole SALZER'S KENTUCKY WONDER WAX

Without exception, the best pole wax bean for Northern planting. It is similar in habit of growth to the "Kentucky Wonder Green Pod," equal in every respect to that famous variety, and matures as early. Very prolific, bearing a fine crop of long, thick, meaty, and very brittle pods of attractive light yellow color. Entirely stringless and of a delicious flavor. Pods average about 8 inches in length. A very heavy yielder. Matures in 70 days.

103—Pkg., 10c; $\frac{1}{2}$ lb., 24c; lb., 40c; 2 lbs., 71c; 5 lbs., \$1.46, postpaid. Not prepaid, 10 lbs., \$2.38; 30 lbs., \$6.55; 60 lbs., \$12.50.

SALZER'S GOLDEN CLUSTER WAX

One of the most popular yellow-podded pole beans in cultivation. Hardy, vigorous, climbs well, and enormously productive. The pods are produced in clusters, and are of excellent flavor, very straight, flat, fine grained a light waxy yellow color, very brittle, and they remain in edible condition a long time. We have grown pods from this variety, 10 inches long. Also desirable for dry shelled beans for winter. White seeded. Matures in 72 days.

101—Pkg., 10c; $\frac{1}{2}$ lb., 22c; lb., 37c; 2 lbs., 65c; 5 lbs., \$1.34, postpaid. Not prepaid, 10 lbs., \$2.10; 30 lbs., \$5.75; 60 lbs., \$10.95.

Your Kentucky Wonder Wax Beans were the best beans we ever did have.—Mrs. John Knapp, R. D. 1, Box 39, Pedro, Ohio.

Green Pod—SALZER'S BOUNTIFUL STRINGLESS BEANS

The earliest and one of the very largest green podded bush varieties grown. On account of its great earliness, its handsome, large, straight pods and its exceptionally fine quality it is one of the best to grow for the market and also an excellent sort for the home garden. Beans Are Very Short This Year. Order Early.

The plant is of thrifty growth, very hardy, and practically proof against rust or mildew. Pods are stringless, tender, and flat, they are produced very early in the season and the bushes continue to bear for a long time. It is the first to give pods fit to pick in the spring and the last to yield edible pods in the fall. Of a handsome, rich green color, they are of large size, thick, broad, flat, extra-long, very uniform in shape, solid, meaty, brittle, and of finest quality. Melting, tender, and having a delicious flavor exclusively their own, the pods are absolutely stringless in all stages of growth. In addition they are most excellent shelled for winter use. Matures in 42 days. Don't fail to plant some beans this year. They may be planted late, taking the place of some early crop like peas. Grow your own beans and can them for winter use.

13—Pkg., 10c; ½ lb., 25c; lb., 47c; 2 lbs., 85c; 5 lbs., \$1.74, postpaid. Not prepaid, 10 lbs., \$2.95; 30 lbs., \$8.20; 60 lbs., \$15.85.

SALZER'S COLOSSAL STRINGLESS

An absolutely stringless, green, round-podded bush bean, one of the best for the market or home garden. It is entirely stringless in all stages of growth, from the time the first pods form until fully grown and ready to dry up. The plants are of strong growth, very productive, and they make a beautiful appearance with their long, smooth, round, stout, light green pods about 5 inches or more in length. Very meaty, tender, slightly curved, saddle-backed, and a very heavy cropper. It is early, maturing in about 45 days, and continues to produce long after other bush varieties have gone. It is one of the very best quality green podded bush beans grown. Splendid for canning on account of its fine flavor and brittleness.

20—Pkg., 10c; ½ lb., 27c; lb., 45c; 2 lbs., 81c; 5 lbs., \$1.65, postpaid. Not prepaid, 10 lbs., \$2.78; 30 lbs., \$7.75; 60 lbs., \$14.85.

SALZER'S EXTRA EARLY TENDER VALENTINE

One of the most largely planted varieties of the green-podded bush beans. A splendid early and very prolific variety for market or home use. Salzer's Valentine is the true, round-podded stock, very early, and a very heavy bearer of round, fleshy, saddle-backed pods, finely flavored, with only slight strings. The plants are dwarf and compact in growth, 15 to 18 inches high, vigorous and hardy. Pods are about 4½ inches long, tender and very brittle, even when fully grown. It is very uniform in ripening and is extensively grown by market gardeners. A favorite variety for canning. Matures in 40 days.

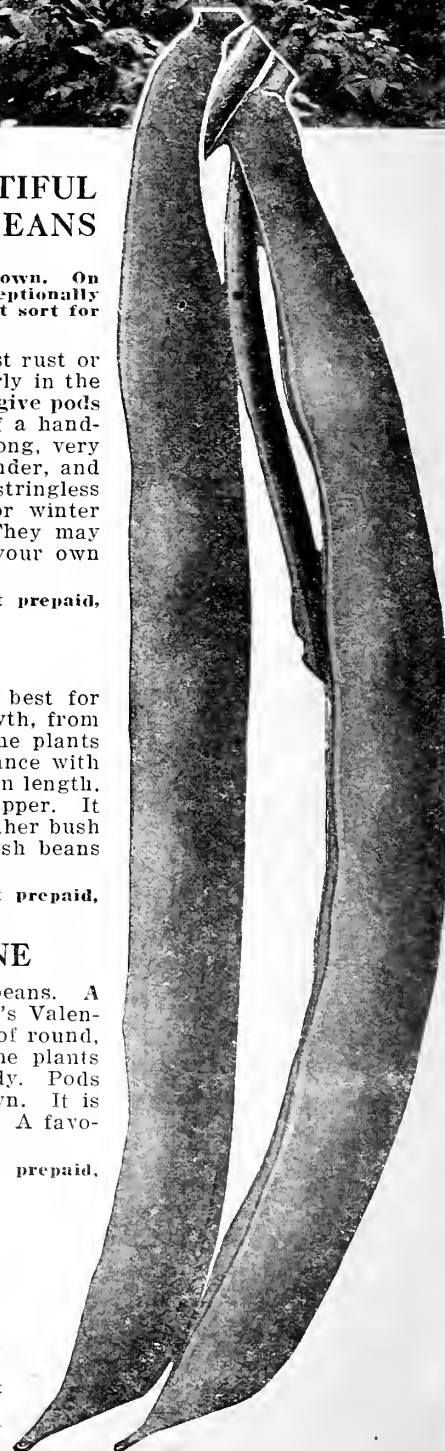

21—Pkg., 5c; ½ lb., 21c; lb., 39c; 2 lbs., 69c; 5 lbs., \$1.42, postpaid. Not prepaid, 10 lbs., \$2.30; 30 lbs., \$6.30; 60 lbs., \$12.00.

BURPEE'S STRINGLESS GREEN-POD

Plants are medium large, of somewhat spreading growth, dark green foliage, and of strictly bush form. Pods are medium in length, rich green, slightly curved and extremely thick. Hardy, very early, and enormously productive. Pods are tender brittle, of fine texture and delicate flavor, and even when fully grown, they are absolutely stringless. Splendid for canning and when cooked, retain their rich color. Matures in 45 days. Recommended for both the market gardener and the home garden.

19—Pkg., 10c; ½ lb., 24c; lb., 40c; 2 lbs., 71c; 5 lbs., \$1.46, postpaid. Not prepaid, 10 lbs., \$2.38; 30 lbs., \$6.55; 60 lbs., \$12.50.

For best results, inoculate beans and peas with STIMUGERM.

SALZER'S MASTERPIECE

A valuable new extra early, green podded bean from Europe. Masterpiece may be forced under glass and hence will be invaluable for gardeners who want the early trade. It is also a grand extra early type for the home garden. The pods are thick-flat to round, straight, 7 inches and more in length, plump, tender, stringless, very meaty, and of superior quality. Enormously productive. Bushes are 15 inches high and of vigorous growth. It will please you, either for your own table or for the market.

76—Pkg., 8c; ½ lb., 21c; 1 lb., 34c; 2 lbs., 59c; 5 lbs., \$1.22, postpaid. Not prepaid, 10 lbs., \$1.89; 30 lbs., \$5.10; 60 lbs., \$9.60.

Pole Beans *Green Podded*

KENTUCKY WONDER—The most popular, most dependable, and finest quality green podded pole bean grown. Equally well-known as OLD HOMESTEAD and TEXAS PROLIFIC. Bears in sixty to seventy days from planting, and if closely picked will continue to bear until frost. Pods are from 9 to 10 inches long, nearly round, much curved, rich green color, meaty, tender, brittle, and entirely stringless. It is enormously productive, a peck having been often picked from a single vine. Pods hang in great clusters from top to bottom of the pole. Cooks tender and melting and has always given great satisfaction. 141—Pkg., 5c; ½ lb., 22c; 1 lb., 36c; 2 lbs., 63c; 5 lbs., \$1.30, postpaid. Not prepaid: 10 lbs., \$2.05; 30 lbs., \$5.58; 60 lbs., \$10.55.

LAZY WIFE—The pods are produced in great abundance and measure from 5 to 6 inches in length. The plants continue to bear large crops all summer. Pods are light green, flat, brittle, of smooth surface, entirely stringless and of mild, sweet flavor. The dried seed is pure white. Valuable for dried shell beans for winter use. A splendid pole bean. 142—Pkg., 10c; ½ lb., 23c; 1 lb., 37c; 2 lbs., 65c; 5 lbs., \$1.34, postpaid. Not prepaid: 10 lbs., \$2.10; 30 lbs., \$5.85; 60 lbs., \$11.00.

CORN HILL—Red Speckled Cut Short or Corn Hill beans are widely planted in cornfields and are good in the "snap" stage and good as a dry shell bean for winter use. A heavy cropper of finely flavored, meaty, green pods about 4 inches long. 138—Pkg., 9c; ½ lb., 23c; 1 lb., 37c; 2 lbs., 65c; 5 lbs., \$1.33, postpaid. Not prepaid: 10 lbs., \$2.10; 30 lbs., \$5.75; 60 lbs., \$10.80.

Field Beans—SALZER'S

Grown exclusively to use as dried beans during winter. The grandest bean for a farm crop that we have ever seen; side by side with any bean known to us it outyields it by fully one-third to one-half. The pods are large and filled full of medium-sized, pure white beans which excel even the Navy in baking and cooking qualities. It is very early, maturing dry beans in 75 days. An upright, bushy grower, holding the pods in thick clusters, well up from the ground. If you don't grow for market, plant a pound of these beans for your own use during the winter. Handsome, plump, and best quality. Price of Salzer's White Wonder Field Beans: 117—Pkg., 10c; 1 lb., 40c; 2 lbs., 71c; 5 lbs., \$1.46, postpaid. Not prepaid: 10 lbs., \$2.38; 30 lbs., \$6.55; 60 lbs., \$12.50.

WHITE NAVY—Plant a pound of seed this year and you will have an ample supply of Navy beans for your own table use. 120—Pkg., 9c; 1 lb., 38c; 2 lbs., 67c; 5 lbs., \$1.38, postpaid. Not prepaid: 10 lbs., \$2.22; 30 lbs., \$6.05; 60 lbs., \$11.50.

STIMUGERM

We strongly recommend the inoculation of beans. Inoculation is simple, it is inexpensive, it increases the yield, and it restores fertility to the soil. The following prices include postage. Full cultural directions on each package.

SALZER'S GIANT BUSH LIMA BEANS

(BUTTER BEANS)

Enormously productive and bears pods of immense size. Plants are of vigorous growth, with heavy foliage, and of true bush form, the full grown bushes measuring 30 inches in height and 24 inches across the top. Pods are frequently borne in "clusters" of from 5 to 8, are 5 to 6 inches long by $1\frac{1}{4}$ inches wide, and each one is well filled with large, thick, tender, full-size beans of melting and luscious flavor. It is very early, maturing in about 85 days. A universal favorite, because of its earliness, productiveness, size and fine flavor. Lima Beans should not be planted before the soil has warmed up and the weather is quite settled.

145—Pkg., 10c; $\frac{1}{2}$ lb., 27c; lb., 46c; 2 lbs., \$3c; 5 lbs., \$1.69, postpaid. Not prepaid, 10 lbs., \$2.85; 30 lbs., \$8.60; 60 lbs., \$15.35.

SMALL BUSH OR SIEVA

Is the smallest but most prolific of all the white seeded varieties, and as they are hardy and very early, are worth growing in the North. Matures in 70 to 78 days. Of true bush growth, the plants bear

"Daddy
Always
Sows
Salzer's
Seeds"

a tremendous lot of pods 3 inches long and filled with 3 or 4 light green, small, flat beans, of a sweet and delicious flavor. When mature beans are white and keep well for winter shell beans.

116—Pkg., 5c; $\frac{1}{2}$ lb., 23c; lb., 37c; 2 lbs., 65c; 5 lbs., \$1.34, postpaid. Not prepaid, 10 lbs., \$2.15; 30 lbs., \$5.80; 60 lbs., \$11.00.

FORDHOOK BUSH

The only stiffly erect bush form of the popular "Potato" Lima. Plants are 25 to 30 inches high 24 inches across the top and are so strong and erect as to withstand whipping rains and high winds. Pods measure $5\frac{1}{2}$ inches long, $1\frac{1}{4}$ inches wide, and $\frac{3}{4}$ inch thick, and contain 4 or 5 large, magnificent beans, tender, melting, sweet, of delicious flavor. Is very early and an excellent cropper.

113—Pkg., 10c; $\frac{1}{2}$ lb., 27c; lb., 45c; 2 lbs., \$1c; 5 lbs., \$1.65, postpaid. Not prepaid, 10 lbs., \$2.75; 30 lbs., \$7.75; 60 lbs., \$14.85.

SALZER'S IDEAL GIANT POLE

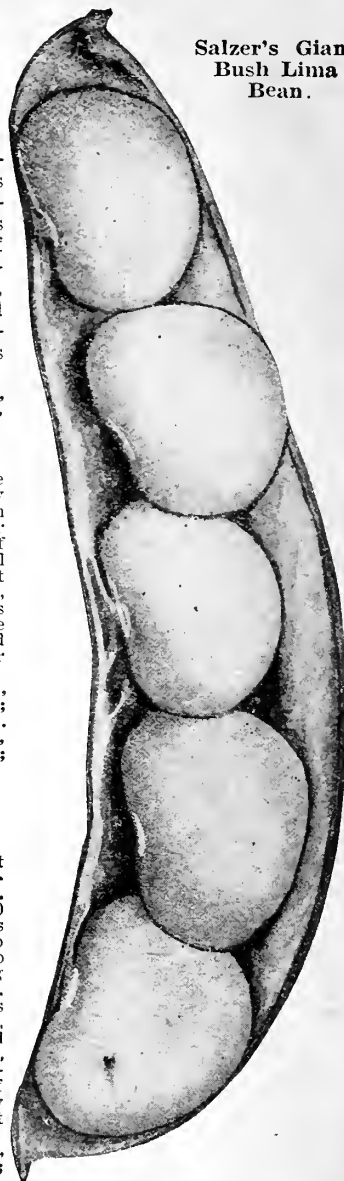

The best main crop pole lima grown. The pods are enormously large, borne in great clusters, and it is extremely productive. Produces bountifully right up to frost. Pods are broad, from 6 to 7 inches in length, packed full of very large beans, tender, finely-flavored, green-whitish, and of best quality. Medium late, an exceptional yielder. 129—Pkg., 10c; $\frac{1}{2}$ lb., 25c; lb., 42c; 2 lbs., 75c; 5 lbs., \$1.54, postpaid. Not prepaid, 10 lbs., \$2.55; 30 lbs., \$6.80; 60 lbs., \$12.95.

EARLY LEVIATHAN POLE

An extremely early, hardy, and prolific bean—the earliest pole lima bean in cultivation. The plants are of strong and vigorous growth, clinging well to the poles, and as it is fully a week earlier than other pole sorts, it can be planted in early spring. It is a prodigious cropper, producing its pods in large clusters from base to top of pole, frequently from 5 to 10 together. Pods are packed with large, thick beans of excellent quality, delicate pale green color, and of a delicious, melting, buttery flavor. Produces not only a large early crop, but bears abundantly throughout the entire season.

125—Pkg., 10c; $\frac{1}{2}$ lb., 24c; lb., 39c; 2 lbs., 69c; 5 lbs., \$1.42, postpaid. Not prepaid, 10 lbs., \$2.30; 30 lbs., \$6.30; 60 lbs., \$12.00.

Salzer's Giant
Bush Lima
Bean.

Salzer's Ideal Giant Pole Limas

grown successfully where other pole varieties would be harmed by the early frosts of autumn. It is a prodigious cropper, producing its pods in large clusters from base to top of pole, frequently from 5 to 10 together. Pods are packed with large, thick beans of excellent quality, delicate pale green color, and of a delicious, melting, buttery flavor. Produces not only a large early crop, but bears abundantly throughout the entire season.

From your Giant Bush Lima Beans, I canned 15 quarts and sold \$13.00 worth of Lima Beans.—Mrs. Nettie E. Miller, R. D. 1, Box 2, Plymouth, Ohio.

The Earliest—the Richest
and Darkest Red of
Any Beet.

DETROIT DARK RED

The Unrivalled Main Crop
Beet. Large Beets,
Small Tap Root.

Salzer's
Red
Beauty

Best for Canning

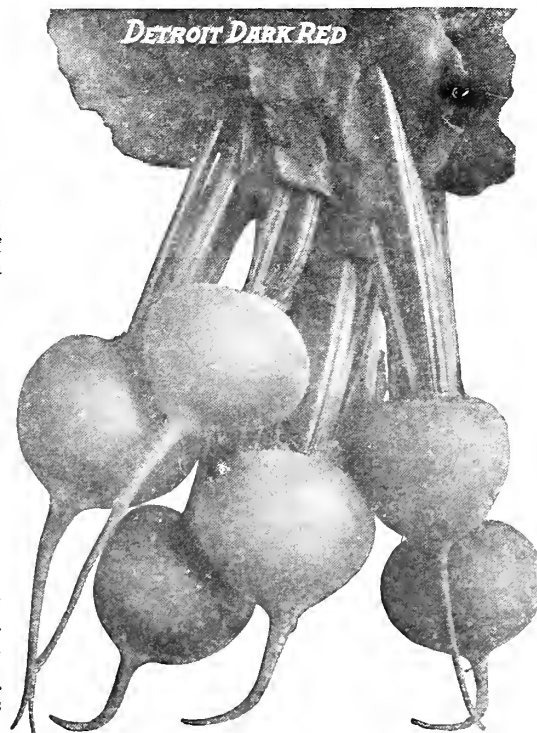

SALZER'S RED BEAUTY

Very early, uniform in size, perfect turnip shape, fine grained, tender, the richest and darkest red of any beet. Salzer's Red Beauty is a mighty good beet to plant and those who have once planted it, see to it that they have some of this fine strain in their garden every year. Its uniformity and its rich, attractive, dark red color sell the beets on sight at market, and for the home garden it not only produces tender, delicious, extremely early beets for table use, but the color is retained when cooked, making them most attractive for both canning and pickling.

Remarkable for its uniform, perfect shape; roots are always smooth, with but a small tap-root, are of medium size, flesh is finely grained, very sweet, always free from woody fibres, and the skin and flesh are the darkest red of any beet. The leaves are dark green and shaded with red, are very small and of upright growth, allowing close planting. A heavy cropper, maturing in about 40 days. 166—Pkg., 15c; oz., 19c; ¼ lb., 50c; ½ lb., 94c; 1 lb., \$1.75, postpaid.

Should Be in Every Garden

DETROIT DARK RED

*The Trucker's Favorite*

DETROIT DARK RED

Cannot be surpassed for main crop purposes. One of the largest beets grown and a heavy cropper, producing large, globe shaped roots, delicious, tender, and fine grained, small tap-root, and free from any trace of woodiness or stringy tendency. Succeeds equally well at all seasons and is one of the best to sow in spring to succeed the extra early and medium crop sorts.

The skin is an attractive blood-red and the flesh is dark red, slightly zoned with a lighter shade. It is a popular variety for canning retaining its fine color exceptionally well. Leaves are dark green, shaded with red, tops are small and grow upright. The flesh is solid, always tender and of a decidedly sweet flavor. Matures in about 50 days. Most valuable for succession sowings. A great favorite, not only with market gardeners who grow for profit, but likewise with the home gardener who wants large, good beets for his own table use. A splendid beet to store for winter. Re-selected seed. 159—Pkg., 10c; oz., 13c; ¼ lb., 35c; ½ lb., 67c; 1 lb., \$1.25, postpaid.

Salzer's Early Wonder Beets

This extremely early and perfectly shaped beet for bunching purposes was introduced by us in 1926. Its beautiful deep blood-red color, nearly globe-shaped root with almost no lighter zoning in the cross-section of the root, its small sized top and its smooth, clean, and small tap-root makes it a decided asset in the beet family. Mat-
tured evenly so that the entire crop may be gathered at one time. It is a very rapid grower, is very quickly in presentable market shape, and because of its early maturity, it can be sown outside as late as July. Matures in 44 days. Our strain is especially good, extremely early, and very uniform in shape and rich, dark color.

177—Pkg., 9c; oz., 11c;
¼ lb., 32c; ½ lb., 60c; lb., \$1.15,
postpaid.

Salzer's Early Wonder
Beets

SALZER'S FIREBALL BEETS

A handsome, globe-shaped beet with smooth skin and of an attractive deep blood-red color, which we introduced in 1914. It is fully as early as the old flat Egyptian beets, but is of perfect globe form and much superior in quality, having very fine grained, rich and exceedingly tender flesh of excellent quality. The leaves are small, upright, of rich purple color. The roots are uniform, medium sized, of perfect globe shape, remarkably smooth surface, very small tap-root, and the color of the skin and flesh is a brilliant, fiery red.

This intensity of color is retained when cooked, making Fireball highly desirable for canning or pickling. Although very early (quickly reaching a diameter of 2 inches), if left growing, the larger roots retain their fine flavor, tenderness and deep coloring. An ideal beet for either the home garden or the market gardener.

167—Pkg., 10c; oz., 12c; ¼ lb., 33c;
½ lb., 63c; lb., \$1.20, postpaid.

OTHER SPLENDID BEETS

EDMAND'S EARLY—A good second early variety and fine for winter use. Turnip shaped, skin and flesh dark red, tender, good keeper. 50 to 55 days. 164—Pkg., 5c; oz., 9c; ¼ lb., 27c; ½ lb., 50c; lb., 95c, postpaid.

EARLY BLOOD TURNIP—Early globular shape, flesh bright glossy red, fine grained, tender and sweet. An extra fine family beet. 45 days. 162—Pkg., 5c; oz., 8c; ¼ lb., 22c; ½ lb., 39c; lb., 75c, postpaid.

SALZER'S CRIMSON GLOBE—Medium size (about 3 inches diameter), globe shaped, and a smooth, even surface. Small tops, flesh deep crimson, ringed and zoned, very tender and fine flavor. Desirable for bunching, and for second early and main crop. 157—Pkg., 7c; oz., 10c; ¼ lb., 28c; ½ lb., 53c; lb., \$1.00, postpaid.

LONG SMOOTH BLOOD RED—The best winter keeper, bar none! Roots about 12 inches by 2 inches, smooth skin, sweet, tender, dark, blackish red flesh. Requires deep, well-dug, and well manured soil. Often sown in July or August, as a second crop. Very productive. Best for fall and winter use.

171—Pkg., 5c; oz., 9c;
¼ lb., 27c; ½ lb., 50c; lb., 95c, postpaid.

Salzer's Crimson Globe

Crosby's Egyptian

One of the most extensively grown of any variety of beets, by market gardeners, for whom it has been a great extra early money maker! It is noted for its handsome form, small tops, very small tap-root, fine quality and quick, rapid growth. Roots are uniform in size and shape, rather flattened, turnip shaped, reach a good size, are tender and crisp. Flesh is a slightly lighter red color with especially desirable red zonings. Bunching for the early market. Takes on its turnip shape very early, a decided advantage for forcing for real early market. Highly recommended for the home garden for early table use. Matures in 45 days. Salzer's Special strain is sweeter, smoother, more tender and larger, but fully as early, as the standard strain.

158—Pkg., 7c; oz., 10c;
¼ lb., 28c; ½ lb., 53c; lb., \$1.00,
postpaid.

"CROSBY'S
EGYPTIAN"

Swiss Chard or Spinach Beet

Also known as Sea Kale. Is grown for its stalks and leaves, as it does not make a bulbous, edible root like the other varieties of beets. The leaves grow large and upright and as the outer leaves are cut, more come from the center. Yields a constant crop from July until winter, and can be used all summer when spinach is not available. The mid-rib or center stem of each leaf is large, broad, and white, and after trimming can be cooked and served like asparagus, or made into very good pickles. The leaf part, far superior to ordinary beet tops, is cooked like spinach. Has a delicious and delicate flavor. Gardeners make good money using Swiss Chard as a catch-crop. It gives quick results. Fine for poultry as green feed or pasture.

LUCULLUS. Stalks very large, broad and thick. Leaves tender, heavily crumpled and of fine flavor. 172—Pkg., 10c; oz., 12c; ¼ lb., 29c; ½ lb., 54c; lb., 98c, postpaid.

LARGE RIBBED WHITE. Very broad, thick mid-ribs, but the leaves are plain and for this reason preferred by many. Tender, fine quality.

169—Pkg., 5c; oz., 9c; ¼ lb., 26c; ½ lb., 47c; lb., 90c, postpaid.

Frost Proof Cabbage Plants at Cliffwood Farm in Two Inches of Snow
Produces Cabbages Two to Five Weeks Ahead of Home Grown Plants.
Can Be Planted Anywhere Just as Soon as Ground is Soft Enough.

If plants cannot be set out the same day received uncrate immediately, dip roots in water and heel out into the ground, spreading bunches a little. Never leave in crate or package.

SALZER'S LIGHTNING

Grown from the same true to type seed as described on page 16, and bear the same fine extra early cabbages, except that you order the plants instead of the seed. If you want the very earliest conical cabbages, you will make no mistake in ordering Salzer's Lightning Cabbage Plants.

Per 100 plants, 75c; 200 for \$1.45; 300 for \$2.10; 400 for \$2.60; 500 for \$3.00; 600 for \$3.50; 700 for \$3.95; 800 for \$4.35; 900 for \$4.70; 1,000 for \$5.00, postpaid.

Not prepaid: 1,000 plants or more, at \$4.00 per 1,000. Shipping weight, 25 lbs. per 1,000 plants.

SALZER'S RADIO

Described on page 17. For the very earliest, round head cabbage, order these Radio Cabbage Plants. Will give you solid, hard round heads weeks before they can be matured from home grown plants.

Per 100 plants, 75c; 200 for \$1.45; 300 for \$2.10; 400 for \$2.60; 500 for \$3.00; 600 for \$3.50; 700 for \$3.95; 800 for \$4.35; 900 for \$4.70; 1,000 for \$5.00, postpaid. Not prepaid, 1,000 or more, at \$4.00 per 1,000.

Set Salzer's hardy cabbage plants out in the open just as soon as you can get them into the ground! No matter if you do expect heavy frosts or some light freezes, if you have planted Salzer's Frost Proof Plants you may rest secure as to the outcome. If the temperature does not go below 20 degrees above zero, we guarantee these plants to live and if any are frozen out we will replace them free of charge or refund your money. Frequently the plants live when the temperature drops nearly to zero.

The market gardener who grows cabbages for shipment or the market, must have extra early maturing crops if he wishes to obtain the highest prices. The home gardener who desires extra earliness and who wants to avoid the trouble of sowing cabbage seed and the necessary protection of early sown seed and plants, will find our frost proof plants to be a great convenience.

Salzer's Frost Proof Cabbage Plants will enable you to have fully matured cabbages three or four weeks earlier than from hot-bed plants. Our growing stations on the Atlantic Coast do not experience the severe weather that prevails in other sections of the country, and here the cabbage seed is sown in the fall and makes a slow, vigorous, hardy growth all winter long in the open ground.

These plants can then be set out anywhere, and although the top of the plant does not grow until Spring weather, the roots take hold immediately and develop even though they should be covered with snow. Later when the weather becomes favorable, they make an astonishing growth, due to their early start. You know what the difference in profits will be, if your crop is harvested three or four weeks earlier than from home grown plants.

SPECIAL NOTICE

The plants when received will be somewhat wilted and have a stunted appearance, which will be disappointing to persons who have never used these plants before. Regardless of appearance, they will produce results superior to common or home grown plants. No plants shipped C. O. D.

SOW SALZER'S SEEDS

I bought 300 Radio Cabbage Plants from you and set them out on April 19. They all lived and on July 27 I picked and sold cabbage weighing 5 1/2 lbs. trimmed. Our garden is all from Salzer's Seeds.—Bert C. Merrill & Son, Stowe, Vermont.

They Surely Are Hardy

EARLY JERSEY WAKEFIELD—EARLY DWARF FLAT DUTCH—LARGE CHARLESTON WAKEFIELD— COPENHAGEN MARKET—SUCCESSION

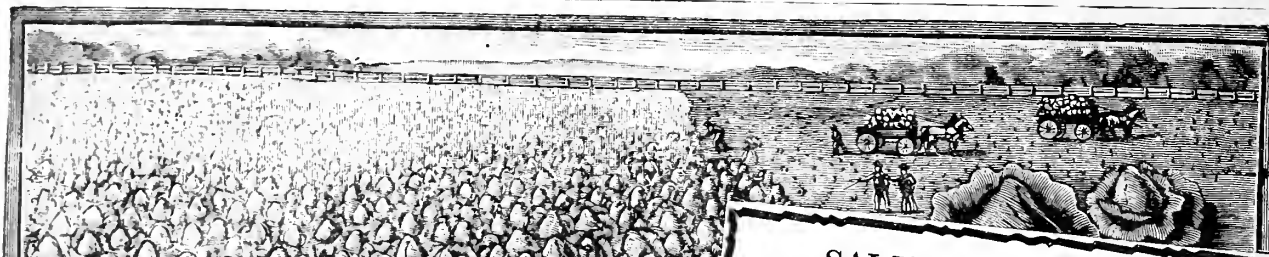

(See pages 16 and 17 for description of these varieties.)

Per 100 plants, 55c; 200 for \$1.00; 300 for \$1.55; 400 for \$1.65; 500 for \$1.80; 600 for \$2.15; 700 for \$2.40; 800 for \$2.90; 900 for \$3.05; 1,000 for \$3.25, postpaid.

Not prepaid: 1,000 to 4,000 at \$2.25 per 1,000; 5,000 or more at \$2.00 per 1,000. Shipping weight, 25 lbs. per 1,000 plants.

PLEASE NOTE. No other varieties supplied except as listed. We cannot sell any one variety of frost proof cabbage plants in less than lots of 100 or except in multiples of 100 no matter how large the order. This means we cannot accept any order for 25 or 50 of one variety and the balance of the 100 in another. Shipment is made when we consider planting conditions best suited to your district or at any time you may specify on your order. Plants are shipped between December 1st and May 31st. They are shipped direct from our growing station and are therefore not sent with seed orders.

BE SURE TO STATE ON YOUR ORDER WHEN WE SHALL SHIP YOUR CABBAGE PLANTS.

SALZER'S LIGHTNING

One of the most important crops of the Market Gardener is Cabbage. Success in this depends largely upon the quality of seed used. Salzer's Cabbage Seed is the finest grown, having been taken only from carefully selected typical plants, and can be depended upon to grow and produce uniform heads true to name, and in earliness, size, shape, fully equal to the best in the market. First introduced by us in 1889, and pronounced by one and all the greatest addition for the past FIFTY YEARS to the cabbage family. Produces fine sized, marketable heads in 75 DAYS FROM SOWING OF THE SEED. Thousands of gardeners are now depending on our Lightning for their first early crop. It is very hardy, always sure to head and always the earliest in the market. The heads are blanching. The plants resist cold and are very hardy, are very compact, have but very few outer leaves, can therefore be planted closely together and yield a large crop per acre.

OUR LIGHTNING is ripe and solid when other sorts are still in leaves. It is simply without an equal in earliness, richness and deliciousness of flavor. No vegetable pays better than early Cabbage. None known to the trade is as early as SALZER'S LIGHTNING. If you are a market gardener, you will want this; if you have a city garden, you cannot get along without it. If you wish the EARLIEST CABBAGE in the world, you must plant SALZER'S LIGHTNING.

218—Pkg., 15c; ½ oz., 25c; oz., 45c; 2 oz., 80c; ¼ lb., \$1.35; ½ lb., \$2.50; lb., \$4.50, postpaid.

SOW SALZER'S SEEDS

Your Lightning Cabbage, Surehead Cauliflower, Snowball Turnip, and Giant Pascal Celery were simply knock-outs. Your Kohlrabi was certainly fine, and that, in spite of a bad year.—Frank J. Schada, Truck Gardener, West Point, Nebr.

SALZER'S GOLDEN ACRE

Matures hard, round heads, nine inches in diameter in about 80 days from sowing seed. Is rapidly coming to the front as one of the most valuable cabbage introductions of recent years. Remarkably uniform in size and quickness of growth, is very compact, with few outer leaves, permitting close planting, heads are extremely hard, solid and heavy. Heart is nicely blanching and of exceptional quality. Is a splendid shipper. Stem is short, the heads growing close to the ground and ripening very uniformly. It is a great money maker for market gardeners and valuable for the home garden. Crop short this year.

Mr. H. E. Henneman, Market Gardener, Curtin, Ore., writes, "Salzer's Golden Acre is the best cabbage we ever had,—extremely early, sure header and very solid, excellent quality. Some heads weighed ten pounds."

220—1 pkg., 12c; oz., 37c; 2 oz., 68c; ¼ lb., \$1.32; ½ lb., \$2.59; lb., \$5.00, postpaid.

SOW SALZER'S SEEDS

Our garden is the earliest around here, all due to your early strains of seed.—Mrs. Roy Dunson, North Star, Mich.

Golden Acre

EARLY JERSEY WAKEFIELD

A splendid extra-early cabbage that enables gardeners to get high prices by marketing the early crops. The plants are exceedingly hardy. They are compact and erect or very slightly spreading with few outer leaves, which are thick, smooth, nearly oval and a deep green. The stem is short. The heads are of medium size, very solid, uniformly pointed and of excellent quality, with a solid, well blanching heart. Matures about 10 days later than Salzer's Lightning. Is an old standby for early main crop.

214—Pkg., 10c; oz., 27c; 2 oz., 42c; ¼ lb., 75c; ½ lb., \$1.43; lb., \$2.75, postpaid.

EXTRA EARLY JERSEY WAKEFIELD

Salzer's Lightning Cabbage is the very best on the market.—C. B. Thacker, R. D. 1, Corona, Calif.

CABBAGE

Cliffwood Tested Seed

SALZER'S NEW EARLY RADIO

A Superb Cabbage Which We Introduced in 1926

Salzer's Radio is a new, very early, Round Head Cabbage, maturing in 75 days just like Salzer's Famous Lightning, which, however, is a conical head cabbage.

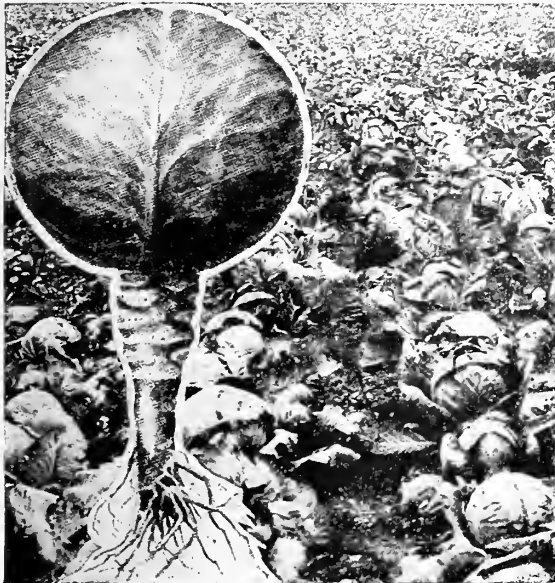

We consider Radio a triumph of our Cliffwood Farms. We have been painstakingly developing this wonderful round cabbage, and the heavy sale of this variety last year indicates a great future for it. The hard, round cabbages are so very solid that they hardly ever burst. Plants are very compact, short stemmed and have so few outer leaves that they may be set as close as 8 inches apart. Heads are firm, crisp, solid and have a clear, white heart, which is tender and delicious. Although coming to maturity in 75 days' time, Salzer's Radio Cabbage has made a record of 8 pounds per head in weight, at our large Cliffwood Farms. In addition, it is such a splendid keeper that it can be profitably raised for fall and early winter use. For Radio Cabbage plants, see Page 15. Order early.

221—Pkg., 15c; oz., 45c; 2 oz., 80c; ¼ lb., \$1.35; ½ lb., \$2.50; lb., \$4.50, postpaid.

COPENHAGEN MARKET

A splendid variety that is a universal favorite with market gardeners. It is a second early cabbage and bears very heavy heads, permitting a large yield per acre. It is of vigorous growth, but compact, upright and with few outer leaves, heads are nearly round, medium light green, leaves thick and smooth. Stems are short, the heads growing close to the ground and averaging about 10 pounds in weight. Uniform in shape and size and of excellent quality. The entire crop can be harvested at one time. This fine variety comes from Denmark and our seed is pure, Danish grown. Copenhagen Market is a second early of the Danish cabbages. Matures in about 85 days. See page 15 for plants.

244—Pkg., 10c; oz., 35c; 2 oz., 65c; ¼ lb., \$1.24; ½ lb., \$2.42; lb., \$4.75, postpaid.

Copenhagen Market. A Great Cabbage

Salzer's New
Early Radio
Cabbage

Other Splendid Varieties

EARLY DWARF FLAT DUTCH—It is a large cropper and a dependable header. A short stemmed variety. Belongs to the second earlies. Matures in about 105 days. Grows compact and upright. Leaves few and short. Flat round, solid heads, which are very large for size of plant. Large yielder. Good keeper. Crisp, tender and of fine flavor, and good for sauerkraut. See page 15 for plants of this variety. 228—Pkg., 5c; oz., 23c; 2 oz., 40c; ¼ lb., 70c; ½ lb., \$1.30; lb., \$2.45, postpaid.

ALL SEASON—A popular cabbage for fall use and a splendid keeper. Bears large flattish round heads which are unexcelled for kraut. For the disease-resistant strain, see Page 19, where this cabbage is also further described. 227—Pkg., 10c; oz., 17c; 2 oz., 30c; ¼ lb., 55c; ½ lb., \$1.05; lb., \$2.00, postpaid.

SUCCESSION—Stands today unrivalled as a second-early or main-crop sort. The heads are of medium size, round, slightly flattened, firm, solid, average 12 to 15 pounds in weight, and do not easily split or burst. Heads become solid long before they are fully grown, so that although immature, they may be cut long before they are at their best, making this variety available for use over an unusually long period. See Page 15 for plants. 233—Pkg., 6c; oz., 20c; 2 oz., 35c; ¼ lb., 60c; ½ lb., \$1.15; lb., \$2.25, postpaid.

LARGE CHARLESTON WAKEFIELD—Heads are firm and solid, larger than Early Wakefield, and about two weeks later in maturity. Averages 10 to 12 pounds and frequently more. A sure header, uniform in growth, crisp, sweet, firm and solid, and a good shipper. Extensively planted in the South. For plants see Page 15. 212—Pkg., 8c; oz., 23c; 2 oz., 40c; ¼ lb., 70c; ½ lb., \$1.30; lb., \$2.45, postpaid.

PREMIUM LATE FLAT DUTCH—A short stem variety. Heads are large, flat, but deep. Solid, crisp, tender and of mild flavor. Matures in about 120 days. It is a first class late cabbage, much used for kraut and is an old popular stand-by. 253—Pkg., 9c; oz., 18c; 2 oz., 33c; ¼ lb., 61c; ½ lb., \$1.16; lb., \$2.25, postpaid.

RED DANISH STONEHEAD—The best red cabbage. Salzer's Stonehead produces ball-shaped heads of great solidity and unusually dark purplish color, which extends to the center of the head, showing only a small portion of white when cutting across the veins and tissues. Of strong, compact growth, producing heads uniform in size and shape, from six to eight inches in diameter. The best keeper of any of the Red Cabbages. Ripens in about 110 days. 273—Pkg., 10c; oz., 24c; 2 oz., 42c; ¼ lb., 79c; ½ lb., \$1.53; lb., \$2.95, postpaid.

IMPROVED AMERICAN SAVOY—Crimped or crumpled leaves, most tender and of milder and sweeter flavor than the other cabbages. Equal in quality to the Cauliflower and makes a good substitute for it where this vegetable cannot be grown.

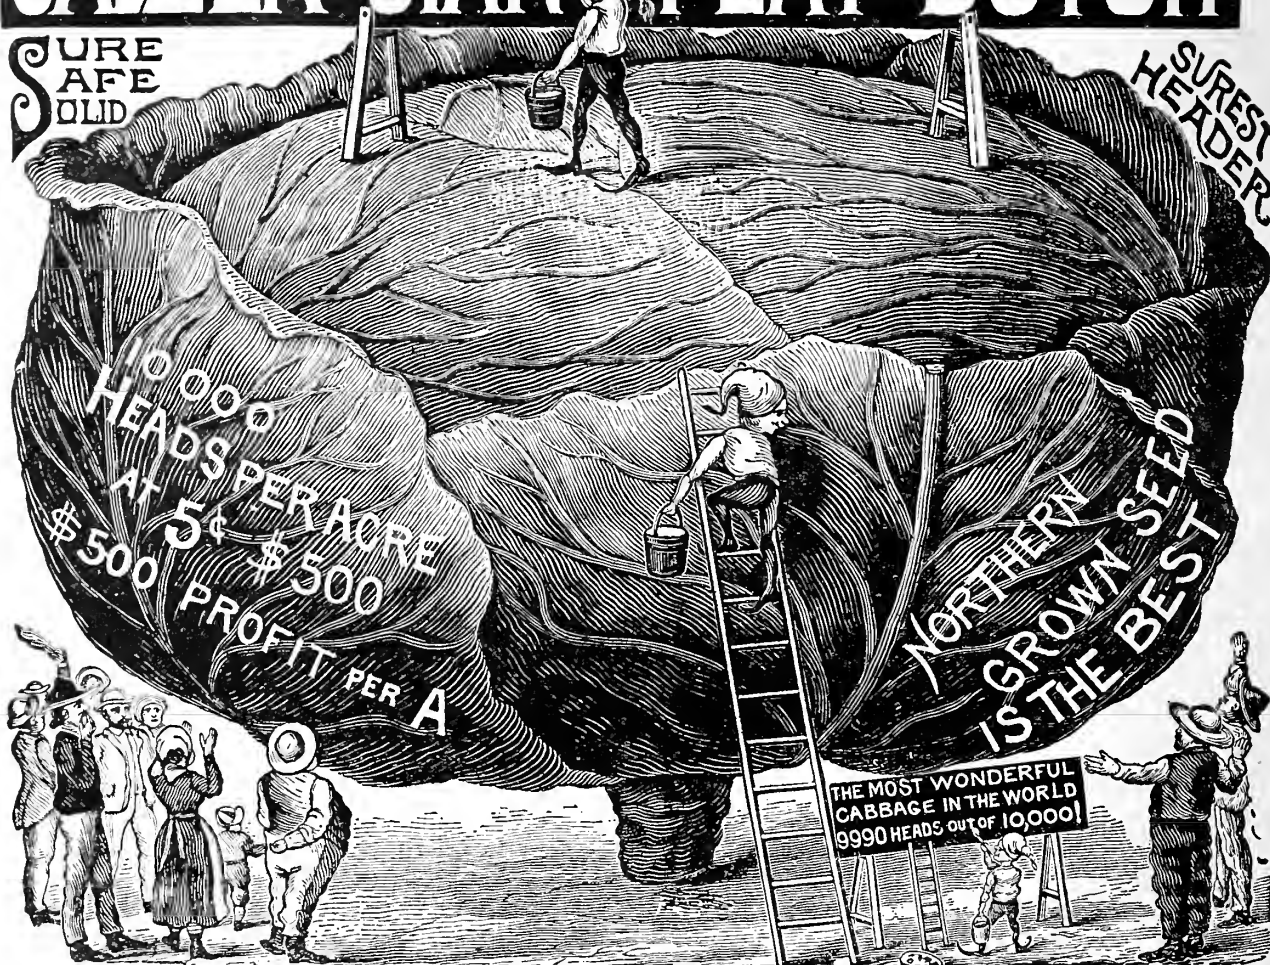

Plant is of strong growth with a number of outer leaves growing closely about the head. The head grows to a large size, round as a ball, very solid, and the heart is tender and sweet. Frost improves the delicious and delicate flavor. 284—Pkg., 8c; oz., 25c; 2 oz., 40c; ¼ lb., 70c; ½ lb., \$1.30; lb., \$2.50, postpaid.

I am going to plant nothing but Salzer's Lightning Cabbage for extra-early cabbage.—Mary A. Badger, Box 41, Derby, Ind.

SALZER'S GIANT FLAT DUTCH

**SURE
SAFE
SOLID**

**SUREST
HEADER**

The Grandest, Best Keeping, Surest Heading, Large Cabbage in the World

For almost half a century this grand cabbage has held absolute sway as the undisputed leader of all late flat cabbages. So famous and well-known has it become, that it is not an uncommon occurrence for stores to give the preference to market gardeners who can furnish them with these large, solid, heavy cabbages. It is surprising how many of the retail customers insist upon purchasing only Salzer's Giant Flat Dutch Cabbages for their winter use. They know that its flavor, quality, and tenderness is unequalled by any other variety.

Always In Great Demand

On the city markets, the attractive, fine appearing heads sell themselves to thrifty purchasers. The home gardener who once plants this superb variety, finds it so far superior in every respect to any other late sort that he has ever tried, that where Salzer's Giant Flat Dutch has once gotten a foot-hold in a garden, it has never been supplanted by other varieties, but is sown year after year. Unsurpassed in quality and taste, sureness of heading, weight, size, attractiveness, far superior for sauerkraut and slaw. Once planted, always planted. Pronounced everywhere to be the greatest late flat cabbage ever introduced, and the finest of any in existence.

A Sure Header

For sureness in heading and regularity in growth, SALZER'S GIANT FLAT DUTCH certainly heads the list. Heads are 12 to 14 inches in diameter, averaging 18 to 20 pounds in weight. It forms every time, very large, very hard, solid heads, crisp, tender, sweet, uniform in shape, color and handsome appearance. It has a very short stem, is a very compact grower, forms few loose leaves, which turn in the head and if planted closely will yield enormous crops. Reports of 999 marketable heads from 1,000 plants set out are of frequent occurrence. It keeps well until late in Spring and is good for shipping. There are many magnificent strains of Cabbage Seed offered in this catalogue, but we think we can safely say that SALZER'S GIANT FLAT DUTCH is equalled and surpassed by none.

250—Price of Salzer's Giant Flat Dutch Cabbage: Pkg., 15c; 1½ oz., 25c; oz., 45c; ¼ lb., \$1.35; ½ lb., \$2.50; per lb., \$4.50, postpaid.

Gives Big Results Everywhere

Mr. F. Bailey, E. Nichols, R. D. 2, Eaton Rapids, Mich., writes.

"I grew Giant Flat Dutch Cabbages weighing 25 pounds. When we were gathering cabbages, my boy said, 'Here go the Brownies over your cabbage!' and he ran along the tops for 2 or 3 rods, and 12 years old at that. Will grow heavier ones this year."

Marion M. Norris, R. D. 2, Pendleton, Ind., writes.

"Last year we sold \$9.00 worth of cabbage, made 10 gallons kraut, and buried 25 heads, from 2 Pkts. of your Giant Flat Dutch. Your seeds surely grow."

Mr. R. E. Pickering, Sholes, Neb., writes.

"Last year we took prizes at the County Fair on your Giant Flat Dutch Cabbage and Early Rose Potatoes. Am well pleased with your seed."

I planted Salzer's Giant Flat Dutch Cabbage last year, and it was the finest I ever grew.—Wm. Hall, R. D. 2, Bedford, Indiana.

DANISH ROUNDHEAD CABBAGE

The short-stemmed type of the famous and much-prized Danish "Ballhead." Salzer's Danish Roundhead is almost two weeks earlier, has less outer foliage, and is still more blight resistant than its progenitor. The heads are set on shorter stalks than Ballhead, which is preferred by many growers. They are extremely hard and solid, of great weight, sweet flavor, crisp and tender and the heart is beautifully blanchd. Our seed is true Danish grown and produces heads, "hard as a bullet and heavy as lead." The best late, round cabbage.

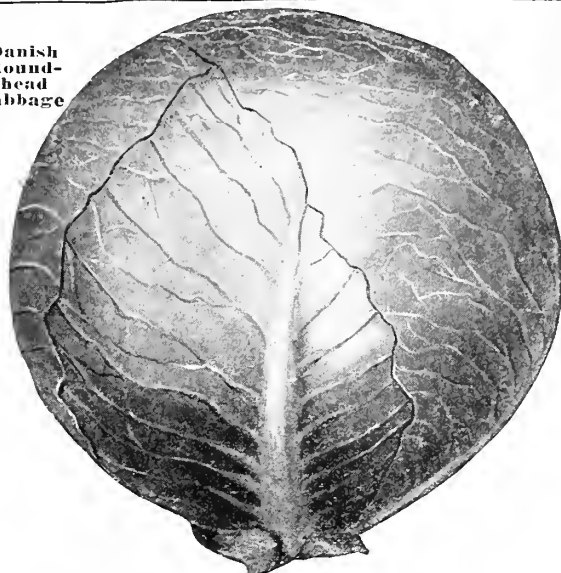

246—Pkg., 10c; oz., 33c; 2 oz., 63c; ¼ lb., \$1.19; ½ lb., \$2.32; 1 lb., \$4.50, postpaid.

DANISH BALLHEAD OR HOLLANDER

A magnificent, hardy, late cabbage, making handsome, firm, solid and very hard head. Of great solidity and excellent keeping qualities, and therefore much in demand for winter use. Grows luxuriantly on almost all soils and under most conditions, withstands hot, dry weather, does not rot easily in wet seasons, and heads never burst. Crisp, sweet, tender and unsurpassed for boiling, cold slaw, or sauerkraut. Stems are rather long and produce large, round, compact heads, weighing, when trimmed, more than almost any other cabbage. One of the best late cabbages for the home gardener and the trucker.

245—Pkg., 9c; oz., 33c; 2 oz., 63c; ¼ lb., \$1.19; ½ lb., \$2.32; 1 lb., \$4.50, postpaid.

Danish Round-head Cabbage

WONG BOK (CHINESE) OR CELERY CABBAGE

Has a mild cabbage flavor, very delicate and delicious. Wong Bok makes delicious cold slaw, also a very fine salad served like lettuce. When cooked it makes greens delicately cabbage-flavored and not at all like boiled cabbage. It blanches almost to clear white by tying the plants closely with burlap, when full grown. It requires rather cool weather, and where the summers are warm, sowing must be delayed until early August. Has rather short, broad heads, composed of well-blanchd, tightly folded leaves and ribs which are tender, juicy and agreeably pungent. 260—Pkg., 10c; oz., 30c; 2 oz., 49c; ¼ lb., 89c; ½ lb., \$1.67; 1 lb., \$3.25, postpaid.

DANISH BALLHEAD LONG STEM

SALZER'S DISEASE-RESISTANT CABBAGE

WISCONSIN HOLLANDER

Permits Cabbage Growing on Fields That Formerly Had to Be Abandoned!

Salzer's Disease-Resistant strains beat the "yellows" or "yellow rot." If by any chance your field should be infected with yellows, this is the variety for you to plant. Developed by the University of Wisconsin by selecting and breeding a disease-proof variety of the Danish Ballhead or Hollander type, which see for description. Matures in 120 days.

We furnished the Indiana Experiment Station with some of the seed and they advise that it proved very satisfactory and that they are recommending it to all the farmers. Miss Maude Richardson, R. D. 2, Box 56, Summerfield, Kans., writes, "We could never raise any cabbage until we got your seed last year. We had the nicest cabbage you ever saw. Anyone with diseased soil ought to know of your disease resistant seed. It surely is fine and worth ten times what you ask for it." Mr. W. L. Thatcher, Summitville, Ind., writes, "Took first and second prizes at the Fair with your disease-resistant cabbage." It will pay you to plant only Salzer's True Disease-Resistant Seed.

259—Pkg., 15c; oz., 37c; 2 oz., 63c; ¼ lb., \$1.15; ½ lb., \$2.17; 1 lb., \$4.25, postpaid.

DISEASE-RESISTANT ALL SEASON

Developed under the same disease-resistant conditions as the Wisconsin Hollander described above.

Has a reputation for heading uniformly. Its exceptional vigoroussness will produce a head under the most adverse conditions. Considered one of the best sorts for kraut. The heads are very large, nearly round, extremely hard and solid. They are small ribbed and even if planted very late will keep well and are much to be preferred to the big ribbed winter sorts. It is called "All Seasons" because it is as good for winter as for early summer.

258—Pkg., 12c; ½ oz., 18c; oz., 33c; 2 oz., 63c; ¼ lb., \$1.19; ½ lb., \$2.32; 1 lb., \$4.50, postpaid.

Salzer's Disease-Resistant Wisconsin Hollander

COPENHAGEN MARKET

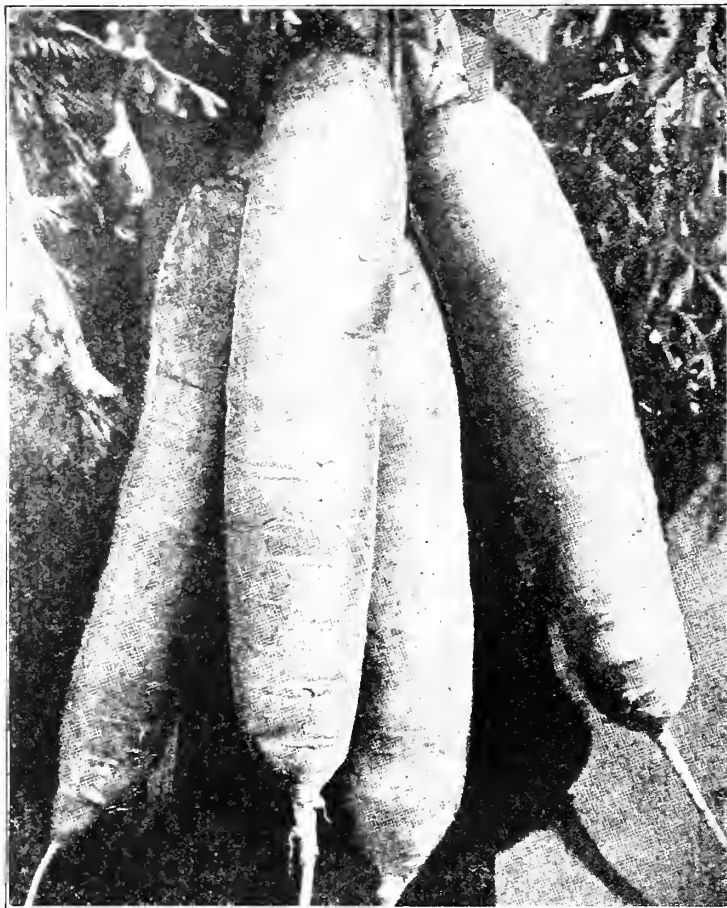

A disease-resistant strain of this famous cabbage, which will be welcomed everywhere. For description, see Page 17. We introduced this in 1927 and could not supply the demand. It is going to prove a great boon to all sections where cabbage could not be grown successfully, and will produce heavy crops.

262—Pkg., 18c; ½ oz., 30c; oz., 54c; 2 oz., 98c; ¼ lb., \$1.86; ½ lb., \$3.60; 1 lb., \$6.95, postpaid.

I grew several tons of Cabbage from your Disease-Resistant Hollander seed, the finest I ever raised.—Mrs. Annis M. Litton, R. D. 5, Hagerstown, Md.

Salzer's Earliest Coreless Carrot

The Earliest, Sweetest, Most Tender and Only Really Coreless Carrot Grown

Salzer's Earliest Coreless, Finest Carrot in Cultivation

SALZER'S DANVER'S HALF LONG

One of the most popular carrots in America. Planted on a wide scale by market gardeners, as the roots are of very fine quality, attractive appearance, and always find a ready sale everywhere.

The handsome roots are of orange-scarlet color, measuring about six inches in length by two inches at the shoulder and tapering to a half-point or stump-root at the bottom. Remarkably sweet and tender, fine grained, and free from any woody fibre. It is a first class carrot for all soils, and yields so heavily that it is also being planted for stock-feeding. Excellent to store for winter and a splendid shipper. Be sure that you buy only good, fresh seed. Salzer's Seed is all first carefully tested at Cliffwood Farms and every package contains seeds of known value.

293—Pkg., 5c; oz., 9c; ¼ lb., 28c; ½ lb., 53c; lb., \$1.00, postpaid.

IMPROVED LONG ORANGE

Very handsome, straight, smooth roots of bright red color, frequently 12 inches long, and 3 inches in diameter at the neck. Does best in light, well prepared soil. A splendid carrot for table use and field culture, combining great productiveness with fine, regular shape, and has tender sweet flesh.

300—Pkg., 7c; oz., 10c; ¼ lb., 31c; ½ lb., 58c; lb., \$1.10, postpaid.

The peer of all carrots—the grandest carrot in cultivation! Market gardeners, if you want highest, top-notch prices, you must plant Salzer's Earliest Coreless Carrot. Home Gardeners, if you want to have carrots that will be a real treat for your own table use, carrots that you will take pride in showing to your neighbor, you must plant Salzer's Earliest Coreless. A carrot that is in a class all by itself, and has been ever since it was introduced by us over twenty-five years ago. Some seedsmen may list this or offer you "just as good" stock, but insist upon Salzer's true, genuine, pure-bred seed. Seed that has been carefully tested for germination and trueness to type at Cliffwood Farms.

As in all else, Salzer's Earliest Coreless Carrot reigns supreme in the carrot world. Those who once plant it never discard this incomparable strain. Those who have never planted it, are missing a real treat. Our Earliest Coreless will demonstrate what splendid flavor, what tenderness, what attractive color, what lusciousness, what symmetry, can be bred into carrots. The painstaking trial and development of this superb strain is necessarily expensive, but it will pay everyone to allow a few cents more in order to include Salzer's Earliest Coreless in their seed order. When planting seeds, the best is none too good. It is the cheapest in the end as everyone knows, and whenever you go out in the garden to get some carrots for dinner, you will be mighty glad that you planted Salzer's Earliest Coreless this spring.

It is a distinct variety. It is exceptionally uniform in shape, of fine texture and entirely free of any heart and is very early, maturing about 2 weeks ahead of all other half long sorts, although fully as productive as any of them, the roots usually measuring 6 to 7 inches in length and 1½ inches through.

Salzer's Earliest Coreless in shape and color is one of the most handsome of Carrots. The roots are of cylindrical form, blunt at the end, very symmetrical, smooth skin, fine neck and small top. The color is a beautiful red, brighter and deeper than that of any other Carrot. It is a color that will draw the attention of the buyer on the market.

But the greatest feature of this new variety is the entire absence of the stringy, coarse heart or core found in all other Carrots. It is of most delicious quality and owing to the fine texture of the red flesh and its tender, delicate flavor, Salzer's Earliest Coreless is called the sweetest of all Carrots by all those who have tasted it.

295—Pkg., 12c; oz., 20c; ¼ lb., 60c; ½ lb., \$1.10; lb., \$1.95, postpaid.

SOW SALZER'S SEEDS

Salzer's Earliest Coreless Carrots were the finest grown around here. All of the seed that we have bought from you has proved to be very good, both in yield and in quality.—Jerry R. Scoville, Box 4, Hadley, N. Y.

Salzer's Danver's Half Long

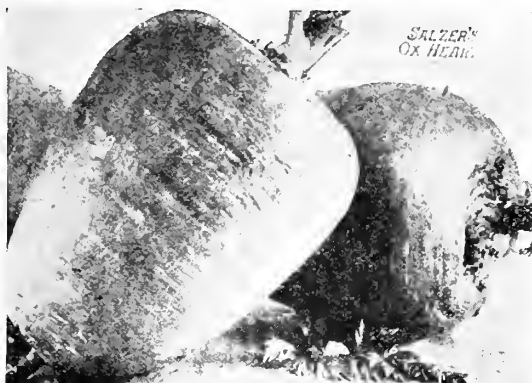

Your Earliest Coreless Carrots were the finest that I ever saw or tasted.—Mrs. Harold F. Phelps, Minto, N. D.

Table Carrots

SALZER'S SELECT OXHEART

Also known as *Guerande*. The best and most popular of the short, thick-formed carrots. It is a heavy yielder and because of its shape it is highly desirable for heavy soils. The roots are about 5 inches long, 3½ to 4 inches wide at the shoulder and taper down to a 2-inch stump-rooted bottom. Of the finest quality for table use, very free from any hard core, and both skin and flesh are rich orange colored. An excellent sort for the private garden as well as the trucker, being especially valuable for spring and early summer crop. Of great value on shallow soils, where the longer varieties will not succeed.

302—Pkg., 5c; oz., 9c; ¼ lb., 27c; ½ lb., 50c; 1 lb., 95c, postpaid.

PRIDE OF DENMARK

A cross between the two well-known varieties, Nantes and Chantenay, this introduction unites the good qualities of both. Salzer's Pride of Denmark is an admirable carrot for storing and shipping, holding to a remarkable degree its fine flavor, tenderness and crispness. The long obtuse, cylindrical roots are absolutely smooth, of a beautiful scarlet color and best of all are practically coreless. As the carrots reach a good size (6 to 8 inches), your soil should be thoroughly prepared.

We introduced this in 1926 under the name of Feonia, which name has now been discontinued. Order early as this carrot has already won marks of distinction, and the seed is going to be much in demand this season. In the short time we have been listing it, it has been widely used and all who tried it are well pleased with it. Crop is short this year.

304—Pkg., 15c; oz., 32c; 2 oz., 55c; ¼ lb., 98c; ½ lb., \$1.85; 1 lb., \$3.50, postpaid.

SALZER'S CHANTENAY

Also called *Model*. A half-long, stump-rooted sort, and very popular for bunching. It averages 6 to 7 inches in length, is broad at the neck and narrows gradually to a round, blunt base. The flesh is a rich, orange-red, fine grained, tender, juicy, and remarkably free from core. An excellent early crop or main crop carrot and splendid for the home garden.

292—Pkg., 5c; oz., 9c; ¼ lb., 28c; ½ lb., 53c; 1 lb., \$1.00, postpaid.

Field Carrots

Improved Long Orange (See Page 20)

SALZER'S MASTODON

Field carrots are of high nutritive value and seem also to be a sort of tonic, keeping the stock in good condition. Horses are especially fond of them and in a good many stables, horses are fed carrots once a day. The wise dairyman knows the value of carrots for cows, as they will not only increase the flow of milk but will also improve the quality, and will give a rich, golden color to the butter. Sow seed thinly in drills 3 feet apart, using four pounds to the acre. To get the heaviest crops, fertilize well.

Salzer's Mastodon Field Carrot is the most productive variety and it is easily harvested. It is of creamy white color with a green crown. The roots are smooth, 8 to 10 inches in length, about 3 inches broad at the shoulder, and taper gradually to the bottom. The flesh is crisp, solid, sweet, white and very nutritious. A splendid keeper, and a prodigious cropper, yielding in suitable ground from 20 to 30 tons per acre.

As to quality, Mr. D. D. Birks, Metaline, Wash., writes, "We are sending you 3 carrots which were grown from your Mastodon seed. We tried cooking them early in the season and have never quit. I have given them to several friends and all agree with me that they are the best carrots they ever ate." If Salzer's Mastodon is so palatable for the table, is it any wonder that stock relish it?

1468—Pkg., 10c; oz., 12c; ¼ lb., 24c; ½ lb., 45c; 1 lb., 85c; 2 lbs., \$1.59; 5 lbs., \$3.70; 10 lbs., \$6.85, postpaid.

IMPROVED NORMAN BELGIAN

Roots average 2 inches in diameter at the shoulder, tapering gradually throughout the length of 12 inches or more; flesh is light orange. Fine grained, sweet, tender and very productive. Grows a third or more above the ground, and does best on rich, deep soils. A good keeper and relished by all stock.

1467—Pkg., 5c; oz., 7c; ¼ lb., 18c; ½ lb., 32c; 1 lb., 60c; 2 lbs., \$1.10; 5 lbs., \$2.45, postpaid.

Salzer's
Mastodon
—The Great
Field Carrot—
Yields Enormously

Thru variety trials at the Penn. State College, I find that your Matchless Spring Cauliflower is very good.—E. B. Engle, Glen Mills, Pa.

Cauliflower

SALZER'S MATCHLESS SPRING

A fine Cauliflower we introduced in 1927! A grand new strain of the Snowball variety, about 8 days earlier than that famous Cauliflower but with just as large a head. Smooth, solid, snow white curds, very compact and of best quality. We have developed this extra-early strain without sacrificing the size of the head for extra-earliness, something growers have long been wanting. Its quick maturity and large head will please you! Order early.

324—Pkg., 20c; ¼ oz., \$1.25; ½ oz., \$2.10; oz., \$3.75; 2 oz., \$6.95, postpaid.

EARLY PARIS

Extremely early, dwarf, having fine white heads, solid and compact curds. Quality is good. This variety is a real bargain and remains very much in demand with many of our customers.

318—Pkg., 8c; ¼ oz., 28c; ½ oz., 46c; oz., \$5c; 2 oz., \$1.55; ¼ lb., \$2.95, postpaid.

SALZER'S EARLY SNOWBALL

Extremely popular in all sections of the country. For planting at all seasons, and as an all purpose cauliflower it is unsurpassed.

Matures in about 97 days, producing uniform heads of large size, handsome form, and exquisite quality, which are good sellers in every market. Salzer's Early Snowball is the standard variety by which all other sorts are judged. The heads are smooth, solid, snowy white, with compact curds of excellent flavor and quality.

319—Pkg., 12c; ¼ oz., 50c; ½ oz., 95c; oz., \$1.80; 2 oz., \$3.55; ¼ lb., \$7.00, postpaid.

Salzer's
Early
Snowball

SALZER'S EARLIEST SUREHEAD

IT HEADS WHERE OTHERS FAIL

Grandest of all! Whether for forcing or open ground, planted early or late, it is the best, surest header of all. It is particularly desirable for forcing under glass. On our trial grounds every plant produced a **SUPERB HEAD AND SURPASSED ALL OTHER VARIETIES OF EQUAL SIZE IN EARLINESS AND QUALITY.**

The plants are of strong growth with erect, dark green, pointed leaves growing closely about the heads, which are pure snowy white, with very close and compact curds of wonderful fine quality. The heads are of large size, often reaching 10 inches or more in diameter.

This sureness of heading is highly essential to the market gardener and just as necessary for the home gardener. To make the best heads, cauliflower plants need cool, moist weather, good soil and thorough cultivation. Salzer's Earliest Surehead matures in about 95 days and is a sure header.

317—Pkg., 18c; ¼ oz., 60c; ½ oz., \$1.15; oz., \$2.20; 2 oz., \$4.35; ¼ lb., \$8.50, postpaid.

Salzer's
Earliest
Surehead

SALZER'S FIRST CROP

A new, distinct, and extremely early variety. A splendid market hard, snow-white heads.

Being of dwarf, compact growth, with but a small number of leaves, it is an ideal Cauliflower for forcing during winter and spring. Severe tests have proved it absolutely certain to head when conditions are ordinarily favorable, and also most uniform in growth, type and maturity, the crops being taken off almost clean at the first cutting. One characteristic of this novelty is the close sitting together of the leaves, enfolding the head tightly and causing the inner leaves to avoid the necessity of early tying up.

The heads are very beautiful, solid, snow white, of medium size, which will find a ready sale at the highest prices everywhere and will never fail to be appreciated.

321—Pkg., 15c; ¼ oz., 55c; ½ oz., \$1.07; oz., \$2.05; 2 oz., \$4.05; ¼ lb., \$8.00, postpaid.

Salzer's
First Crop

DRY WEATHER OR DANISH GIANT CAULIFLOWER

This variety is of vigorous and dwarf growth, and produces stone-hard and snow-white heads, unsurpassed in quality, which average larger than those of the Salzer's Surehead, but are a week later. The foliage is very heavy, fully protecting the heads, which are less liable to blight in hot weather than those of the earlier sorts. As indicated by the name, for dry, hot climates it is to be preferred to all other sorts, being a sure header there when other sorts fail.

316—Pkg., 15c; ¼ oz., 65c; ½ oz., \$2.32; oz., \$4.55; 2 oz., \$8.95, postpaid.

BROCCOLI

WINTER CAULIFLOWER. In growth and habit like cauliflower but far more hardy, and of special value in the North.

EARLY VALENTINE—Grows, tastes, and looks like cauliflower. Easily grown and ideal for short season sections. Large heads, compact curds of best quality. 202—Pkg., 10c; ¼ oz., 18c; ½ oz., 33c; oz., 61c; 2 oz., \$1.16; ¼ lb., \$2.25.

LARGE WHITE—Later, but larger. Heads are very large, firm, pure white, and of fine quality. 200—Pkg., 7c; ¼ oz., 16c; ½ oz., 29c; oz., 53c; 2 oz., \$1.02; ¼ lb., \$1.95, postpaid.

Salzer's Earliest Surehead Cauliflower has grown to large heads when all others failed.—Mrs. F. A. Schoenek
Cliff Lake, Mont.

Salzer's Golden Self Blanching Celery on Cliffwood Farms

Northern Celery Grown

SALZER'S WONDERFUL

Earliest in maturity, superior eating quality, increased size, beautiful golden color, superior keeping qualities, marked resistance to rust and blight,—these are the outstanding characteristics of this superb celery.

We introduced this fine strain in 1924 and were hardly able to supply the demand last year again. It certainly is a grand celery and if you missed out on it last year, be sure to try it this spring.

Salzer's Wonderful produces fine stocky plants with large, broad, thick stalks that blanch easily and quickly to a beautiful clear waxen yellow. They are solid, crisp, brittle, tender, of a much superior flavor and quality, and are entirely free from stringiness of any kind. Trials at Cliffwood Farms prove it to be the very earliest celery, being fit for use the latter part of August, and remaining in use until the later winter sorts mature. This extra-earliness spells top prices from the early fall trade, for the trucker, and the earliest, most delicious, crisp and beautiful celery for the home gardener's own table use. You will be proud of this celery when you serve it at dinner.

Mrs. Elizabeth Schaus, 17 W. Prospect Ave., St. Louis, Mich., writes, "We planted some of your Wonderful Celery Seed and we want some more. Have raised our own celery for family use for years, but never had as good celery as your Wonderful."

Note in the illustration how compactly the stalks grow. Salzer's Wonderful grows uniformly like this. The plants are remarkably resistant to blight and rust, a factor of great importance. Earliness, size, attractive color, shape, superior flavor, resistance to blight and rust!—the name WONDERFUL is about the only fitting one for this celery.

345—Pkg., 12c; ¼ oz., 29c; ½ oz., 52c; oz., 98c; 2 oz., \$1.92; ¼ lb., \$3.75, postpaid.

SALZER'S SELECT WHITE PLUME

A fine, popular celery, very early. Blanches to a pure snowy white. Stalks broad, thick, tender, crisp, fine rich nutty flavor and excellent quality. 335—Pkg., 10c; oz., 25c; 2 oz., 45c; ¼ lb., 80c; ½ lb., \$1.55; lb., \$3.00, postpaid.

GIANT PASCAL WINTER

Stalks are very large, thick, solid, unusually tender and crisp, snapping like glass. This is the finest of all winter celeries for the home garden but it is too brittle to stand much shipping. It blanches readily to a rich golden yellow. Is a splendid keeper. 342—Pkg., 10c; oz., 25c; 2 oz., 40c; ¼ lb., 70c; ½ lb., \$1.30; lb., \$2.50, postpaid.

Salzer's
Wonderful

SALZER'S GOLDEN SELF-BLANCHING

The beautiful appearance of the plant, with its close habit, compact growth, and straight, vigorous stalks is indescribable. The ribs are thick, broad, fleshy and the hearts large and solid. As the plants mature, the inner stems and leaves turn to a beautiful golden yellow. Blanches easily, quickly, and perfectly.

Salzer's Golden Self-Blanching is a vigorous dwarf grower and very early. It is easy to cultivate and in every way a desirable variety. It is planted very extensively and owing to its handsome waxen-yellow color, its superb quality, entire freedom from stringiness, crispness and tenderness and its delightful, rich, nutty flavor, this variety is most popular and the leading celery in many markets. The strain we handle is grown in France, it is the finest in the market and produces plants uniform in growth and color, with heavy, solid stalks. We offer only French grown stock.

333—Pkg., 10c; oz., 36c; 2 oz., 67c; ¼ lb., \$1.29; ½ lb., \$2.56; lb., \$4.95, postpaid.

SALZER'S WINTER QUEEN

The standard variety for winter keeping. It is the finest dwarf winter celery that we have ever grown on Cliffwood Farms. The plants are large, of close habit and compact growth, stalks are very large, broad, solid, crisp, tender and of a delicious flavor. Blanches easily to a beautiful creamy white. The stalks are all of even length and present a handsome appearance when bunched. It is a splendid keeper and stands shipping well. 343—Pkg., 10c; oz., 25c; 2 oz., 40c; ¼ lb., 70c; ½ lb., \$1.30; lb., \$2.50, postpaid.

We tried your Wonderful Celery last year, and it is the finest we ever raised.—Mrs. Ellen C. Johnston,
108 Prospect St., Manchester, Ia.

SALZER'S SELF-BLANCHER CELERY

Thick Heavy Stalks, Beautiful, Silvery White Color

Salzer's Self-Blancher has been bred from the White Plume, over which it is a great improvement. It blanches more readily, is earlier, grows more stalks, is heavier and is a much better keeper than the old variety.

Next to Salzer's Wonderful it is the earliest celery that can be grown. We introduced Salzer's Self-Blancher a number of years ago and have kept on improving it year after year, and we believe that now it is more largely grown than any other self-blanching variety. It has certainly become renowned for earliness, beauty, quality and flavor. Is of dwarf and compact habit, with light green foliage, stalks are thick and solid, unusually meaty, of a delicious rich flavor, pure white, heavy, tender and crisp. As it keeps so exceptionally well, it is widely grown for fall and winter use.

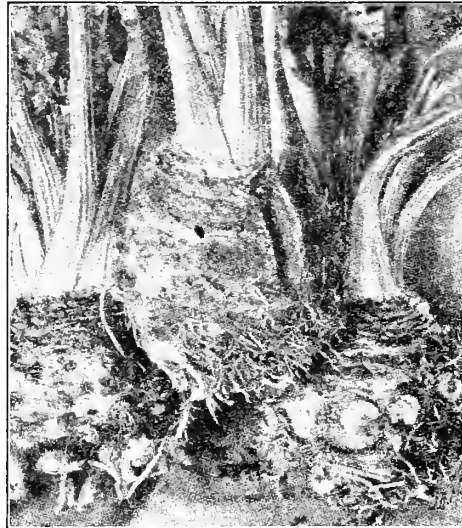

Many people who have never been able to grow celery before can grow this one to perfection, and succeed with it as well as with other vegetables. Salzer's Self-Blancher is singularly free from the habit most other blanching varieties have of reverting back to the original green celery. To obtain best results, celery should have rich, well-manured soil and plenty of water. For the earliest crops, seed should be sown in boxes in February or March, and for the Fall or main crop, it may be sown in the open ground as early as the ground can be worked into good condition. **334—Pkg., 15c; oz., 40c; 2 oz., 73c; ¼ lb., \$1.35; ½ lb., \$2.55; 1 lb., \$4.95, postpaid.**

TURNIP ROOTED CELERY OR CELERIAC

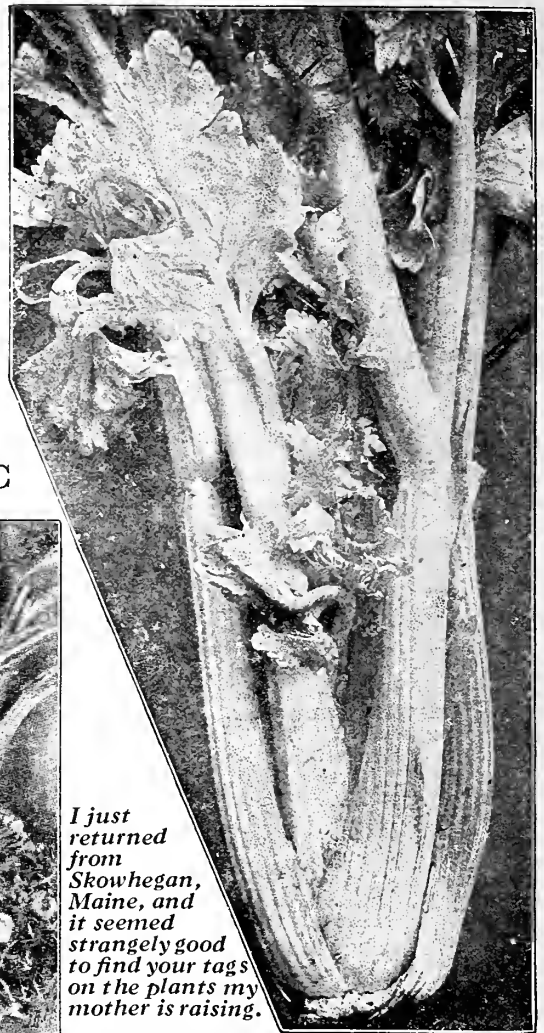

Differs from other celery in that the roots are cultivated for use instead of the tops. Used for soups, stews and salads, or boiled like Parsnips or Turnips. It has a rich, meaty, distinct celery flavor and it deserves much wider cultivation, as it has real merit. Keeps well. Seed should be sown and given the same treatment as celery, but the plants do not require earthing up.

LARGE EARLY ERFURT—This turnip rooted celery is ready for use in June, if planted early. Considered the earliest of this variety of celery. The flesh is pure white, very tender, not woody, and of finest quality. **351—Pkg., 10c; oz., 20c; 2 oz., 36c; ¼ lb., 67c; 1 lb., \$2.50, postpaid.**

GIANT PRAGUE—Excels in quality, size and appearance. It is the main crop variety, nearly globe shaped, reaches a large size, and has few rootlets at the bottom. Splendid keeper. Flesh richly flavored, tender and greatly prized either cooked or as a salad. **352—Pkg., 10c; oz., 19c; 2 oz., 34c; ¼ lb., 63c; 1 lb., \$2.35, postpaid.**

Giant Prague Turnip Rooted Celery

I just returned from Skowhegan, Maine, and it seemed strangely good to find your tags on the plants my mother is raising.

Wisconsin

Salzer's Self-Blancher

Egg Plant

Egg Plant seed germinates slowly and should be started under glass, with moderately high temperature, about March 1st. When about 3 inches high, transplant carefully to the garden or field, but not until all danger of frost is over.

SALZER'S NEW YORK PURPLE—Salzer's New York Purple is the principal market variety; it is early, prolific and entirely spineless. Extra large fruits, weighing several pounds each, with a circumference of twelve to fifteen inches, have often been grown of this strain, and as much as thirty pounds of fruit from one plant. The fruits are of deep purple color, quite smooth, and have white delicious flesh. Ready for table in about 95 days.

494—Pkg., 10c; oz., 38c; 2 oz., 68c; ¼ lb., \$1.32; ½ lb., \$2.59; 1 lb., \$5.00, postpaid.

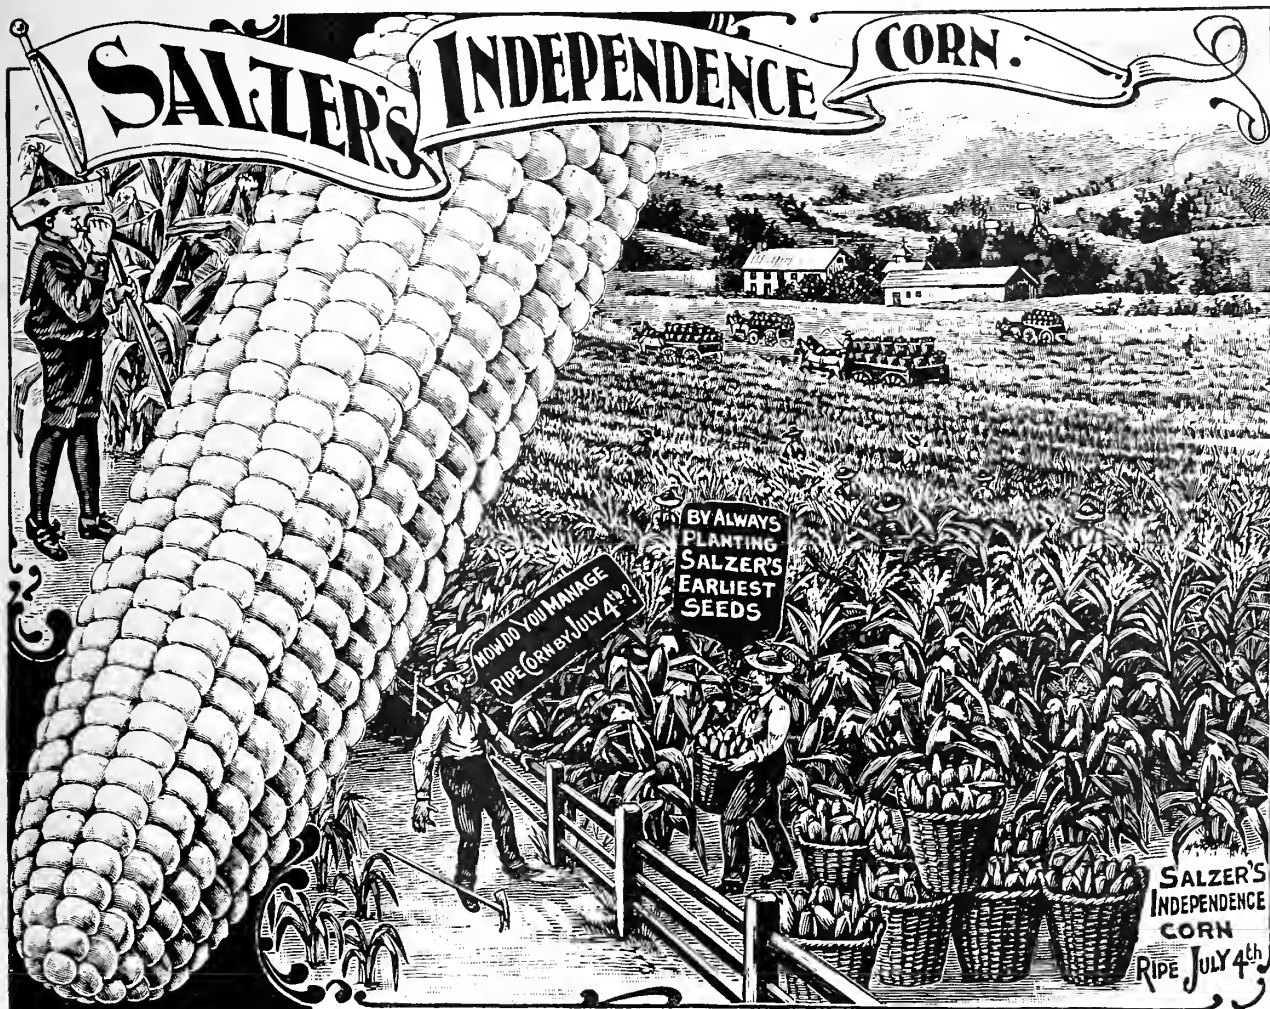

SALZER'S BLACK BEAUTY—A most desirable variety for the home garden and truckers, especially in the North, as it is quite early, maturing ten to twelve days ahead of the New York Purple. The fruits are broad, thick, symmetrical in shape, of a rich, lustrous purplish black color, and of splendid flavor.

492—Pkg., 10c; oz., 50c; 2 oz., 86c; ¼ lb., \$1.62; ½ lb., \$3.12; 1 lb., \$5.95, postpaid.

Black Beauty Egg Plant

Your Honey Boy Sweet Corn and Lightning Cabbage cannot be equalled.—Mr. Chas. Sewell, Box 215, Rockford, Wash.

Salzer's Independence or 4th of July Corn

The Largest Eared, Heaviest Yielding, Extra Early Sweet Corn

Our sales of this Sweet Corn have been enormous and are increasing from year to year. Our supply, although always larger than that of the preceding year, generally has been exhausted before the end of the season. We do not hesitate to say now that more of Salzer's Independence Corn has been planted all over the country in the last few years than of any other extra early sort.

Comparative tests made in our trial ground prove Salzer's Independence far superior in size, productiveness and delicious quality to any other first early variety; the many testimonials we have received, a few of which are printed here, show the satisfaction this corn has given wherever used.

The stalks grow about 5 feet high and produce generally from 2 to 3 fine long ears, 8 to 10 rowed and about 10 inches long, which are very symmetrical and handsome. The grains, which are tightly set, are small, deeper than broad, very white, and are of an exquisite fine quality, usually found only in the later sorts. Quite often reports have reached us of ears of our Independence Corn having been in edible condition in 45 to 50 days from planting the seed, and if sown in the fore part of May in our section in a favorable season, luscious ears of this variety should surely be ready for the table by **July the 4th**.

Salzer's Independence or Fourth of July Corn, an introduction of ours of over a quarter of a century ago, yields first place for extreme extra-earliness to Salzer's Honey Boy, but only in this respect. It is the **LARGEST EARED** and **HEAVIEST YIELDING EXTRA EARLY SWEET CORN**, bar none. A great seller at market. **Sixty days from planting** one should pluck mature sweet corn, so that at your Independence Day dinner you can serve sweet, luscious, tender, finest quality corn on the cob—ears 10 inches and more in length, each having 8 to 10 rows, symmetrical, handsome, and tapering gradually to a pointed tip.

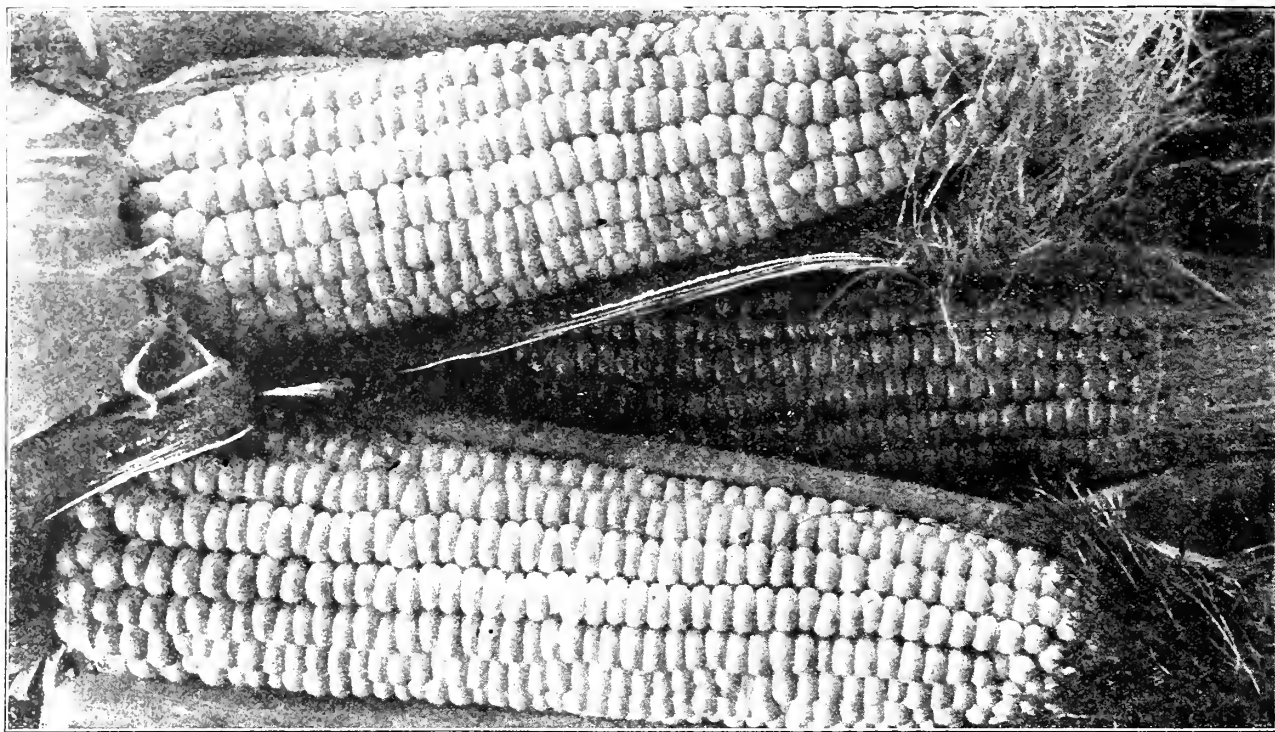

It is grown successfully everywhere. Mr. W. A. Zimmerman, 530 Gartland Avenue, Sandusky, Ohio, writes, "Your 4th of July Sweet Corn is the best I ever heard of and I want some more of it this year." Mrs. Herman Alligner, Brainerd, Minn., writes, "Your Independence Sweet Corn and your tomatoes sure can't be beat." Mrs. J. W. Rector, Rangely, Colo., writes, "From a small corn patch in my garden I picked 1,250 ears of your Fourth of July Sweet Corn." Mr. John Van Vorst, 712 So. 1st Ave., Fargo, N. D., writes, "My garden is 50 x 100 feet and from the corn patch I gathered 75 dozen ears of your Independence Sweet Corn. Your seeds were all first class."

Let's sum up the whole matter on Salzer's Independence Corn. Every market gardener, every citizen, everybody planting same, finds that he has about the largest Earliest Sweet Corn grown, and that it is from five to twenty days earlier than other sorts. Then he finds it is sweeter than the sweetest Sweet Corn known to the trade today. Customers praise it as the very sweetest, earliest, finest Sweet Corn offered. If you have never planted it, don't pass it by this year,—be sure to give it a trial.

373—Price of Salzer's Independence or 4th of July Corn: Pkg., 12c; 1b., 39c; 2 lbs., 69c; 5 lbs., \$1.42, postpaid. Not prepaid, 10 lbs., \$2.30; 25 lbs., \$5.35; 50 lbs., \$9.95.

Your Honey Boy Sweet Corn was surely good and yielded heavily.—Marie C. Jessee, Upper Lake, Calif.

Salzer's Honey Boy Sweet Corn

SALZER'S HONEY BOY

See Illustration Above

Earliest, unusually sweet, high in sugar content, handsome, attractive, tender and juicy. Introduced by us about eight years ago, this distinct and superior strain has been universally displacing every other variety in popularity. It is popular with the market gardener, as maturing in 55 days in this northern climate, it enables him to get the first edible sweet corn to market and to reap the consequent high prices. Popular with the home gardener as it enables him to grow delicious, melting quality sweet corn for his table in an astonishingly short time. We control the entire supply of Salzer's Honey Boy. Get your seed from us and you will be sure of genuine, true seed.

Developed for a short season, it is the best extra early sweet corn for any district and especially for the entire Northwest. Like all extra-early varieties, the stalks are slender and grow $3\frac{1}{2}$ to 4 feet high, and the ears are about sixteen inches above the ground. Being a free stouter, it shoots up many stalks, hence is a heavy yielder. Ears are straight and uniform, handsome, nicely rounded at the tips, average 8 inches in length and contain 8 to 10 rows of creamy white, fat, plump, juicy and unusually sweet and delicious kernels.

366—Pkg., 11c; lb., 37c; 2 lbs., 65c; 5 lbs., \$1.34, postpaid. Not prepaid, 10 lbs., \$2.15; 25 lbs., \$4.95; 50 lbs., \$9.15.

SALZER'S MAMMOTH WHITE CORY

See Illustration Below

The best second early variety and largely planted by market gardeners to follow the extra early sorts like Honey Boy, Salzer's Independence, etc.

The plants are vigorous growers, of medium size; they are very prolific, bearing at least two ears to a plant. The ears are seven to eight inches long and twelve-rowed. The grain is large, broad, very white and of sweet, delicious quality. A splendid seller in every market and of exceptionally fine quality for the table.

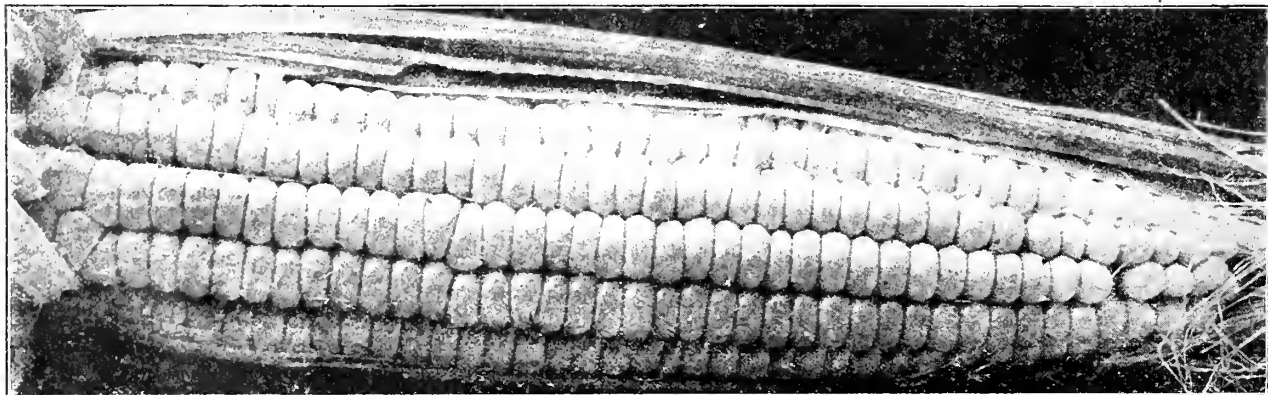

374—Pkg., 10c; lb., 31c; 2 lbs., 53c; 5 lbs., \$1.11, postpaid. Not prepaid, 10 lbs., \$1.64; 25 lbs., \$3.75; 50 lbs., \$6.80.

EARLY MINNESOTA

A favorite variety only a few days later than Cory and one of the most productive early sorts.

The stalks grow six feet high, produce two eight-inch long ears which are covered with 8 to 10 rows of broad kernels, which are tender and sweet. A good variety for the market as well as for the private garden.

369—Pkg., 5c; lb., 29c; 2 lbs., 49c; 5 lbs., \$1.02, postpaid. Not prepaid, 10 lbs., \$1.50; 25 lbs., \$3.35; 50 lbs., \$5.95.

SALZER'S GOLDEN SUNSHINE SWEET CORN!

THE
NEW
EARLY
YELLOW
SWEET
CORN

THE NEW
BILLION DOLLAR CORN!

Market Gardeners—You who plant for market, prepare to pay a higher income tax this year! You can't help it! With Salzer's extra-early, new, golden corn, you are going to get top market prices! Sells like wild-fire everywhere.

SALZER'S GOLDEN SUNSHINE SWEET CORN

is a new type of Golden Bantam Sweet Corn, having the same fine characteristics as its progenitor but with this advantage—it is about ten days to two weeks earlier. It was developed by Prof. A. F. Yaeger of the North Dakota Agricultural Experiment Station, who for several years had been breeding an earlier type of this luscious and popular sweet corn, and we are very proud indeed to be able to offer this new corn to our customers. We urge you to order early.

Stalks are $4\frac{1}{2}$ feet high, usually carrying 2 or more fine ears about 7 inches long which are 8-rowed and packed with broad, deep, rich golden yellow kernels of the most sugary, tender and luscious quality that has ever been produced. Matures about 10 days to two weeks earlier than Golden Bantam! Whether for your own garden or for the market, don't fail to plant it this spring.

Truly, Salzer's Golden Sunshine Sweet Corn is a Billion Dollar Corn! Anyone who sells at market, knows the premium the good housewives pay for the extra-early supplies of cabbage, lettuce, sweet corn, tomatoes, etc. Every gardener who planted Golden Sunshine last year, has definitely and positively determined upon a much larger planting this year.

Every home gardener who planted it, remembers with satisfaction the early date at which the delicious, juicy, tender, sugary cobs of golden corn were served steaming hot at the table! Sweet corn is best when it is a little out of season, and Golden Sunshine is so early, it is really eaten out of season. Everywhere, customers sing its praises in the highest terms. 40¢—Pkg., 12¢; $\frac{1}{2}$ lb., 23¢; lb., 39¢; 2 lbs., 71¢; 5 lbs., \$1.46, postpaid. Not prepaid: 10 lbs., \$2.38; 25 lbs., \$5.53; 50 lbs., \$10.40.

Last year I planted your Golden Sunshine Sweet Corn and it matured a week earlier than the other, although planted one week later.—Peter J. Larson, R. D. 14, Box 10, Larsen, Wis.

Home Gardeners—Prepare for the surprise of your life! You know how you longed for sweet corn ears last summer! Salzer's new, extra-early, golden corn is going to supply your table early and bountifully!

Salzer's Golden Bantam Corn

Profitable Yielder
Deliciously Sweet

An early, hardy, dwarf growing variety, and one of the most popular in cultivation today. Salzer's Bantam is nationally famous for producing the most delicious, the sweetest, tenderest, and most richly colored, golden yellow sweet corn. It matures in 70 days. Many of our customers who prefer Salzer's Golden Bantam to any of the white corns are planting it at regular intervals to obtain a continuous supply during the season, and in our latitude it can be sown as late as the middle of July, and will furnish corn for the table before frost. It is of extreme hardiness. The stalky plants grow from 4

to 5 feet high and each stalk usually bears 2 and more good ears, which are 6 to 7 inches long, straight, rounded at the tips, of a rich, golden yellow color, 8-rowed and packed with broad, deep, tender kernels, exceptionally meaty and of the very finest flavor. For early, medium early, or late, many of our customers will plant only Golden Bantam. But they use Salzer's Seeds, for best results are only to be had when they "Sow Salzer's Seeds."

372—Pkg., 10c; lb., 32c; 2 lbs., 55c; 5 lbs., \$1.14, postpaid. Not prepaid, 10 lbs., \$1.74; 25 lbs., \$3.95; 50 lbs., \$7.20.

EARLE'S EARLY EVERGREEN

It is the finest and the earliest of the large-eared intermediate varieties which fill up the gap between the early and the late corns, being about a week to 10 days later than such early sorts as Mammoth White Cory, Early Minnesota, etc., and about two weeks earlier than Stowell's Evergreen. Earle's Early Evergreen produces quite large ears, which are 12 and 14-rowed and of superlative quality.

The ear measures 10 to 12 inches. In color the kernels are pure white, and are very sweet, tender and palatable. Earle's Early Evergreen is a prolific variety and matures in about 70 days. The large, well-filled ears command a quick sale in any market and we recommend this variety to market gardeners, as well as for use on the home table.

393—Pkg., 10c; lb., 30c; 2 lbs., 51c; 5 lbs., \$1.06, postpaid. Not prepaid, 10 lbs., \$1.58; 25 lbs., \$3.54; 50 lbs., \$6.40.

EARLY CHAMPION

Matures in about 70 days. Ears 8 to 10 inches in length. Kernels pure white. Very sweet, tender and juicy. Medium early.

394—Pkg., 5c; lb., 29c; 2 lbs., 49c; 5 lbs., \$1.02, postpaid. Not prepaid, 10 lbs., \$1.50; 25 lbs., \$3.35; 50 lbs., \$5.95.

EARLY EVERGREEN

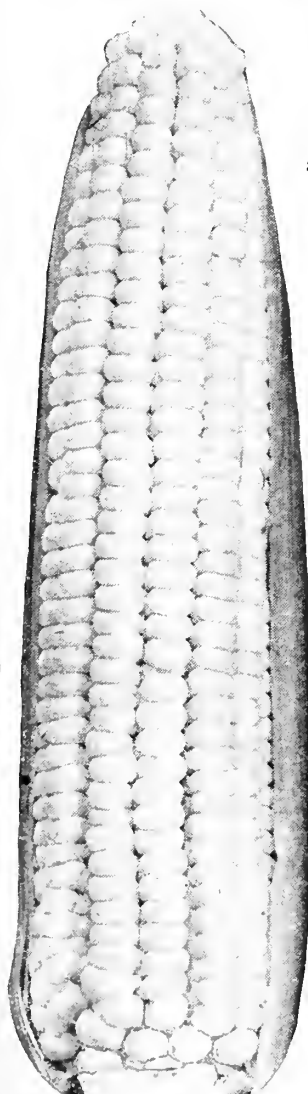

Slightly smaller ears than those of the Stowell's but fit for the table from a week to 10 days earlier. Ears seven to eight inches long, with 16 to 20 rows of deep grains of the very best quality. Matures in about 90 days.

395—Pkg., 10c; lb., 30c; 2 lbs., 51c; 5 lbs., \$1.06, postpaid. Not prepaid, 10 lbs., \$1.58; 25 lbs., \$3.54; 50 lbs., \$6.40.

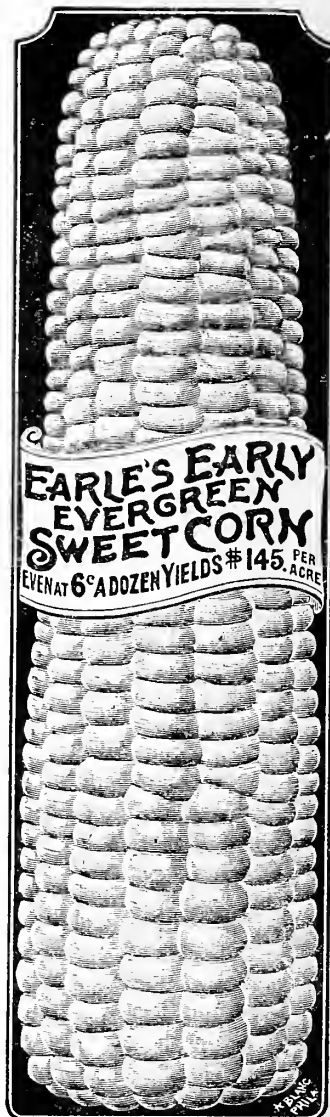

STOWELL'S EVERGREEN

The standard main crop variety. A fine all-around table variety of excellent quality. Stowell's Evergreen is a late sweet corn and takes a good time to mature. The stalks are strong and vigorous, grow 6 to 7 feet high, and bear abundantly, ears that are 8 inches long, each with fourteen to eighteen rows of pearly-white, sugary, deep-set, tender, melting kernels of excellent quality. Under good conditions each stalk has three ears. For the home garden, the market, or the canneries, it is always an immense success. If planted at the same time as the early and second early sorts, it will keep your table supplied until October. More Stowell's Evergreen is grown for commercial canning than any other variety.

402—Pkg., 10c; lb., 31c; 2 lbs., 53c; 5 lbs., \$1.11, postpaid. Not prepaid, 10 lbs., \$1.64; 25 lbs., \$3.75; 50 lbs., \$6.80.

Stowell's Evergreen

Earle's Early—2-3 Size

Your Golden Bantam and Early Evergreen Corn are up fine; never had a failure with your seed.—C. C. Hoffman, St. Mary's College, Winona, Minn.

Country Gentleman

Sweet Corn

A Superb Late
Sweet Corn

Prodigious
Cropper—Tender
and Sweet

Salzer's
Country
Gentleman

Salzer's Country Gentleman is one of the best late sweet corns. Has a small white cob, closely packed with perfectly round kernels, irregularly arranged, slender and very deep, resembling "shoe-pegs." Because of this long, deep kernel, it is admirably adapted for canning. Stalks grow 6 to 7 feet high, bearing 2 to 3 ears each.

Ears are 8 to 9 inches long with a narrow, core-like cob, and are of a delicious sweetness, tender, juicy, and remain "in the milk" longer than other varieties as they are encased in a heavy husk. Matures in about 90 days. 392—Pkg., 10c; lb., 33c; 2 lbs., 57c; 5 lbs., \$1.18, postpaid. Not prepaid, 10 lbs., \$1.82; 25 lbs., \$4.15; 50 lbs., \$7.55.

SALZER'S GOLDEN EVERGREEN

The late, main crop, yellow sweet corn. Salzer's Golden Evergreen is a cross between Stowell's Evergreen and Golden Bantam, and combines the size of ear of the former with the rich golden yellow and delicious buttery quality of the latter. The plants grow vigorously to a height of 6 to 7 feet, they are strong, profusely leaved, and each stalk bears two fine ears, seven to eight inches long, and packed with delicious golden grains in straight rows, of the finest and sweetest flavor. For the home garden it will be a real treat, and for the market it will bring fancy prices. It furnishes larger ears than the Golden Bantam, and as it is later, it prolongs the season considerably. Plant both Salzer's Golden Bantam and Salzer's Golden Evergreen for a continuous supply of yellow corn.

405—Pkg., 10c; lb., 34c; 2 lbs., 59c; 5 lbs., \$1.22, postpaid. Not prepaid, 10 lbs., \$1.89; 25 lbs., \$4.35; 50 lbs., \$8.00.

ENDIVE

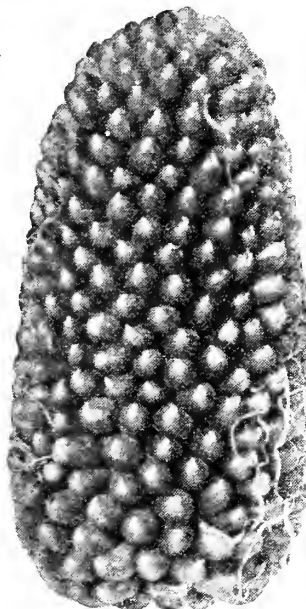

Can be grown practically all the year round. Sow the seed in the open ground from the end of March until early June, and for a continuous supply, sow at intervals of from 3 to 4 weeks. For use, the plants must be blanched and this is done by gathering leaves together and tying loosely at top with a wisp of straw or soft twine for about two weeks.

SALZER'S MOSS CURLED—Salzer's Moss Curled is a dense cluster of leaves finely cut or lacinated, resembling a tuft of moss 10 to 12 inches in diameter. Rich green in color but blanch to a beautiful creamy white, with a piquant and crisp flavor.

502—Pkg., 10c; oz., 13c; 2 oz., 23c; ¼ lb., 40c; ½ lb., 75c; lb., \$1.45, postpaid.

EVER WHITE CURLED—Leaves as finely curled or mossed as the above variety, but of an attractive, lighter green color. Blanches easily, has a delicious, crisp flavor, and frequently does not require tying up. 501—Pkg., 5c; oz., 11c; 2 oz., 19c; ¼ lb., 35c; ½ lb., 67c; lb., \$1.25, postpaid.

BROADLEAVED BATAVIAN (Escarolle)—Large broad leaved, forming a fairly firm head, 16 inches in diameter; blanches nearly white, and is of fine flavor, unsurpassed for salads; also much used for greens, cooked like spinach. 500—Pkg., 8c; oz., 12c; 2 oz., 21c; ¼ lb., 37c; ½ lb., 71c; lb., \$1.35, postpaid.

Tom Thumb Popcorn

POPCORN

JAPANESE HULLESS

Small ears and small grain which pop to a nice large size, white and full. Very thin skin and almost hullless. 416—Pkg., 10c; lb., 31c; 2 lbs., 53c; 5 lbs., \$1.11, postpaid. Not prepaid, 10 lbs., \$1.64; 25 lbs., \$3.75; 50 lbs., \$6.80.

TOM THUMB

Long, slender kernels that pop readily and very large. Give the boys an acre on the farm to plant pop corn for market. It pays. Ears 2 to 3 inches long. 422—Pkg., 10c; lb., 32c; 2 lbs., 55c; 5 lbs., \$1.14, postpaid. Not prepaid, 10 lbs., \$1.74; 25 lbs., \$3.95; 50 lbs., \$7.20.

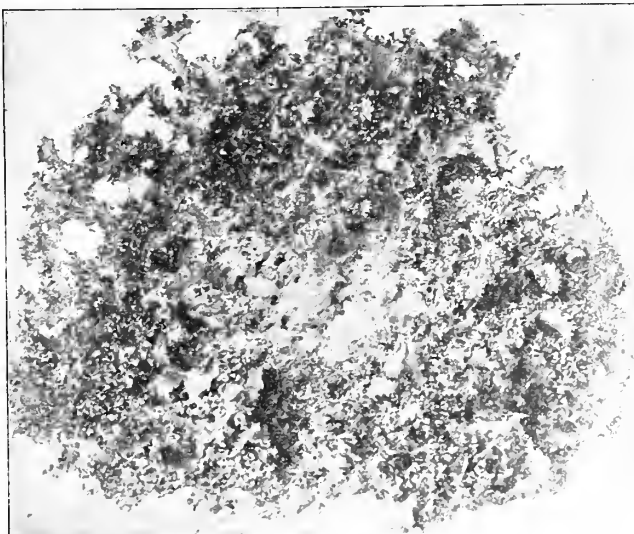

WHITE RICE

One of the finest, most prolific Popcorns grown; largely planted. Matures in about 80 days. 423—Pkg., 5c; lb., 29c; 2 lbs., 51c; 5 lbs., \$1.05, postpaid. Not prepaid, 10 lbs., \$1.58; 25 lbs., \$3.54; 50 lbs., \$6.40.

POPCORN FOR POPPING PURPOSES

425—TOM THUMB—Lb., 30c; 2 lbs., 51c; 5 lbs., \$1.06, postpaid. Not prepaid, 10 lbs., \$1.58; 25 lbs., \$3.54; 50 lbs., \$6.40.

424—WHITE RICE—Lb., 28c; 2 lbs., 47c; 5 lbs., \$1.00, postpaid. Not prepaid, 10 lbs., \$1.49; 25 lbs., \$3.35; 50 lbs., \$6.00.

Salzer's Moss Curled Endive

I am tickled pink with my Popcorn; I believe every grain sprouted.—Charles Christ, Box 603, Washington, Ill.

SALZER'S EARLIEST OR 40-DAY CUCUMBER Cucumbers

An ideal slicer, excellent for pickling, heavy yielder, the earliest of all the White Spine varieties, producing fine, marketable fruits in 40 days' time. Has been steadily improved at Cliffwood Farms, and we have never yet found any strain to equal Salzer's 40-Day in earliness, uniformity, productiveness, and superb quality. Market gardeners who reap the highest prices, and home gardeners who want the best and earliest cucumbers, will plant only Salzer's 40-Day.

Extremely early, ready for table use in about 40 days. The fruits, about 7 inches long, are straight, nearly cylindrical, blunt at the ends and of very dark green color; with distinct pale green lines at the blossom end. Uniform in shape and size. An ideal cucumber for slicing, excellent for pickling, the flesh is firm and crisp, and of delightful flavor. The vines are vigorous in growth, very healthy, holding the fruit for a long period.

W. H. Paseman, R. D. 2, Sedgwick, Kans., writes, "From 65¢ worth of Salzer's Earliest Cucumber, I sold over 50 bushel cucumbers." Mrs. H. H. Graham, Fort Springs, W. Va., writes, "From one planting of your Earliest Cucumber, I had cucumbers nearly all season." Mrs. W. L. McCutchen, Pilot Rock, Ore., writes, "Your Cucumber seed is the best of any I have ever had." Plantings of seeds of the high Salzer quality, are what pay. Sow good seed. Insist upon Salzer's.

447—Pkg., 10c; oz., 15c; ¼ lb., 43c; ½ lb., 79c; lb., \$1.50; 2 lbs., \$2.80, postpaid.

SALZER'S IMPROVED WHITE SPINE

One of the most prolific and earliest of the older types of White Spine cucumbers, and considered one of the most dependable varieties to grow and very popular for table use. Vines are of vigorous growth. A prolific and early fruiter. Dark green color, well covered with white spines and uniformly straight. About nine inches long. Inclined to be pointed at the end. Matures in about 65 days. The flesh is crisp, tender and of fine quality. A desirable variety for salads, slicing and pickling.

438—Pkg., 8c; oz., 12c; ¼ lb., 36c; ½ lb., 68c; lb., \$1.30; 2 lbs., \$2.35, postpaid.

DAVIS' PERFECT

A superb variety for slicing, a great shipper, solid white flesh, with remarkably small seed cavity. The vines are hardy and vigorous. Bears for a prolonged period. Fruits about ten to eleven inches in length. Color deep dark green. White spined. Matures in about 60 days.

441—Pkg., 10c; oz., 14c; ¼ lb., 41c; ½ lb., 78c; lb., \$1.50; 2 lbs., \$2.80, postpaid.

CLIFFWOOD LONGFELLOW

A grand new cucumber which we introduced in 1927.

The fruit is long, 12 to 16 inches in length, straight, smooth and handsome. The color is deep green, which is retained longer than any kind we know of. Flesh is crisp, solid, and of very best quality, and is not only ideal for slicing but the young fruit is fine for pickling. Being a white spine variety, Cliffwood Longfellow never turns yellow. It is very prolific and is characterized by a small seed cavity. Forces readily under glass.

452—Pkg., 12c; oz., 29c; ¼ lb., 98c; ½ lb., \$1.92; lb., \$3.75, postpaid.

WHITE WONDER

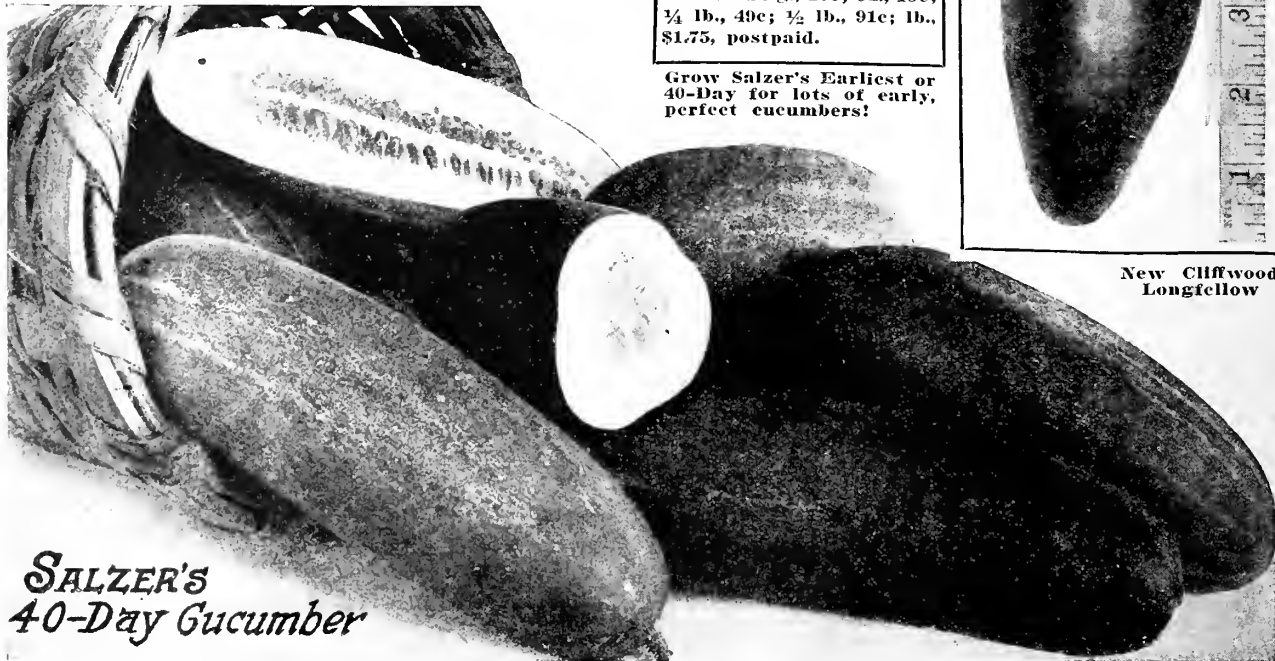

A pure white cucumber of fine quality. Fruits are 7 to 8 inches long and are perfectly white even when they are young. Flesh is firm, crisp and tender and of delightful flavor. Grand for slicing and also excellent for pickling. At market they sell well, and for the home gardener they are valuable for exhibition purposes as well as ideal for table use. Heavy yielders.

470—Pkg., 10c; oz., 15c; ¼ lb., 49c; ½ lb., 91c; lb., \$1.75, postpaid.

Grow Salzer's Earliest or 40-Day for lots of early, perfect cucumbers!

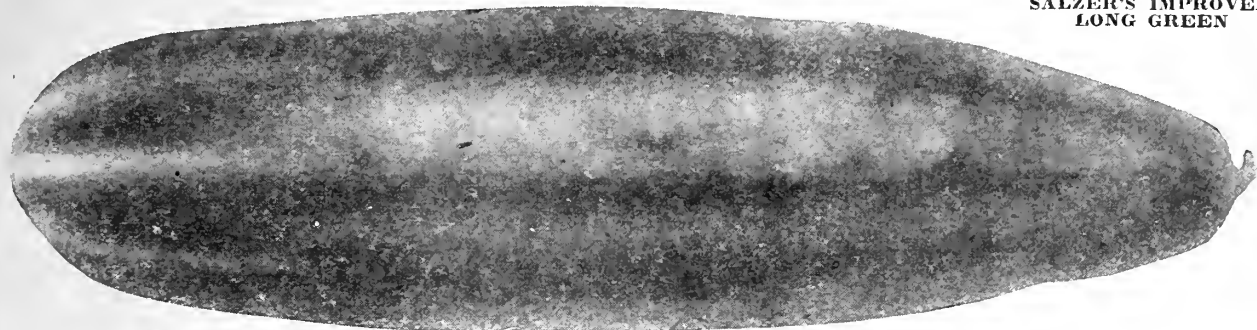

New Cliffwood
Longfellow

SALZER'S
40-Day Cucumber

I never bought better seeds in my life than those I got from you last year.—L. F. Vealey, Britton, Mich.

SALZER'S IMPROVED
LONG GREEN

SALZER'S IMPROVED LONG GREEN

Salzer's Improved Long Green is the finest selection of long green cucumber obtainable. It is a medium late, slicing variety, also very good for pickling. It is extremely prolific and is the best variety for hardiness and disease resistance.

Fruits are from ten to fifteen inches in length when fully matured, of somewhat slender girth, and of attractive dark green color, with spines or warts uniformly distributed on the surface. It produces early a fine quality of small cucumbers, excellent for pickling. Crisp, tender, and of good flavor. Matures in about 70 days.

448—Pkg., 10c; oz., 12c; ¼ lb., 35c; ½ lb., 73c; 1 lb., \$1.40; 2 lbs., \$2.80, postpaid.

SALZER'S KLONDIKE

A very productive variety. Medium early, matures in about 60 days. Retains its deep green color longer than any of the other varieties. A good shipper.

449—Pkg., 5c; oz., 12c; ¼ lb., 37c; ½ lb., 71c; 1 lb., \$1.35; 2 lbs., \$2.30, postpaid.

WEST INDIA GHERKINS

The smallest of the pickle varieties, maturing in approximately 50 days. Fruits average from two to two and one-half inches. Should be pickled when young and tender. Oval shape, prickly surface. Enormously prolific.

483—Pkg., 10c; oz., 18c; ¼ lb., 61c; ½ lb., \$1.16; 1 lb., \$2.25; 2 lbs., \$3.80, postpaid.

SALZER'S EVERBEARING

It is just a fraction smaller than the Prolific Pickle below, is very productive, and is of special value in districts where the late maturing kinds will not ripen. If the fruits are gathered continuously, the vines will fruit freely the entire summer.

A very early and extremely productive variety. Matures in about 60 days. The fruits average four to five inches in length. Diameter about one to one and a half inches. Rich dark green color. One of the best sorts for pickling, salads and slicing. Flesh white, crisp, cool and of pleasing flavor.

466—Pkg., 5c; oz., 12c; ¼ lb., 35c; ½ lb., 65c; 1 lb., \$1.25; 2 lbs., \$2.30, postpaid.

SALZER'S CHICAGO PICKLING

A grand old stand-by, and is just as great a favorite today as ever. It has square ends, smooth skin, is very productive and very disease-resistant. Measures about 6x2½ inches, and has a rich, deep green color.

Has a national reputation for shipping qualities. Matures in about 60 days. Flesh crisp, cool and of pleasing flavor.

462—Pkg., 5c; oz., 12c; ¼ lb., 36c; ½ lb., 68c; 1 lb., \$1.30; 2 lbs., \$2.30, postpaid.

LEMON CUCUMBER

When ready to use it has the color of a ripe lemon. The skin is smooth. The fruits are very attractive in appearance and grow from two and one-half to three inches in diameter. The flesh is tender, crisp and possesses a delicate sweetness and flavor. They are fine for pickling, either green or ripe. For slicing they should be used just as the fruits are turning yellow.

480—Pkg., 10c; oz., 16c; ¼ lb., 53c; ½ lb., \$1.02; 1 lb., \$1.95, postpaid.

SALZER'S PROLIFIC PICKLE CUCUMBER

Plant Salzer's Prolific and Pick Basketsful of the Finest and Best Cucumbers for Pickling

Does it pay to plant Salzer's Northern Grown Seeds? Mr. Anton Endress, R. D. 1, Box 8, Springboro, Pa., writes, "I received \$642.00 on the market for my crop from 2½ lbs. of Salzer's Prolific Pickle Seed." Think of such returns as that!

Salzer's Prolific Pickle is the one unbeatable pickling cucumber. It is enormously productive, it is uniform, it is a splendid shipper, it is early, it is of wonderfully fine quality. Housewives purchase it at market in preference to any other.

Slender, cylindrical, with large prominent spines, color dark green. Measures about 5½x2¼ inches, and has square ends, making it very attractive. The flesh is solid and thick in texture, and excellent in quality. The vines set fruit when young and usually continue to bear longer than any other variety. Matures in about 55 days. Mrs. Hector Huntington, Cumberland, Ind., writes, "I picked and sold over 2,000 pickles from 1 Package of your Prolific Pickle."

Market gardeners make huge profits with Salzer's Prolific.

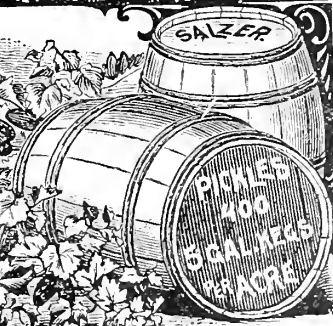

Home gardeners first plant Salzer's Prolific and then if there is room, they plant other varieties. Be sure of good seed. Get it from Salzer's.

469—Salzer's Prolific Pickle:
Pkg., 10c; oz., 15c; ¼ lb., 45c;
½ lb., 86c; 1 lb., \$1.65; 2 lbs., \$3.15,
postpaid.

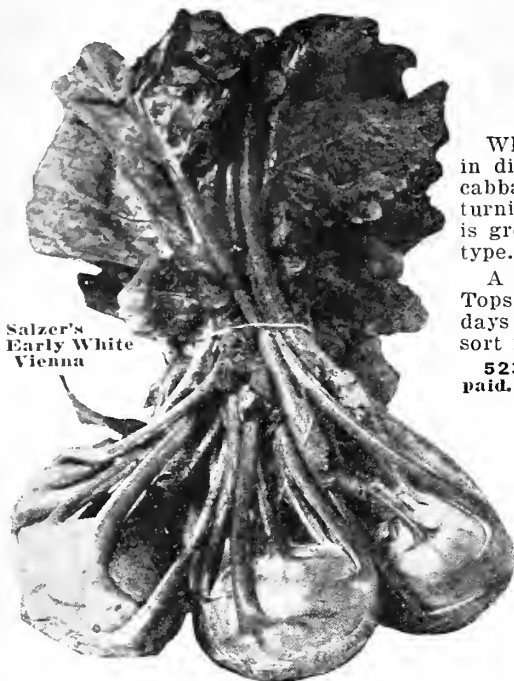

SALZER'S PROLIFIC PICKLE

400 BUS. PER A. at \$1.00 = \$400. EASILY MADE!

From 3 hills of Salzer's Prolific Pickle Cucumbers, I canned 2½ gallons and had a great plenty for our table.—
Mrs. Iden Cox, 2860 Sangster Ave., Indianapolis, Ind.

Salzer's
Early White
Vienna

Kohlrabi

SALZER'S EARLY WHITE VIENNA

When cooked before it is fully grown (that is, when about two inches in diameter), it is tender and excellent, combining both the flavors of cabbage and turnip. Should be cooked the same as you would cook turnips. It is hardy and thrives everywhere. Our Early White Vienna is grown from well selected seed and tested thoroughly for trueness to type. This variety will give you great satisfaction.

A select early strain. White bulbs, tinged with green. Small leaves. Tops are about eight to ten inches long. Ready for the table in 50 days after setting out plant. Being extremely early it is a desirable sort for forcing. Quality very fine. Flesh is white and delicate.

523—Pkg., 10c; oz., 25c; 2 oz., 40c; ¼ lb., 70c; ½ lb., \$1.30; 1 lb., \$2.50, postpaid.

SALZER'S EARLY PURPLE VIENNA

Excellent for soups, or cooked like turnips, and enjoys almost as much popularity as the Early White Vienna, and similar to it in many ways. The leaves, stems, and outside of the bulbs are purple, but the flesh is an attractive light green.

Planted at intervals, tender bulbs can be produced throughout the season. Ready to use in about 50 days after setting out plants. Best time to use is when the roots are about 2½ inches in diameter.

522—Pkg., 8c; oz., 20c; 2 oz., 35c; ¼ lb., 60c; ½ lb., \$1.15; 1 lb., \$2.25, postpaid.

SALZER'S LARGE AMERICAN FLAG LEEK

A splendid vegetable for flavoring soups, etc. Treat same as onions; both leaves and bulbs are used. Leeks are very hardy and the flavor is much improved by freezing. In fall, plant a few in sand in the cellar for winter use. Produces large, thick stems of mild flavor. Matures in about 90 days.

531—Pkg., 5c; oz., 20c; 2 oz., 35c; ¼ lb., 60c; 1 lb., \$2.25, postpaid.

SOUTHERN GIANT MUSTARD (CHINESE)

Mustard is planted extensively in the South for boiling greens during the fall and winter months, and should be more widely grown in the North. When freshly picked, the leaves are cooked and eaten like spinach. They do not lose much in substance by cooking and have a very agreeable flavor. Highly esteemed in warm countries for use as green vegetables.

Are easily cultivated and ready for use in six weeks from sowing. To those of our customers who have never planted Mustard, we recommend they give it a trial. Makes a deliciously pungent salad. Plants yield until frost.

725—Pkg., 5c; oz., 7c; 2 oz., 11c; ¼ lb., 18c; 1 lb., 50c, postpaid.

Salzer's Giant Mustard

KALE

Also called Borecole. A popular boiling green, tasting somewhat like Spinach. Easily grown and should be in every garden.

SALZER'S MOSS CURLED

Robust, very compact in growth, with dense moss curled leaves of deep green color. The stems produce curly sprouts which are tender and of a fine flavor. Grows about 30 in. high; stands cold which improves its deliciousness.

512—Pkg., 10c; oz., 12c; 2 oz., 19c; ¼ lb., 35c; 1 lb., \$1.25, postpaid.

Tall Scotch Green

TALL SCOTCH GREEN

Grows 3 to 4 feet high, and furnishes you with an ornamental plant as well as with a fall and winter supply of healthy boiling greens. Narrow leaves, finely curled and beautifully fringed. It is a hardy variety and yields a large crop of fine leaves. Improved by frost.

514—Pkg., 5c; oz., 12c; 2 oz., 20c; ¼ lb., 35c; 1 lb., \$1.15, postpaid.

Salzer's American Flag Leek

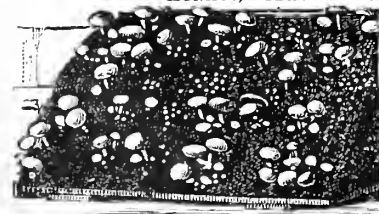

SALZER'S FRENCH GIANT DANDELION

This should not be confused with the wild Dandelion, as it is a much improved strain. Good for the blood, and in France it is largely grown for this purpose. It is a blood purifier! It is delicious in the extreme, and is in great demand as a salad par excellence. Sow in May or June, cultivate well, and the leaves can be cut the following spring.

490—Pkg., 10c; oz., 43c; 2 oz., 81c; ¼ lb., \$1.50; ½ lb., \$2.75, postpaid.

SALZER'S MUSHROOM SPAWN

Leaflet, "Mushroom Culture," free upon request.

A Bed of Salzer's Mushrooms

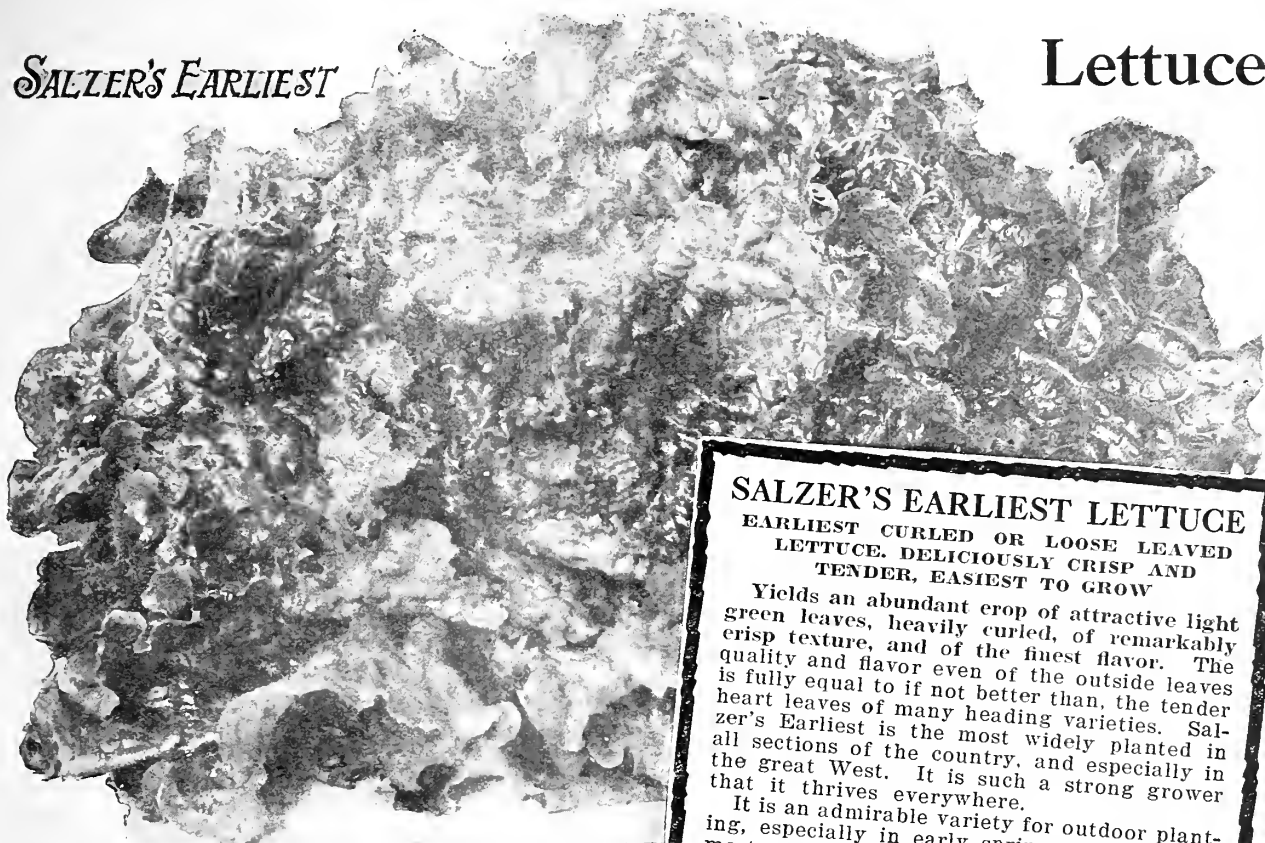

Anyone can make big money by growing these delicacies for hotels, restaurants and private trade. Can be grown in cellars, sheds and small caves, etc. Mushroom produces no seed, but instead a white fibrous substance, called spawn, which we furnish in bricks. If you have an unused cellar or shed, you can greatly increase your income. It is not difficult to grow.

729—Brick, 35c; 5 bricks, \$1.65, postpaid.

I grew some wonderful Kohlrabi from your Early White Vienna seed, last year.—Mrs. Wallace E. Thur, 890 Orchard St., Milwaukee, Wis.

SALZER'S EARLIEST

Lettuce

SALZER'S EARLIEST LETTUCE
 EARLIEST CURLED OR LOOSE LEAVED
 LETTUCE. DELICIOUSLY CRISP AND
 TENDER. EASIEST TO GROW

Yields an abundant crop of attractive light green leaves, heavily curled, of remarkably crisp texture, and of the finest flavor. The quality and flavor even of the outside leaves is fully equal to if not better than, the tender heart leaves of many heading varieties. Salzer's Earliest is the most widely planted in all sections of the country, and especially in the great West. It is such a strong grower that it thrives everywhere.

It is an admirable variety for outdoor planting, especially in early spring and it is also most suitable for greenhouse forcing. It is the lettuce for planting all summer long. Extremely popular for winter markets. The lower leaves grow clear of the ground so that it rarely suffers from rot. It is an ideal shipper and will prove most profitable for the grower, whether he sows seed in a hotbed or out of doors. It is the best non-heading lettuce for the home garden. Salzer's Earliest Lettuce affords crisp, tender, attractive, finest quality leaves long before the heading sorts have commenced to close up.

540—Pkg., 15c; oz., 20c; ¼ lb., 59c; ½ lb., \$1.05; 1 lb., \$1.95, postpaid.

SALZER'S PRIZEHEAD LETTUCE

Is one of the best and most reliable varieties for all-year-around cultivation. The name is a trifle misleading, as it is a loose leaved or curled variety, and does not make a head. Plants form a loose cluster of leaves which are exceedingly tender, quite blistered and crumpled, sweet, crisp, and are of light brown color varying to a medium green base. It is one of the best home garden varieties as it grows quickly and makes a lot of good eating leaves which are of remarkably good flavor. Salzer's Prizehead reaches a very large size without losing its tenderness or crispness. Because of this unusual tenderness, it does not stand shipping well to distant markets. This superb strain was introduced in about 1875 and for many years we have been developing and re-selecting it at Cliffwood Farms, so that our seed of this variety is unsurpassed in quality, regardless of price.

575—Pkg., 9c; oz., 13c; ¼ lb., 37c; ½ lb., 68c; 1 lb., \$1.30, postpaid.

BLACK SEEDED SIMPSON

One of the standard varieties. A non-heading, curled, bunching, crisp variety, attractive light green color. It reaches a large size, grows quickly, is early, of fine quality, tender and sweet, and thrives splendidly during the hot summer months. Easily grown by the home gardener and much used by market gardeners for hot bed culture.

554—Pkg., 5c; oz., 12c; ¼ lb., 35c; ½ lb., 65c; 1 lb., \$1.25, postpaid.

WHITE SEEDED SIMPSON

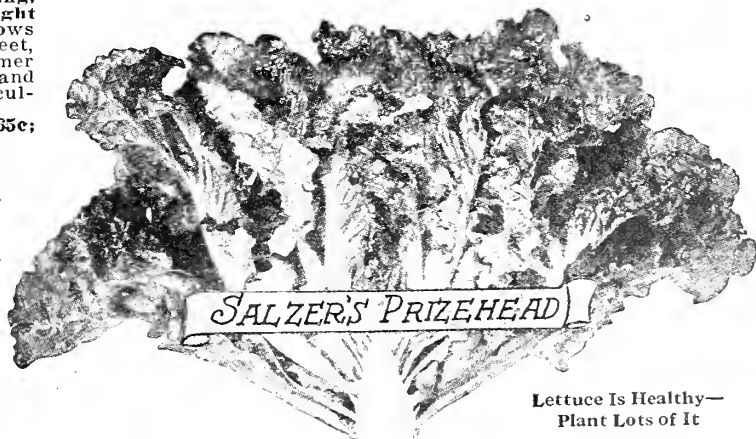

Also known as Early Curled Simpson. A curled or crisp non-heading type, medium large, much crumpled leaves of a light green color. It is an early growing, hardy variety and is sure to give fine results even under unfavorable conditions. Tender, crisp and of excellent quality.

559—Pkg., 9c; oz., 12c; ¼ lb., 35c; ½ lb., 65c; 1 lb., \$1.25, postpaid.

SALZER'S GRAND RAPIDS

Curled or crisp, non-heading, light green, leaves wavy, fringed and very curly, a good shipper. Very popular and widely grown.

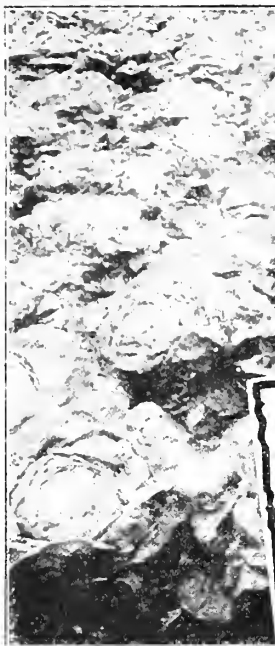

541—Pkg., 10c; oz., 14c; ¼ lb., 38c; ½ lb., 72c; 1 lb., \$1.35, postpaid.

SALZER'S PRIZEHEAD

Lettuce Is Healthy—
Plant Lots of It

Your Earliest Lettuce seed gave us all the lettuce we and our neighbors could use, and it was best quality.—
Clyde Sheldon, Box 535, Park Falls, Wis.

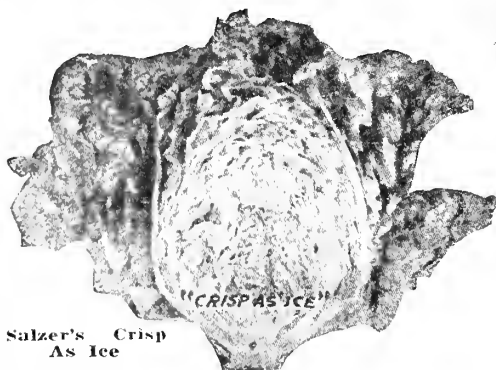

SALZER'S CRISP AS ICE

A beautiful lettuce of medium size and medium early. Salzer's Crisp As Ice is a cabbage butter head lettuce, the leaves having a rich, attractive, deep green base, and upper portion covered with dark brown, giving the plant a deep brown or bronze appearance. A cool weather variety, valuable for both early spring and fall.

This head lettuce, when cut open has such a rich, creamy heart, and is so tender and brittle, that when it was introduced in about 1894, it was immediately and rightly named Crisp As Ice. It enjoys a wide popularity and is extensively grown. We recommend Salzer's Crisp As Ice unreservedly for the home gardener. Mr. H. J. Welker, Myerstown, Pa., writes, "Your Crisp As Ice Lettuce has proven all you say about it. We never tasted such crisp and fine lettuce."

556—Pkg., 12c; oz., 20c; ¼ lb., 56c; ½ lb., \$1.05; lb., \$1.95, postpaid.

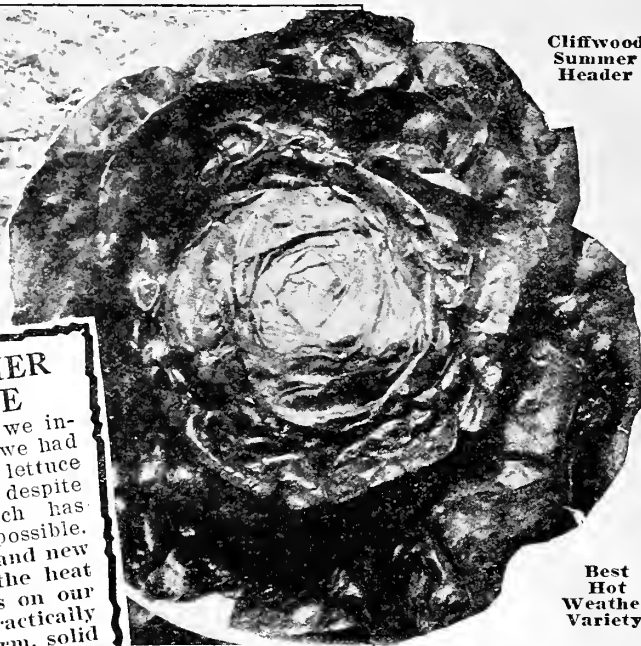

Salzer's Crisp
As Ice

CLIFFWOOD SUMMER HEADER LETTUCE

A superb new lettuce that we introduced in 1927. For years we had been working to develop a lettuce that would form solid heads despite hot weather, a thing which has hitherto been almost impossible. We finally developed this grand new strain which heads during the heat of summer! In severe tests on our great Cliffwood Farms, practically every plant formed a fine, firm, solid head of butterhead lettuce of the finest flavor, despite very hot weather.

The leaves are light green, crumpled, thick and tender, blanching to creamy white in the center of the head. Heads are large, about 8 to 10 inches in diameter, they have a delicious rich, buttery flavor, and they are the last to go to seed. It stands heat better than any other variety, without wilting. Be sure to give it a trial this year. 577—Price of Summer Header Lettuce: Pkg., 14c; oz., 20c; ¼ lb., 70c; ½ lb., \$1.30; lb., \$2.50, postpaid.

CALIF. CREAM BUTTER

Salzer's California Cream Butter is a cabbage, butter head type, with thick leaves, large in size, of a beautiful and attractive rich dark green, tinged and spotted with brown. Ideal for the home garden. The heart of this excellent head lettuce is a rich golden yellow and has a most agreeable and delicate buttery flavor, hence the name Cream Butter. It is of first class quality, it is a good shipper, and it forms a fine solid head under any ordinary conditions.

561—Pkg., 10c; oz., 13c; ¼ lb., 40c; ½ lb., 75c; lb., \$1.45, postpaid.

Cream
Butter
Lettuce

We had a dandy garden last year. Your Crisp As Ice Lettuce and Earliest of All Tomatoes were especially nice.—
Louis J. Totusek, R. D. 2, Hutchinson, Minn.

SALZER'S NEW YORK OR WONDERFUL LETTUCE

A curled or crisp, heading variety, large, dark green and slightly curled on the edges. It is the most extensively grown of any of the head lettuces by market gardeners, and it is likewise in much favor with home gardeners everywhere. The mature head is flattish globular, and has well folded leaves with the immediate outside leaves slightly incurved to protect the head from sunburn. Salzer's New York is easily identified at all stages of its growth. Do not confuse this variety with Iceberg, which, although somewhat similar, has a decided brown tinge to it, while New York is green.

Because of its immense size, fine color, crisp tenderness, and delicate flavor, it is always in demand in hotels throughout the country. The heads range from 16 to 18 inches in diameter and weigh from 3 to 3½ pounds each. This is the same variety that is so widely grown in California and the heads shipped in carload lots by the thousand. Mr. Jacob Scherer, 618 W. 3rd St., Mt. Vernon, Ind., writes, "Your Wonderful Head Lettuce was the best lettuce I ever had. All the other seeds were fine, too."

The heart is beautifully blanchd, creamy white, crisp, tender, and free from any trace of bitterness. It is robust and is a standard hot weather variety anywhere. Although more expensive than other varieties, it is one of the most generally grown, because of the phenomenal crop it produces.

565—Pkg., 10c; oz., 17c; ¼ lb., 55c; ½ lb., \$1.05; 1 lb., \$2.00, postpaid.

Salzer's
New York
or
Wonderful

SALZER'S MAY KING

Salzer's May King is a cabbage, butter head type, medium small, light green, tinged slightly at edges with brown. It is a very early head lettuce and especially good for outdoor culture, very popular and very suitable for both home gardeners and truckers. The heart is well folded, solid, and blanches to a beautiful light golden yellow. It is tender, brittle, juicy, and of a fine buttery flavor. Very hardy, and a sure header under even unfavorable conditions.

560—Pkg., 10c; oz., 14c; ¼ lb., 38c; ½ lb., 72c; 1 lb., \$1.35, postpaid.

SALZER'S BIG BOSTON

Salzer's Big Boston is a cabbage head, butter type, medium large, about 11 inches across, finely shaped, globular, medium light green with a slight tinge of brown on margins of outer leaves. It is early and hardy, and stands shipping well. The leaf is smooth and is practically not blistered or crumpled, with a tendency to a bright sheen. Heads are tender, brittle, juicy, fine buttery flavor, and the interior is an attractive light golden yellow.

553—Pkg., 5c; oz., 12c; ¼ lb., 37c; ½ lb., 71c; 1 lb., \$1.35, postpaid.

SALZER'S IMPROVED HANSON

Exceptionally early, large globular, crisp heads which are firm and well blanchd. The leaves are broad, crumpled and twisted, of light green color, never spotted or brownish. It is of very sweet flavor, and succeeds everywhere and at all times. Heads well during hot weather. Miss Agnes Sandford, 431 No. First Ave., Canton, Ill., writes, "I have never had such fine head lettuce as last year, when I planted your Improved Hanson Lettuce. Friends all remarked about it."

562—Pkg., 10c; oz., 16c; ¼ lb., 43c; ½ lb., 79c; 1 lb., \$1.50, postpaid.

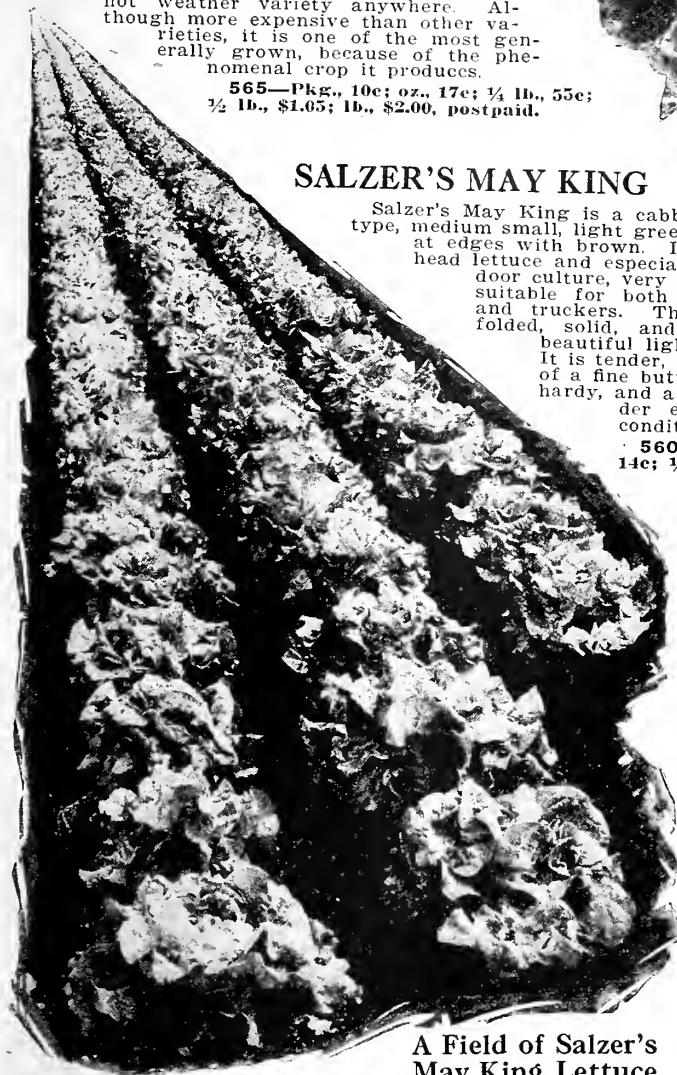

PARIS WHITE COS LETTUCE

The Cos Lettuces are distinguished from other lettuces in that their leaves are elongated and almost always somewhat spoon-shaped. They are grown in exactly the same way as other lettuce.

When young, the leaves are pale green. When full grown, they form a loose, conical head, outer leaves light green and rather crimped, inner leaves very pale green with the midrib white and very prominent. Very crisp and has a delicious flavor.

Succeeds very well everywhere, never wilts under the severest sun and can be grown to an immense size; plants weighing six pounds have been grown of this variety.

598—Pkg., 10c; oz., 15c; ¼ lb., 40c; ½ lb., 75c; 1 lb., \$1.45, postpaid.

A Field of Salzer's
May King Lettuce

Planted your New York Lettuce last year and it was the finest in town; heads weighed nearly 4 pounds.—
E. M. Snyder, Box 184, Enterprise, Ore.

Muskmelons

SALZER'S EARLIEST RIPE MUSKMELON

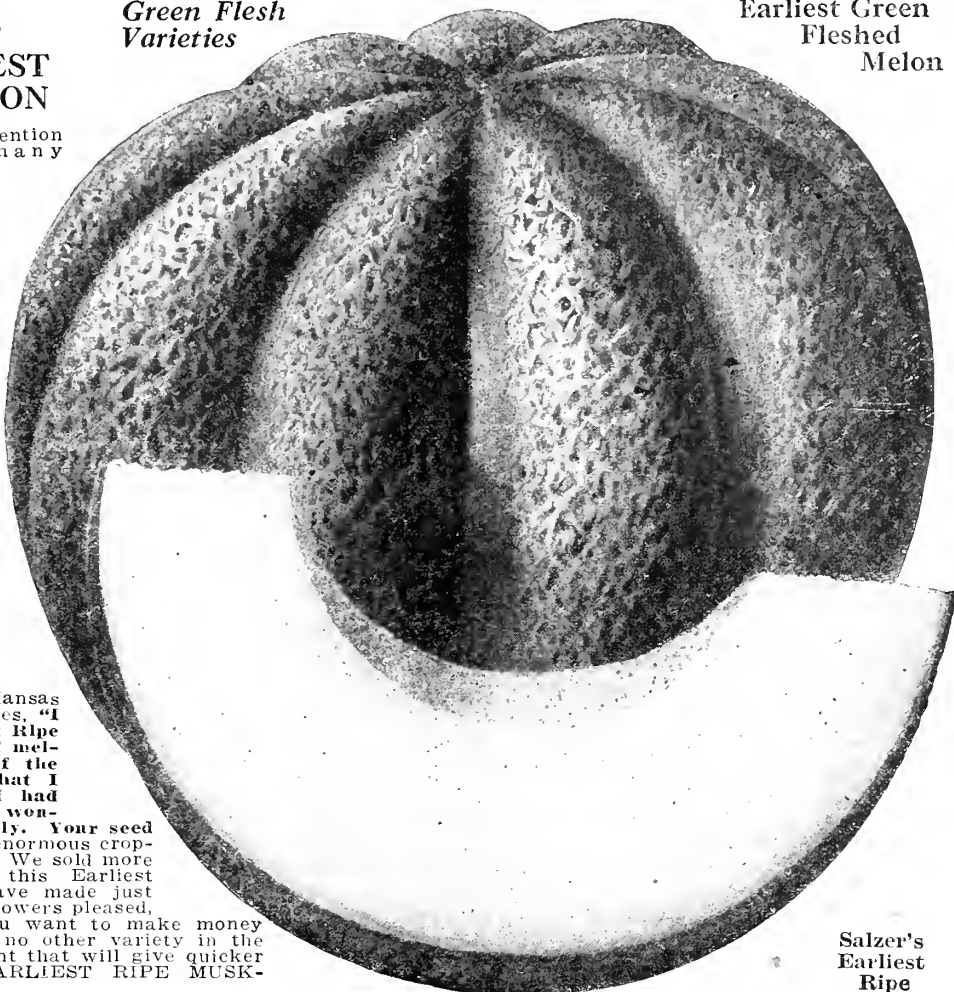

Green Flesh
Varieties

Earliest Green
Fleshed
Melon

Earliest of All. Our attention was called to this Melon many years ago by a market gardener near La Crosse, who for the past years has always had Muskmelons from 8 to 15 days ahead of his neighbors. These Melons were of uniform size, of fine shape and appearance, green fleshed, extremely delicious, and sold readily in our markets at from \$1.25 to \$2.00 per dozen, the profit to an acre being something enormous, as all the Melons were usually sold before other sorts came into the market.

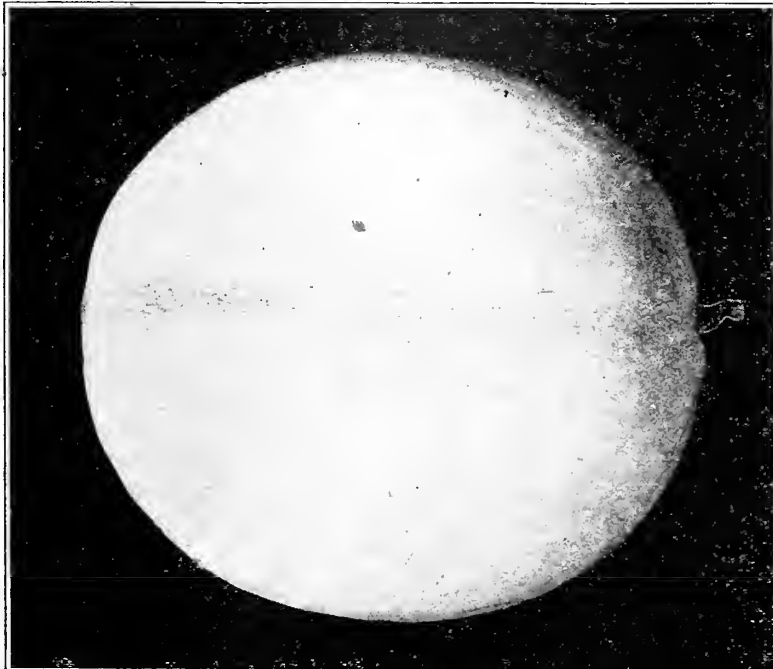

THIS IS THE EARLIEST GREEN-FLESHED MUSKMELON that we know of, being ready for the market in about 60 days after planting. It is nearly round, as may be seen by the illustration, of good size, about five inches in diameter, and of a dark green color outside, heavily netted. The flesh is very thick, of a rich green color, sweet, luscious and melting, and the flavor is unsurpassed by that of any other variety.

Mr. E. E. Goetschel, 1919 Kansas Ave., Kansas City, Mo., writes, "I sent to you for 1 lb. Earliest Ripe Muskmelon and began to sell melons early in July. Some of the stores would not believe that I raised them, but claimed I had shipped them in. They were wonderful quality and sold rapidly. Your seed gives big returns." It is an enormous cropper, bearing for a long time. We sold more than 100,000 packages of this Earliest Melon last year, and we have made just that many thousand melon growers pleased, delighted and happy. If you want to make money on Earliest Melons there is no other variety in the wide world that you can plant that will give quicker returns than SALZER'S EARLIEST RIPE MUSKMELON.

Salzer's
Earliest
Ripe

606—Salzer's Earliest Ripe Muskmelon—Pkg., 10c; oz., 20c; ¼ lb., 60c; ½ lb., \$1.15; lb., \$2.25, postpaid.

Salzer's Famous Honey Ball

SALZER'S HONEY BALL

We are the introducers of this wonderful new Melon, which seems to be taking the country by storm. From our own trials and from reports from all over the country the Salzer's Honey Ball Cantaloupe possesses characteristics that make it one of the finest Cantaloupes that has ever been introduced. It is the result of a cross between the Texas Cannon Ball Cantaloupe and the Honey Dew Casaba Melon.

Salzer's Honey Ball averages a little larger in size than the Rocky Ford. Shape, round as a ball, slightly netted, and has a very thick wall of very delicious green meat clear to the rind. Very small seed cavity, high sugar content and delicious flavor. The rind is hard and tough which makes it a splendid shipper. Color of rind greenish white until fully ripe, when they turn to a light yellow. Very prolific vines this year having as many as 25 fine Melons to the plant.

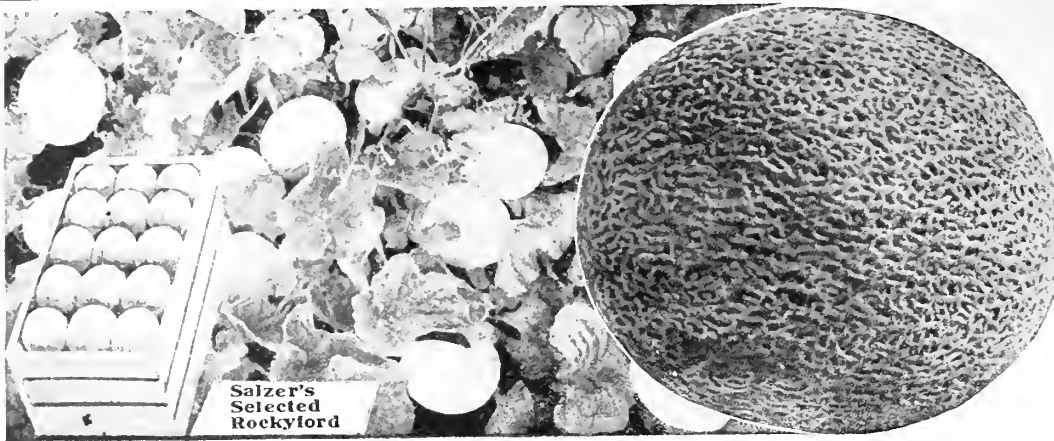

These melons, being of uniform size, pack nicely 12 to the crate, and frequently yield 600 dozen melons per acre. Grow best on sandy loam. Mr. H. W. Dohl, R. D. 1, Sylvan Grove, Kansas, writes, "Your Honey Ball Muskmelons sold like hot cakes, at 30c to 40c each. I picked the last ones on October 23."

620—Pkg., 10c; oz., 20c; ¼ lb., 67c; ½ lb., \$1.29; lb., \$2.50, postpaid.

EXTRA EARLY HACKENSACK

Also called Turk's Cap. The flavor is sweet and delicious, with green flesh. Has flattened ends, thick irregular ribs and is densely netted. A heavy yielder and very popular. 609—Pkg., 5c; oz., 12c; ¼ lb., 35c; ½ lb., 65c; lb., \$1.25, postpaid.

Your Earliest Ripe Muskmelon heads the list for earliness, dependability, quality and immunity from disease.—H. L. Weyson, Box 163, Dublin, Va.

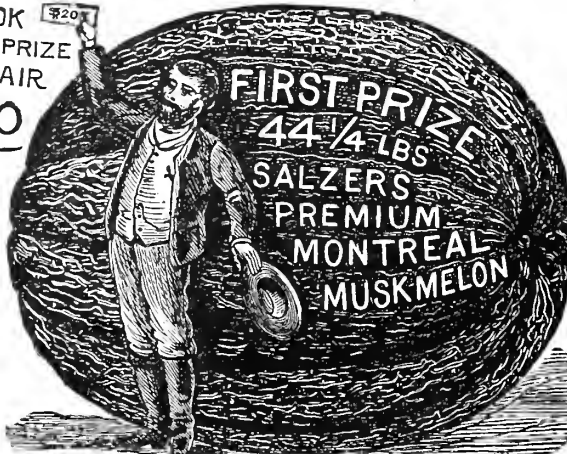

SALZER'S SELECTED ROCKY- FORD

The standard green-fleshed shipping melon. It is round in shape, heavily netted, and runs very uniform in size. Thousands of cars of Salzer's Selected Rockyford are annually shipped great distances to market. It is one of the finest melons in cultivation, and is found on the bills of fare in all the leading hotels

MONTREAL MARKET

The largest of all green-fleshed varieties, and the flavor is deliciously sweet. The fruit is nearly round, slightly flattened at the ends, with broad, regular, deep ribs, skin dark green, densely netted. Flesh is thick, light green, of luscious and melting quality. Because of its immense size, it is a fine variety for fairs and exhibition purposes. 612—Pkg., 5c; oz., 12c; ¼ lb., 35c; ½ lb., 65c; lb., \$1.25, postpaid.

Salmon and Yellow-Flesh Varieties

SALZER'S HEARTS-OF-GOLD

A highly rust-resistant and very profitable melon, which we introduced in 1927. Our sales of this superb variety were enormous and all who planted were most emphatic in their praises of Hearts-of-Gold. This highly flavored melon is the result of an accidental cross between Osage and Netted Gem. It combines the thick, luscious, golden flesh of the Osage with the heavy netting and thin rind of the Netted Gem type of Rockyford, and averages 6 to 8 inches in size, making it an ideal basket and crate melon. It is extremely resistant to rust, is remarkably hardy and withstands heavier frosts than other varieties. Matures in about 75 days. A grand variety for the market, private homes and hotels. It is enormously productive and is in great favor everywhere.

619—Pkg., 10c; oz., 13c; ¼ lb., 40c; ½ lb., 75c; lb., \$1.45, postpaid.

SOW SALZER'S SEEDS

The plants I got from you, bloomed beautifully.—Rev. W. E. Sund, St. John's Lutheran Church, Capac, Mich.

I have been buying Salzer's Seeds for 40 years.—S. J. Williams, Calvin, Okla.

More than 50 years ago, my father was a customer of yours.—Mrs. C. P. Donley, Marcus, Wash.

and restaurants of America. The green flesh is firm, thick, of sweet and melting quality, and may be eaten close to the rind. Seed cavity is unusually small. The netting is extremely well developed, closely laced of gray color, covering the entire fruit. The vines are of vigorous growth, disease-resistant and are enormously productive. Fruits average about 1½ pounds in weight, just the size demanded by hotels and restaurants. A great market variety and especially recommended for shipping. Matures in about 80 days.

604—Pkg., 5c; oz., 10c; ¼ lb., 29c; lb., \$1.00, postpaid.

GREEN FLESHED HONEY DEW

Medium sized, 6 to 7 pounds in weight, about 7 inches in diameter, and slightly oblong. Skin is smooth and when ripe is lemon yellow. Flesh is very thick, light emerald green color, fine-grained, melting, delicious, and good to the rind. Picked just before they are ripe and stored in a cool place, they will keep for a long time. Splendid shipper. 635—Pkg., 5c; oz., 12c; ¼ lb., 35c; lb., \$1.40, postpaid.

MEXICAN BANANA

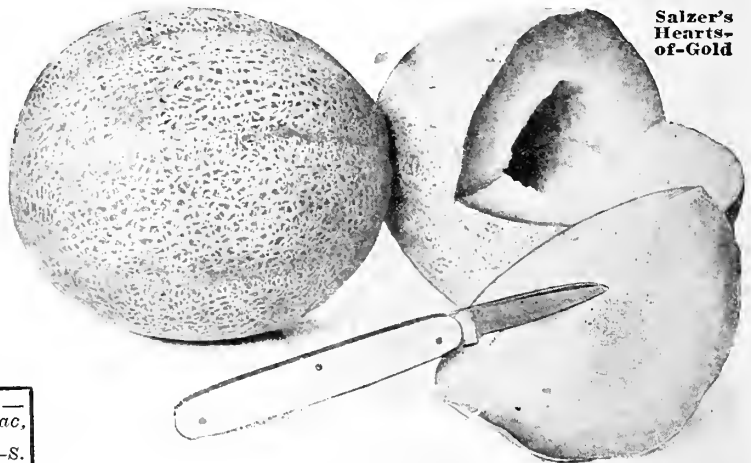

An extremely long melon, tapering at both ends, lemon colored skin when mature, pink flesh, and really having delicious eating qualities. It resembles the banana in many respects, only that it is very much larger, growing from 18 to 30 inches long and from 4 to 6 inches in diameter. 641—Pkg., 9c; oz., 12c; ¼ lb., 35c; ½ lb., 65c; lb., \$1.25, postpaid.

VINE PEACH

Similar to, and cultivated like, Muskmelons. Fruits are the size of peaches, bright orange color and are splendid for sweet pickles, pies or preserves. 618—Pkg., 10c; oz., 40c; 2 oz., 75c; ¼ lb., \$1.35; ½ lb., \$2.55, postpaid.

Mexican Banana

Salzer's
Hearts-
of-Gold

Your Juicy Fruit Muskmelons were in such heavy demand, that I could not furnish enough of them.—Emsley Peach, R. D. 1, O'Fallon, Ill.

SALZER'S JUICY FRUIT

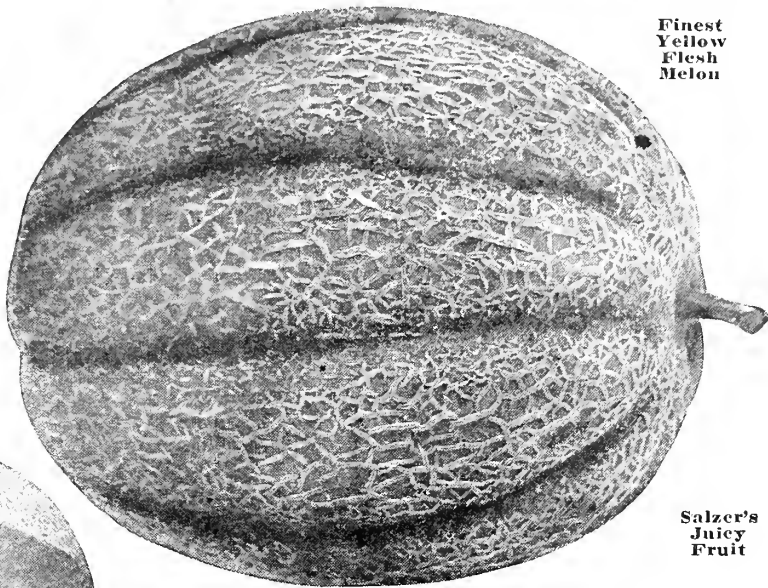

(Salmon and Yellow-Flesh Melons)

Salzer's Juicy Fruit, introduced by us six years ago, is the grandest salmon-fleshed melon in cultivation today, it is medium early, it is wonderfully sweet, it is a heavy yielder, it is devoid of stringiness, it is very meaty and it has a small seed cavity. In the short time we have been offering Juicy Fruit, it has become decidedly popular, not only with home gardeners, but also with truckers.

Mr. Chas. Haurigan, 425 W. Washington St., Fremont, Nebr., writes, "Your Juicy Fruit Muskmelons were the finest we ever ate."

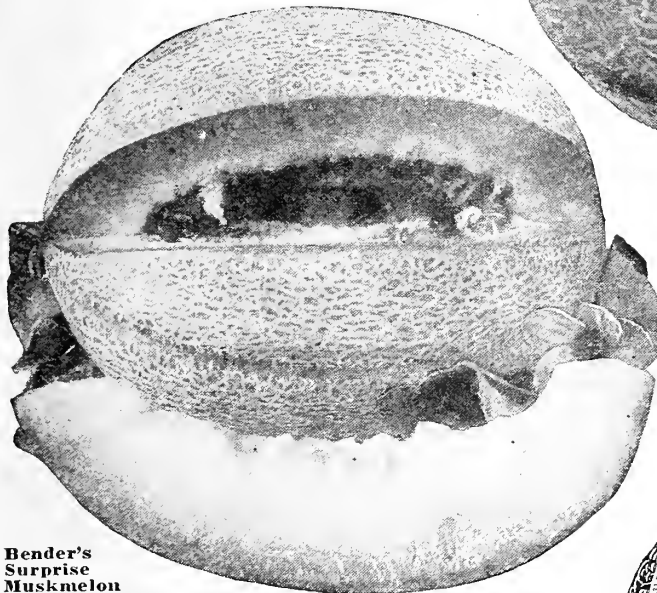

The skin is an attractive light green, the fruits reach a very large size, they are nearly round with slight sutures, and the thick salmon colored flesh is the sweetest, the most luscious, the most sugary flavored, that we have ever eaten. The melons are uniform in size and pack nicely ten to a crate.

605—Pkg., 14c; oz., 20c; ¼ lb., 60c; ½ lb., \$1.15; 1 lb., \$2.25, postpaid.

SALZER'S OSAGE

On the heavy soils where other varieties do not thrive, Salzer's Osage will succeed; in sandy soils it does even better and is a money-maker for gardeners. It is very seldom that Salzer's Osage does not produce a fine fruit and it holds its rich flavor longer than many other sorts. Splendidly adapted to the cooler climates. Matures in about 90 days.

Salzer's Osage is oval or egg shaped, thick, luscious salmon-colored flesh, slightly ribbed, dark green in color, and nicely netted. Skin turns to a mottled light and dark green as it ripens, with a trace of yellow. Although it will not ship great distances, it is very popular for near-by markets and is an ideal melon for the home garden. 642—Pkg., 10c; oz., 14c; ¼ lb., 38c; ½ lb., 72c; 1 lb., \$1.35, postpaid.

Salzer's
Osage

OTHER SPLENDID SORTS

BENDER'S SURPRISE—A magnificent melon for either the home gardener or trucker, maturing in about 90 days. Flesh is deep orange and very thick, of remarkably fine texture, and is very sweet and tender, notwithstanding its large size.

The large, oval shaped, coarsely netted melons often weigh from 10 to 15 pounds each! The flesh is so thick and the rind so firm, that the melons keep for a week after picking, the flavor actually improving. 625—Pkg., 10c; oz., 16c; ¼ lb., 53c; ½ lb., \$1.02; 1 lb., \$1.95, postpaid.

MILWAUKEE MARKET—Light green skin, fruits nearly round, deep, thick, luscious salmon colored flesh that has practically no tendency to stringiness, and which is deliciously sweet. It is very popular with truckers and we recommend it highly for the home gardener. 622—Pkg., 10c; oz., 14c; ¼ lb., 38c; ½ lb., 72c; 1 lb., \$1.35, postpaid.

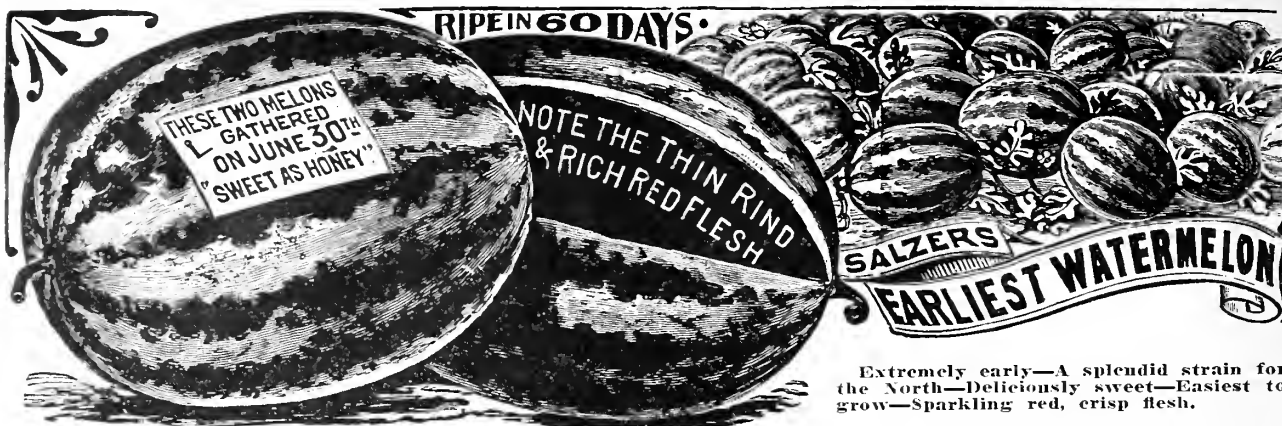

EMERALD GEM—The skin is smooth and deep emerald color, the flesh is thick and of delicate salmon tint. The vines bear early and are exceedingly prolific. Flesh is very thick, with thin rind and small seed cavity. Matures in about 70 days. 639—Pkg., 5c; oz., 12c; ¼ lb., 35c; ½ lb., 65c; 1 lb., \$1.25, postpaid.

POLLOCK 10-25—A salmon tinted melon of the well-known Rockyford type. Runs very uniform in size, is early and is of the highest quality, with flesh thick, sweet and sugary. Splendid shipper. 614—Pkg., 5c; oz., 10c; ¼ lb., 29c; ½ lb., 55c; 1 lb., 95c, postpaid.

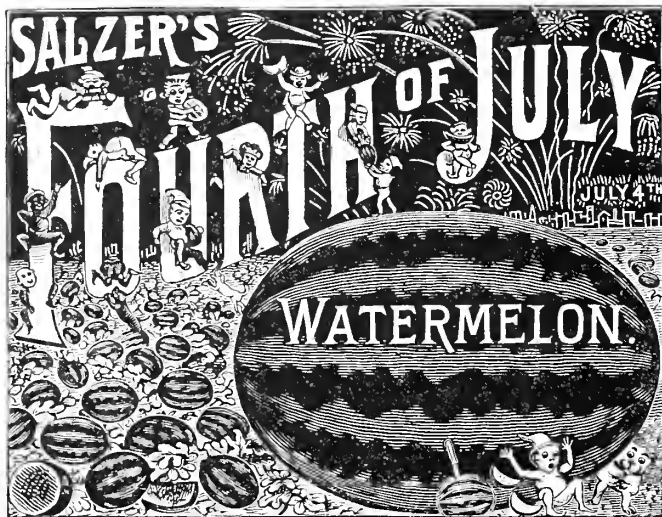

GOLDEN FLESHED HONEY DEW

Of the same fine characteristics as the Green Fleshed Honey Dew described on Page 38, except that the sweet and sugary flesh is a beautiful, rich golden yellow. 634—Pkg., 10c; oz., 13c; ¼ lb., 40c; ½ lb., 75c; 1 lb., \$1.45, postpaid.

Salzer's Juicy Fruit Muskmelons have no equal in the U. S. A., nor Salzer's Giant Flat Dutch Cabbage.—
Mrs. O. L. Jackson, R. D. 1, Box 117-A, Albuquerque, N. M.

Extremely early—A splendid strain for the North—Deliciously sweet—Easiest to grow—Sparkling red, crisp flesh.

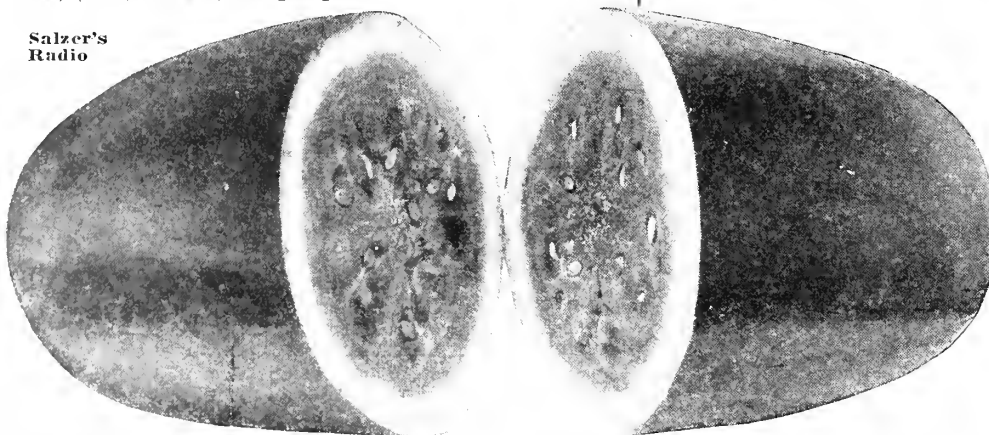

SALZER'S FOURTH OF JULY

A sure yielder, a heavy cropper and second only to Salzer's Earliest as an extra-early watermelon. The melting sweetness of this superb melon, the delicious, exquisitely flavored flesh, its hardness and ease of growth, have delighted gardeners everywhere. As far north as Canada, Salzer's Fourth of July will supply the tables just as bountifully as it does in the sunny regions of the South. Matures an abundant crop of first quality melons twelve inches long and nine inches in diameter, weighing about 25 pounds. The rich, red, fine-grained flesh ripens clear to the rind and is most luscious and refreshing. Not suited for shipping but a grand melon for home use and near-by markets. Thrives even under neglect. Matures in about 65 days.

671—Pkg., 10c; oz., 12c; ¼ lb., 35c; ½ lb., 65c; 1 lb., \$1.25; 2 lbs., \$2.30; 5 lbs., \$4.95, postpaid.

Salzer's
Radio

SALZER'S EARLIEST WATERMELON

Especially bred and developed for those sections which have a short growing season. Salzer's Earliest is sure to be the first watermelon on the market, being fit for the table in about 60 days. On the La Crosse market, the earliest melons fetch prices of 50c to 80c each! Salzer's Earliest has been a money maker for market gardeners for years and is in no less demand by the home gardener who wants the very earliest, sweet, luscious watermelons for his own use.

Salzer's Earliest reaches a large size, weighing from 25 to 30 pounds, is rather round in shape, of an attractive light green color and striped irregularly with darker green. It is enormously prolific, vines are vigorous and hardy and it is decidedly a short season melon and especially adapted for the North. The sparkling, crisp, red flesh is of wonderfully fine texture, has a delicious and exceptionally sweet flavor and ripens down to the rind. Unusually uniform in size and shape, it is a splendid shipper, and is a leading market variety in all parts of the country. It is unquestionably the very best extra early watermelon grown and we strongly recommend it. Even in sections too cool to ordinarily grow a crop of watermelons, Salzer's Earliest will ripen and produce fine large melons.

667—Pkg., 10c; oz., 16c; ¼ lb., 43c; ½ lb., 79c; 1 lb., \$1.50; 2 lbs., \$2.90; 5 lbs., \$7.05, postpaid.

SALZER'S RADIO

Introduced by us in 1926. Salzer's Radio Watermelon is large and heavy, the heaviest melon recorded, weighing 77 pounds 14 ounces, almost 78 pounds! It is long and thick, measuring from 15 to 18 inches in diameter and 26 to 29 inches in length. Matured melons have a glossy dark green rind, indistinctly striped with a lighter green, which is medium thick and tough, and hence insures long keeping and shipping to distant markets. The thick, red, sweet flesh of Salzer's Radio is entirely free from hard centers and shows no tendency to stringiness. All who have eaten it, remark about its luscious quality and its splendid flavor. Seed cavity is small.

It is enormously prolific. We have inspected fields where the owner predicted a carload of 40 to 45 pound melons per acre and every melon good and salable. Sells at local markets just as well as at distant markets and for just as high prices. Home gardeners who grow Radio

will produce melons that will be the wonder of their community.

655—Pkg., 12c; oz., 25c; 2 ozs., 40c; ¼ lb., 70c; ½ lb., \$1.30; 1 lb., \$2.50; 2 lbs., \$4.90; 5 lbs., \$12.00, postpaid.

GOLDEN HEART

A heavy yielding bright golden fleshed melon of rich luscious sugary flavor. It is nearly round in shape with a dark green rind and still darker green mottled stripes. Matures in 90 days. The rich yellow flesh extends clear to the rind. Averages 20 pounds in weight.

692—Pkg., 10c; oz., 12c; ¼ lb., 35c; ½ lb., 65c; 1 lb., \$1.25; 2 lbs., \$2.35; 5 lbs., \$5.15, postpaid.

We had watermelons as big as a large dish pan, of excellent quality, from your Earliest Watermelon seed.—Mrs. J. D. Johnson, Box 54, Cordova, Nebr.

KLECKLEY SWEET

Also called Monte Cristo. Fruits are large and it is one of the most widely used for nearby markets. Has a big, solid, superb quality heart and as its name indicates, the flavor is wonderfully sweet. Matures in 90 days. It is long and symmetrical in shape, frequently reaching 22 inches or more in length, and weighs about 40 pounds.

689—Pkg., 10c; oz., 15c; ¼ lb., 29c; ½ lb., 55c; 1b., \$1.00; 2 lbs., \$1.85; 5 lbs., \$3.95, postpaid.

KING & QUEEN WATERMELON

Perfectly round, averages about 10 pounds in weight and has small black seeds. The flesh is bright red, crisp and juicy and the outside color is white with indistinct green stripes. Originated in the Volga Valley of Russia. Can be stored until February, retaining its attractive appearance and delicious qualities in full. Think of serving fresh watermelon in winter! We introduced this in 1924 and everybody reports fine success with it.

657—Pkg., 10c; oz., 12c; ¼ lb., 37c; ½ lb., 71c; 1b., \$1.35; 2 lbs., \$2.55; 5 lbs., \$6.20, postpaid.

COLE'S EARLY

Almost round, dark green, thin rind, black seeded, and very sweet. Not a shipper but fine for nearby markets. Bright red flesh, crisp, solid and sweet. Very early. Matures in 80 days. 664—Pkg., 5c; oz., 9c; ¼ lb., 24c; ½ lb., 45c; 1b., 85c; 2 lbs., \$1.58; 5 lbs., \$3.75, postpaid.

ICE CREAM OR PEELESS

A white seeded early variety of exceptional merit. Has oblong shape and a very thin rind of a light green color, faintly mottled. A very prolific variety, not adapted for shipping, but fine for home or nearby markets. Splendid for the North; matures in 80 days. The vines are vigorous, hardy and productive. Flesh is bright scarlet, crisp and exceedingly sweet.

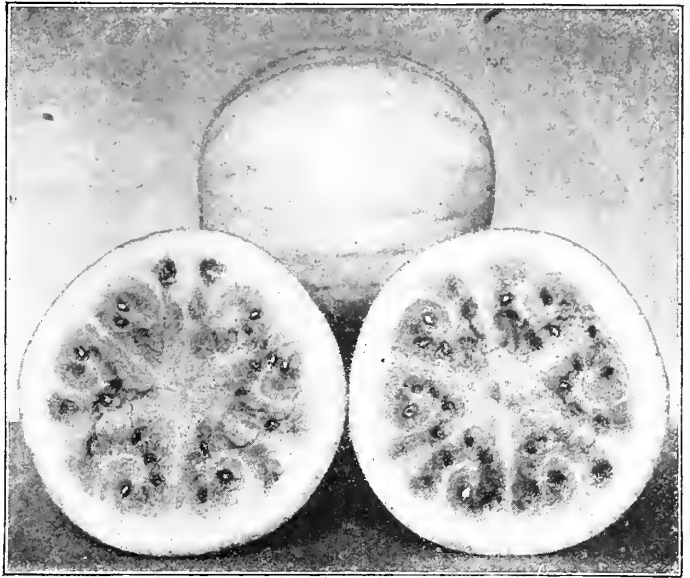

677—Pkg., 5c; oz., 10c; ¼ lb., 29c; ½ lb., 56c; 1b., \$1.00; 2 lbs., \$1.80; 5 lbs., \$3.95, postpaid.

SWEETHEART

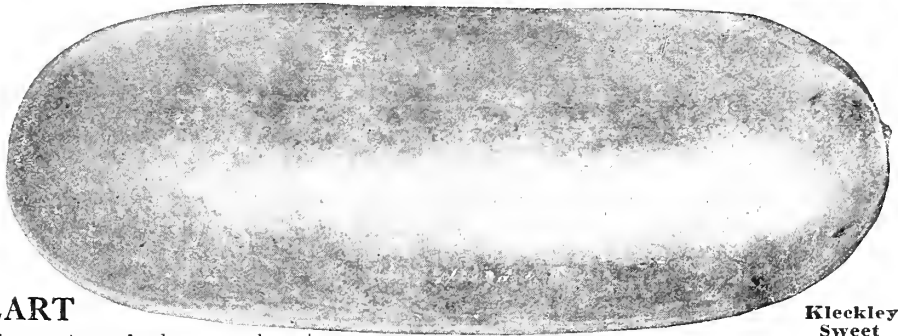

A medium early variety producing extremely large melons of excellent quality, the tough, elastic rind making it an excellent shipper. The seeds are black and the flesh very fine. It has an extremely "sweet heart" which is the all desirable essential in a melon.

Vigorous and productive vines. Large, oval, heavy fruits that ripen evenly. The rind is firm, light green, veined or mottled with darker shade. Bright red flesh, solid, sweet and free from core (hence its name). Keeps well and improves after ripening.

688—Pkg., 7c; oz., 9c; ¼ lb., 26c; ½ lb., 47c; 1b., 90c; 2 lbs., \$1.68; 5 lbs., \$3.95, postpaid.

Salzer's King and Queen Watermelon

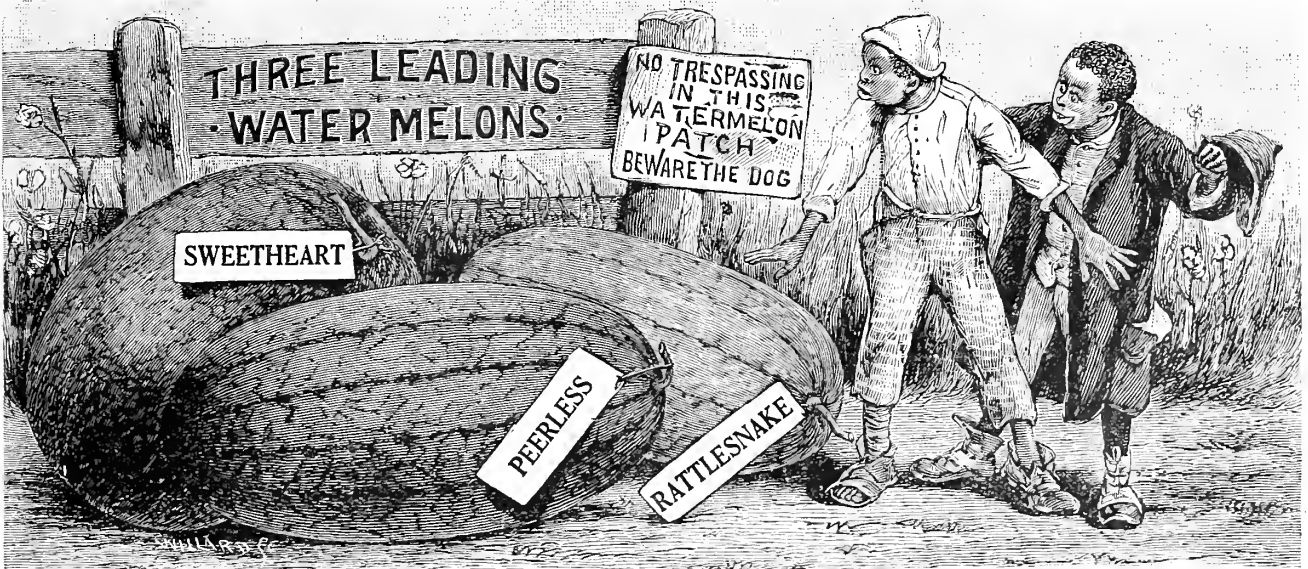

Kleckley Sweet

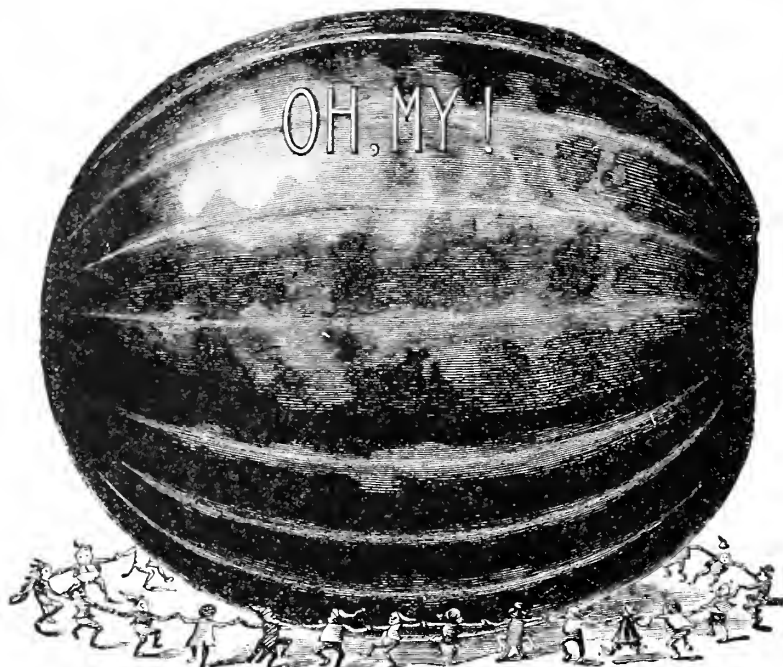

RATTLESNAKE

A long, fairly large melon with light green color irregularly mottled with dark green stripes. An excellent shipping melon with unexcelled eating qualities, the Rattlesnake is a standard variety. The seed is white with dark tips. Weight about 25 lbs.

Equally well known as Gypsy Melon. This home and market melon has been a favorite for thirty years. Thin rind, solid, dark red flesh, sweet and tender. Matures in about 90 days. 672—Pkg., 7c; oz., 10c; ¼ lb., 27c; ½ lb., 50c; 1b., 95c; 2 lbs., \$1.78; 5 lbs., \$4.00, postpaid.

Your King and Queen Watermelon kept perfectly until the middle of December.—William Dullard, Elgin, Iowa.

HUNGARIAN HONEY

It not only ripens early (in 80 days) but it is deliciously sweet, with firm, solid, deep red flesh, and small seeds. Melons are nearly round, medium in size, weigh 8 to 12 pounds each, and rind is dark green. A heavy yielder. The "sweet-as-honey" flesh compensates the grower for the rather small size.

676—Pkg., 7c; oz., 9c; $\frac{1}{4}$ lb., 28c; $\frac{1}{2}$ lb., 53c; lb., \$1.00; 2 lbs., \$1.85; 5 lbs., \$4.45, postpaid.

RED SEEDED CITRON

Grown exclusively for preserves and pickles. The fruits are perfectly round, striped alternately dark and light green. The flesh is thick, hard, and clear white and the vines are enormously productive. Makes delicious preserves. Seed is red. Matures in 95 days. Will keep for long periods.

663—Pkg., 10c; oz., 12c; $\frac{1}{4}$ lb., 35c; $\frac{1}{2}$ lb., 65c; lb., \$1.25; 2 lbs., \$2.35, postpaid.

SALZER'S OH MY! MELON

The Largest Watermelon on Earth. In our latitude, by September 1st Melons of this variety have attained the enormous weight of 50 to 95 lbs.; they all grow to an enormous size. Oh, My! is an extremely prolific if not the most productive variety known. An acre will bear several thousand great Melons weighing all the way from 30 to 90 lbs., and each fit to be set before a king. The Melons are almost round in shape, of a peculiar dark brownish green color. The flesh is dark red, deliciously sweet.

We introduced this fine variety about thirty years ago and while for several years we had no seed and could not offer it, we have large and excellent quality stocks this year again. Our old customers will welcome Oh, My! and our new friends will find in it a most agreeable and deliciously sweet watermelon.

685—Pkg., 10c; oz., 16c; $\frac{1}{4}$ lb., 43c; $\frac{1}{2}$ lb., 79c; lb., \$1.50; 2 lbs., \$2.90, postpaid.

SALZER'S IRISH GREY

Salzer's Irish Grey is a long melon, rather large in size and ranks high with leading shippers. The rind is yellowish light green in color, the seed is white and its average weight is 25 pounds. Eating qualities exceptionally good.

The red flesh is unusually sweet, free from hard centers or stringiness, very firm and compact and does not break when sliced. It ripens in about 90 days and stays in good condition for a long period; withstands long shipping.

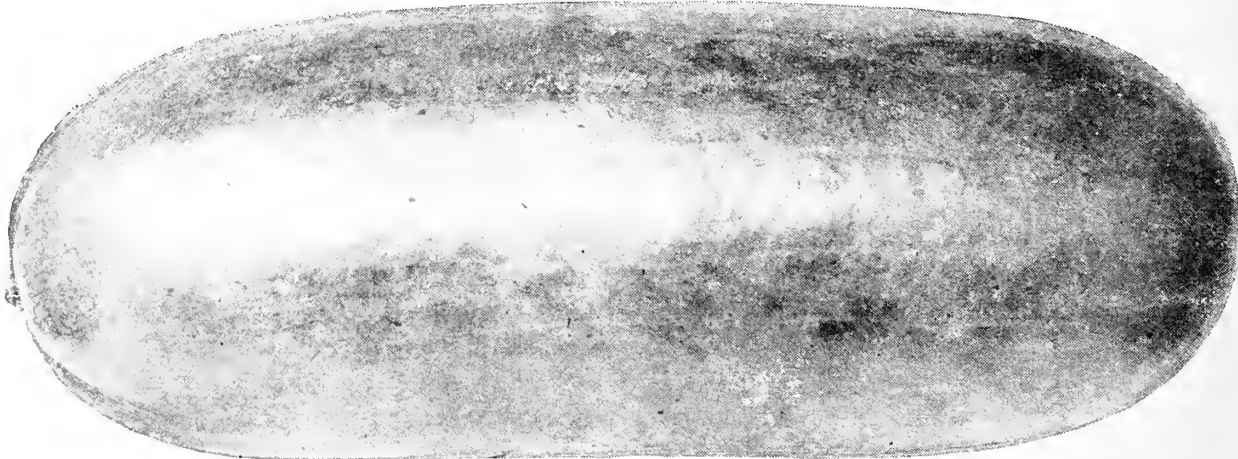

699—Pkg., 7c; oz., 8c; $\frac{1}{4}$ lb., 22c; $\frac{1}{2}$ lb., 39c; lb., 75c; 2 lbs., \$1.40; 5 lbs., \$3.25, postpaid.

SALZER'S THURMOND GRAY

A distinct new variety that has appeared on northern markets in volume during the past recent seasons. It is a good producer, stands wet weather well, and so far has not been subject to the diseases that have damaged other melons. This new melon is long and thick. The rind is of a rich greenish gray color, which makes it very hard to sunburn. It is wilt-resistant. It is very uniform in its growth, being the same size at each end and makes the most perfect car pack of any of the varieties. It will weigh from 25 to 75 pounds. It has every quality necessary for perfect shipping.

656—Pkg., 8c; oz., 9c; $\frac{1}{4}$ lb., 27c; $\frac{1}{2}$ lb., 50c; lb., 95c; 2 lbs., \$1.78; 5 lbs., \$4.25, postpaid.

IMPROVED TOM WATSON—THE PRINCE OF WATERMELONS

Without a peer! A melon in a class by itself! Salzer's Tom Watson has surprised everybody by its rapid rise in popularity. It is unsurpassed as a shipper and the big, fine quality melons sell on sight at any market. De Groot and Son of Madison, Nebraska, write, "Sold a load of 62 of your melons at market in 15 minutes." This is a record seldom, if ever, equalled.

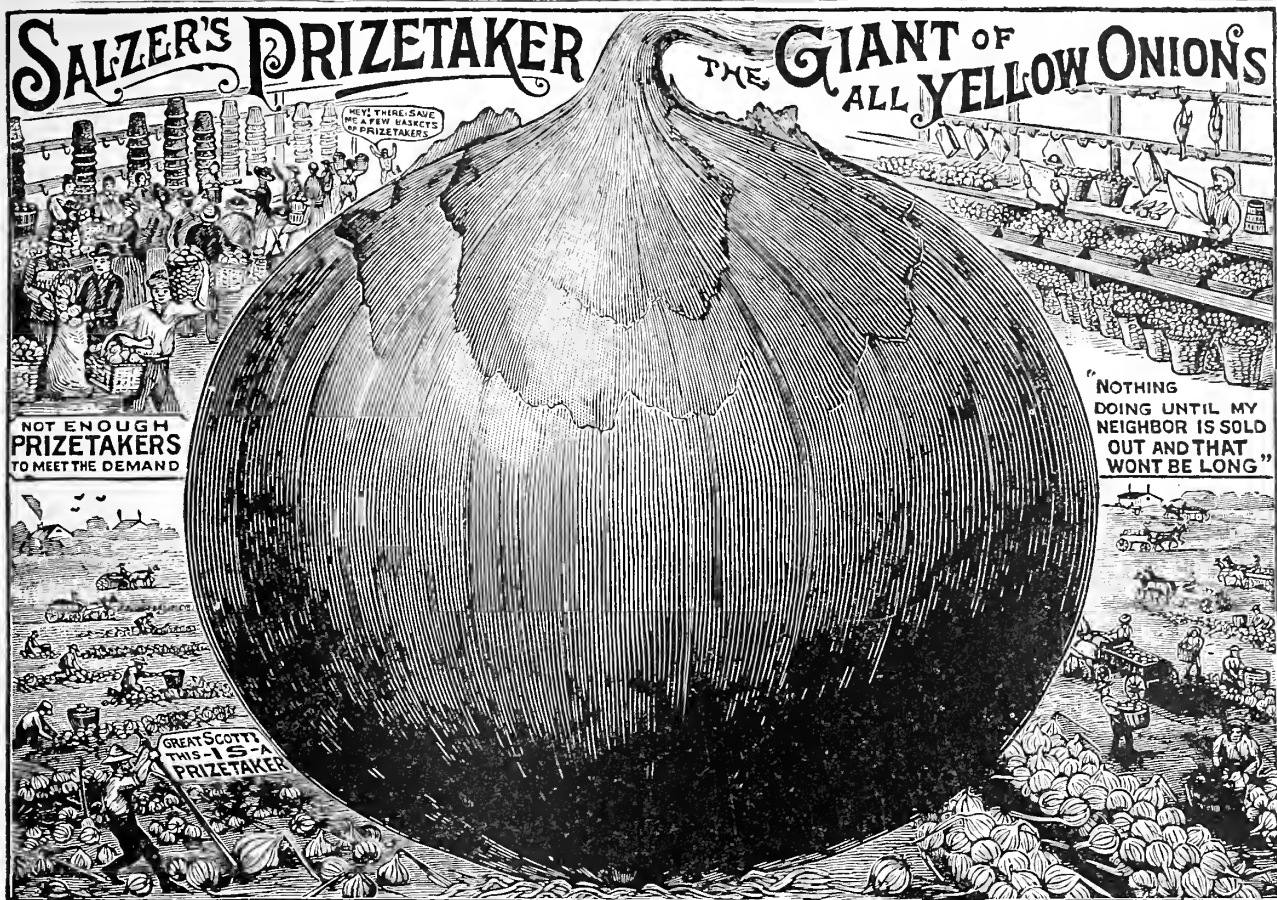

The seeds are brown with a sprinkling of white, the rind is deep green indistinctly veined, the shape is long and cylindrical and the melons often attain a weight of 40 pounds and more. The length averages 20 to 30 inches by 10 to 12 inches in diameter, and the deep red, firm flesh extends to within three-quarters of an inch of the rind. Is rather late in maturing.

It is a superior, tough, thick rind, shipping melon, adapted for long distance markets.

The vines are very vigorous and most productive. The flesh is rich red, crisp and of luscious flavor.

693—Pkg., 5c; oz., 8c; $\frac{1}{4}$ lb., 23c; $\frac{1}{2}$ lb., 43c; lb., 80c; 2 lbs., \$1.50; 5 lbs., \$3.50, postpaid.

Have gotten seed from several different companies, but I believe Salzer's is the best. This is my second year with you.—V. A. Rozell, Mansfield, S. D.

Among large onions, Salzer's Prizetaker always attracts attention by its fine size and great beauty. It is of the same type as the large Spanish onions that have been imported and sold at high prices. Plant Salzer's Famous Prizetaker this year and see what splendid size, what perfect symmetry, what delicious mildness, what fine even grain, what productiveness, what all-around attractiveness has been developed and bred into this onion at Cliffwood Farms. No need for the large Spanish onions only to sell at high prices. They cannot be distinguished from Salzer's Prizetaker, and Salzer's Prizetaker is even more superior in delicious flavor and fine appearance. It always sells at sight and at high prices—seldom for less than 5c per pound. In addition, Prizetaker comes in at a time when other onions are scarce, so the price is always high. It is a money maker for the trucker and has always given the best of satisfaction to the home gardener.

Is of clear, bright straw color, very productive, beautifully globe shaped, has a very small neck and ripens up fine and hard. Flesh is pure white, crisp, extremely sweet and mild in flavor, being unequalled even by the Spanish onions. Keeping qualities not of the best, but this is no drawback, as the onions find a ready sale always, at higher prices than other onions. Succeeds well in all sections of the country; matures rather late, in 130 to 140 days. 748—Pkg., 10c; oz., 15c; ¼ lb., 61c; ½ lb., \$1.16; 1 lb., \$2.25; 2 lbs., \$4.35; 5 lbs., \$10.65, postpaid.

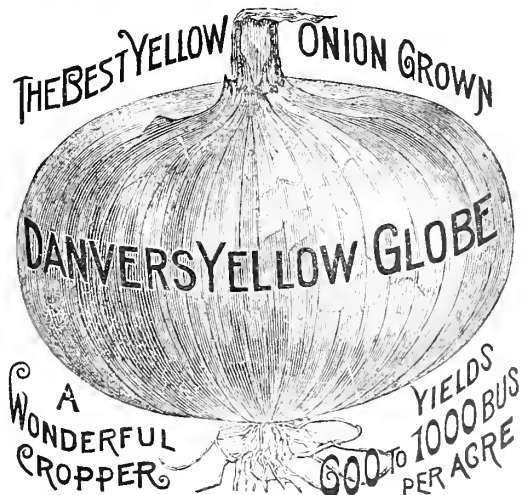

SALZER'S YELLOW GLOBE DANVERS

It is an excellent early variety, quick to mature, and is a remarkably good keeper. Because of its quickness in maturing it is an ideal onion to plant in the North. Yellow Globe Danvers is very productive, is an excellent keeper, is mild and full flavored, and has a uniform rounded shape, which is almost spherical. It is perhaps the best all around onion, and is very highly esteemed and very well liked by all those who grow only one variety. Of a rich, coppery yellow, it reaches 2½ to 3 inches in size, with coats numerous and closely set.

Extensively used for general cultivation for home and market. A main crop and standard yellow onion everywhere. Produces medium to large sized bulbs of a uniform globe shape that ripen very evenly. Necks ripen down small. It is a good, reliable shipper. Attractive, rich, yellow skin.

The flesh is creamy white, crisp, tender, mild and of fine flavor. For general table and cooking use this variety is unexcelled. Grows well anywhere in the United States. Matures in 120 days.

755—Pkg., 10c; oz., 15c; ¼ lb., 49c; ½ lb., 91c; 1 lb., \$1.75; 2 lbs., \$3.35; 5 lbs., \$8.15, postpaid. Write for prices in larger quantities.

I raised Prizetaker Onions from Salzer's Seeds, 15 inches and 18 inches in circumference.—Merton P. Nelson, West Blvd. & Lake View Ave., R. D. 5, Pontiac, Mich.

SALZER'S SELECTED GREAT RED WETHERS- FIELD ONION

The Most Largely Grown Red Variety—the Greatest Cropping and the Standard American Red Onion.

Large bulbs, flattened, but quite thick, with rich, dark purplish skin and pure white flesh of good, mild flavor. Our stock is well bred and will invariably grow crops quite free from necky and mis-shapen bulbs, and onions of the largest size averaging about ½ lb. each, but specimen bulbs of one and even two pounds have often been grown from our seed. Salzer's Great Red Wethersfield produces larger crops than any other American red onion and these bulbs keep longer in good condition than those of any other sort. It gives its largest yield on rich land, but on poor and dry soils it yields better than any other sort. It is a medium early kind, maturing in about 100 days, and is adapted to varied soils and to adverse climatic conditions. Has an exceedingly fine neck, and long, slender leaves of a clear green color.

From every section of America we have received glowing letters of the success our customers had with this splendid Onion, sweeping every state and county fair before them. One raised 16 bu. from 1 ounce; another 200 bus. from 1 pound; a third over 1,000 bus. per acre, etc.

This is the onion for the farmer, the citizen and the gardener to grow, to put in their cellars for the winter, because it is one of the easiest to grow, is certainly one of the best keeping Onions, always of excellent quality. It's the greatest money maker, because it is so heavy a yielder, and all Onions are so fine that they sell at good prices in all markets. John Honzik, Malin, Ore., writes, "My Red Wethersfield Onions, your seed, weighed from 1 to 2 lbs. each." 791—Pkg., 10c; oz., 17c; ¼ lb., 55c; ½ lb., \$1.05; 1 lb., \$2.00; 2 lbs., \$3.85; 5 lbs., \$9.40, postpaid.

AILSA CRAIG

A standard, popular, handsome variety, oval shaped and with pale, straw-colored skin. Flesh is white, crisp and juicy, and for a large onion it is a splendid keeper. Very mild, delicious flavor, and desirable for eating raw.

736—Pkg., 10c; oz., 17c; ¼ lb., 55c; ½ lb., \$1.05; 1 lb., \$2.00; 2 lbs., \$3.85; 5 lbs., \$9.40, postpaid.

EARLY WHITE WELCH

Planted for green onions only; this variety does not form bulbs, but only a small enlargement at the base of each shoot; it is extremely early. It is a perennial and stays in the ground for years. Market gardeners will find it a profitable crop. 788—Pkg., 10c; oz., 25c; ¼ lb., 81c; ½ lb., \$1.56; 1 lb., \$3.00; 2 lbs., \$5.80, postpaid.

GRANDPA'S CONGLOMERATION

Turn back in thought to the days of your youth, when Grandpa and Grandma planted the vegetable garden. There was always a large corner in which a mixture of different kinds of Onion seeds was planted on the theory that if one sort did not do well the other sort would, and in that way it happened always that there never was a shortage of Onions. If the good housewife wished a mild white for salads, it was always found therein; if she wished a more pungent one, that was taken and with this in view we have arranged "Grandpa's Conglomeration Onion Mixture"; it contains every known sort, all colors, shapes and sizes.

758—Pkg., 10c; oz., 15c; ¼ lb., 49c; ½ lb., 91c; 1 lb., \$1.75; 5 lbs., \$8.15, postpaid.

AUSTRALIAN BROWN

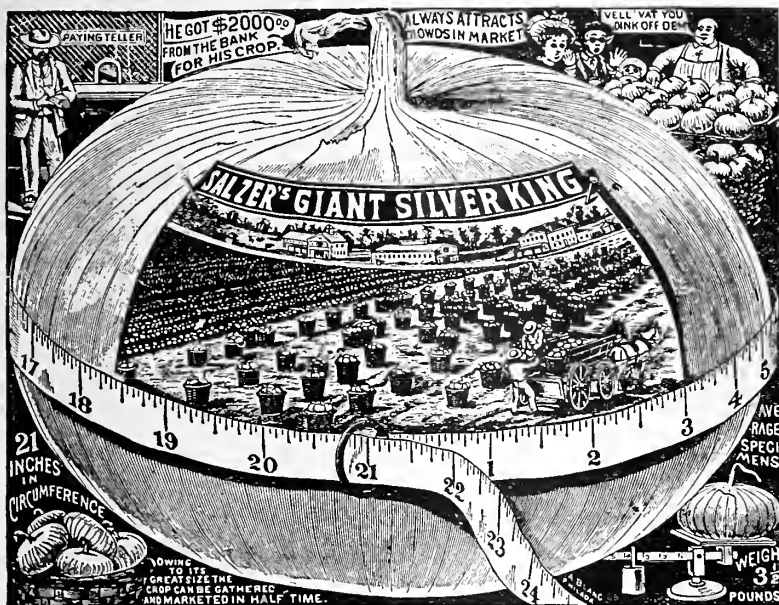

Unsurpassed in keeping qualities, early and a sure and heavy cropper. It is a hard variety, of medium size, with rather thick skin of a rich amber brown color. Flesh is white, fine-grained, very mild and sweet. Matures 105 days. 737—Pkg., 10c; oz., 15c; ¼ lb., 49c; ½ lb., 91c; 1 lb., \$1.75, postpaid.

AUSTRALIAN BROWN

Your Red Wethersfield Onions were extra nice; I think they were the finest around here.—John A. Wentworth, Moody, Me.

Salzer's Giant Silver King Onion

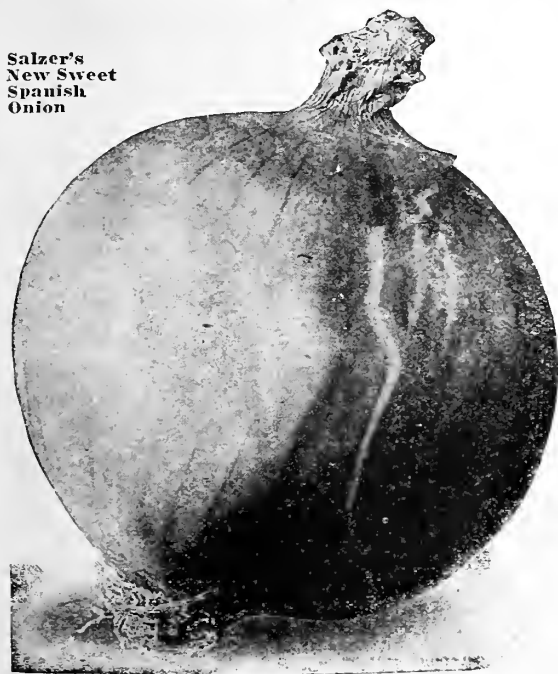

SALZER'S EBENEZER

The mildest flavored onion we have ever tasted, and it will keep hard and sound all winter long. Flesh is white and crisp, rounded shape, straw colored skin. One of the best mild onions for the home garden.

Salzer's Ebenezer is a leading variety with gardeners everywhere because of its unusual keeping qualities, carrying through winter without loss, because of its pleasing flavor, attractive appearance, and its large uniform size. It is also equally valuable for the home gardener. Numerous testimonials received each year, bespeak the wonderful satisfaction this superb onion is giving.

765—Pkg., 10c; oz., 22c; 2 oz., 39c; ¼ lb., 74c; ½ lb., \$1.42; 1 lb., \$2.75; 2 lbs., \$5.35; 5 lbs., \$13.10, postpaid.

Salzer's
New Sweet
Spanish
Onion

found anything that equals Salzer's Silver King Onions." Salzer's Giant Silver King is enormously productive and every one desiring the largest and handsomest white onions of the finest flavor will be more than satisfied with this superb strain. Matures in 110 days.

742—Pkg., 10c; oz., 22c; ¼ lb., 74c; ½ lb., \$1.42; 1 lb., \$2.75; 2 lbs., \$5.35; 5 lbs., \$13.10, postpaid.

SALZER'S NEW SWEET SPANISH ONION

Here is a grand, brand new, and entirely distinct onion that we introduced in 1926! It will mean a profit of from \$200.00 to \$300.00 more per acre than is possible with other onions. Salzer's New Sweet Spanish is so mild and sweet that it is simply delicious when eaten out of the hand like an apple.

It is one of the largest and one of the best all around onions ever produced. It is a fine, attractive, light yellow color. It is a dandy shipper. It is of a handsome, large, globular shape, and the sparkling flesh is pure, clear white, tender, and remarkably sweet and luscious. At Cliffwood Farms we picked up a few of these onions at random and placed them side by side on a yardstick. It took just seven to measure 36 inches, and they weighed 16½ pounds. Once tasted, always grown. Sells like wildfire on any market and at the best possible prices. Splendid for the home garden. Don't pass this by.

764—Pkg., 10c; ½ oz., 15c; oz., 24c; 2 oz., 42c; ¼ lb., 79c; ½ lb., \$1.53; 1 lb., \$2.95; 2 lbs., \$5.70, postpaid.

WHITE PORTUGAL OR SILVERSKIN

A very popular and widely grown white onion. It is a splendid sort for growing white onion sets, pickles, and for early bunching green onions, and we urge every gardener to make a liberal sowing of this variety for continuous use. The large, mature onion is of mild and pleasant flavor and is of somewhat flattened shape. A great seller on the market. It is very popular for family use, it is an ideal slicer and the smaller bulbs unsurpassed for pickling purposes. Matures quickly and may be sown as late as June to produce small pickling onions by fall. Keeping qualities are not of the best, but it is splendid for early winter use. Matures in 110 days.

757—Pkg., 10c; oz., 25c; ¼ lb., 81c; ½ lb., \$1.56; 1 lb., \$3.00; 2 lbs., \$5.80; 5 lbs., \$14.25, postpaid.

I will say that your Sweet Spanish Onion is a wonder—all you claim for it.—Wm. Dill, 124 N. Oak St., West Point, Nebr.

Salzer's Southport Globe Onions

Salzer's
Selected
Southport
White Globe

Salzer's
Selected
Southport
Yellow
Globe

Southport
Red Globe

Salzer's Select Southport strains reign supreme in the most severe test of an onion, which is its keeping quality. There are none better for keeping. Our Southport strains have been bred to produce the same uniform shape, and to leave the onions practically devoid of neck when the tops have been dried off. This feature is extremely important, as the necks are a menace to the keeping quality of the onions.

SOUTHPORT RED GLOBE

Salzer's Southport Red Globe onions are a most attractive variety, with outer skin a rich purplish-red. They have been bred to uniformity, as little neck as possible, and a size of about 3 to 3½ inches. They have a very attractive appearance, with the flesh faintly tinged a purplish-red. Southport Red Globe has a trifle stronger flavor than the yellow and white varieties, and has the same excellent keeping quality as the yellow. Under good cultivation our customers report yields of 1,000 bu. and more per acre. The slim, slender necks insure an early and sure ripening. The tops die down uniformly when the onions are ready to be pulled, and the fully matured and properly cured onion will keep all winter. Takes about 110 days to mature.

750—Pkg., 10c; oz., 18c; ¼ lb., 61c; ½ lb., \$1.16; 1 lb., \$2.25; 2 lbs., \$4.35, postpaid. See Page 47 for Onion Plants.

SOUTHPORT WHITE GLOBE

A most beautiful Onion. A very ball of silver with thin, delicate, pure white skin. The white globe onions do not grow as large nor do they yield as well as their colored brethren, but they average from 2 to 2½ inches in diameter, and the yields on good lands under proper cultivation are from 800 to 900 bus. per acre. The flesh is fine grained, crisp, of a very fine flavor and snowy white in color. Our strain is grown with the greatest care and is so superlative in quality that it has become nationally known. This white onion is in great demand in every market and will always bring the top price. Care, however, should be taken in harvesting and storing these Onions so as to always have them of the finest appearance. As soon as harvested they are best stored away in a cool, dark shed to dry, for if exposed to sunshine, rain or dew they will surely be discolored. Matures in about 120 days.

751—Pkg., 10c; oz., 23c; ¼ lb., 76c; ½ lb., \$1.47; 1 lb., \$2.85; 2 lbs., \$5.50, postpaid. See Page 47 for Onion Plants.

PARIS SILVER SKIN

Silvery white, flattened bulbs. It is one of the best early sorts, very good for pickling and is of mild, pleasant flavor. Also much used for early green bunching onions.

781—Pkg., 10c; oz., 18c; ¼ lb., 61c; ½ lb., \$1.16; 1 lb., \$2.25; 2 lbs., \$4.35; 5 lbs., \$10.65, postpaid.

Mixed Onions—See Page 44

SOUTHPORT YELLOW GLOBE

Our selection of Southport Yellow Globe is an especially fine Onion. It is of quite large size, averaging from 3 to 3½ inches in diameter, of beautiful globe shape, with a very attractive light yellow colored skin, and is a heavy yielder. Matures in approximately 110 days. The bulbs ripen down to a solid ball, thus insuring the best keeping qualities. The flesh is a creamy white, fine grained, exceedingly mild, crisp, tender and sweet. Very popular on account of its cooking qualities. Immense yields have been reported by private and market growers. Mr. Earl Nicholas, Mingo, Kans., writes, "Had 150 square rods in onions this year and they netted me \$250.00 clear. You always have real seed and it produces real goods, which, as a result, sell for good prices."

752—Pkg., 10c; oz., 16c; ¼ lb., 53c; ½ lb., \$1.02; 1 lb., \$1.95; 2 lbs., \$3.75; postpaid. See Page 47 for Onion Plants.

SALZER'S WHITE QUEEN

Our finest pickling onion, also known as White Pearl. It is of exceptional quality and the best of all the white picklers, growing to a size of about 1 inch by ½ inch thick, with a fine neck, and is an exceedingly early strain. Onions remain hard and solid and more than one crop may be gathered for pickling in one season from successive sowings. Although used more for pickling, they are of value for early green bunch onions for early use. They have a mild, sweet flavor. It is not quite as good a keeper as the Paris Silver Skin above, but it is a smaller onion and hence more used for pickling. 787—Pkg., 10c; oz., 25c; ¼ lb., 81c; ½ lb., \$1.56; 1 lb., \$3.00; 2 lbs., \$5.80; 5 lbs., \$14.25, postpaid.

Salzer's White Queen

SALZER'S ONION SETS

Planting our Hardy Northern Grown Onion Sets reduces the amount of labor to a minimum, the crop is surer to grow and is ready for use several weeks in advance of that grown from seed. In fact, the ideal way is to use both sets and seeds—the sets to grow spring and summer onions, and the seed to grow onions for late fall and winter use. A pound or two is sufficient for a small family. 10 bushels plant an acre.

EBENEZER OR "JAPANESE"—A new onion that has become extremely popular in only a few years. While it may be raised from seed, its chief value lies in producing very early onions from sets. People who know this onion will have no other kind for their own table use. The onions are round, yellow skinned, pure white fleshed and are far superior in flavor and keeping qualities to any other onion. In fact, it keeps almost the year around. Remarkably mild and tender, and a prodigious yielder. Order early. Lb., 35c, postpaid. Not prepaid: 8 lbs., \$1.25; 16 lbs., \$2.20; bu. (32 lbs.), \$3.95.

YELLOW MULTIPLIERS or SHALLOTS

Cliffwood grown. Pure silver white flesh, yellow skin; enormously productive, frequently bearing 20 bulbs in a single cluster from one single set, of excellent quality, mild, sweet and fine for bunching green. Average about 1 inch in diameter. Extremely early and of remarkable keeping qualities.

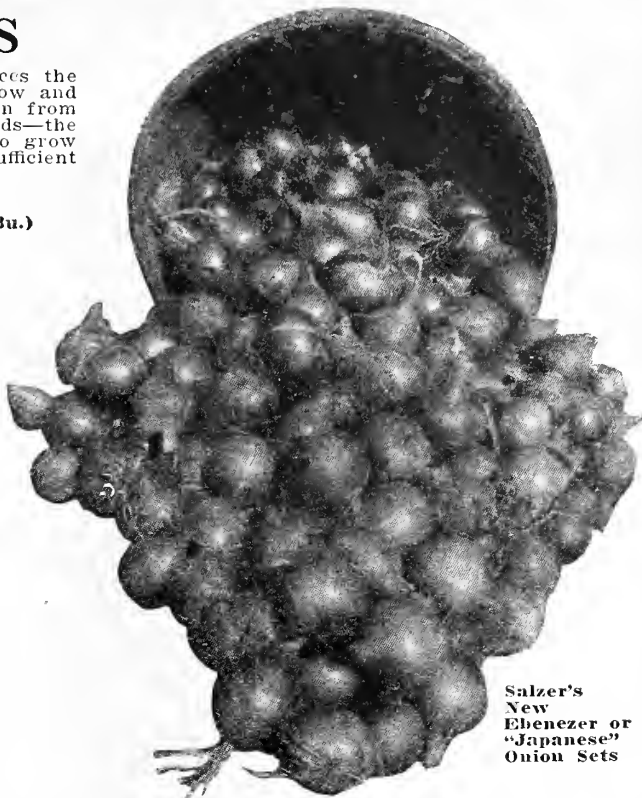

Yellow Multipliers: Lb., 45c; 3 lbs., \$1.25; 5 lbs., \$1.95, postpaid. Not prepaid: 8 lbs., \$2.00; 16 lbs., \$3.50; bu. (32 lbs.), \$6.25.

White Multipliers: Lb., 50c; 3 lbs., \$1.40, postpaid. Not prepaid: 8 lbs., \$2.25; 16 lbs., \$3.75; bu. (32 lbs.), \$6.75.

SALZER'S PERENNIAL TOP SETS

Also known as Egyptian Top Sets. Stay in the ground all year long, and produce onions as soon as the snow leaves. They are hardy and will bear for many years.

Price: Lb., 25c; 3 lbs., 65c; 5 lbs., \$1.00, postpaid. Not prepaid: 8 lbs., 95c; 16 lbs., \$1.65; bu. (32 lbs.), \$3.00.

Salzer's Extra-Hardy Onion Plants

The use of Salzer's Onion Plants is no longer an experiment. Salzer's Onion Plants are being used more and more widely each year by commercial growers, and we strongly recommend them for the home gardener and for the market gardener. They are inexpensive, they can be set out early and in addition the plants grow well-shaped onions and onions that keep as good as those grown from sets.

You can have extremely early green onions for pulling and you can have fine, large, mature onions about 2 weeks earlier than can be had from sets and very much earlier than from seed. Also, onions from plants seldom run to seed, which is a big advantage to growers. You can set these plants out just as soon as you can get them into the ground—the same as with cabbage plants. This means that you'll get earlier crops of fully developed and larger onions—the very first onions for your own table use or the very earliest onions that bring the top prices at market. Please state on your order about what date we shall send your onion plants.

Onions Grown from Salzer's Plants

SOUTHPORT RED, YELLOW OR WHITE GLOBE ONION PLANTS

See Page 47 for description of these onions. These strains are especially well suited for the northern half of the country. 100 plants for 55c; 200 plants for \$1.05; 300 for \$1.50; 400 for \$1.90; 500 for \$2.10; 600 for \$2.25; 700 for \$2.45; 800 for \$2.65; 900 for \$2.80; 1,000 for \$2.98, postpaid. Not prepaid: 1,000 to 4,000, at \$2.25 per 1,000; 5,000 and more at \$2.05 per 1,000. Shipping weight, about 6 lbs. per 1,000 plants. Be sure to state what date we shall ship your plants.

SALZER'S PRIZETAKER AND WHITE BERMUDA PLANTS—100 plants for 55c; 200 plants for \$1.05; 300 for \$1.50; 400 for \$1.90; 500 for \$2.10; 600 for \$2.25; 700 for \$2.45; 800 for \$2.65; 900 for \$2.80; 1,000 for \$2.98, postpaid. Not prepaid: 1,000 to 4,000 at \$2.25 per 1,000; 5,000 and more at \$2.05 per 1,000. Shipping weight, per 1,000 plants, 6 pounds. Be sure to state what date we shall ship plants.

NOTE: Orders must be for at least 100, and in multiples of 100 of one variety. That is, we cannot ship any orders for 50 or 150 of one variety and the balance in the other variety. Onion plants are shipped direct from our growing station and are therefore not sent with seed orders.

Your Onion Plants came yesterday and I am very well pleased with them.—Miss Anna Schmieding, R. D. 3, Box 76, Harlan, Iowa.

Parsley

SALZER'S LINCOLN GREEN—A new parsley from England. Dwarf and compact, about 5 inches high, of an attractive bright green color, exquisitely curled and highly ornamental for garnishing purposes. Richly flavored. Its hardiness makes it most valuable for early spring use, and it is also suitable for pot culture. It is a great improvement on other sorts and we are sure you will be pleased with it.

829—Pkg., 14c; oz., 18c; ¼ lb., 61c; ½ lb., \$1.16; 1 lb., \$2.25, postpaid.

DOUBLE MOSS CURLED—Grows about 7 or 8 inches high, is of rich dark green color and vigorous and compact growth. It is a handsome decorative type, the leaves being beautifully crimped and curled; often used as a border for beds and walks and is unsurpassed for garnishing meat dishes, etc., and for flavoring soups and other dishes. Parsley germinates slowly, but is hardy and easy to grow and thrives on almost any soil. Matures in about 65 days. May be potted and grown indoors for winter use. Mrs. Wm. Schuette, Box 225, Carpentersville, Ill., writes, "Had the loveliest parsley from your seed that I ever saw. It did not freeze out until January 16."

822—Pkg., 7c; oz., 10c; ¼ lb., 31c; ½ lb., 58c; 1 lb., \$1.10, postpaid.

DWARF TRIPLE CURLED—A quick growing, distinct dwarf and handsome variety of compact growth with finely cut and closely curled leaves of a deep emerald-green; very attractive when used for garnishing. Well flavored.

823—Pkg., 6c; oz., 9c; ¼ lb., 28c; ½ lb., 53c; 1 lb., \$1.00, postpaid.

TURNIP ROOTED—This variety of parsley is grown for its thick, fleshy root, which resembles a small parsnip, and which is most delicious in soups, stews, etc. Flesh is white and fine grained. Keeps well for winter use.

826—Pkg., 5c; oz., 9c; ¼ lb., 27c; ½ lb., 50c; 1 lb., 95c, postpaid.

Salzer's
Double
Moss Curled
Parsley

Parsnip

SALZER'S HOLLOW CROWN

Parsnips prefer very wet soil and will thrive where carrots will not grow. They make splendid stock feed, and horses prefer them to carrots. A freeze is required to sweeten them. For the best results, deep soil is needed, and fresh manure should not be used as it will cause the roots to divide.

Salzer's Hollow Crown is a grand variety, one of the best. It is enormously productive, roots are 10 to 12 inches long and about 3 inches thick at the shoulder. It is rich in saccharine, has smooth white skin, is uniform in shape, is sweet, tender, sugary. Not only of fine table quality, but the heavy yield and high sugar content make it very desirable for stock feeding. Parsnips will improve the richness of your cows' milk and are also relished by horses. Matures in 130 days.

832—Pkg., 10c; oz., 14c; ¼ lb., 29c; ½ lb., 54c; 1 lb., 90c; 2 lbs., \$1.70; 5 lbs., \$3.95, postpaid.

SALZER'S DELMONICO

This nationally famous strain, introduced by us, does not require such deep soil for its cultivation. It is a stump rooted variety and hence easily harvested. Roots reach a length of about 8 inches, with a thick broad shoulder, skin is smooth and white, and the flesh is fine-grained, sweet, sugary, tender and most excellent for table use. Very early, maturing in about 115 days. It is a most prolific yielder, it contains more saccharine, is sweeter and more nutritious than other sorts, and as it is so easily harvested, large acreages are grown for stock feeding. Thrives on almost any soil. This splendid variety surpasses every other in yield and quality.

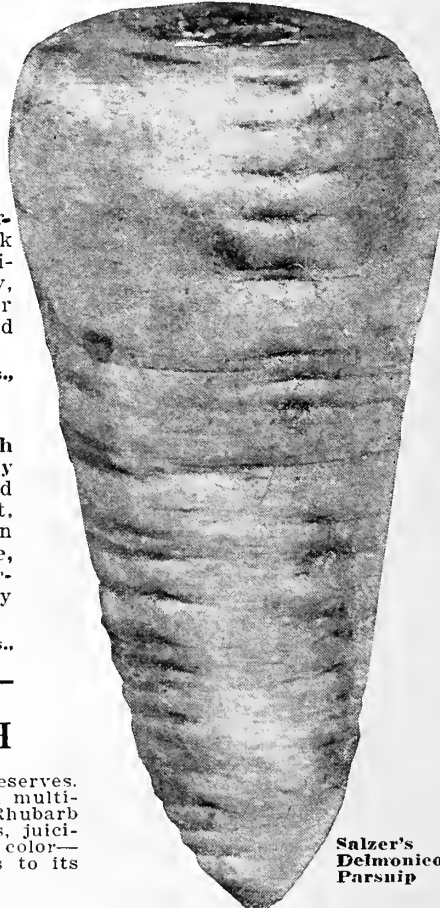

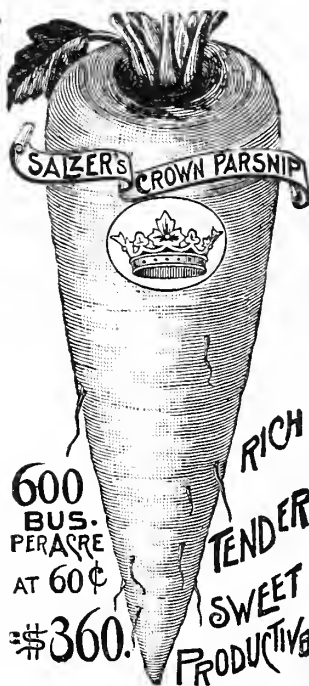

833—Pkg., 10c; oz., 13c; ¼ lb., 35c; ½ lb., 65c; 1 lb., \$1.25; 2 lbs., \$2.40; 5 lbs., \$5.80, postpaid.

Rhubarb—SALZER'S MONARCH

Rhubarb is used extensively for making tarts, pies, sauces and preserves. It is very palatable and delicious. No plant is more easily increased and multiplied than rhubarb. Every family should have some Salzer's Monarch Rhubarb in their garden. No other Rhubarb excels Monarch in richness, tenderness, juiciness, earliness, or freedom from stringiness. Rich, attractive crimson color—vastly superior to the old sorts. Stalks grow to large size without loss to its quality. Cliffwood grown seed. See Index for Roots.

1053—Pkg., 6c; oz., 10c; ¼ lb., 30c; ½ lb., 55c; 1 lb., 95c, postpaid.

Your Delmonico Parsnips yielded 50 bu. out of 6 rows, 20 rods long. Sold them at \$1.00 a bushel.—H. Carver, 592 Charlotte St., Peterborough, Ontario, Canada.

ALL RIPE SAME DAY.

SALZER'S EARLIEST & BEST PEA

ABSOLUTELY THE EARLIEST
PEA GROWN.

SALZER'S EARLIEST AND BEST

This Pea is the EARLIEST WHITE, SMOOTH PEA on earth! It's the pea for you, Mr. Market Gardener, Mr. Home Gardener, to plant, whether by the package or by the bushel. It's the greatest, earliest, big profit pea! Hundreds of thousands of customers, small buyers and large buyers, all over the United States and in foreign countries, have sown this world-famous strain, and everybody acknowledges it the earliest, finest quality, and biggest money-making round, smooth pea in cultivation.

Salzer's Earliest and Best matures the entire crop at one time. It grows from 18 to 30 inches high, is extremely prolific, bearing from 8 to 12 straight pods, each containing 7 to 8 medium sized, smooth, round peas, which are sweet and of excellent flavor. They are yellowish-white when ripe. Ready to pick for the market in 42 days. Yields of from 250 to 300 bushels of green peas per acre have been reported of this variety, and have been sold at from \$1.75 and even more, per bushel. It is the pea to plant for an extra-early money making crop. Can be sown as early in spring as the ground can be properly prepared. Salzer's Earliest and Best is a grand variety for succession sowing, owing to its ability to resist mildew and to defy frost, both in spring and in the fall. Crop is short this year.

Mr. Ellis Irvin, Box 5, Arkansas City, Kans., writes, "Your Earliest and Best Peas gave me the first peas at market here. Not even commission houses had them. Sold them for \$3.90 to \$4.05 a bushel. Right after we had a good, hard freeze, but they grew right on and made the best crop ever, for early market."

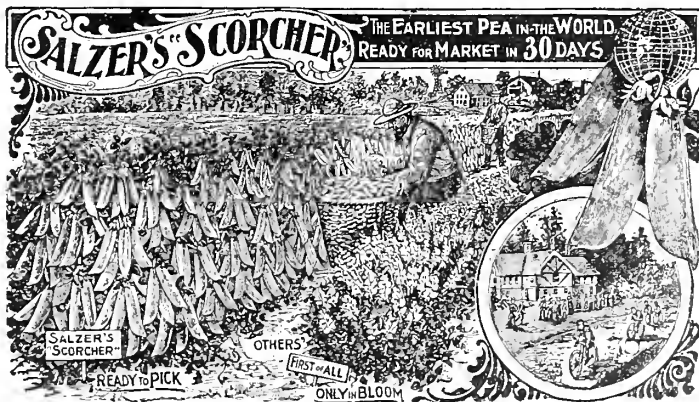

846—Pkg., 10c; lb., 39c; 2 lbs., 69c; 5 lbs., \$1.42, postpaid. Not prepaid: 10 lbs., \$2.30; 30 lbs., \$6.30; 60 lbs., \$12.00.

SALZER'S SCORCHER

Another great extra-early, hard, smooth pea, of medium height, very productive and a splendid canner. A companion in earliness to the above strain, as we have bred and developed it to mature only a day or two later than Earliest and Best. The pods are of medium size, about 2½ inches long and are literally packed with smooth, bluish-green sugary peas of melting quality. The vines, of vigorous growth, grow 2 to 3 feet high, and are very prolific. It has table quality, it is extra-early, it is immensely productive, it is most popular for canning, it produces a crop under varied conditions. Mr. F. J. Watts, Weld, Me., writes,

"Salzer's Scorchers Peas are the earliest and best I have seen." Entire crop can be picked at one time.

848—Pkg., 10c; lb., 35c; 2 lbs., 61c; 5 lbs., \$1.25, postpaid. Not prepaid: 10 lbs., \$1.98; 30 lbs., \$5.35; 60 lbs., \$10.10.

SALZER'S ALASKA

An extra-early, standard, smooth pea, widely grown for canning. A heavy yielder, vigorous growing vines about 2 feet high, bearing fine pods of a dark green color, about 2½ inches in length, and blunt at the apex. They are well filled with small, smooth peas of a bluish-green color. Matures in about 50 days. Matures practically the entire crop at one time.

844—Pkg., 10c; lb., 33c; 2 lbs., 57c; 5 lbs., \$1.18, postpaid. Not prepaid: 10 lbs., \$1.82; 30 lbs., \$4.85; 60 lbs., \$9.10.

Salzer's Alaska

I am greatly pleased with your Earliest & Best Peas. From 4 rows, 3 rods long, I picked 25 gallons peas.—Mrs. Frank W. Vail, R. D. 2, Effingham, Ills.

SALZER'S RECORD BREAKER SIX WEEKS PEA

Mr. C. Coolidge, Coolidge's Greenhouse & Market Garden, Baraboo, Wis., writes, "I have used three bushel of your Garden Peas each year, for the past three years, and have found them very satisfactory." Mrs. F. Elrod, 3006 Edward St., Cleveland, Tenn., writes, "I believe every one of your Record Breaker Six Weeks Pea Seeds germinated."

Salzer's Record Breaker Six Weeks is a whirlwind for quality and maturity. Sweet, luscious, melting, highest quality, wrinkled peas, ready to be picked, for table or market, in 42 days.

Pods are rich dark green color, about 3 inches long, narrow and nearly round, borne singly, containing 7 to 9 peas each. Grows about 12 inches high, vines are vigorous and hardy. The seed is slightly dented. Pods are produced in riotous profusion and are literally jammed with delicious sugary peas, that fairly "melt in your mouth." It will please you beyond all expectation. Splendid for the home gardener as well as the market gardener. Aside from our own Cliffwood Farm tests, we have the reports of the leading pea growers of America, who unhesitatingly say, "It is the Earliest Wrinkled Dwarf Pea in the world." 849—Pkg., 15c; lb., 40c; 2 lbs., 71c; 5 lbs., \$1.46; postpaid. Not prepaid: 10 lbs., \$2.38; 30 lbs., \$6.55; 60 lbs., \$12.50.

Salzer's Record Breaker Peas were true to their name for we gathered our first mess of peas six weeks from the day we planted them.—Miss Ida M. Tatom, Bay, Ark.

SALZER'S AMERICAN WONDER PEA SELECTED STOCK

IMPROVED AMERICAN WONDER

Extra-early, dwarf or short-vine variety, growing about 12 inches tall, bearing short, rich green pods filled with 6 to 8 luscious wrinkled peas. Exceedingly productive and a great favorite in all sections, especially for the home gardener as it requires no support. Matures in about 43 days.

878—Pkg., 10c; lb., 37c; 2 lbs., 65c; 5 lbs., \$1.34, postpaid. Not prepaid: 10 lbs., \$2.15; 30 lbs., \$5.80; 60 lbs., \$11.00.

SALZER'S LITTLE MARVEL

A superb extra-early dwarf, wrinkled pea, remarkable for its very early and very heavy crop of dark green pods, which are filled with 7 and 8 large, dark green peas of a sugary, delicious flavor and melting quality. Vines of vigorous growth, reaching a height of 15 to 18 inches. Has received Award of Merit from the Royal Horticultural Society. One pound of seed has produced a crop of 300 pounds of peas. Matures in about 43 days.

881—Pkg., 10c; lb., 38c; 2 lbs., 67c; 5 lbs., \$1.38, postpaid. Not prepaid: 10 lbs., \$2.22; 30 lbs., \$6.00; 60 lbs., \$11.50.

SALZER'S NEW DWARF EXTRA EARLY GIANT PODDED LAXTONIAN

It is extremely large, in fact the largest podded of all the early dwarf wrinkled varieties. It is delightfully sweet and very productive.

In the Laxtonian we have an extremely large podded, best quality, dwarf type of the exquisitely flavored Gradus, with larger pods and growing only 16 to 18 inches high, requiring no support, a few days earlier in season, and of a little darker green color. Laxtonian has made for itself a new class of wrinkled garden peas, the giant podded early dwarfs. Ripens very early and is ready to pick, green for table, in about 55 days. The pods measure 4 inches or more in length, slightly curved with a sharp curve at the end and are as large as those of the Telephone and of a dark green color. They are filled with eight to ten large, delicious peas, almost double the size of any other early dwarf peas. Unsurpassed in quality and yield. See illustration at right.

880—Pkg., 10c; lb., 38c; 2 lbs., 67c; 5 lbs., \$1.38, postpaid. Not prepaid: 10 lbs., \$2.22; 30 lbs., \$6.00; 60 lbs., \$11.50.

SALZER'S GRADUS

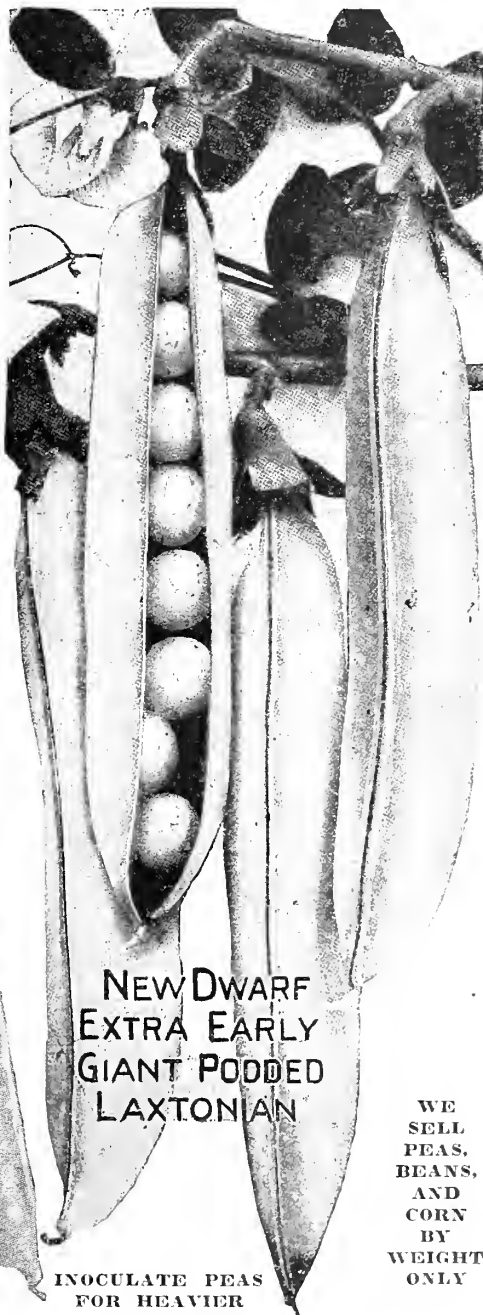

Often called "Prosperity." The hardy and vigorous vines grow about 2½ feet high, pale green in color, and bear singly and most freely, from top to bottom of the vine, huge pods about 4 inches long, that contain 7 to 10 peas of delicious quality, sweet, tender and sugary. Matures its crop in about 57 days. Pods are straight, light green and slightly rounded at the point. This remarkable pea is ideal for market gardeners and home gardeners alike.

855—Pkg., 5c; lb., 39c; 2 lbs., 69c; 5 lbs., \$1.42, postpaid. Not prepaid: 10 lbs., \$2.30; 30 lbs., \$6.30; 60 lbs., \$12.00.

SALZER'S IMPROVED STRATAGEM

A wrinkled variety, very prolific. Very large dark green pods, filled with large dark green peas, sweet, tender and of exquisite quality. Vines are vigorous and grow 18 to 20 inches high. Matures in about 80 days. Mr. John Seblen, Bathgate, N. D., writes, "Your Improved Stratagem Peas were the finest and the most wonderful I have ever seen."

895—Pkg., 5c; lb., 38c; 2 lbs., 67c; 5 lbs., \$1.38, postpaid. Not prepaid: 10 lbs., \$2.22; 30 lbs., \$6.00; 60 lbs., \$11.50.

YIELDS

I planted 2 rows of Salzer's American Wonder Peas and have had so many peas I will have to give some away, to get rid of them.—Mr. E. S. Harkrader, 329 E. Jefferson St., Pittsfield, Ills.

Thomas Laxton Peas

THOMAS LAXTON

A splendid market-gardener sort, and especially recommended for the home garden. The pods are large, about 4 inches long, square on the end, and contain a large number of sweet, tender and luscious peas of melting quality. Vines 3 to 3½ feet long, rich dark green in color; pods contain 6 to 8 peas. Matures in about 59 days. For best results, inoculate Peas with Stimugerm.

858—Pkg., 8c; 1 lb., 37c; 2 lbs., 65c; 5 lbs., \$1.34, postpaid. Not prepaid: 10 lbs., \$2.15; 30 lbs., \$5.80; 60 lbs., \$11.00.

DWARF TELEPHONE OR DAISY

This fine, wrinkled variety has all of the qualities of the old well known Tall Telephone pea, but is of dwarf growing habit, attaining a height of 15 to 17 inches. Matures in about 75 days.

The vines are of vigorous growth, producing large pods in great profusion and about a week earlier than the tall variety. The pods are about 5 to 6 inches long and contain eight to 10 green, wrinkled peas of delicious flavor.

892—Pkg., 12c; 1 lb., 39c; 2 lbs., 69c; 5 lbs., \$1.42, postpaid. Not prepaid: 10 lbs., \$2.30; 30 lbs., \$6.30; 60 lbs., \$12.00.

DWARF DEFIANCE

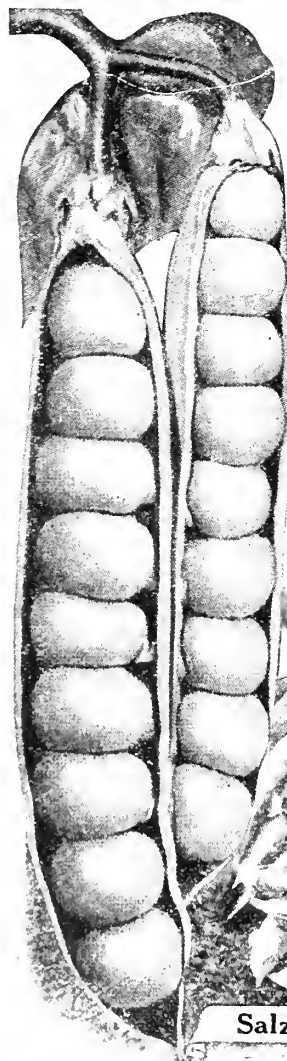

The best of the main crop varieties of large podded, dwarf peas; it is fit for the table in 75 days from planting. The vines are very vigorous, hardy, about 20 inches high, with coarse, dark-green foliage. The pods are long, broad, pointed, dark-green in color and equal in size and fullness to those of the Alderman, often measuring 6 inches or more and generally containing 9 to 11 peas. These peas are very large and in flavor and sweetness rank with the highest. A great favorite with gardeners. The peas retain their tenderness long after they have been picked. Also a splendid variety for the home gardener, because of its compact, bushy growth, permitting a good heavy yield in a limited space.

898—Pkg., 10c; 1 lb., 38c; 2 lbs., 67c; 5 lbs., \$1.38, postpaid. Not prepaid: 10 lbs., \$2.22; 30 lbs., \$6.00; 60 lbs., \$11.50.

STIMUGERM

We recommend the inoculation of peas before planting. Full instructions on each package. Peas weigh 60 pounds to the bushel.

Salzer's Dwarf Defiance Peas

Dwarf Telephone

Your Earliest And Best Peas were the finest early peas that I ever raised. People said there were more peas than leaves.—Mrs. Fielding F. Shreves, R. D. 2, Wallace, W. Va.

SALZER'S GIANT EXHIBITION PEAS

Huge
Pods—
Best
Quality
Peas

To those who wish huge podded peas, we suggest that they plant Salzer's Giant Exhibition. It is a late maturing kind. Is a wrinkled pea, very productive, the huge pods being well packed with peas, which, although large, are of a fine quality, sweet, sugary flavor and not tough as one would expect. The pods frequently grow to seven and even eight inches in length, depending of course somewhat on the soil, and it is not unusual to find between ten and twelve peas to the pod. The lateness of Salzer's Giant Exhibition is fully offset by its productiveness and its vigorosity. It has numerous first prizes to its credit, from various fairs, which accounts for its being named Exhibition. The pods are uniform in size, of a rich dark green color, and well packed with large size peas. One of the best main crop varieties.

Pods rather straight, with curve near end. Vines grow vigorously. Ready to use in about 85 days. To those of our customers who want immense size, a most delicious, heavy yielding pea—we recommend Salzer's Giant Exhibition.
872—Pkg., 15c; lb., 40c; 2 lbs., 71c; 5 lbs., \$1.16, postpaid. Not prepaid: 10 lbs., \$2.38; 30 lbs., \$6.55; 60 lbs., \$12.50.

SALZER'S ALDERMAN

Also called "Improved Telephone." Foliage and pods dark green. Telephone Peas have been, and still are, owing to their large size and high quality, splendid sellers in every market, but this new variety, Alderman, is now much preferred. The dark green pods will retain their fine, marketable appearance much longer than the lighter colored ones of the old sort, and even after shipping a long distance, will look fresh and handsome. Pods are very uniform in shape and borne in the greatest profusion. One of the finest late or main crop varieties.

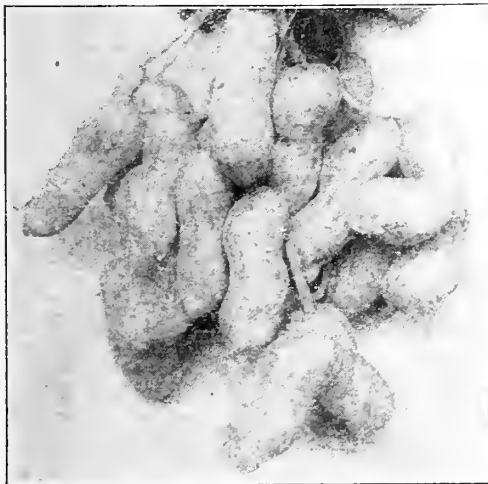

The vines are of strong, luxuriant growth, attaining a height of 4 to 5 feet. Matures in about 85 days. Pods measure about 6 inches and more in length and are densely filled with large, wrinkled peas, sweet and tender, of unsurpassable flavor.
864—Pkg., 8c; lb., 36c; 2 lbs., 63c; 5 lbs., \$1.30, postpaid. Not prepaid: 10 lbs., \$2.65; 30 lbs., \$5.58; 60 lbs., \$10.55.

SALZER'S EDIBLE PODDED OR SUGAR PEAS

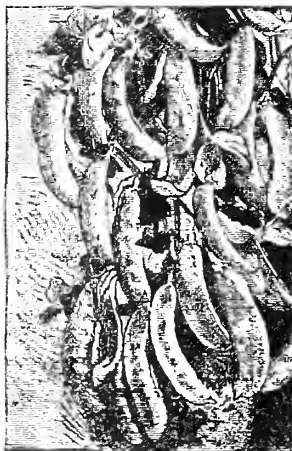

May be eaten entirely, pods as well as peas. They are sweet, succulent, entirely stringless and devoid of the thin, tough lining on the inside of the pods, consequently are always soft and tender, and do not open when ripe. Used in the same way as snap or string beans, and are also liked for pickling. Not grown where peas are wanted for shelling.

DWARF GRAY SUGAR PEA. Height, about eighteen inches. Pods are broad and flat and of finest quality. Very productive. 912—Pkg., 10c; lb., 37c; 2 lbs., 65c; 5 lbs., \$1.35, postpaid. Not prepaid: 10 lbs., \$2.15; 30 lbs., \$5.80; 60 lbs., \$11.00.

MAMMOTH LUSCIOUS SUGAR PEA. Vines very tall, 5 to 6 feet, pods about 6 to 7 inches long and 1½ inches broad. A heavy cropper of best quality pods. 913—Pkg., 10c; lb., 47c; 2 lbs., 85c; 5 lbs., \$1.74, postpaid. Not prepaid: 10 lbs., \$2.95; 30 lbs., \$8.20; 60 lbs., \$15.85.

Salzer's Early Virginia Peanuts

Dwarf Gray Sugar Peas

Salzer's
Alderman
Peas

Peanut—SALZER'S EARLY VIRGINIA

Salzer's Early Virginia is a productive variety, with very erect stems and large pods and kernels. It is a paying crop on sandy soils in the North, and ripened for us at La Crosse, to perfection, yielding enormously. Not only yields lots of nuts, but it is an excellent forage crop as well as a green fertilizer. Remove shells and plant kernels 6 inches apart in rows 4 feet apart. Not only can your children make money with peanuts but it is now a regular man-sized crop for light and sandy soils.
841—Pkg., 10c; lb., 37c; 2 lbs., 65c; 5 lbs., \$1.34, postpaid. Not prepaid: 10 lbs., or more, at 16c per lb.

EARLY SPANISH. Smaller kernels but much sweeter and finer flavored. Yields a heavy crop of nuts. An excellent forage plant for light land in hot, dry seasons. The tops are cut and cured for hay just before frost. 840—Pkg., 10c; lb., 35c; 2 lbs., 61c; 5 lbs., \$1.25; postpaid. Not prepaid: 10 lbs., or more, at 14c per lb.

From two pounds of your Giant Exhibition Peas, we canned 50 pints, besides supplying a large family with fresh peas.—H. H. Bagley, 422 Cedar St., Snohomish, Wash.

CHINESE GIANT

THE FINEST, LARGEST AND HANDSOMEST PEPPER OF ALL

A magnificent variety, the largest and finest Pepper in cultivation. The plant is about two feet high, of strong, vigorous growth, stocky and erect in habit, very productive, and ripens its fruit earlier than the Ruby King. The fruit is well shown in our illustration, is quite square, averages 4 inches in diameter, and is of a bright, glossy scarlet when ripe. The flesh is usually thick and very mild, having none of the pungency of most of the older varieties. The immense size of the fruit and its brilliant color render it very attractive and will cause it to sell readily in the market. Every private garden should have this sort.

We have grown specimens weighing 2 1/4 ounces at Cliffwood Farms. Matures in 140 days.

922—Pkg., 10c; oz., 53c; 2 oz., 96c; 1/4 lb., \$1.82; lb., \$7.00, postpaid.

Pepper SALZER'S WORLD-BEATER

Here is the finest large pepper ever introduced! Salzer's World-Beater is a cross between Chinese Giant and Ruby King, fully as early as our Ruby King and therefore highly satisfactory for the North, and just about as large as Chinese Giant, but it is more prolific. From one plant, we have picked as many as 24 marketable, large peppers.

Salzer's World-Beater measures nearly 6 inches long by 4 inches through, broad and blunt at the blossom end. The flesh is the thickest of any and is mild and sweet, color dark green, changing to a brilliant scarlet when ripe. Plants are of vigorous growth and the strong stems hold the peppers well above the ground, and there are usually 15 to 24 fruits to each plant. May be eaten raw without a trace of burning. Ships well, sells well at market, and is ideal for the home garden. This grand pepper always gives satisfaction.

933—Pkg., 15c; oz., 32c; 2 ozs., 58c; 1/4 lb., \$1.13; 1/2 lb., \$2.17; lb., \$4.25, postpaid.

HARRIS' EARLIEST

We introduced this fine pepper in 1924, and are receiving hundreds of testimonials from those who tried it. It is extremely early and hence splendidly adapted for the North, as it is mature before danger of frost. The scarlet fruits are of a good marketable size, 3 to 4 inches long and has fine thick flesh, tender and so mild it may be eaten from the hand. Plants are 12 to 18 inches high, compact, bushy and extremely productive. Matures in 128 days.

931—Pkg., 15c; oz., 49c; 2 oz., 86c; 1/4 lb., \$1.62; lb., \$5.95, postpaid.

LONG RED CAYENNE

The true "hot" pepper. Slender red peppers, about four inches in length. The bright red fruits are extremely strong and pungent.

925—Pkg., 10c; oz., 30c; 2 oz., 56c; 1/4 lb., \$1.07; lb., \$4.00, postpaid.

SALZER'S ANAHEIM CHILI

Largely used by canners. Bright crimson fruits about 8 inches long and 1 1/4 inches in diameter, and flesh thick, sweet and mild. Matures in 140 days.

918—Pkg., 12c; oz., 33c; 2 oz., 63c; 1/4 lb., \$1.19; lb., \$4.50, postpaid.

BELL OR BULL NOSE

An early, standard, rich scarlet pepper. Plants 2 feet high, compact and bushy, fruits 3 inches long by 2 inches thick, sweet and spicy, but not "hot." Matures in 140 days. Widely grown.

919—Pkg., 8c; oz., 27c; 2 oz., 49c; 1/4 lb., 93c; lb., \$3.50, postpaid.

SMALL RED CHILI

A very "hot" pepper. A rather small, bright-red variety, about 2 inches long, slender and pointed. Widely used for salads, pickling and Chili sauce; very pungent.

921—Pkg., 7c; oz., 35c; 2 oz., 65c; 1/4 lb., \$1.24; lb., \$4.75, postpaid.

SALZER'S PIMIENTO

Pimiento is of a different type than the other well known peppers. It is used very much in salads to give them a tasty and attractive appearance, and because of its many uses and great popularity, it is grown very widely by canners. It is of the sweetest flavor, and does not contain a trace of fieriness. They are fine for stuffing as well as for salads.

It is a productive strain, exceptionally smooth, glossy and of mild, delicious flavor. Plants are vigorous and upright, growing about thirty inches high with short, broad, dark green leaves. Deep green fruits, becoming deep red as they mature. Ripens in about 130 days.

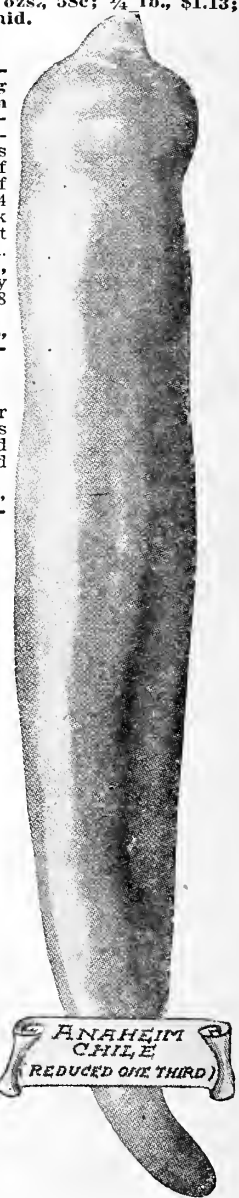

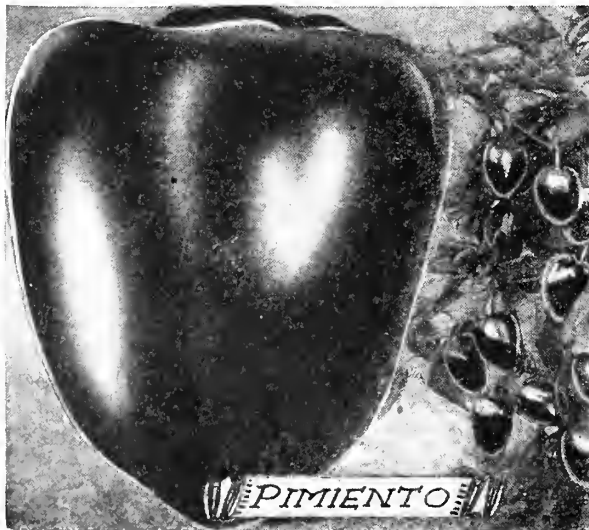

927—Pkg., 10c; oz., 27c; 2 oz., 49c; 1/4 lb., 93c; lb., \$3.50, postpaid.

SALZER'S IMPROVED RUBY KING

Salzer's improved Ruby King is the dependable, standard pepper that cannot be beaten. It is very productive, early, has a mild flavor, thick flesh, and is very attractive. Exceptionally large, sweet flavored fruit, plants growing about 30 inches high.

Plants are vigorous, compact and very productive. Ripens its fruits early and with uniformity. Fruits frequently run four and one-half inches in length having usually three lobes. Deep rich green color when young, ripening to a bright rich crimson at maturity. The flesh is thick and of mild flavor. It is the most widely grown of any variety. Matures in about 130 days.

929—Pkg., 10c; oz., 27c; 2 oz., 49c; 1/4 lb., 93c; lb., \$3.50, postpaid.

ANAHEIM CHILE
REDUCED ONE THIRD

Sow Salzer's Seeds

We received everything just as ordered and are very well satisfied. Mrs. George Kragor, Box 103, East Lake, Mich.

Please send 3 lbs. Dwarf Telephone Peas at once. Unable to get them here and they are so successful, I want more of them.—Stiles H. Pierce, Rock Island, Ills.

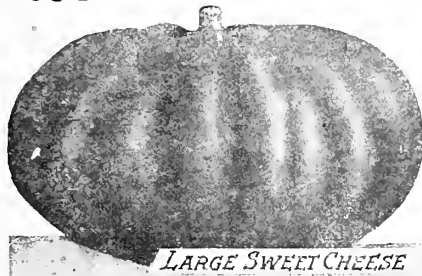

SMALL SUGAR

Much smaller than the field varieties, rich in sugar, finely grained and sweet. Exceptionally fine pumpkin for pies.

It is a very prolific type, producing nice, uniform size and shape pumpkins in abundance. Considered one of the hardest and easiest to grow. Matures in about 70 days.

953—Pkg., 5c; oz., 9c; ¼ lb., 28c; lb., \$1.00, postpaid.

SALZER'S MAMMOTH

Love for a large pumpkin seems to be the inborn desire of everybody. When size, quality and big profits are all combined in one, then the grower is particularly proud of the strain. Salzer's Mammoth exceeds the average idea of "large." It really is immense in size.

As would be expected, it is unusually productive; in fact, it is the largest yielding of the pumpkins and of exceptionally fine quality and flavor.

Very extensively grown. Splendid for stock feeding as well as for the table. A popular type with the home grower, considered the best for exhibition purposes and a dependable sort in every way. Deep creamy red color. Nearly round, slightly flattened at top and bottom.

Flesh is deep orange red and fine grained. A good variety to plant with corn. One of the best for winter storage. Matures fully in about 110 days. We have grown specimens of this variety weighing 125 lbs.

951—Pkg., 10c; oz., 14c; ¼ lb., 35c; ½ lb., 67c; lb., \$1.25; 2 lbs., \$2.35; 5 lbs., \$5.65, postpaid.

JAPANESE PIE

Fine grained, dry and sweet. They ripen early, keep well and are fine for home use. It is one of the easiest pumpkins to grow. A large crook-neck sort with dark green skin mottled with yellow stripes. Matures in about 80 days. 946—Pkg., 7c; oz., 19c; ¼ lb., 28c; ½ lb., 53c; lb., \$1.00, postpaid.

MIXED PUMPKIN

A mixture of the choicest and finest pumpkin seed. Have some of each variety in one patch in your garden, without having to purchase a package of each.

957—Pkg., 5c; oz., 8c; ¼ lb., 18c; lb., 60c, postpaid.

Salsify SALZER'S SANDWICH ISLAND

Widely grown for fall and winter use and is popularly called Oyster Plant, because it has such a delicious oyster-like flavor.

Salzer's Sandwich Island grows a fine, fleshy root 6 to 8 inches long and about 1 inch thick. The white flesh is of superior oyster-like flavor and is very nutritious. Matures in 140 days. It is hardy and may be left in the ground over winter, or may be stored in a pit or cool cellar after cutting off the leaves.

1060—Pkg., 10c; oz., 20c; 2 oz., 35c; ¼ lb., 62c; lb., \$2.25, postpaid.

Pumpkin

SALZER'S YANKEE PIE

For the tastiest, most delicious pumpkin pies, plant Salzer's Yankee Pie. It's the finest of all and ranks enormously high in sugar content.

It is round and slightly flattened, with shallow ribs, rather small, about 10 inches in diameter, and of exquisite quality. The tender, rich yellow flesh

is very thick, meaty and sweet, and the skin is a deep orange. There is no finer pumpkin, especially for the home garden. Matures in about 70 days and is an excellent keeper. Very hardy and very productive. Hundreds of thousands of customers sow this strain year after year. It is the best in cultivation today, for the table. Enormously productive.

956—Pkg., 10c; oz., 13c; ¼ lb., 31c; ½ lb., 58c; lb., \$1.10; 2 lbs., \$2.05, postpaid.

LARGE SWEET CHEESE

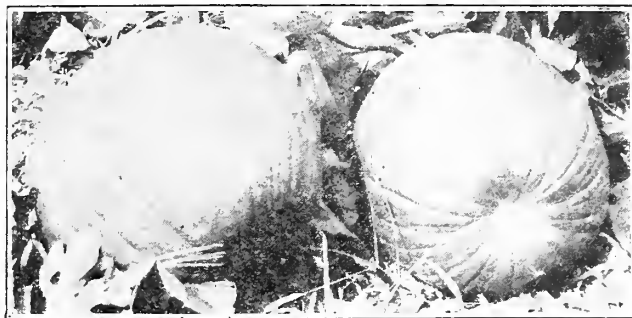

Gets its name from its peculiar cheese shape, being flattened on both ends and large in circumference. Matures in about 90 days.

The rind is cream colored and slightly ribbed. In wide use for canning and keeps exceptionally well. It is a heavy yielder and a good main crop variety. The thick yellow flesh is tender, sweet and of finest quality. Splendid for stock feeding as well as for table use. It is one of the old, widely used kinds of exceptional merit.

950—Pkg., 5c; oz., 7c; ¼ lb., 21c; ½ lb., 37c; lb., 70c; 2 lbs., \$1.30; 5 lbs., \$3.10, postpaid.

Japanese Pie

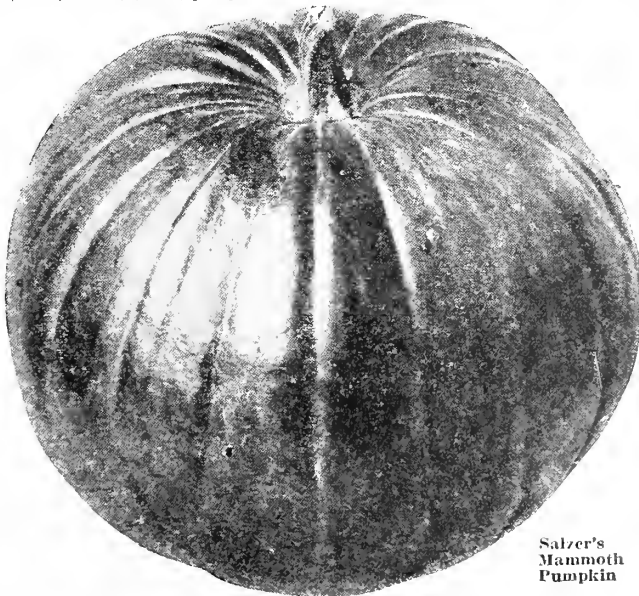

Salzer's Connecticut Field Pumpkin

CONNECTICUT FIELD

Pumpkins are very easily grown in among sweet corn or field corn or wherever there is room for vines to spread. Connecticut Field is a standard corn-field variety and is widely grown for stock feeding, as well as table use.

Vines are wonderfully prolific; fruits average 25 pounds in weight, are round and flat on the ends with a smooth hard rind. Flesh is yellow, thick, dry, fine flavored, sweet and of excellent keeping qualities. A standard variety with canners. Matures in 75 days.

943—Pkg., 5c; oz., 7c; ¼ lb., 18c; ½ lb., 33c; lb., 65c; 2 lbs., \$1.22; 5 lbs., \$2.95, postpaid.

SALZER'S EARLY BIRD RADISH

HOW
DO YOU
GROW
THESE
EARLY
RADISHES?

BY ALWAYS
PLANTING
SALZER'S
SEEDS

THE EARLIEST OF ALL RADISHES

We introduced this grand variety just 36 years ago and have been extensively developing and improving it ever since, so get your seed from us if you want genuine, true-to-type seed. Don't take anything "just as good." Salzer's Early Bird is of globe-shape, bright scarlet color, has very short tops, flesh is pure white, fine grained, crisp, nice, spicy taste, and never becomes hollow or pithy. Averages $\frac{1}{2}$ to 1 inch in diameter, according to maturity. It is alike most valuable for outdoor planting in spring or in autumn, and always commands top prices.

Salzer's Early Bird, the incomparable radish, produces radishes ready for the table in about 12 days' time, radishes that are uniform in size and shape, even in maturity, with small tops and of beautiful and attractive bright red color. It is also the best strain for growing under glass.

Sow
Genuine
Early Bird
Seed

Mr. Chas. W. Falk, Herrington, Kans., writes, "I never raised better radishes than Salzer's Early Bird. In 13 days from the day I planted them, we were eating radishes. They were better quality than any other radish." Mr. Fred Hagerbaumer, 12th and Harrison, R. D. 5, Box 120, Quincy, Ill., writes, "We always have the best success with your Early Bird Radish." Rev. A. B. Chamberlin, Dike, Iowa, writes, "I have found Salzer's Seeds to be very good, and your Early Bird Radish especially fine." Mrs. Otto Bohleman, Box 852, Kelso, Wash., writes, "Your Early Bird Radishes matured in just 14 days."

It is a sure yielder and will not disappoint a single market gardener nor home gardener who sows it, but will be a source of genuine pleasure and profit. We know of none of our vegetables that will pay the market gardener better, and that is more desirable for the kitchen garden, than Salzer's Early Bird Radish.

Now, the substance of the whole matter is this: If you are at all anxious, either as a market gardener or as a grower of Radishes for your own private table, to have Radishes from 6 to 12 days ahead of your neighbor, and if you are anxious to have the finest Radish that seed can produce, even under the most adverse circumstances, then by all means plant Salzer's Early Bird. Its crisp, brittle flavor, as well as its remarkably quick growth and fine color, alike recommend it. In favorable weather the Radishes matured in about 12 days. Not only is Salzer's Early Bird extremely early, but it also yields heavily and its quality is unsurpassed. You will agree that it is the earliest, finest and best tasting radish that is grown to-day.

975—Pkg., 12c; oz., 25c; 2 oz., 40c; $\frac{1}{4}$ lb., 60c; $\frac{1}{2}$ lb., \$1.10; 1 lb., \$2.00; 2 lbs., \$3.75, postpaid.

NOTICE

If you want the genuine, true to type, famous

Early Bird Radish

you must get your seed from Salzer's.

Don't buy anything "just as good."

I have never yet found a Radish equal to Salzer's Early Bird.—Mrs. Chester Hyland, Unionville, Ia.

Radish

Salzer's Earliest White

Pure white color, almost like crystal, so clear and transparent! Matures in about 13 days. It is a highly developed strain of finest quality and produces the earliest radishes that can be grown.

It is of olive shape, is adapted to all soils, has a very short top, unusually thin skin, never becomes woody, flesh crisp, tender, and fine, spicy taste. Equally good for outdoor sowing or for growing under glass. Home gardeners, sow this and Salzer's Early Bird Radish for the earliest, finest two radishes in your neighborhood. Market gardeners sow these two varieties and make money. Mr. Albert Korgan, Council Bluffs, Iowa, writes: "Your Earliest White Radishes sure are wonderful."

1006—Pkg., 10c; oz., 15c; ¼ lb., 43c; ½ lb., 79c; lb., \$1.50; 2 lbs., \$2.75; 5 lbs., \$5.95, postpaid.

SALZER'S SPARKLER RADISH

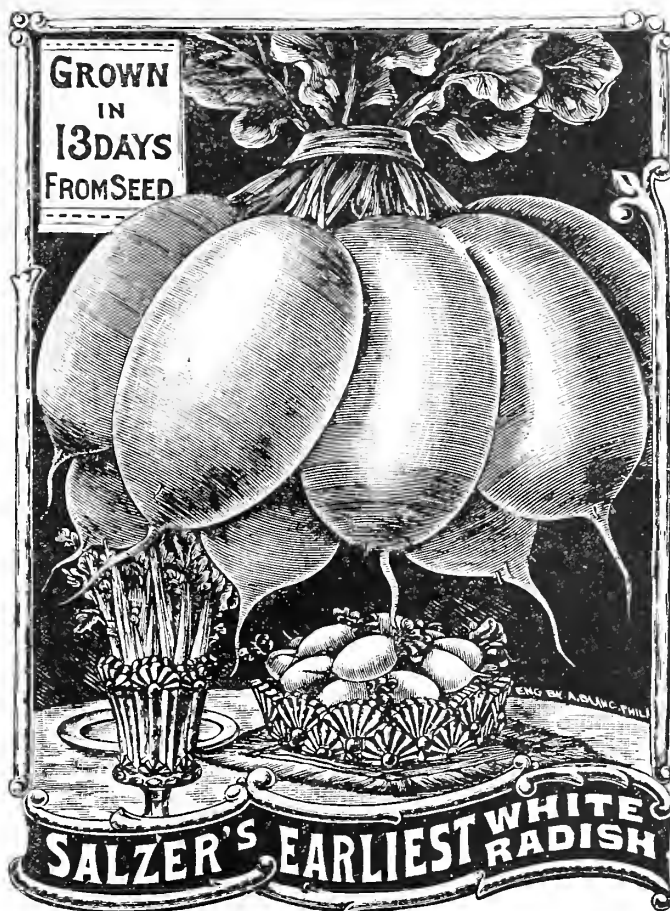

A splendid variety, also known as American Half Red, Half White. Greatly prized for its handsome appearance and attractiveness, and decidedly popular. It received its name from its bright, sparkling, red color. A rapid seller on the market, and a good money maker. Always accustomed to unusual values, our customers will find this as fine a value as we have ever offered. Salzer's Sparkler is very crisp, solid, and sweet flavored, and carefully bred for short tops.

In shape it is nearly round, of a deep scarlet color, with the lower one-third white, which is slightly flattened. In size it runs from one to one and one-quarter inches. Does not become pithy until it reaches its maximum size, holding its crispness longer than most varieties. A splendid home garden variety. Tops short, which is one reason for its extensive cultivation. The quality is very fine, flesh is solid, crisp, tender, fine grained and sweet. Matures in about 25 days.

986—Pkg., 10c; oz., 15c; ¼ lb., 30c; ½ lb., 55c; lb., \$1.00; 2 lbs., \$1.90; 5 lbs., \$4.55, postpaid.

Salzer's
Famous
Sparkler
Radish

SALZER'S CRIMSON GIANT GLOBE

A grand, early, globe-shaped Radish, double the size of any of the early globe or turnip shaped type, and a rapid grower. A superb radish for bunching and equally suitable for forcing or planting outdoors in the home garden. Matures in about 28 days the fine large roots reach about 2 inches in length and 1½ inches in diameter, with thin, tender skin of deep crimson. The juicy, tender flesh is purest white, crisp and of mild, spicy flavor. The radishes reach a weight of about 1½ ounces each, but notwithstanding their immense size, they do not get hollow or pithy, the flesh remaining crisp, solid and juicy.

973—Pkg., 10c; oz., 12c; ¼ lb., 29c; ½ lb., 55c; lb., 95c; 2 lbs., \$1.80; 5 lbs., \$3.95, postpaid.

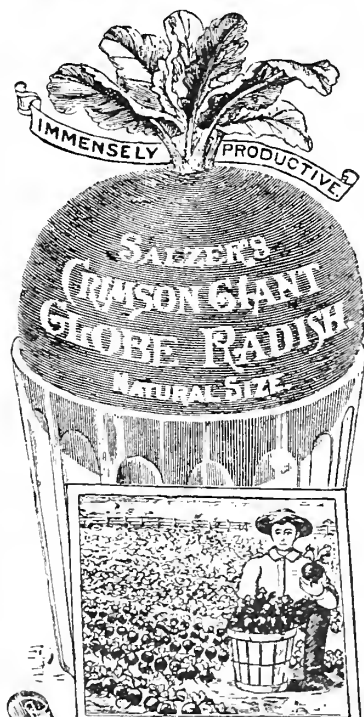

SALZER'S RADIO RED

This superb, new radish is very early, maturing only a few

days later than Early Bird, and hence, it too is invaluable for forcing. In color, it is a beautiful deep dark red. Radio Red has very small tops, it is nearly round, it grows uniformly, and with its dark red skin it is most attractive. Flesh is firm, white, crisp, and deliciously spicy. Don't fail to give it a trial. 990—Pkg., 12c; oz., 15c; 2 oz., 28c; ¼ lb., 49c; ½ lb., 91c; lb., \$1.75, postpaid.

NON PLUS ULTRA

An old standby, excellent for forcing, very early, small tops, crisp flesh, almost round in shape. Of a handsome red color. 989—Pkg., 7c; oz., 9c; ¼ lb., 27c; ½ lb., 50c; lb., 95c, postpaid.

SOLD OVER 80,000 RADISHES FROM ¼ ACRE AT 5 CENTS A DOZEN!

Your Earliest White Radish is wonderful—the best I have raised for years. — Mrs. Josephine Little, Williston, N. D.

Salzer's
Icicle
Radish

SUMMER RADISHES

GIANT STUTTGART—The largest and latest of the white summer radishes. The roots grow to an immense size, often attaining four inches in diameter. The skin is white, the flesh white and crisp and keeps in good condition for a long time. Suitable for winter storing. Matures in 42 days. **1033—Pkg., 10c; oz., 15c; ¼ lb., 30c; ½ lb., 55c; lb., \$1.00, postpaid.**

WHITE STRASSBURG—The roots grow to a length of from four to five inches, but they can be used when comparatively small. This variety keeps continuously crisp and tender for a very long time. Matures in about 40 days. **1034—Pkg., 10c; oz., 15c; ¼ lb., 30c; ½ lb., 55c; lb., \$1.00, postpaid.**

MIXED RADISHES

All kinds, colors and styles. A great mixture; they will become ready for the table early, medium and late. **993—Pkg., 5c; oz., 9c; ¼ lb., 25c; ½ lb., 45c; lb., 75c, postpaid.**

SALZER'S ICICLE RADISH

A beautiful, almost transparent, white radish about four inches long, with unusually small tops, remains in good condition a long time, does not get pithy, and is very crisp and brittle. This variety is highly esteemed and is so different from all other kinds that it has a place of its own in the radish family and as such our customers grow it, regardless of what other variety they may use.

The earliest and finest of the long white varieties. Ready for the table in about three weeks. They are fit for the table when quite small. The leaves are short, very few in number, permitting close planting. It is crisp, tender and mild in flavor.

1021—Pkg., 10c; oz., 15c; ¼ lb., 30c; ½ lb., 55c; lb., \$1.00, postpaid.

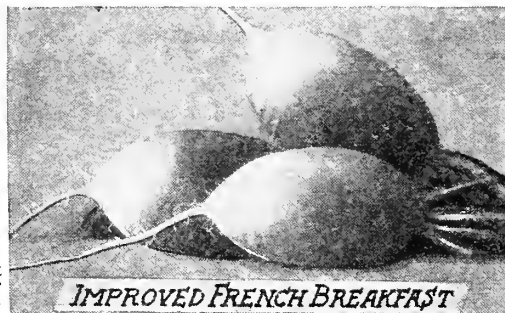

LONG SCARLET SHORT TOP

A long bright red variety. Excellent for market and home use. It is medium, early, maturing in about 35 days. Averages six to eight inches long. The crown grows about one inch above ground. It is straight, smooth, fine grained and sweet. **1023—Pkg., 5c; oz., 10c; ¼ lb., 30c; ½ lb., 54c; lb., 95c, postpaid.**

IMPROVED FRENCH BREAKFAST

A leading olive shaped variety, of rapid growth and splendid for forcing. Small size and is of beautiful and attractive, deep, rich, scarlet color, with the lower portion a clear, snow white. In diameter it measures about ¾ inch and averages about 1½ inches in length. Has small tops and matures in about 22 days. Flesh is pure, sparkling white, tender, juicy and agreeably spicy.

1010—Pkg., 5c; oz., 10c; ¼ lb., 29c; ½ lb., 55c; lb., 95c; 2 lbs., \$1.80; 5 lbs., \$3.95, postpaid.

SCARLET GLOBE, VICK'S

Special Strain, Individual Plant-Selected Seed

This variety is one of the best all-around radishes grown. Is an old, dependable, standard strain, in great demand and valuable for the home garden and market gardener. Scarlet Globe has a comparatively small amount of foliage, making it a particularly attractive market sort. Fine oval shape, a rich scarlet color, crisp, tender flesh, juicy, mild, and a very early type, well adapted for forcing.

Was introduced back in 1884 and since it has retained its popularity up till now, it is self-evident that it is a dependable strain. Our seed is especially well adapted to varied soils and climates and will give you the finest satisfaction. It is exceptionally early. The flesh is pure white, mild, crisp, juicy and tender. Measures about three-fourths of an inch in diameter to one and one-quarter in length. **1014—Salzer's Special Strain of Vick's Scarlet Globe: Pkg., 10c; oz., 12c; ¼ lb., 35c; ½ lb., 65c; lb., \$1.25; 2 lbs., \$2.35; 5 lbs., \$5.65, postpaid.**

SALZER'S BLOOD RED SNOW WHITE TIPPED

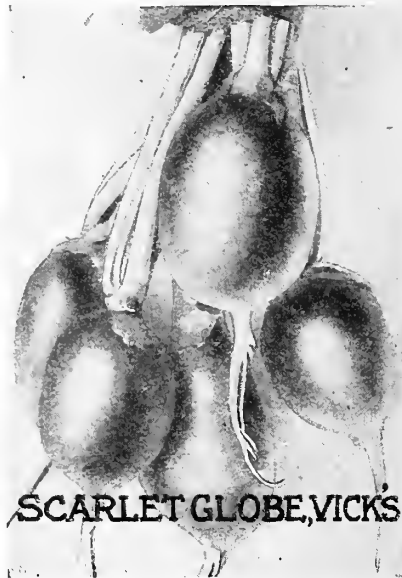

Beautiful in the extreme! The lively scarlet color points off to a pure white tip, giving it a most attractive appearance. It's a producer! It's perfection itself when it comes to quality and earliness! Splendid for forcing, also fine to plant as a succession variety. Radishes run uniform in both shape and size, averaging about ¾ inch in diameter. The skin is thin and tops are very short. The sparkling, snow white flesh is crisp, tender, fine grained and sweet. Does not become pithy or hollow. Matures in about 20 days. Very widely grown.

972—Pkg., 9c; oz., 11c; ¼ lb., 31c; ½ lb., 58c; lb., \$1.10; 2 lbs., \$2.05; 5 lbs., \$4.85, postpaid.

EARLY WHITE TURNIP

A turnip-shaped white Radish. Its color is pure white. Its quality is excellent. It is of a turnip shape, has a short top, is very rapid growing and sells at sight at a high price in all markets when once known.

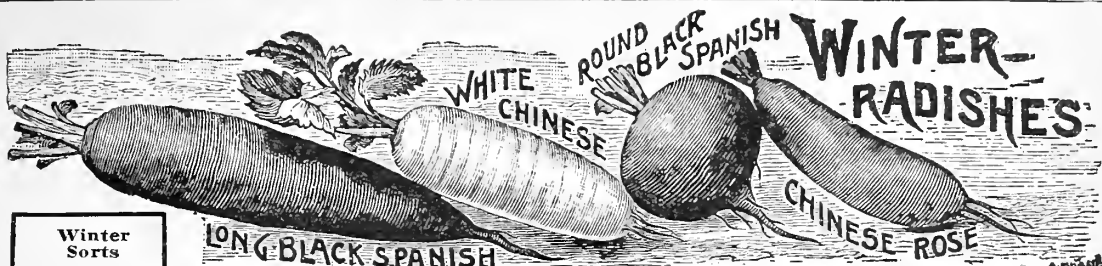

980—Pkg., 7c; oz., 10c; ¼ lb., 30c; ½ lb., 54c; lb., 95c, postpaid.

Your Icicle Radish is the best that I ever raised.—Mrs. Thomas Holland, Friendship, Wis.

Winter Radishes

Do not sow these until the latter part of June.

Price of following: Pkg., 10c; oz., 15c; ¼ lb., 30c; ½ lb., 55c; 1 lb., \$1.00; 2 lbs., \$1.75, postpaid.

1043—CHINESE ROSE OR SCARLET CHINA—The roots grow from four to five inches long, are cylindrical, the largest at the bottom, blunt at both ends. The skin is deep rose. The flesh is white, firm, crisp and pungent. Keeps well. Matures in about 50 days.

1045—WHITE CHINESE OR CELESTIAL—The finest and the largest of the White Chinese Radishes. The roots grow to a very large size, averaging about eighteen inches in length, and have a diameter of five inches. The skin is pure white and the flesh always crisp, mild and juicy. Takes about 50 days to mature.

1041—ROUND BLACK SPANISH—The roots are from three to four inches in diameter, almost round and very black skinned. The flesh is white, firm, pungent and well flavored. Keeps well all winter. Matures in about 55 days.

1044—LONG BLACK SPANISH—Grow ten to twelve inches long, having a diameter of from two to three inches. The skin is black and the flesh white, firm and pungent. Keeps well throughout the winter. Matures in about 55 days. For prices, see above.

Rutabaga

Rutabagas are also known as Swedish Turnips, Swedes, or Russian Turnips. They have firmer flesh than turnips, however, are more solid, and hence keep later into spring. Like turnips, they are excellent for stock feeding and as a rotation crop. Stock thrive and increase in value rapidly when turnips and rutabagas are fed in liberal quantities, and next to mangels are one of the cheapest feeds on the farm.

Salzer's Rutabaga and Turnip seeds enjoy an enormous sale on account of the sweet, juicy product of their crops. It will pay you to pay 20c to 50c a pound more for our seed than such as you buy in stores. Our seeds produce big crops of fine, sweet, juicy, rich Rutabagas.

SALZER'S MAMMOTH RUSSIAN

We consider Salzer's Mammoth Russian the heaviest yielding, the largest and most uniform variety, that withstands most cold and that will submit to most heat. It is also the finest and sweetest rutabaga for table use, and is devoid of woodiness. It is the most attractive. It has the most protein. Has very short neck. Easily harvested. Sow about two pounds per acre. Flesh is fine grained, golden yellow, mild-flavored, solid and particularly palatable, making it by far the best of all varieties for the table as well as for stock. Ready for use in about 75 days.

1510—Pkg., 10c; oz., 12c; ¼ lb., 27c; ½ lb., 50c; 1 lb., 85c; 2 lbs., \$1.60; 5 lbs., \$3.75; 10 lbs. \$6.85, postpaid.

WHITE SWEET RUSSIAN

Has a white flesh of a milder and sweeter flavor and contains more saccharine than the yellow-fleshed sorts. Matures in about 80 days and is an extremely productive variety. Not so desirable for table use, but fine for stock.

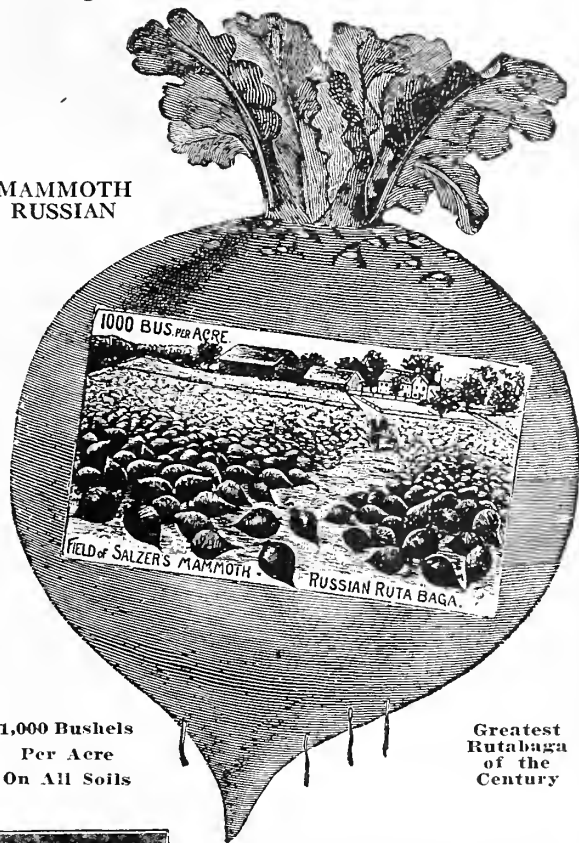

1512—Pkg., 5c; oz., 8c; ¼ lb., 22c; ½ lb., 37c; 1 lb., 65c; 2 lbs., \$1.25; 5 lbs., \$2.90; 10 lbs., \$5.45, postpaid.

AMERICAN PURPLE TOP

It is unusually productive, giving big yields of the finest rutabagas; also a splendid variety for table use. Roots of large size, globular, with flesh of deep yellow color, fine grained, and of finest quality. Skin yellow with purple top.

1508—Pkg., 5c; oz., 8c; ¼ lb., 22c; ½ lb., 37c; 1 lb., 65c; 2 lbs., \$1.25; 5 lbs., \$2.90; 10 lbs., \$5.45, postpaid.

MAMMOTH RUSSIAN

Greatest Rutabaga of the Century

A Crop of Salzer's American Purple Top Rutabagas

SALZER'S DELICIOUS RUTABAGA

Introduced by us in 1927, Salzer's Delicious is a grand table sort that is enjoying a wide sale.

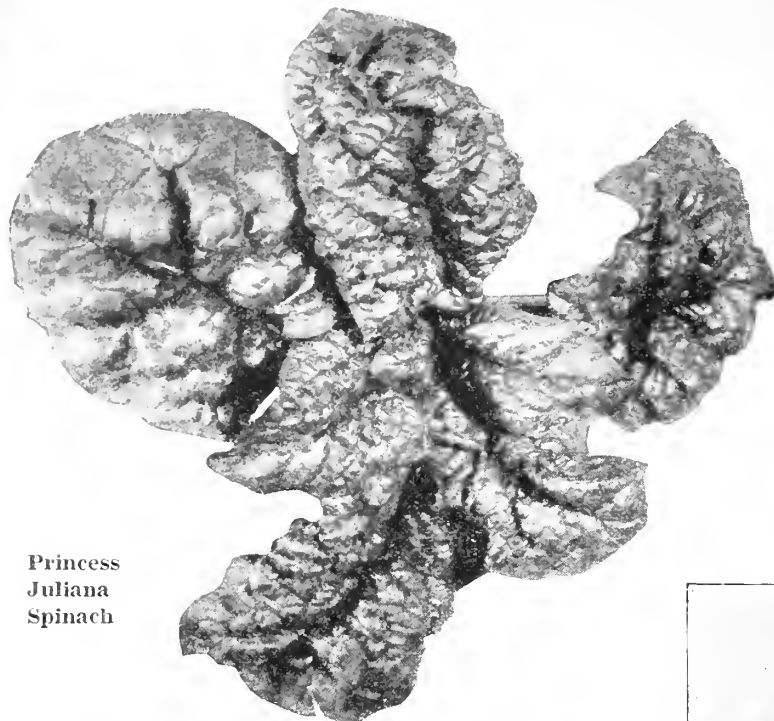

Salzer's Delicious is a superb rutabaga, finely flavored, tender, fine grained, and very sweet, that we have developed for table use only. Roots are globe shaped, very smooth and handsome, fine deep yellow with purple tops, and have very small "necks." Enormously productive. It surpasses all other rutabagas in tenderness and flavor, hence we recommend it only for table use. Invaluable for truckers and for home use.

1517—Pkg., 10c; oz., 16c; ¼ lb., 43c; ½ lb., 79c; 1 lb., \$1.50; 2 lbs., \$2.75; 5 lbs., \$5.95, postpaid.

Your Delicious Rutabaga is the best I ever tasted, and it never gets bitter. One ounce yielded almost 30 bushel.—Nels P. Petersen, R. D. 2, Box 56, Finley, N. D.

Spinach

THE NEW SPINACH PRINCESS JULIANA

Princess
Juliana
Spinach

A New Introduction—Extra Large Leaves —Heavily Crumpled—Deliciously Tender.

This wonderful new Spinach was introduced from Holland four years ago as an improvement of the old Long Standing Spinach. We have been carefully testing and improving it ever since and in offering it to our customers, it is with the confidence that it will give the utmost satisfaction everywhere.

Princess Juliana is of remarkably vigorous growth and is free from disease. The rich dark green leaves are of great substance, heavily crumpled, rounded, and grow in a dense compact rosette with a glossy and attractive appearance. Cooks beautifully and has a flavor superior to any other spinach. Succeeds equally well everywhere, and yields prodigiously. Don't pass this by, as we know you will be pleased with it.

1074—Pkg., 10c; oz., 12c; ¼ lb., 22c; ½ lb., 39c; 1 lb., 75c; 2 lbs., \$1.35, postpaid.

KING OF DENMARK SPINACH

It is slow to go to seed, and continues to grow and hold its fine quality weeks after other sorts have gone to seed. For a number of years we have been working and developing a strain that would withstand the hot sun, extreme dry spells and not go to seed easily, and in our King of Denmark, we have at last succeeded in combining these qualities in this wonderful strain. Our seed is grown in Denmark, hence extremely hardy, vigorous and productive. A fine strain for canning. Mrs. W. L. Russell, Gen'l Delivery, Du Bois, Pa., writes, "Grew plants of your King of Denmark Spinach weighing 1½ lbs. They were tender and crisp."

It forms large, low, compact tufts. The tender leaves are large, broad and rounded. Exceedingly bushy, slightly crumpled and of a glossy dark green color. Ready for use as early as any spinach and retains its condition about two weeks longer. Matures in about 45 days. Yields abundantly.

1065—Pkg., 9c; oz., 11c; ¼ lb., 20c; ½ lb., 35c; 1 lb., 60c; 2 lbs., \$1.10; 5 lbs., \$2.25, postpaid.

SALZER'S SAVOY OR BLOOMSDALE

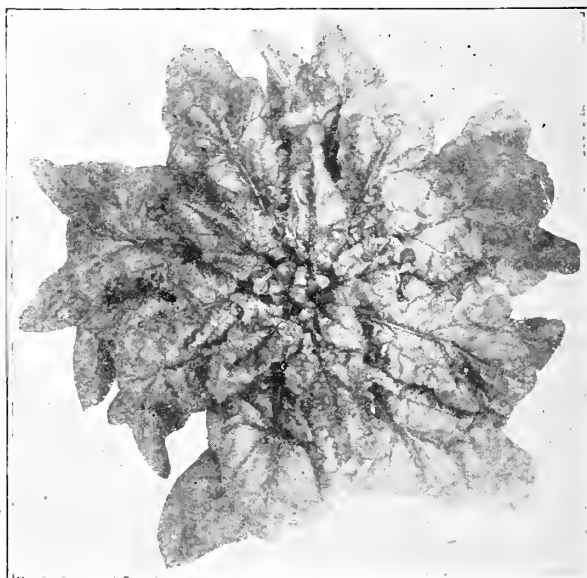

The earliest spinach, extremely hardy, and a superb shipper. It grows quickly to a suitable size for use and refuses to run to seed, to a remarkable degree. Upright growing plants with thick, glossy, tender dark green leaves, of a good standard size, broad, pointed, twisted, curled and wrinkled. Matures in about 40 days.

1070—Pkg., 7c; oz., 11c; ¼ lb., 20c; ½ lb., 35c; 1 lb., 60c; 2 lbs., \$1.10; 5 lbs., \$2.25, postpaid.

SALZER'S TRIUMPH

This grand strain was introduced by us over 20 years ago. Withstands hot weather longer than most other sorts, hence highly desirable for making succession sowings. Does not run to seed easily. The numerous, short stemmed leaves are heavily crumpled, thick warty and are fine and tender when cooked. Succeeds in all sections of the country.

1071—Pkg., 5c; oz., 7c; ¼ lb., 20c; ½ lb., 35c; 1 lb., 60c; 2 lbs., \$1.10; 5 lbs., \$2.25, postpaid.

Salzer's King of Denmark Spinach

WINTER PRICKLY SPINACH

A splendid fall and winter variety, but is also well adapted for spring use. Produces hardy, large plants of vigorous growth with thick and dark green leaves. Heavy yielder.

1073—Pkg., 5c; oz., 7c; ¼ lb., 20c; ½ lb., 35c; 1 lb., 60c; 2 lbs., \$1.10; 5 lbs., \$2.25, postpaid.

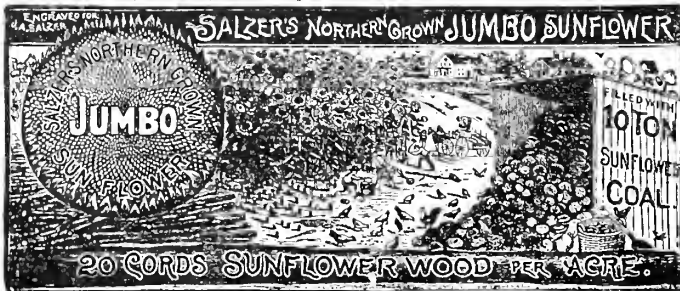

SUNFLOWER

SALZER'S JUMBO—Bears large heads, frequently 12 to 20 inches in diameter and sometimes yielding 1,000 pounds of seed per acre. Makes splendid feed for chickens and parrots. Sunflowers also produce 20 to 30 tons palatable silage per acre and can be successfully grown where spring is late and frosts are early.

There is absolutely no waste to the crop. Every portion can be utilized. The seed is eagerly eaten by fowls, and they fatten thereon and lay more eggs than on any other food. It is relished by horses, and enables them to stand more work with less fatigue than if not fed therewith. Cattle, sheep, swine, etc., thrive and fatten thereon. The oil burns well, and 20 barrels can be made per acre.

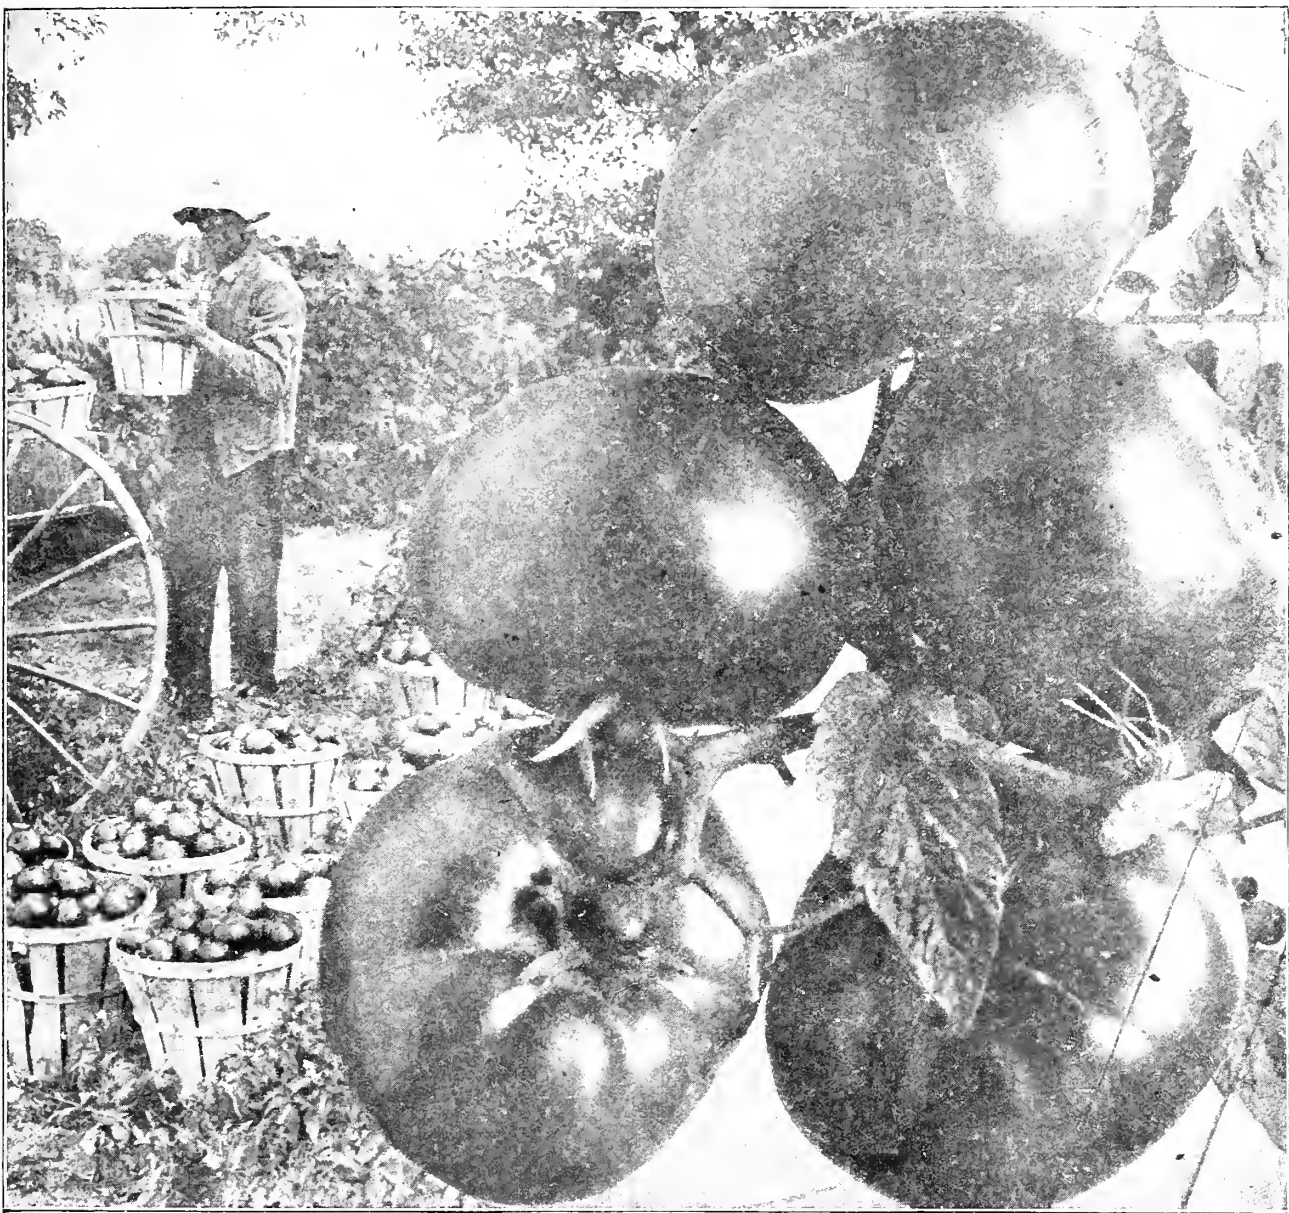

Outside of the feeding and health-giving properties of the Sunflower, comes their great value as fuel; indeed, for treeless districts, nothing can excel it. A correspondent of the Dakota Farmer, says: "Having tried turf, coal, wood and sunflowers, I have settled upon the last named as the cheapest and best fuel for treeless Dakota. I grow one acre of them every year, and have plenty of fuel for one stove the year round. I plant in hills the same as corn (only three seeds to the hill), and cultivate the same as corn. I cut them when the leader, or top flower, is ripe."

4703—Pkg., 5c; ¼ lb., 9c; 1 lb., 30c; 2 lbs., 51c; 5 lbs., \$1.06, postpaid. Not prepaid: 10 lbs. or more, at 15c per lb.

I used your seeds this year and they are simply wonderful.—Mrs. Nils Rein, R. D. 2, Madison, Wis.

Salzer's Earliest of All Tomato

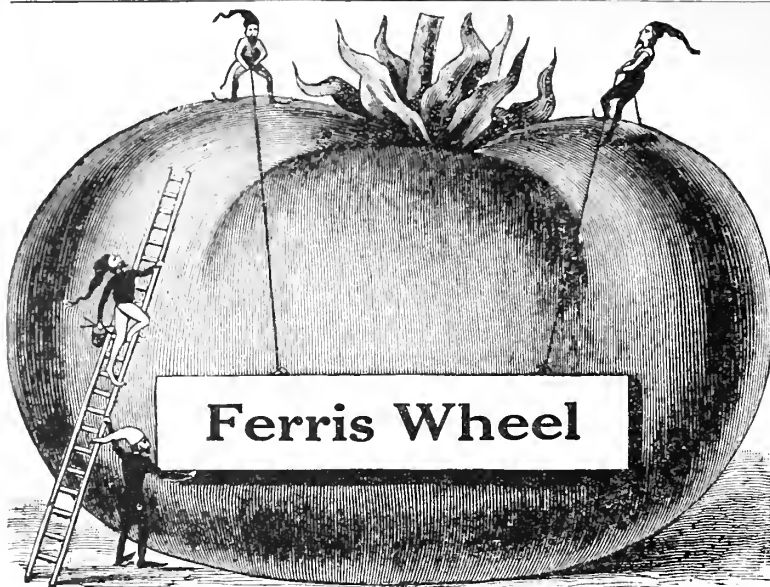

Although introduced by us many years ago, Salzer's Earliest of All is still the leading extra early tomato, the earliest large-sized variety grown, and we believe, as we are constantly improving it, it will hold its position and will stay on top as the **Earliest of All**.

With us in the North it has always been a study to produce extremely early vegetables, such as will ripen and produce perfect fruit in a short time, and in Earliest of All our efforts have been successful. Everybody who has tried it, speaks of it in highest praise. Earliness in tomatoes is essential for the market grower and highly desirable for the home garden. Salzer's Earliest of All is the best extra-early so far produced: it is our very earliest strain; it is a "short season" tomato. Ripening as it does in about 108 days, in the North, it is especially well adapted to all sections of the country, which makes it so decidedly popular. Finely bred for uniformity in size, attractiveness, extra earliness, and trueness to type, Salzer Quality is nowhere better evidenced than in this fine, highly praised variety. If you want the very earliest tomatoes, combined with fine flavor, meatiness, productiveness, attractiveness, and tenderness, you should plant our Earliest of All. It is bound to please the most particular.

The fruits are of good size, brilliant scarlet color, nearly round, entirely smooth, and remarkably handsome. The flesh is solid, and of the finest flavor. The fruits are borne continuously in large numbers until killed by frost. They have a tough skin, firm flesh, making them good shippers and keepers. Mrs. Art Johnson, Clintonville, Wis., writes, "I have used your Earliest of All Tomato for 2 years. It's the earliest tomato I have ever used." Mrs. Otto Klaerner, R. D. 2, Box 157, New Braunfels, Texas, writes, "Both my friends and I find your Earliest of All Tomato is unbeatable."

1118—Price of Salzer's Earliest of All: Pkg., 15c; oz., 45c; 2 oz., 85c; ¼ lb., \$1.60; lb., \$6.25, postpaid.

Your Earliest of All Tomato has given us ripe tomatoes in much less than 108 days.—Jefferson S. Bowen, 757 7th Ave., Wauwatosa, Wis.

SALZER'S IMPROVED PONDEROSA

Rightly named "Ponderosa" because of the large size it attains. Fruit is very solid, with few seeds. Our seed stock of this strain is the finest obtainable, and while very often large tomatoes, from their very size, are rough and have a tendency to split, we have developed and selected this seed so exhaustively that we have removed the roughness and splitting tendency as far as it is possible to do so. Note the large size and perfect condition of the tomatoes in the accompanying illustration.

Vines are vigorous and bear well. Fruits large, oblong, purplish red, with thin skin. Flesh is solid, with a very small seed cavity, making it a most desirable variety for slicing. To all who desire large size, solidity and flavor, we unhesitatingly recommend it. The vines are vigorous and very productive. Requires about 140 days to mature.

Chas. Stone, Bishop, Calif., writes: "Bought one package of Salzer's Improved Ponderosa last year and took first prize with them at the County Fair."

1142—Pkg., 10c; oz., 48c; 2 oz., 86c; ¼ lb., \$1.60; ½ lb., \$3.12; lb., \$6.00, postpaid.

YELLOW PONDEROSA

Same fine characteristics as the Ponderosa described above, except that the color is a rich golden yellow. Paul Schur, Vernon, Texas, writes, "I grew your Yellow Ponderosa Tomato and raised fruits weighing 1½ to 2 pounds and measuring 5 to 6 inches in diameter. Not only I, but my neighbors as well, think they are unbeatable for quality."

1179—Pkg., 10c; oz., 52c; 2 oz., 94c; ¼ lb., \$1.77; lb., \$6.75, postpaid.

Salzer's
Improved
Ponderosa

SALZER'S FERRIS WHEEL

The tomato is recognized by the medical profession as holding five points of merit which makes it actually indispensable in the vegetable garden. These points are that the tomato is the richest of all foods in vitamins; it is the most wonderful and effective blood cleanser of all foods; it is the best of all vegetables for keeping the stomach and intestines in condition; it is an extraordinary tonic for the kidneys, and it is used widely in curing diabetes and Bright's disease. In addition, it is extremely valuable for feeding the juice to infants, accomplishing wonders in cleansing and building up the tiny stomachs. Every garden in the U. S. should contain at least a few tomato plants. Plant some this year!

Salzer's Ferris Wheel is of the large Ponderosa type and averages about 1¼ pounds in weight, although at Cliffwood Farms we have grown specimens weighing over 4 pounds. Fruits have thick, solid, meaty flesh, which is of the finest quality, delicious, sub-acid flavor and very small seed cavity. The vines are strong and vigorous and easily bear their enormous weight of fruits which are of handsome appearance, smooth, and which have a rich dark purplish-crimson skin. Salzer's Ferris Wheel has been continually developed for immense size, uniformity, flavor, productiveness and to resist any tendency to split. Matures in about 142

days. A grand tomato for the home gardener as well as for market gardeners. Mr. H. W. Hannebaum, 2405 Stuart St., Indianapolis, Ind., writes, "Your Ferris Wheel Tomato is the best and biggest we have ever grown. The crop is sure and quality and flavor are fine."

1139—Pkg., 15c; oz., 55c; 2 oz., \$1.05; ¼ lb., \$2.05; ½ lb., \$4.05; lb., \$8.00, postpaid.

EARLIANA

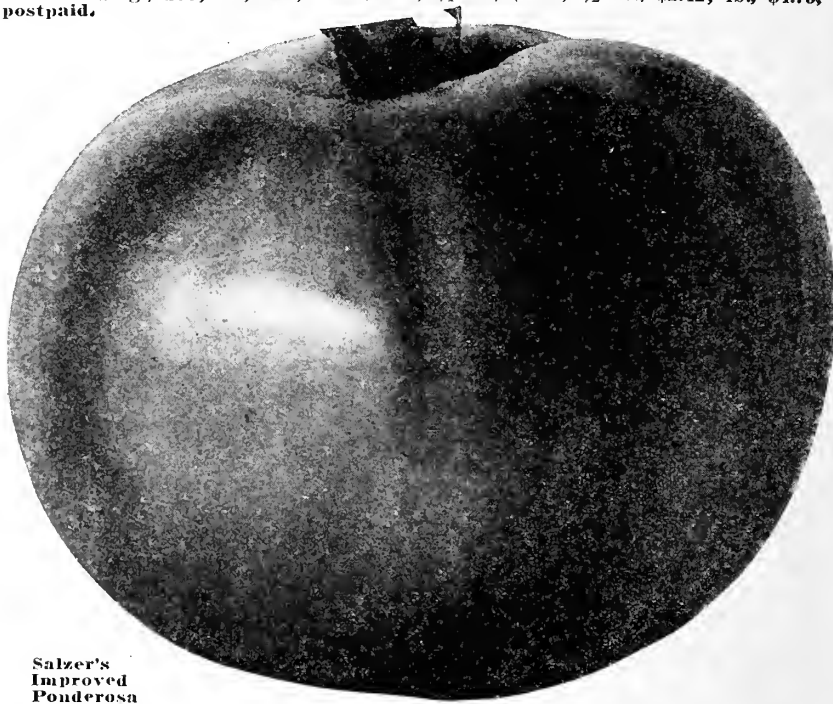

An extra-early deep red tomato, widely grown in all sections of the country. The vines are compact in growth, with short, close jointed branches. It is very productive bearing good sized fruit, uniform in size (about three inches in diameter) which has solid, thick flesh of excellent quality. Splendid for shipping. Matures in about 118 days.

1117—Pkg., 10c; oz., 34c; 2 oz., 60c; ¼ lb., \$1.10; ½ lb., \$2.10; lb., \$4.00, postpaid.

JUNE PINK

A large and decidedly pink-fruited variety, vines of spreading growth. The fruits average about 5 to 6 ounces in weight, are nearly round and slightly ribbed. Flesh is solid, of fine texture and best quality. It is a prolific bearer, clusters of six to eight large fruits being borne close to the main stem. Is also known as the Pink Earliana. Of great value to the gardener who grows for markets where pink tomatoes only, sell readily. Matures in 120 days.

1141—Pkg., 10c; oz., 35c; 2 oz., 65c; ¼ lb., \$1.24; ½ lb., \$2.42; lb., \$4.75, postpaid.

I had remarkable success with both your Improved Ponderosa and Yellow Ponderosa Tomatoes. They bore from January until May.—C. J. Davis, 1553 S. W. 7th St., Miami, Fla.

Salzer's 1927 New Wonder Tomato

SALZER'S NEW, SUPERB TOMATO

"Peak of Perfection"

This is the grand, new "Wonder Tomato" which we distributed free in 1927, and in 1928, named "Peak of Perfection!"

Here, Sir, is a tomato, the like of which you never spied before. If it is size you want, and just a luscious, deliciously good, all around tomato, then you must plant Salzer's Peak Of Perfection! A tomato that is in a class by itself, a tomato of monstrous size!

We gave free seeds of this tomato to our customers and friends in 1927 under the name of New Wonder and offered prizes for the largest tomato grown and for the best name for this beauty. Mr. Acro Castle, Hueysville, KY., won the prize of \$25.00 cash for the largest tomato with a weight of 4 pounds 7 ounces. Think of a monster tomato like that! Miss Adell Day, 241 Thieme Pl., Utica, N. Y., won the prize of \$10.00 in trade for the best name, Peak Of Perfection, which was selected by the judges after careful consideration.

Customers and friends throughout the entire country planted this fine strain last year again, and everyone had heavy delicious tomatoes, the best ever. Peak Of Perfection is of immense and monstrous size with remarkably solid, meaty flesh. One tomato sliced is more than sufficient for the ordinary family of four or five.

Peak Of Perfection is practically free from seeds, which naturally makes the seed harder to get and a bit more expensive, but it is well worth the slightly higher price. The tomatoes are of a beautiful appearance, uniformly large and smooth, with a rich dark crimson skin, meaty, and have a delicious, melting flavor. All esteem it the finest flavored tomato they have ever eaten. But, combined with this delicious flavor, is the enormous size! Think of one single tomato weighing almost five pounds. Thousands of people grew fruits weighing 3½ pounds, 3, 2¾,

2½, 2 pounds, etc. Only a few contestants reported weights less than two pounds, and those who did, reported very unfavorable weather conditions.

Read What Customers Say!

Unsurpassed in quantity of fruit, quality, and flavor.—Miss Vinnie Caldwell, Galax, Va.

Largest, smooth skinned tomato of all, fewest seeds and solid meat.—Mrs. Walter Baker, R. D. 3, Snover, Mich.

Your Peak Of Perfection Tomatoes are the best I have ever raised. They stand the long dry season of the Northwest better than any other and are more resistant to dry rot.—Ira L. Boyer, Box 25, Dillard, Oregon.

From the 20 free seeds, I grew 16 plants of your New Wonder Tomato. From August 16 to September 15, 1927 we picked 118 pounds of best quality tomatoes.—Mrs. Wm. C. Hutchinson, R. D. 2, Box 187, Waterville, O.

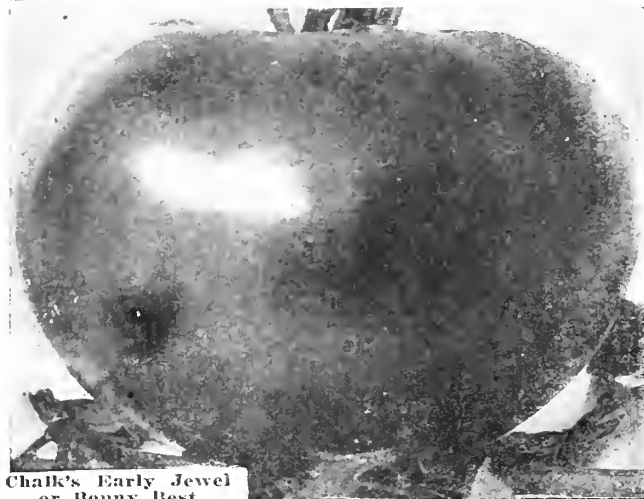

Heavy cropper, disease-resistant, fine texture and best quality.—Mr. Norman Kelsey, R. D. 2, Box 10, Pound, Wis.

Finest tomato I ever ate.—Mrs. J. L. Bowers, 1024 West Ash St., Salina, Kans.

PEAK OF PERFECTION should be in every garden this year. Home gardeners will point to the luscious fruits with pride—market gardeners will reap big profits. It succeeds in every section of the United States, and bears immense crops of large tomatoes of the best quality.

1131—Pkg., 17c; ½ oz., 33c; oz., 62c; 2 oz., \$1.16; ¼ lb., \$2.20; ½ lb., \$4.25; lb., \$8.25, postpaid.

Have only 4 vines of your New Wonder Tomato, but will have 2 or 3 bushel tomatoes.—Mrs. C. A. Hager, Box 6, Bay City, Wis.

Chalk's Early Jewel
or Bonny Best

SALZER'S SELECT STONE

King of the red tomatoes! The leading main crop variety, extensively grown by market gardeners, ideal for the home garden. Grown extensively by canners for canning, catsup, tomato soup, etc. An excellent shipper.

Vines are large, strong and productive. It is a smooth, large tomato, nice and solid, free from core and cavity. Nearly round in shape.

The eating quality is exceptionally fine, has no superior for slicing or canning. Fruits are bright scarlet. Our strain of this variety is carefully grown, selected, rogued and cured. Matures in about 135 days.

1122—Pkg., 5c; oz., 25c; 2 oz., 45c;
¼ lb., 80c; lb., \$2.95, postpaid.

DWARF CHAMPION

Quite distinct from the other varieties in habit of growth and foliage. Good sort for the home garden as the plants, owing to the peculiar upright growth, take up but little room and yield abundantly. The plants stand up almost like small trees. Ripens early; of medium, uniform size; deep glossy red with purplish tinge; round, smooth, free from cracks. A very desirable sort.

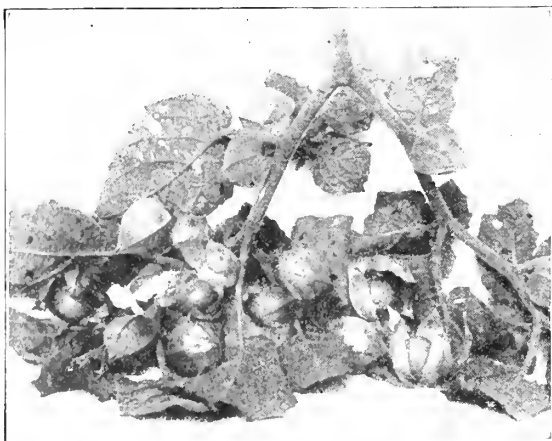

1156—Pkg., 10c; oz., 33c; 2 oz., 63c; ¼ lb., \$1.19; lb., \$4.50, postpaid.

SALZER'S NEW GLOBE

An outstanding variety, fruits perfectly round, medium size, purplish red color, flesh solid and a great shipper.

It is always smooth, of firm flesh and few seeds; ripens evenly; color, a fine glossy rose, tinged with purple, and without the slightest tinge of yellow at any stage of ripening. Matures in 125 days.

1151—Pkg., 10c; oz., 39c; 2 oz., 73c;
¼ lb., \$1.35; lb., \$5.00, postpaid.

Ground Cherry (Small Fruited Tomato)

CHALK'S EARLY JEWEL TOMATO

Also known as Bonny Best. An early bright red tomato, large, smooth, and finely flavored, producing heavily and continuously throughout the season. Seed is all of our own growing, carefully and specially selected, and is the best obtainable. A good main crop variety.

The fruits are very big, handsome, very solid and deep through. Of bright scarlet color, ripen right up to the stem without any cracks or green core. Flesh thick, with comparatively few seeds and of sweet flavor. A good shipper. Ready for use in about 125 days.

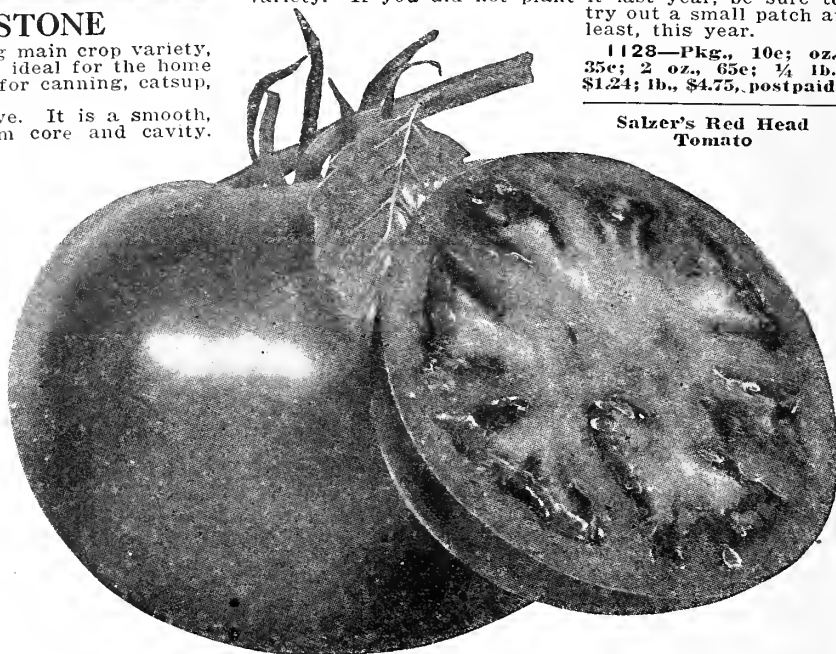

1114—Pkg., 10c; oz., 33c; 2 oz., 63c; ¼ lb., \$1.19; ½ lb., \$2.32; lb., \$4.50, postpaid.

SALZER'S RED HEAD

We introduced this tomato last year and the numerous reports received indicate it is giving great satisfaction. It is very early, maturing in about 120 days, reaches a good large size, is extremely productive and bears continuously. Fruits are bright red, nearly globe-shaped, and are very meaty with but a very small seed cavity. Ripens fully and uniformly to the stem, to a rich red color, vines are of medium growth and seem practically resistant to blight. It is an excellent canning variety. If you did not plant it last year, be sure to try out a small patch at least, this year.

1128—Pkg., 10c; oz., 35c; 2 oz., 65c; ¼ lb., \$1.24; lb., \$4.75, postpaid.

Salzer's Red Head
Tomato

SMALL FRUITED TOMATOES

Any Of The Following: Pkg., 10c; oz., 57c; 2 oz., \$1.05; ¼ lb., \$1.96; ½ lb., \$3.84; lb., \$7.50, postpaid.

1189—GROUND CHERRY OR YELLOW HUSK. In great demand. The delight of the children who eat this healthy, luscious fruit with great relish. Prepared as preserves, they are unequalled for delicacy of flavor. Also called Strawberry or Winter Cherry.

1187—RED PEAR. Bright red fruits, distinctly pear shaped, it has a rich and distinct flavor, and is a favorite for preserves and to make "tomato figs."

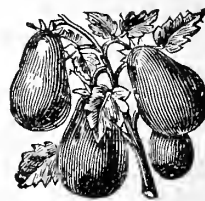

1191—YELLOW PEAR. Rich, clear yellow, otherwise identical with Red Pear.

1186—RED PEACH. Blended deep rose and orange. For preserves, pickles and exhibition. Both the Red and the Yellow Peach Tomatoes resemble a peach in size and shape. The skin is thin, covered with slight bloom and peels off like that of a peach.

1190—YELLOW PEACH. Clear lemon yellow. Otherwise same as above.

1185—RED CHERRY. Small, round fruits, one-half inch in diameter, of bright scarlet color. Widely used for salads and for pickling.

1188—YELLOW CHERRY. This variety differs from Red Cherry only in color.

Yellow Pear

Your Ground Cherries proved to be the tallest and most prolific we had ever had.—C. M. Sennard, R. D. 1, Fremont, Nebr.

SALZER'S MARGLOBE

A new wilt-resistant tomato that we introduced in 1927! Marglobe is a cross between the Marvel and Globe tomatoes, developed by the U. S. Department of Agriculture, combining the second earliness of the former with the fine table quality of the latter. Marglobe is of fine scarlet color, globe shaped, of fine texture, deliciously mild in flavor, and wilt-resistant to a marked degree. Plants are of vigorous and heavy growth.

For both the home gardener and the truck gardener Salzer's Marglobe "Wilt-Resister" tomato is going to prove a boon—taking a lot of the guesswork out of tomato-raising and putting a lot of tomato-profits into the grower's pockets.

We have a record of one plant, on diseased soil, producing 107 large, fine round, best quality tomatoes. Customers will make no mistake in planting Marglobe where the ordinary varieties have been giving unsatisfactory yields because of wilt.

1130—Pkg., 15c; ½ oz., 26c; oz., 44c; 2 oz., 78c; ¼ lb., \$1.48; ½ lb., \$2.84; 1b., \$5.50, postpaid.

SALZER'S "NORTON" WILT-RESISTANT

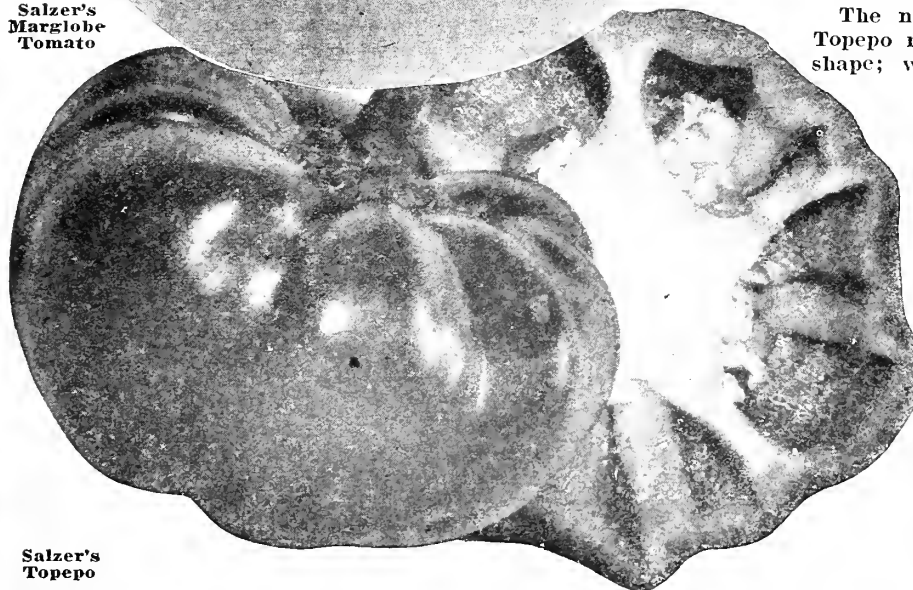

If you have been troubled with wilt, plant the Norton Wilt-Resistant Tomato. In tests on diseased soil, the Norton produced an excellent crop, almost free from wilt, while 8 other varieties were nearly destroyed. Has yielded 300 bu. to the acre on soil affected by wilt, while other varieties next to it yielded 25 bu. The tomatoes ripen nice and solid on the vines. Has a firm, solid skin, is a wonderful shipper, of fine flavor, meaty, few seeds and very tender. Is a mid-season tomato, globular, and of a beautiful scarlet color. It develops a very lusty system of roots and a strong, rugged vine, with luxuriant, rich dark green foliage.

1129—Pkg., 15c; oz., 33c; 2 oz., 63c; ¼ lb., \$1.19; ½ lb., \$2.32; 1b., \$4.50, postpaid.

Norton
Wilt-
Resistant
Tomato

Salzer's
Marglobe
Tomato

Salzer's
Topepo

SALZER'S TOPEPO

The new, large, tomato-like pepper! Topepo resembles a tomato in size and shape; when young is of a rich dark green color, and ripens to a beautiful orange shade. Seeds are few and the seed cavity is small. Topepo is a cross between a tomato and a pepper, and in flavor resembles both of these fruits, adding a slight, delicate touch of the mild, sweet pepper to the luscious sub-acid flavor of the tomato. It is not at all "hot" but on the contrary it is deliciously sweet. Everybody likes it.

The fruits are very meaty and have a thick skin, making them good shippers. Topepo may be eaten raw or sliced, similar to tomatoes, or used in salads, stuffed and baked, boiled, or served with tomatoes and lettuce. It is already immensely popular all over the country. Be sure to try it this year. You will be pleasantly surprised. Topepo yields heavily.

1197—Pkg., 25c; ¼ oz., \$1.66; ½ oz., \$3.22; oz., \$6.25, postpaid.

Salzer's Marglobe Wilt-Resistant Tomato seed proved to be very satisfactory.—Elmer M. Bradley, Delmar, Delaware.

Squash

A very nutritious and valuable vegetable. The summer varieties are ready for the table early in the season, and are not adapted for storing. The winter sorts are used in fall and can be stored until the following spring. The winter squashes also make good stock feed.

SALZER'S TABLE QUEEN

A small acorn-shaped, dark-green squash, almost black, about 4 inches in diameter and 6 inches long. The fruits turn to a golden color as they mature, and can be used either green or ripe. Vines seem almost insect proof, and the ground is literally covered with the scalloped, rather roundish dark green fruits. Of superb quality, they make excellent pies and can be cooked whole when young. Is of exceptionally nice flavor, and is just the right size to cut in half and bake. It is a splendid keeper, immensely prolific and is one of the best squashes for the home garden. Salzer's Table Queen is just the right size for an individual serving of squash and is immensely popular for hotels and restaurants all over the country. One of our customers reports 36 of these nice squash from three hills. A fine winter variety.

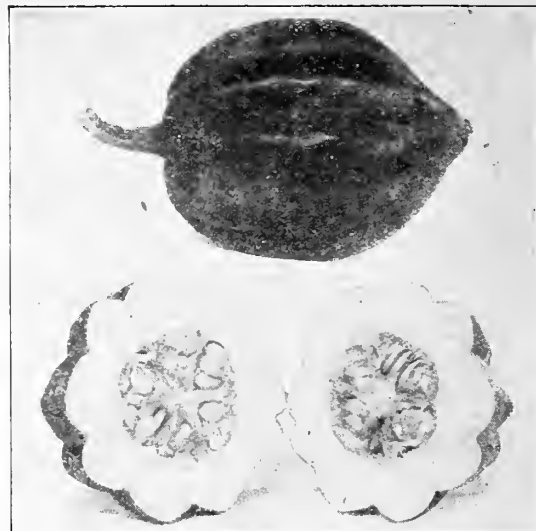

1090—Pkg., 10c; oz., 15c; 2 oz., 21c; ¼ lb., 37c; ½ lb., 71c; lb., \$1.35; 2 lbs., \$2.55, postpaid.

SALZER'S GOLDEN HUBBARD

In shape very similar to the Improved Hubbard. Trifle smaller, however, but earlier and more prolific.

The rind is a golden color and is somewhat warted. It is the earliest of the Hubbards and an extremely heavy producer. The average weight of the fruits is about 8 pounds; occasionally light cream colored stripes are seen at the blossom end. Has finely grained flesh, thick, and richly flavored, and is a favorite with canners; has excellent keeping qualities. The shell is hard and strong, making it a good shipper.

1097—Pkg., 5c; oz., 12c; 2 oz., 20c; ¼ lb., 35c; ½ lb., 65c; lb., \$1.25; 2 lbs., \$2.30, postpaid.

Salzer's Table Queen

MIXED SQUASH SEED

Many of our customers want a patch of ground which will produce a variety of squashes at different times. Our mixed squash seed will furnish you with winter and summer squashes of different sizes and kinds and contains only the highest grade seeds, of the best quality. Our squash mixture will surely please you.

Salzer's Golden Hubbard

1103—Pkg., 8c; oz., 11c; 2 oz., 16c; ¼ lb., 24c; ½ lb., 45c; lb., 85c, postpaid.

SOW SALZER'S SEEDS.

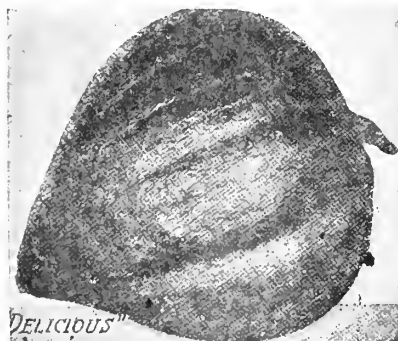

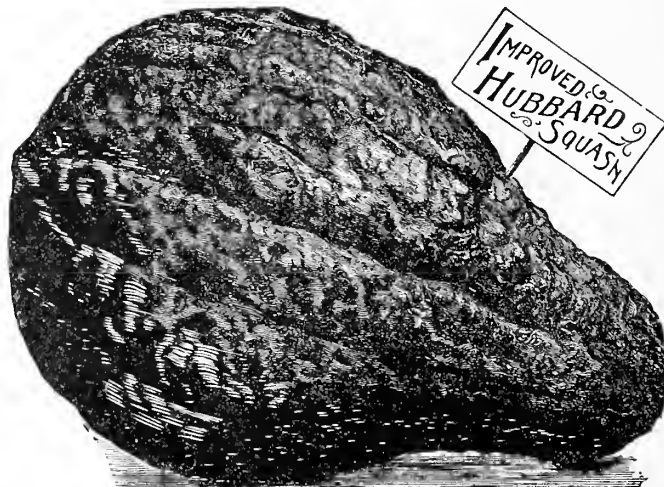

Your seeds were especially fine this year, and our garden has been a great boon to us.
St. Mary Magdelen's Academy, Silver City, New Mexico.

SALZER'S IMPROVED HUBBARD

Salzer's Improved Hubbard is the most popular winter squash in existence and it cannot be excelled for general purposes. Exhaustive tests, constant development for trueness to type and purity, have produced an exceptionally fine strain of seed, and in this variety our customers will find our finest value in winter squashes. It is recognized as a standard for both the home and market growing. A heavy yield and one that is sure to please you. Average weight about 10 pounds.

The vines are of a hardy, vigorous, trailing growth. The fruits are large and rich dark bronze green in color. Moderately warted and has a very hard shell, slightly curved at the stem end. The flesh is bright orange-yellow, fine grained, thick, dry and richly flavored.

1099—Pkg., 10c; oz., 13c; 2 oz., 21c; ¼ lb., 35c; ½ lb., 65c; lb., \$1.25; 2 lbs., \$2.30, postpaid.

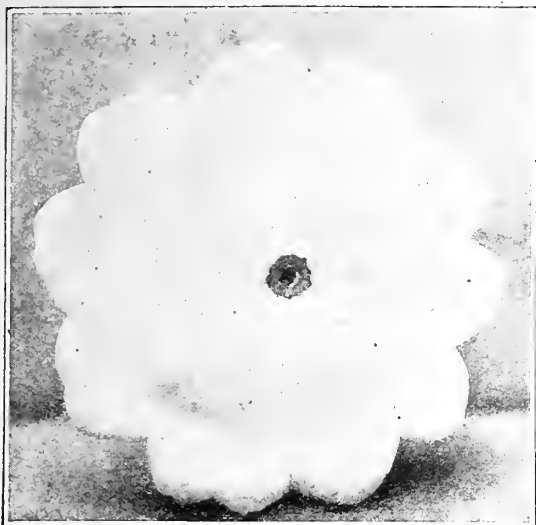

DELICIOUS

A winter squash, finely flavored, somewhat top shaped and has a rich, dark green skin. It is a standard strain and very popular; of exceptional merit for table use. The fruits weigh about 10 pounds and keep exceptionally well in storage.

The rind is deep dark green, mottled with lighter shadings, but not as thick skin as the Improved or Golden Hubbard. The thick flesh is very fine grained, sweet, dry and dark orange in color. It is a fine shipper. A good home garden and market gardener's variety, and will keep until Spring without difficulty.

1094—Pkg., 10c; oz., 15c; 2 oz., 25c; ¼ lb., 45c; ½ lb., 80c; lb., \$1.50; 2 lbs., \$2.80, postpaid.

From your Hubbard Squash Seed I had a wonderful crop. They weighed 30 lbs., and this is not a squash country.—
Mrs. S. Y. Purdy, 617 Lakeview Blvd., Sandpoint, Idaho.

Mammoth White Bush Scallop

Turnip

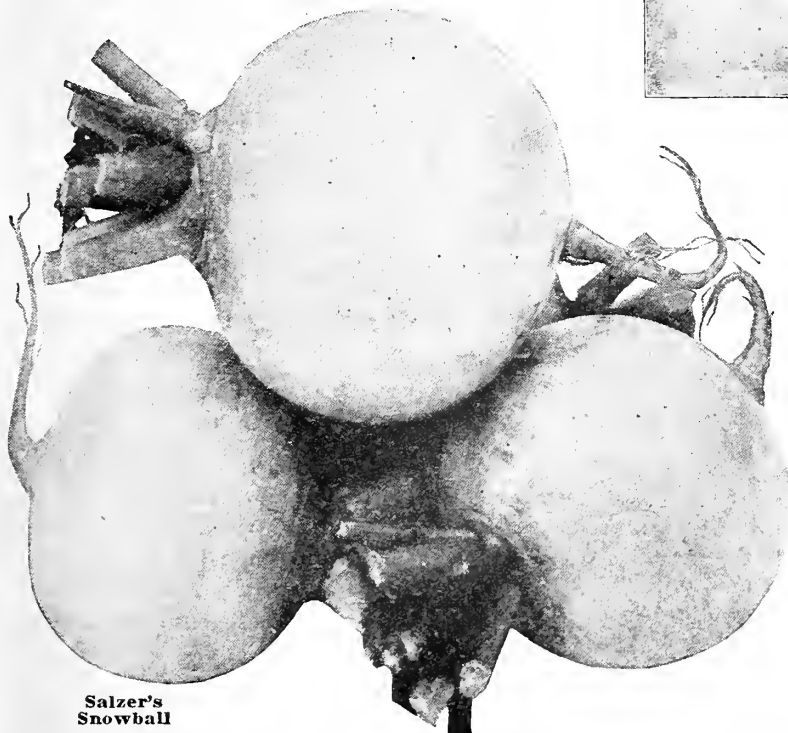

SALZER'S SNOWBALL

Splendid table qualities. One of the earliest, round, white turnips, producing medium large, round roots of perfect shape, with only a single tap root; they are of attractive appearance and showy; quite smooth, skin and flesh snowy white. The foliage is small and of light green color. The flesh is firm, mild and sweet; one of the finest turnips for private use as well as for the market gardener. Matures in about 40 days.

1204—Pkg., 10c; oz., 15c; ¼ lb., 25c; lb., 75c; 2 lbs., \$1.40; 5 lbs., \$3.30; 10 lbs., \$6.25, postpaid.

SOW SALZER'S SEEDS

I never could raise Salsify until I used your seed. Your 40 Day Cucumbers were ripe in 40 days, and I had Beans 2 weeks before my neighbors.—Mrs. A. G. Osborn, Blanchester, Ohio.

Salzer's Snowball

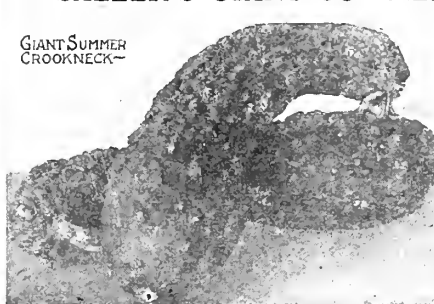

MAMMOTH WHITE BUSH SCALLOP SQUASH

The great summer squash that is so popular at all markets. Always brings good prices.

It is quite flat, with ridged or scalloped edges, very thick, and the vines are extremely productive and disease-resisting. Our seed has been carefully selected and bred for uniformity in maturing and in size and to produce handsome squashes that attract attention on the market. Is widely grown for home use as well as for the market. It makes an appetizing dish, and we know you will be exceptionally well pleased with it. Flesh is very tender and melting. Differs radically in flavor from the winter types, and is of true bush habit. An early maturing variety of finest quality and very prolific.

1086—Pkg., 5c; oz., 10c; 2 oz., 16c; ¼ lb., 27c; lb., 85c, postpaid.

SALZER'S GIANT SUMMER CROOKNECK

GIANT SUMMER CROOKNECK—

An old standard summer squash. One of the earliest and largest of the summer "crook-necks." Fruits are large from 1½ to 2 feet long, with a thickly warted surface and deep yellow color. Flesh is tender and of fine quality. Splendid for both market gardeners and for home table use. Very productive.

1085—Pkg., 5c; oz., 12c; 2 oz., 21c; ¼ lb., 35c; lb., \$1.20, postpaid.

Salzer's Purple Top Strap Leaf

PURPLE TOP STRAP LEAF TURNIP

It is splendid for early spring and late fall sowing, producing in about six weeks' time a usable, tender, mild, sweet turnip. The leaves are short, the roots quite flat with upper half a purplish color and the lower half white. The flesh is pure white, crisp and finely grained. It grows rapidly from the very start.

1211—Pkg., 5c; oz., 10c; ¼ lb., 20c; lb., 60c; 2 lbs., \$1.10; 5 lbs., \$2.45; 10 lbs., \$4.45, postpaid.

SALZER'S GOLDEN BALL

Medium sized, round roots of deep golden-yellow skin and flesh, which is firm, crisp and of excellent quality for the table. The most delicately flavored and finest yellow turnip for table use. Very early.

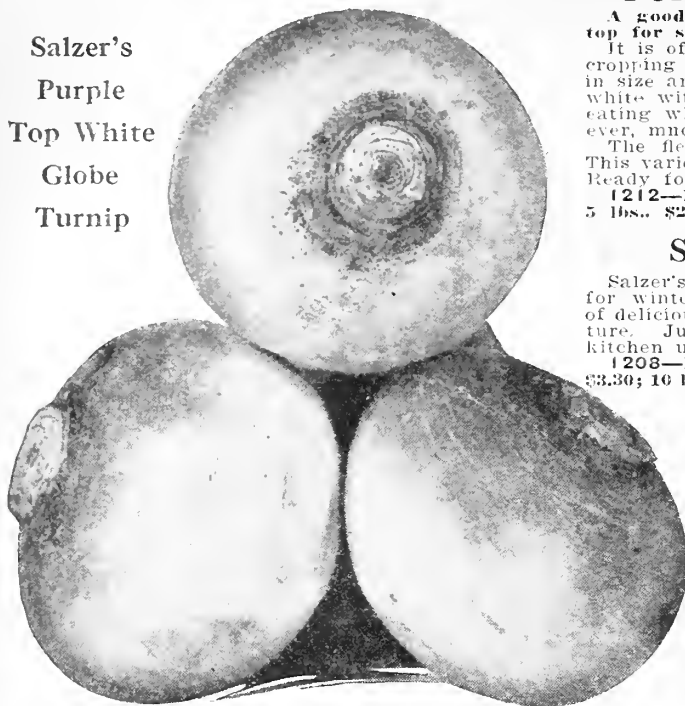

Adapted to spring as well as fall planting and keeps very well. Matures in about 42 days. 1236—Pkg., 8c; oz., 11c; ¼ lb., 26c; lb., 80c; 2 lbs., \$1.50; 5 lbs., \$3.55; 10 lbs., \$6.75, postpaid.

SEVEN TOP TURNIP

Grown for the large tops, which are used for greens; roots of no value. Sown in earliest spring, it furnishes "salad greens" quickly. 1215—Pkg., 6c; oz., 9c; ¼ lb., 23c; lb., 80c, postpaid.

I always raise nice Tomatoes by planting your seed.—Anna E. Bay, R. D. 2, Attica, Kans.

**Salzer's
Purple
Top White
Globe
Turnip**

PURPLE TOP WHITE GLOBE TURNIP

A good producer and a fine keeper, splendid for table, tip-top for stock.

It is of fairly symmetrical globe shape. One of the heaviest cropping garden turnips and an excellent keeper. It is ideal in size and attractive in appearance. The roots are large, and white with purple color above ground. The roots are best for eating when about three inches in diameter; they grow, however, much larger and are very suitable for stock feeding.

The flesh is white, tender, fine grained and mild in flavor. This variety is probably more generally planted than any other. Ready for use in 50 days.

1212—Pkg., 5c; oz., 10c; ¼ lb., 20c; lb., 60c; 2 lbs., \$1.10; 5 lbs., \$2.45; 10 lbs., \$4.45, postpaid.

SALZER'S MILK WHITE GLOBE

Salzer's Milk White Globe is one of the best White Turnips for winter use grown. It is globe shaped, grows very large, of delicious flavor, and has sweet, juicy, white flesh of solid texture. Just the turnip to grow for stock and to store for kitchen use. Ready in about 50 days.

1208—Pkg., 5c; oz., 10c; ¼ lb., 25c; lb., 75c; 2 lbs., \$1.40; 5 lbs., \$3.30; 10 lbs., \$6.35, postpaid.

YELLOW ABERDEEN PURPLE TOP

A large globe-shaped, table and stock variety. Outer skin yellow, with purple top. Flesh light yellow, sweet, excellent for table and relished by stock. Hardy and can be sown in July. Fine for early winter use. Matures in 60 days.

1237—Pkg., 5c; oz., 10c; ¼ lb., 25c; lb., 75c; 2 lbs., \$1.40; 5 lbs., \$3.30; 10 lbs., \$6.35, postpaid.

SALZER'S WHITE EGG TURNIP

One of the best for the private garden and meets with a ready sale on all markets. Has oval roots about ⅓ longer than broad, skin white and smooth, flesh firm, white, and of fine quality. Grows ½ out of the ground.

1217—Pkg., 7c; oz., 16c; ¼ lb., 25c; lb., 75c; 2 lbs., \$1.40; 5 lbs., \$3.30; 10 lbs., \$6.35, postpaid.

SALZER'S COWHORN TURNIP

In Cowhorn Turnip you have the best "plougher," the best deep cultivator on the farm! It's better than a 12-inch deep plow. Cow Horn tunnels into the soil, often 24 inches deep, and brings up the good qualities and mixes it with the surface. Its long carrot-like shape has made it immensely popular with farmers where more friable land is desired. Its penetrating growing habit loosens up the land and makes a better and richer growing soil for succeeding crops. Aside from this, it has all the other good qualities of a turnip and is splendid for the table. Excellent for stock; superb for plowing under as a green fertilizer. This turnip grows partly above ground. The skin is of a clear white color with a shade of green on the crown. Matures in about 60 days.

1202—Pkg., 7c; oz., 10c; ¼ lb., 25c; lb., 75c; 2 lbs., \$1.40; 5 lbs., \$3.30; 10 lbs., \$6.35, postpaid.

Herb Seeds, Sweet, Pot and Medicinal

ANISE—For flavoring cookies, candies, etc. 1242—Pkg., 10c; oz., 15c; 2 oz., 25c; ¼ lb., 45c, postpaid.

BASIL, SWEET—Leaves are used for mock-turtle soups. 1244—Pkg., 10c; oz., 26c; 2 oz., 31c; ¼ lb., 55c, postpaid.

BORAGE—The flowers furnish bee pasturage. The leaves are used in salads and lemonades. 1246—Pkg., 10c; oz., 12c; 2 oz., 20c; ¼ lb., 35c, postpaid.

CARAWAY—Seeds are used to flavor roasts and for cookies, etc. Plants do not seed until second year. 1249—Pkg., 6c; oz., 8c; 2 oz., 14c; ¼ lb., 23c; lb., 80c, postpaid.

CATNIP OR CATMINT—A hardy perennial. The leaves and young shoots are used for seasoning. Makes also excellent bee pasture. 1277—Pkg., 10c; ½ oz., 36c; oz., 67c; ¼ lb., \$2.50, postpaid.

CORIANDER—A hardy annual. Cultivated for its seed, which has an agreeable taste and is used in candies. 1253—Pkg., 10c; oz., 15c; 2 oz., 25c; ¼ lb., 45c, postpaid.

DILL—An annual. The seeds have an aromatic odor and warm pungent taste. They are used for seasoning and possess medicinal properties, but their largest use is for making Dill pickles. 1254—Pkg., 5c; oz., 11c; 2 oz., 19c; ¼ lb., 35c; lb., \$1.25, postpaid.

FINOCCHIO, or FLORENCE FENNEL—Delicious as a salad or boiled. Flavor somewhat like celery. 1256—Pkg., 10c; oz., 20c; 2 oz., 33c; ¼ lb., 50c, postpaid.

LAVENDER (Lavandula Spica)—A hardy perennial. It is used to perfume linen. 1260—Pkg., 10c; oz., 41c; 2 oz., 78c; ¼ lb., \$1.50, postpaid.

MAJORAM, SWEET—Perennial, but not hardy in the north. An aromatic herb for seasoning. The young, tender tops and leaves are used green in summer to flavor broths, dressing, etc. 1261—Pkg., 5c; oz., 20c; 2 oz., 34c; ¼ lb., 57c; lb., \$2.00, postpaid.

MINT, PEPPER—Leaves and stems are used for flavoring. 1262—Pkg., 15c; ½ oz., \$1.95; oz., \$3.50, postpaid.

MINT, SPEAR—A hardy perennial. Leaves and ends of shoots are used for seasoning and for mint sauce. 1263—Pkg., 15c; ½ oz., \$2.15; oz., \$3.95, postpaid.

ROSEMARY—The leaves are used for flavoring meats and soups. Plants do not reach a size suitable for use until the second season. 1265—Pkg., 10c; ½ oz., 30c; oz., 50c.

SAFFRON—A hardy annual. Cultivated for its flowers, which are used principally for coloring, sometimes for flavoring. The flowers should be picked while in full bloom. 1267—Pkg., 10c; oz., 32c; 2 oz., 55c; ¼ lb., \$1.00, postpaid.

SAGE—A hardy perennial. One of the most extensively used herbs for seasoning. Cut the leaves and the tender shoots just as the plant is coming into flower and dry quickly in the shade.

1268—Pkg., 10c; oz., 20c; 2 oz., 36c; ¼ lb., 67c; ½ lb., \$1.29; lb., \$2.50, postpaid.

SAVORY, SUMMER (Bohnenkraut)—The dried stems, leaves and flowers are extensively used for seasoning, especially in dressings and soups and also with string beans. 1269—Pkg., 9c; oz., 15c; ¼ lb., 49c; lb., \$1.75, postpaid.

THYME, BROAD LEAVED ENGLISH—Used principally for seasoning. Sometimes the leaves are used to make tea for relieving nervous headache. 1272—Pkg., 10c; oz., 40c; 2 oz., 73c; ¼ lb., \$1.35; lb., \$5.00, postpaid.

WORMWOOD—A perennial plant of fragrant and spicy odor, but with intensely bitter taste. The leaves are used as a tonic. It is also beneficial for poultry and should be planted in poultry yards. 1273—Pkg., 10c; oz., 34c; 2 oz., 60c; ¼ lb., \$1.10; ½ lb., \$2.07; lb., \$4.00, postpaid.

1281—MIXED HERBS—A package usually will produce enough plants of any one variety desired for flavoring or medicinal purposes. Pkg., 10c; oz., 24c; 2 oz., 45c; ¼ lb., 85c, postpaid.

I have used your Milk White Globe Turnip and have never found its equal.—H. T. Cornell, Winterburn Alta., Canada.

Salzer's Famous Asters HHA

In order to have a succession of Asters in bloom throughout the entire season we suggest the following varieties named in the order of their season of bloom: **Early Varieties:** Queen of the Market, Moreton Pink, Lavender Gem. **Mid-Season Varieties:** Astermum Asters, Improved Giant Crego, Sunshine Asters, Salzer's Choice Miscellaneous Asters, Dwarf and Bi-Color Asters (see page 72). **Late Varieties:** Beauty Asters, Heart of France Aster, Crimson Giant, Everlasting Aster, Salzer's Giant Branching Asters, and last of all, ending the season with a resplendent, colorful display of massive flowers on long stems, Salzer's New California Giant Asters, listed on Page 71.

QUEEN OF THE MARKET

A popular early flowering aster, blooming two weeks earlier than the taller sorts and continuing until late in fall. Plants of spreading habit, growing one foot high. It is the very earliest of all asters.

	Pkt.	1/8 oz.	1/4 oz.		Pkt.	1/8 oz.	1/4 oz.
1664—Crimson	10c	25c	40c	1667—Pink	10c	25c	40c
1665—Dark Blue . . .	10c	25c	40c	1668—Scarlet	10c	25c	40c
1666—Light Blue . . .	10c	25c	40c	1669—White	10c	25c	40c
1670—Salzer's Queen of the Market, Mixed.	Pkt., 10c; 1/8 oz., 22c; 1/4 oz., 35c						
1576—One Pkt. each of the above six separate colors for 50c.							

SALZER'S MORETON PINK ASTER

A magnificent variety, 24 to 30 inches high, blooming from early in August until well on in September, flowers averaging 4 inches across, of chrysanthemum shape, the inner petals incurved, outer reflexed; color a soft, delicate blush pink, a shade that is always in demand for cutting. 1672—Pkt., 10c; 1/8 oz., 20c; 1/4 oz., 50c.

LAVENDER GEM ASTER

One of the most beautiful Asters. It is of true Comet type, with large, artistic, loosely-arranged flowers on long, wiry stems, and of the most charming shade of lavender imaginable. Begins blooming in July, continuing through August; a lovely variety for cutting. 1673—Pkt., 10c; 1/8 oz., 30c; 1/4 oz., 50c.

SOW

SALZER'S SEEDS

I ordered Aster seed from you last year and they were beautiful. Sold some to a lady, who said she never saw such Asters, except at a greenhouse. —Susie M. Monroe, The Plains, Va.

Queen of the Market—The Earliest Aster

IMPROVED GIANT CREGO

The plants are vigorous and productive, sending up stems about two feet in length, each carrying immense flowers often measuring 5 1/2 inches across. The long petals curl across each other so fluffily as to enhance the beauty of the flowers. Blooms from August to the end of September. The large, double flowers, shapely and well formed, make this a fine all-purpose variety.

Mrs. Elizabeth Hudson, Elizabethtown, Ind., writes, "The Aster seed I got from you was wonderful; the flowers were extra large."

	Pkt.	1/8 oz.	1/4 oz.
1718—Giant Crimson	10c	25c	40c
1719—Giant Dark Blue	10c	25c	40c
1720—Giant Lavender	10c	25c	40c
1721—Giant Pink	10c	25c	40c
1722—Giant Purple	10c	25c	40c

1724—Giant White	10c	25c	40c
1725—Giant Finest Mixed	10c	22c	35c
1578—One pkt. each of the above seven separate colors for 50c.			

ASTERMUM ASTERS

A type of Comet Asters, which, on account of their size and Chrysanthemum-like appearance, are appropriately called Astermums. The plants are about two feet high, branching habit with flowers large, double, and very well formed. Bloom a trifle earlier than Giant Crego.

1700—Lavender	Pkt., 10c; 1/8 oz., 25c; 1/4 oz., 40c.
1701—White	Pkt., 10c; 1/8 oz., 25c; 1/4 oz., 40c.

1703—Finest Mixed	Pkt., 10c; 1/8 oz., 25c; 1/4 oz., 40c.

One pkt. each of above 3 colors, for 25c; 1/4 oz., each for 65c.

Salzer's Improved Giant Crego Aster

I had wonderful results with your Aster seed last year.—Carl H. Wagner, 1438 Hawthorne St., Waterloo, Ia.

SALZER'S NEW SUNSHINE ASTERS

A new type of aster of singular beauty and great merit. You will be impressed and delighted with the large flowers which are 4 to 6 inches in diameter and which are half double, exhibiting the grace and beauty of the single aster, but greatly enhanced by a cushion center of tiny quills of a contrasting color. The golden yellow ground-tone of the quilled center petals, harmonizes beautifully with the pink, blue, lilac and white of the outer petals, which form a charming loosely curled circle. The plant is of branching habit, bearing its lovely flowers on long and strong stems, making it invaluable as a cut flower.

The delicate beauty of this Aster will appeal to every garden lover who wants exquisite flowers for garden decoration or for cutting. We offer the following good range of colors:

1767—White
1768—Blue

1769—Pink
1770—Lilac

1771—Mixed

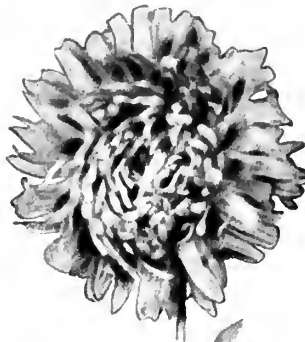

Any of above, per Pkt., 15c; $\frac{1}{4}$ oz., 75c; $\frac{1}{2}$ oz., \$1.25. One packet each of above four separate colors, for 50c; $\frac{1}{4}$ oz. each, for \$2.50.

HEART OF FRANCE ASTER

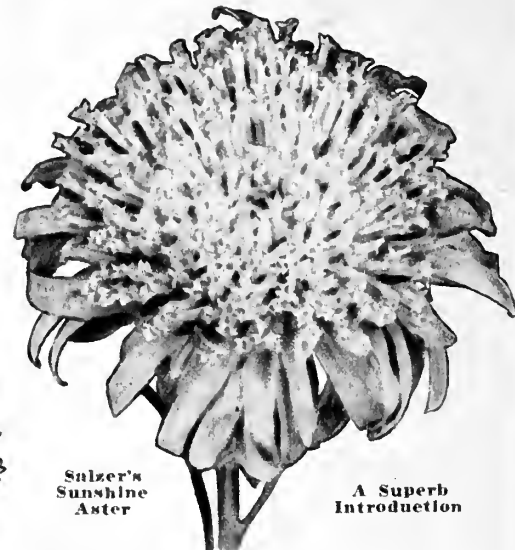

This recent introduction is the largest flowering of the very dark red sorts. The plants grow about 24 inches high, are nicely branched, and in September bear large, rich, deep ruby-red flowers on long, strong and stiff stems. 1675—Pkt., 125 seeds, 12c; $\frac{1}{4}$ oz., 32c; $\frac{1}{2}$ oz., 55c.

CRIMSON GIANT ASTER

This variety has all the good qualities of our Superb Late Branching type, but is of upright growth, with extra large, densely double flowers, few under 5 inches across, on stems 15 to 18 inches long, in color a very rich blood crimson, full of fire, making a brilliant bed or border. 1674—Pkt., 10c; $\frac{1}{4}$ oz., 30c; $\frac{1}{2}$ oz., 50c.

Giant Branching Aster

Salzer's
Sunshine
Aster

A Superb
Introduction

SALZER'S BEAUTY ASTERS

A mid-season type of giant flowers borne on long and stout stems two feet long. The sensation of the Aster family, excellent for sections having short seasons, of vigorous growth, bearing dense double flowers of beautiful shades. This is one of the finest Asters we have ever produced. You will be pleased. Try them. Plants three feet high, easily grown and seem to thrive everywhere. Ideal for cut flowers.

Mrs. Philip Rome, Emmett, Idaho, writes, "I am sending you a picture of some of our asters grown in Idaho. The plants are over four feet high and the flowers are four inches and even more in diameter, all of them beautiful colors."

Mrs. Annabel Davis, Wells, Nevada, writes, "I grew flowers from your seeds that were beautiful. Last year I took premiums at the County Fair on both your Asters and your Pansies." Salzer's Seeds are prize winners.

1711—Peach Blossom. An exquisite pinkish orange.

1712—Lavender Beauty. Beautiful soft lavender.

1713—Purple Beauty. Deep rich purple. Glorious flowers.

1714—September Beauty. A rare shade, delicate shell-pink.

1715—Finest Mixed. A fine mixture of the above rare shades.

Price of above; Each, Pkt., 75 seeds, 12c; $\frac{1}{4}$ oz., 38c; $\frac{1}{2}$ oz., 65c. One packet each of above four colors, for 40c.

EVERLASTING ASTER

1747—Everlasting Flesh. This curious Aster was found in our fields a few years ago and it has retained its peculiar characteristics during the three years we have been propagating it. It resembles somewhat a large Helichrysum or Strawflower; when cut and dried it retains its flesh color and its shape as an everlasting flower for winter decoration. Pkt., 75 seeds, 12c; $\frac{1}{4}$ oz., 25c; $\frac{1}{2}$ oz., 40c.

SALZER'S GIANT BRANCHING

Particularly desirable for cut flowers and interior decorations. The flowers are extra large, double, full centered and borne on strong stems, frequently sixteen inches in length. They are a late variety and are in their prime from September on. Plants are 2½ to 3 feet high.

Mr. F. J. Hughes, 1542 Hood Ave., Chicago, Ill., writes: "My Asters last year, grown from Salzer's Seeds, were dandy. Flowers were very large."

	Pkt.	$\frac{1}{4}$ oz.	$\frac{1}{2}$ oz.

1577—One pkt. each of the above six separate colors for 50c.

1682—Salzer's Giant Branching, Choicest Mixed. All colors and shades. Pkt., 75 seeds, 10c; $\frac{1}{4}$ oz., 25c; $\frac{1}{2}$ oz., 40c.

Salzer's Beauty Aster

Everyone who saw your Heart of France Aster, asked me where I got the seed.—Mrs. Chas. Keehn, Box 327, Preston, Minn.

SOW SALZER'S SEEDS

I wish you could have seen the gorgeous basket of California Giant Asters that I took to church yesterday morning, grown from your seed. They were very beautiful and received much deserved admiration.—Mrs. Geo. Manifold, 800 White St., Canton, Mo.

Friends thought that the new California Giant Asters that I raised, had been bought from a florist. The first blossoms measured six inches in diameter.—Mrs. Lester L. Rand, R. D. 2, Auburn, Me.

We certainly had lovely Asters from your new California Giant Aster seed.—Mrs. Minnie Tatlo, R. D. 1, Geneva, Nebr.

Your New California Giant Asters were beautiful. From one packet of mixed seed I sold over \$12.00 worth of Asters.

Lorene Koch, Newburgh, Ind.

SALZER'S NEW CALIFORNIA GIANT ASTERS

Since introducing the Beauty Type of Aster, we have frequently received inquiries for a Crego with the robust habit of growth and length of stem that characterizes the Beauty Type. After several seasons of hybridizing and selection we finally produced such a flower, and in 1927 introduced Salzer's New California Giant Asters, a type characterized by the Beauty's vigorous growth and the Crego or Ostrich Feather type of flower. A true non-lateral type.

The flowers are much larger and more substantial than the Improved Crego. They measure 5 to 6 inches in diameter, and stand up well when shipped as cut flowers. Their immense size and beauty, as well as their long and sturdy stems make them very attractive when arranged in bouquets, and they well deserve their name. The flowers last unusually long when cut. Wherever exhibited, this superb new type has won prizes and received awards of merit.

1683—Peach Blossom	1686—Deep Rose
1684—Light Blue	1687—Dark Purple
1685—Light Purple	1689—White

Any of above, 15c per packet; ¼ oz., 95c; ½ oz., \$1.65. One pkt. each of above six, for 80c; ¼ oz., each of above six, for \$4.50.

1688—Mixed. All colors mixed. Pkt., 14c; ¼ oz., 75c; ½ oz., \$1.40.

I had the most beautiful Asters I ever saw, from your seed, and your shrubs gave me splendid results.—Mrs. J. Ventrice, 131 East Marie St., Hicksville, L. I., N. Y.

SALZER'S CHOICE MISCELLANEOUS ASTERS

1733—**Fire King or Triumph**. Plants eight inches high, covered with large, handsome, double flowers of peony form; intensely brilliant scarlet. Pkt., 150 seeds, 15c; $\frac{1}{8}$ oz., 30c; $\frac{1}{4}$ oz., 50c.

1736—**Snowball**. An exclusive aster, growing about one foot in height and producing a profusion of handsome, pure white flowers. Pkt., 150 seeds, 10c; $\frac{1}{8}$ oz., 35c; $\frac{1}{4}$ oz., 60c.

1754—**Salzer's Choice Mixed**. This mixture is immensely popular and is doubtless one of the best nickel mixtures offered today. Blooms from August till frost. The colors are brilliant, varied and charming. Pkt., 150 seeds, 5c; $\frac{1}{8}$ oz., 15c; $\frac{1}{4}$ oz., 25c.

1696—**Peony-Flowered Perfection, Mixed**. A mid-season variety blooming in August. One of the most perfect flowers, very double, large and finely shaped with in-curved petals. Pkt., 150 seeds, 10c; $\frac{1}{8}$ oz., 35c; $\frac{1}{4}$ oz., 60c.

1745—**Salzer's Gorgeous Prize Mixture**. To those desiring a beautiful garden of asters, in almost endless types, varieties and exquisite colors, we particularly recommend our Gorgeous Prize Mixture. Pkt., 175 seeds, 12c; $\frac{1}{8}$ oz., 45c; $\frac{1}{4}$ oz., 75c.

1756—**Perennial Asters**. Bright beautiful flowers. Perfectly hardy, live for many years. Pkt., 12c; $\frac{1}{8}$ oz., 65c; $\frac{1}{4}$ oz., \$1.35.

ASTER CULTURE

Asters delight in a rich, moist soil, and, to produce the largest and finest flowers, they should have plenty of room and be given frequent cultivation. For the earliest flowers, start the seed indoors in March and transplant the seedlings to the open ground when they are about 4 inches high. For later bloom, the seed may be sown in the garden in May after the soils warm. The plants should be thinned out to stand at least a foot apart.

Salzer's New Dwarf Aster

Salzer's New Bi-Color Aster

NEW BI-COLOR ASTER

A lovely new Aster which we introduced in 1927. The plants are of strong, vigorous growth, producing on long and strong stems, large and perfectly formed double flowers in great profusion. The flowers measure as much as 4 to 5 inches in diameter, the center being a beautiful soft and fluffy cushion of golden yellow, surrounded by outer petals of soft lavender. At Cliffwood Farms, they attracted much favorable comment. The petals are delicately quilled, giving the flower a charming appearance. 1716—Pkt., 12c; $\frac{1}{8}$ oz., 55c; $\frac{1}{4}$ oz., 90c.

SALZER'S DWARF ASTER

Another sterling introduction! Dwarf, bushy plants, bearing a wealth of well formed, large, double flowers. The plants are only 10 inches high, making them invaluable for borders or for planting in pots. We have counted as many as 29 blooms on a single plant. The flowers are a beautiful, delicate lavender, overlaid with cerise pink. Very desirable. 1717—Pkt., 12c; $\frac{1}{8}$ oz., 55c; $\frac{1}{4}$ oz., 90c.

BALLOON VINE HHA

1760—Also called Love-in-a-Puff. This rapid growing annual climber succeeds best in a light soil and sunny situation. The flowers are white and the seed-vessels, which resemble miniature balloons, are very interesting to children. Grows 10 to 15 feet high. Pkt., 5c; $\frac{1}{8}$ oz., 9c; $\frac{1}{4}$ oz., 15c.

DOUBLE CAMELIA-FLOWERED

BALSAMS (Lady Slipper) HHA

An old and favorite garden flower, producing its gorgeous masses of beautiful, brilliant-colored double flowers in the greatest profusion; of easiest culture; succeeds in a good, rich soil. Tender annuals. 2 feet. Start the seed indoors in April, or sow out of doors in May. Splendid when grown in pots.

1762—**Apple Blossom**. An exquisite shade of pink. Pkt., 10c; $\frac{1}{8}$ oz., 20c; $\frac{1}{4}$ oz., 35c.

1763—**Crimson King**. Deep blood red, very double. Pkt., 10c; $\frac{1}{8}$ oz., 20c; $\frac{1}{4}$ oz., 35c.

1764—**White Perfection**. Large, double, snow-white. Pkt., 10c; $\frac{1}{8}$ oz., 18c; $\frac{1}{4}$ oz., 30c.

1772—**Fire King**. Glowing, fiery scarlet, large flowers. Pkt., 10c; $\frac{1}{8}$ oz., 20c; $\frac{1}{4}$ oz., 35c.

1766—**Solfarino**. Striped and spotted white, lilac, and scarlet. Very attractive. Pkt., 10c; $\frac{1}{8}$ oz., 20c; $\frac{1}{4}$ oz., 35c.

One Pkt. each of above 5, 40c; $\frac{1}{8}$ oz., each, 80c; $\frac{1}{4}$ oz., each, \$1.20.

1774—**Double Camelia-flowered, Mixed**. Pkt., 10c; $\frac{1}{8}$ oz., 18c; $\frac{1}{4}$ oz., 30c.

1778—**Cliffwood Giant Double, Mixed**. Pkt., 15c; $\frac{1}{8}$ oz., 30c; $\frac{1}{4}$ oz., 50c.

1776—**Salzer's Superior Double Mixed**. Pkt., 5c; $\frac{1}{8}$ oz., 10c; $\frac{1}{4}$ oz., 16c.

Balloon Vine

Camelia-flowered Balsam

From a small package of your seed, I raised the most beautiful Asters I have ever grown.—Mrs. T. R. Warren, Box 1560, Winston-Salem, N. C.

ABUTILON (Flowering Maple) TP

Valuable house-plants and suitable for the outdoor garden except in the extreme northern states. If sown early indoors in boxes, or in the hot-bed, they will bloom the first season. The plants should be lifted in the fall and brought indoors, where they will flower throughout the winter. They are not at all difficult to grow.

1602—**Abutilon, Finest Mixed.** Giant-flowering. Flowers held upright, ranging in colors from cream to golden yellow and from white to rose. Free-blooming. Pkt., 10c; $\frac{1}{8}$ oz., \$1.60; $\frac{1}{4}$ oz., \$2.70.

ACHILLEA (Milfoil, or Yarrow) HP

1604—**The Pearl.** One of the best hardy white perennials. Grows about 2 feet high, and from spring to frost is covered with heads of purest white, dainty, double flowers. Easily grown from seed, flowering the first season, if sown early. Pkt., 60 seeds, 10c; $\frac{1}{8}$ oz., \$1.25; $\frac{1}{4}$ oz., \$2.25.

ACONITUM (Monkshood) HP

1606—**Napellus.** Invaluable for planting under trees or in shady or semi-shady positions. Lovely dark blue flowers and handsome foliage. Especially well suited for borders and massing. Height, 20 inches. Pkt., 10c; $\frac{1}{8}$ oz., 50c; $\frac{1}{4}$ oz., 90c.

ACROCLINIUM HA

A pretty annual "Everlasting," growing about 15 inches high, bearing lovely white or rosy-pink flowers, which, when cut in the bud state, can be dried and used in winter bouquets. A nice flower to grow in a mixed border aside from its use as an everlasting.

1608—**Double Rosca.** Beautiful shade of rosy-pink. Pkt., 75 seeds, 10c; $\frac{1}{8}$ oz., 20c; $\frac{1}{4}$ oz., 30c.

1609—**Double Mixed.** A fine mixture of white and pink. Pkt., 75 seeds, 8c; $\frac{1}{8}$ oz., 15c; $\frac{1}{4}$ oz., 25c.

Aconitum or Monkshood

Ageratum and White Leaved Centaurea

ADLUMIA HB

1603—**Cirrrosa.** (Allegheny Vine or Mountain Fringe.) A hardy and graceful biennial climber, but as it resows itself year after year, it might be considered perennial. The feathery foliage resembles that of the Maiden Hair Fern. Flowers are tube shaped, flesh colored, somewhat like the Bleeding Heart, and completely cover the plant. Very desirable for trellises, covering stumps of trees, etc., or damp, cool spots. Sometimes does not flower until second season. Pkt., 15c; $\frac{1}{16}$ oz., 50c; $\frac{1}{8}$ oz., 90c; $\frac{1}{4}$ oz., \$1.65.

Ageratum, Double
AGERATUM HA

Also called Floss Flower. One of the best bedding plants, being literally a sheet of bloom from early summer till frost. The flowers are not liable to be spoiled by rain, nor do the colors fade out. Easily raised from seed, which is usually started in a hot-bed or window and transferred to the open ground in May. Can also be sown outdoors in May. Sown in September, one can have blooming house plants all winter.

1610—**Little Blue Star Ageratum.** Of exceedingly dwarf and even growth. The tiny bushes, 4 to 5 inches high, are densely covered with bright blue flowers. Splendid for edging. Extra choice. Pkt., 15c; $\frac{1}{8}$ oz., 35c; $\frac{1}{4}$ oz., 60c; $\frac{1}{2}$ oz., \$1.10.

1612—**Blue Perfection Ageratum.** The darkest colored of all large flowering Ageratums. Color, deep amethyst-blue; height, 15 inches; compact growth, fine bedder. Pkt., 5c; $\frac{1}{8}$ oz., 15c; $\frac{1}{4}$ oz., 25c.

1611—**Little White Dorrit Ageratum.** The best low-growing white Ageratum. Pkt., 5c; $\frac{1}{8}$ oz., 15c; $\frac{1}{4}$ oz., 25c.

1607—**Princess Victoria Louise Ageratum.** Of dwarf, compact, bushy growth, rarely exceeding 3 inches in height. The flowers are an exquisite shade of sky blue with white centers. Something new. Pkt., 10c; $\frac{1}{8}$ oz., 20c; $\frac{1}{4}$ oz., 35c.

ANEMONE (Windflower)

A very desirable perennial, producing lovely, brilliantly colored, large flowers in many shades of scarlet, blue, purple, and white; often over 2 inches in diameter, durable and elegant for cutting. Finely cut foliage. Sow outdoors in spring, keeping shaded till plants appear. 8 to 10 in. 1660—**St. Brigid.** Single and semi-double fascinating flowers, mixed colors. Pkt., 15c; $\frac{1}{8}$ oz., \$1.00; $\frac{1}{4}$ oz., \$1.75.

AGROSTEMMA (Rose of Heaven, Mullein Pink)

1618—**Coeli rosa** (Rose of Heaven). HA. Dainty, little rose-colored flowers from July to September. Splendid for cutting. Pkt., 5c; $\frac{1}{8}$ oz., 10c; $\frac{1}{4}$ oz., 15c.

1627—**Coronaria** (Mullein Pink). HP. Of easy culture, this hardy perennial produces deep blood-red, star shaped flowers. Foliage is silvery-white; blooms the first season; 2 feet; fine for cutting. Pkt., 10c; $\frac{1}{8}$ oz., 15c; $\frac{1}{4}$ oz., 25c.

Alyssum, Little Gem

AMARANTHUS HHA

Brilliant foliaged annuals, growing from 3 to 5 feet high, some of the varieties bearing curious racemes of flowers. All are useful in borders of tall plants or for the center of large beds. They thrive best in a hot, sunny location, not too rich soil, and given sufficient room to develop their full beauty.

1630 — *Caudatus* (Love - Lies - Bleeding). Bronzy foliage and drooping, blood-red racemes. 2 to 3 feet. Pkt., 5c; $\frac{1}{8}$ oz., 8c; $\frac{1}{4}$ oz., 12c.

1631 — *Tricolor-splendens gigantea* (Joseph's Coat). Foliage scarlet, yellow and green. 4 feet. Pkt., 10c; $\frac{1}{8}$ oz., 20c; $\frac{1}{4}$ oz., 35c.

Ammobium

AMMOBIUM HA
(Winged Everlasting)

1654 — *Alatum Grandiflorum*. A pretty annual everlasting; flowers silvery white with yellow disc; grows best in light soil. 2 feet. Pkt., 15c; 5c; $\frac{1}{8}$ oz., 9c; $\frac{1}{4}$ oz., 15c.

AMPELOPSIS HP
(Boston, or Japanese Ivy)

1655 — *Veitchi*. A hardy climber, with olive green leaves, which turn to scarlet in the autumn. The best climber for brick or stone walls. Pkt., 10c; $\frac{1}{8}$ oz., 15c; $\frac{1}{4}$ oz., 25c.

AQUILEGIA (Columbine) HP

The hardy Columbines are among the earliest flowering perennials. Seed may be sown in the open ground early in spring, and will, very often, bloom the same season. Thrive in comparatively poor soil and in partial shade. Sometimes they vary from type, but all are beautiful. 1 $\frac{1}{2}$ to 2 feet.

1652 — *Vulgaris*. Beautiful rich violet-blue. Pkt., 12c; $\frac{1}{8}$ oz., 30c; $\frac{1}{4}$ oz., 50c.

1653 — *Mrs. Scott Elliott, Long-Spurred*. A famous blend of rare and beautiful, large, long-spurred, double flowers in various shades of lavender, yellow, indigo, blue and white. An extra choice mixture. Pkt., 20c; $\frac{1}{8}$ oz., \$1.00; $\frac{1}{4}$ oz., \$1.75.

1657 — *Chrysantha*. Pure yellow, long spurs. Unusually large flowers. Pkt., 15c; $\frac{1}{8}$ oz., 90c; $\frac{1}{4}$ oz., \$1.65.

1697 — *Coerulea (Rocky Mountain Columbine)*. Large flowers with long spurs; deep blue and white. Pkt., 20c; $\frac{1}{8}$ oz., 90c; $\frac{1}{4}$ oz., \$1.65.

1698 — *Californica Hybrida*. Immense yellow flowers with dark orange, very long spurs. Pkt., 15c; $\frac{1}{8}$ oz., \$1.00; $\frac{1}{4}$ oz., \$1.75.

1651 — *Erfurt Prize*. This blend contains splendid double varieties in carefully selected shades of pink, yellow, golden henna, and deep purple. Pkt., 10c; $\frac{1}{8}$ oz., 15c; $\frac{1}{4}$ oz., 25c; $\frac{1}{2}$ oz., 40c.

1699 — *Double Flowering, Mixed*. Pkt., 8c; $\frac{1}{8}$ oz., 30c; $\frac{1}{4}$ oz., 50c.

Your Aquilegia seed is wonderful. On one bush I counted 59 blossoms.—Mrs. Lyman Campbell, 1323 Cheyenne Ave., Grand Forks, N. D.

ALYSSUM (Sweet Alyssum or Mad Wort) HA

A great favorite for borders, edging, window boxes, beds, or rock-work. Thrives everywhere and blooms profusely all summer; very sweet scented.

1626 — *Little Gem*. Compact and bushy, erect growing, simply covered with snowy white flowers. 4 to 6 inches high. Pkt., 300 seeds, 10c; $\frac{1}{8}$ oz., 15c; $\frac{1}{4}$ oz., 25c.

1623 — *Ocean Spray*. Our own introduction, unrivalled for beauty and delicious fragrance. It begins to bloom when quite small, and the plants are a solid mass of white from spring to late autumn; undoubtedly the best white-flowering edging plant. Grows but 4 inches high; compact and bushy, but erect. Pkt., 200 seeds, 12c; $\frac{1}{8}$ oz., 20c; $\frac{1}{4}$ oz., 35c.

1622 — *Sweet Alyssum (A. Maritimum)*. Of trailing habit; flowers white. Fine for basket, pot or rockwork. Honey scented. Height, 10 inches. Pkt., 400 seeds, 5c; $\frac{1}{8}$ oz., 10c; $\frac{1}{4}$ oz., 15c; $\frac{1}{2}$ oz., 50c.

1629 — *Lilac Queen*. A very pretty, deep lavender-lilac, very dwarf and sweet scented. Pkt., 200 seeds, 10c; $\frac{1}{8}$ oz., 15c; $\frac{1}{4}$ oz., 25c.

1625 — *Saxatile Compactum (Basket of Gold)*. HP. Showy, golden yellow flowers, hardy perennials. Blooms the first season if sown early indoors. Height, 1 foot. Thrives in the poorest soils, and is particularly valuable for rock gardens. Pkt., 75 seeds, 10c; $\frac{1}{8}$ oz., 18c; $\frac{1}{4}$ oz., 30c.

Anchusa, Italica Dropmore

ANCHUSA

(Alkanet or Bugloss)

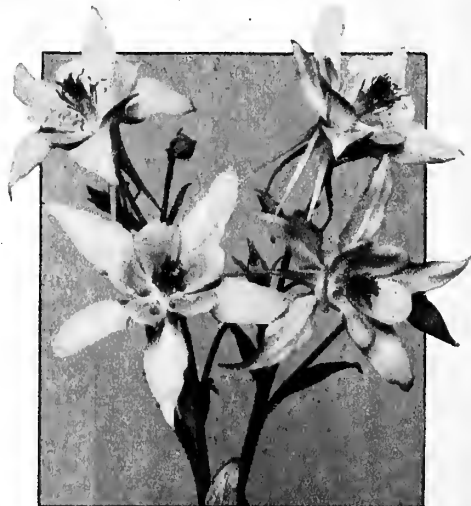

1632 — *Capensis* (Cape Forget-Me-Not). HA. A splendid free-growing annual about 18 inches high, bearing sprays of lovely Forget-Me-Not blue flowers. Easily grown, blooms all summer. Pkt., 75 seeds, 5c; $\frac{1}{8}$ oz., 15c; $\frac{1}{4}$ oz., 25c.

1633 — *Italica Dropmore*. HP. 3 to 5 feet tall. One of the best hardy perennials, becoming more popular each season. During May and June it bears in profusion flowers of the richest gentian-blue. Each branch terminates in a large, pyramidal, graceful spike of blue flowers. Pkt., 50 seeds, 10c; $\frac{1}{8}$ oz., 20c; $\frac{1}{4}$ oz., 35c.

ANTHEMIS HP

(Hardy Marguerite)

1661 — *Kelwayi*. A most satisfactory hardy perennial, bearing all summer daisy-like golden-yellow blossoms; excellent for cutting; 2 feet. Pkt., 10c; $\frac{1}{8}$ oz., 25c; $\frac{1}{4}$ oz., 40c.

Aquilegia, Mrs. Scott Elliott

SALZER'S ANTIRRHINUM OR SNAPDRAGONS III B

Within the last few years Snapdragons have become immensely popular. This is not to be wondered at, as, whether used for cutting or for show in the garden, they are one of the most valuable flowers which can readily be grown from seed. We offer three distinct types, the large-flowering, tall-growing or giant, the equally large-flowered, half dwarf variety, and the dwarf Snapdragons.

Although they are really biennials, or short-lived perennials, they bloom freely the first season from seed. If cut back and potted up in September, they will bloom nearly all winter, making splendid house decorations. In our trials the seeds sown out of doors the first week of May came into bloom early in July, remaining in full flower until November. For earlier flowering, they may be started indoors or in a frame in March, transplanting them to the open when the weather is suitable. After exhaustive tests of scores of varieties we offer the following as the best in their respective colors.

TALL, MAXIMUM, GIANT FLOWERED

Grows about three feet tall, the flowers are massive and the flower spikes long. Splendid for cutting and tall borders. We offer choice, extra selected seed, carefully tested on our great Cliffwood Farms, in the following colors:

1614—**Apple Blossom.** Delicate rosy-pink with yellow lip and pure white throat.

1615—**Bunch of Lilac.** Beautiful Shade of lilac-purple.

1616—**Indian Summer.** Velvety copper. Exquisite.

1617—**Wallflower.** Bronzy orange shading to coppery red at the edges and to clear deep yellow in the throat.

1619—**Golden Queen.** Rich, golden yellow.

1621—**Purple King.** Glorious, deep purple.

1791—**White.** Pure white, large perfect flowers.

1644—**Mixed.** Grand assortment of colors. Any of the above: Pkt., 15c; ¼ oz., 45c; ½ oz., 80c. One Pkt., each of the above 7 colors, for 90c; ½ oz. each, for \$2.65.

LARGE FLOWERING, SEMI-DWARF

Sturdy, compact plants, about 1½ feet high; profuse bloomers with large flowers. Also called Half Dwarf Giant Antirrhinum.

1645—**Amber Queen.** Canary yellow, overlaid chamolais pink.

1646—**Black Prince.** Rich dark crimson. A beauty.

1647—**Defiance.** Flaming orange-scarlet. Very showy.

1648—**Nelrose.** Charming shade of deep rose-pink.

1649—**Rose Queen.** Delicate rose with yellow lip.

1792—**Purity.** Large pure white blossoms.

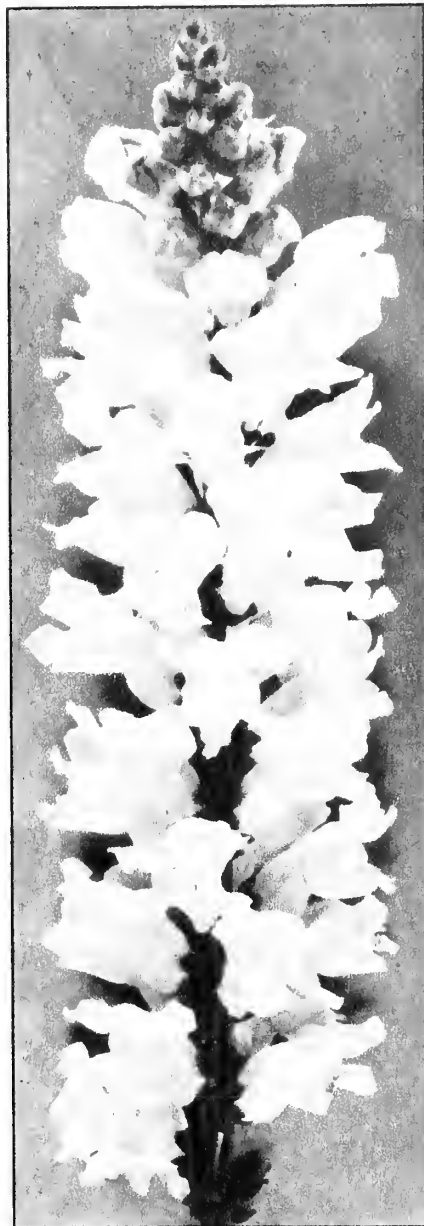

1643—**Cliffwood Semi-Dwarf, Mixed.** This strain has proven immensely popular. Carefully selected, extra choice seed, northern grown, that will give you a riotous abundance of not only the above colors, but many other beautiful shades.

Any of the above: Pkt., 10c; ¼ oz., 25c; ½ oz., 40c. One pkt., each of the above 6 colors, for 50c; ½ oz. each, \$1.25.

1642—**Dwarf Giant Mixed.** A very dwarf, bushy type, fine for edging. Height, 8 to 10 inches. Many different colors. Pkt., 10c; ¼ oz., 20c; ½ oz., 35c.

Antirrhinum, Half-Dwarf,
Black Prince

Salzer's Snapdragon, White

Arctotis or African Daisy

ARCTOTIS (African Daisy) HHA

1656—**Grandis.** A remarkably handsome annual from southwestern Africa. It forms much-branched bushes 2 to 3 feet high, its flowers are large and showy, being pure white on the upper surface. There are few annual flowers grown in the garden more valuable for cut-flower work than the Arctotis. It is easily grown from seed, and may be started in hotbed, in the house or in the open ground, the seed germinating in about five days. The plants may be expected to come into bloom early in July and continue until quite hard frost. It delights in a sunny situation. As a cut-flower it is especially valuable, the blooms lasting a week or ten days in water, and if undeveloped buds are cut and placed in a sunny window, every one will open and produce as fine flowers as though left on the plant. Pkt., 7c; ¼ oz., 18c; ½ oz., 30c.

ASPARAGUS FERN G

1658—**Plumosus Nanus** (Lace Fern). Most delicately graceful foliage. A dainty pot plant for indoor decoration. Pkt., 15c; ¼ oz., 55c; ½ oz., 90c.
1659—**Sprengerii** (Emerald Feather). Of drooping growth. Makes a pretty and graceful plant for hanging baskets. Pkt., 10c; ¼ oz., 38c; ½ oz., 65c.

My daughter took some of your Snapdragons to school for an art lesson and everyone thought they were hothouse flowers.—Mrs. W. Bartelt, 2701 S. Steele St., Sioux City, Ia.

BALSAM PEAR HA

1781—Rapid growing vines bearing attractive rich creamy flowers, followed by fruit. A splendid vine for trellises or fences. The inside of the fruit is sometimes eaten or a little sometimes used to flavor meats. Has a distinctive flavor. Pkt. 10c; $\frac{1}{8}$ oz., 15c; $\frac{1}{4}$ oz., 20c.

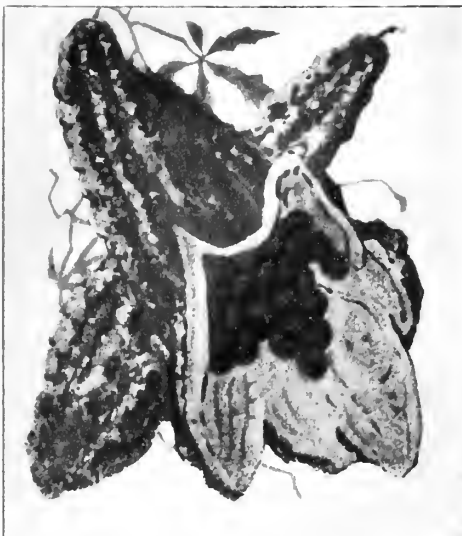

BLUE LACE FLOWER

(*Didiscus Coeruleus*) HHA

1965—Grows upright about 2 feet high, branches freely, each end bearing a cluster of light blue flowers spreading umbrella-like. Each blossom is carried on a thin, long tube lending the flower-head a delicate and dainty touch. Foremost for cut flowers, lasting unusually long in water, also desirable for mass growing with other flowers. Pkt., 10c; $\frac{1}{8}$ oz., 30c; $\frac{1}{4}$ oz., 50c.

Blue Lace Flower

Balsam Pear

BEGONIA TP

Please
Order
Early

The following varieties of *Begonia semperflorens* and *B. gracilis* take rank as bedding plants with geraniums and coleus, doing equally well in full sunlight, and surpassing both in positions partially or wholly in shade. The dense bushes, from May until frost, are completely hidden with flowers. 1 foot. As pot-plants for winter flowering they are superb. Easily raised from seed, which should be started either indoors or in a hothed. The seed is fine and should be carefully handled.

1786—*Gracilis, Bonfire*. Glowing scarlet, metallic brown foliage. Pkt., 25c; 2 pkts., 45c.

1787—*Gracilis, Luminosa*. Brilliant dark scarlet; fine also for winter-blooming. Pkt., 25c; 2 pkts., 45c.

1784—*Semperflorens, Erfordia*. Rosy carmine, green foliage, free bloomer. Pkt., 25c; 2 pkts., 45c.

1785—*Semperflorens, Vernon*. Bright orange-carmine flowers; deep red foliage. Pkt., 15c; 2 pkts., 25c.

1790—*Tuberous Rooted, Single Mixed*. Mixed colors, from white to deepest crimson. Valuable for shady places. Pkt., 20c; 2 pkts., 35c; 3 pkts., 50c.

1788—*Tuberous Rooted, Double Mixed*. The double form. Pkt., 25c; 2 pkts., 45c.

1789—*Tuberous Rooted, Frilled*. Flowers beautifully ruffled, mixed colors. Extra choice. Pkt., 30c; 2 pkts., 50c.

BROWALLIA (Amethyst) HA

One of our favorite profuse-blooming bedding plants, covered with rich, beautiful verberna-like flowers during the summer and autumn months, supplying a very uncommon shade of intense blue; grows freely in any rich soil; blooms finely in the winter if the plants are lifted in autumn and cut back.

1845—*Blue*. Pkt., 10c; $\frac{1}{8}$ oz., 20c; $\frac{1}{4}$ oz., 35c.

1846—*Violet*. Pkt., 10c; $\frac{1}{8}$ oz., 25c; $\frac{1}{4}$ oz., 40c.

1847—*White*. Pkt., 10c; $\frac{1}{8}$ oz., 20c; $\frac{1}{4}$ oz., 35c.

1848—*Mixed*. Pkt., 9c; $\frac{1}{8}$ oz., 15c; $\frac{1}{4}$ oz., 30c.

CALCEOLARIA G.

An ornamental and beautiful house plant producing a mass of flowers which are large, showy, sac-shaped or slipper-like, and which are creamy white and various shades of yellow, often splashed or blotched with dark reddish brown. Very rarely do two plants have flowers marked exactly alike. Can be grown indoors to perfection in a temperature of 60° F. Start the seed any time except in hot weather. The leaves are large, felty, and of close growing habit. 1810—*Hybrida, Grandiflora*. Large flowering, mixed. Pkt., 25c; 2 pkts., 45c.

1832—*CANARY BIRD VINE*. HHA. A beautiful rapid growing climber, the charming little canary-yellow blossoms bearing a fancied resemblance to a bird with its wings half expanded. When cut, the sprays of flowers keep in good condition for a week. 15 feet. Pkt., 20 seeds, 5c; $\frac{1}{8}$ oz., 10c; $\frac{1}{4}$ oz., 15c.

All Flower Seeds
are Sent Postpaid.

Canary-Bird Vine

Calceolaria

Every visitor who saw my Blue Lace Flowers asked, "Where did you find such pretty flowers."
—Mrs. F. D. Chadwick, R. D. 2, New Britain, Conn.

CALENDULA (Pot Marigold) HA

Very showy and thrifty plants, particularly adapted for dry and poor soils, and thriving in any sunny location. They are exceptionally free-flowering and produce a fine effect in beds or mixed borders, particularly bright in late fall, and continuing to bloom from early summer until frost. 1 to 1½ feet. Valuable also for pot culture, blooming freely in winter and early spring.

1813—**Orange King**. Produces splendid, double flowers over 3 inches in diameter, of a rich orange-red color. Exceptionally free blooming and most attractive. Pkt., 5c; ¼ oz., 10c; ½ oz., 15c; oz., 40c.

1812—**Lemon Queen**. Identical in every way to the preceding, except in color, which is a rich lemon-yellow. Pkt., 5c; ¼ oz., 10c; oz., 40c.

1808—**Golden King**. Rich golden-yellow flowers of large size on strong stiff stems. Valuable for cutting. Pkt., 5c; ¼ oz., 10c; ½ oz., 15c; oz., 40c.

1809—**Nankeen**. Large double flowers of a creamy yellow, slightly flushed apricot. Pkt., 5c; ¼ oz., 10c; ½ oz., 15c; oz., 40c.

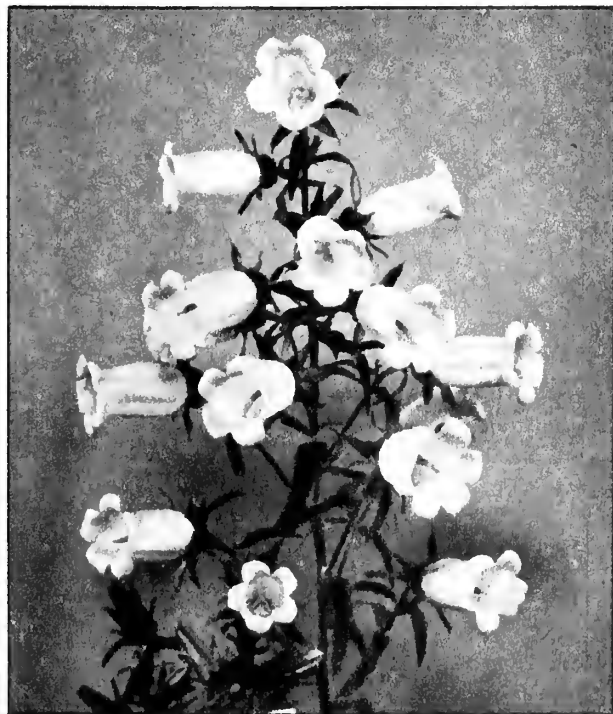

1815—**Hall Calendula**. A new variety, splendid for forcing. Very early, large, double flowers, free blooming in an unusual orange-yellow coloring. One of the grandest varieties for cutting. We offer only the originator's seed, specially Cliffwood tested. Pkt., 15c; ¼ oz., 25c; ½ oz., 45c.

One Packet each of above 5 for 35c; ¼ oz. each, 55c; ½ oz. each, 90c.

1814—**Finest Mixed**. A rich blend of colors. Pkt., 15c; seeds, 5c; ¼ oz., 10c; ½ oz., 15c; oz., 40c.

A Vase of Salzer's Double Calliopsis

Salzer's Single Canterbury Bells

Salzer's Calliopsis, Mixed

CALLIOPSIS (Bright Eyes) HA

Showy and beautiful annuals, of the easiest culture, doing well in any sunny position, blooming all summer, and excellent for cutting and massing. Sow early in spring, where they are to bloom.

1820—**Crimson King**. 9 inches. Velvety crimson garnet.

1818—**Golden Wave**. 1 foot. Golden yellow, brown eye.

1821—**Golden Ray**. Dwarf, compact plants, about 9 inches high, densely covered with rich maroon flowers edged golden yellow, the petals twisted like the cactus dahlia.

1819—**Finest Mixed**. Magnificent colors, plants of compact growth. Will give you a wonderful array of colors.

Any of above: Pkt., 200 seeds, 5c; ¼ oz., 12c; ½ oz., 20c.

1817—**Double Mixed**. A splendid mixture of the double varieties. Calliopsis easily revert to their single form, but a good percentage of the flowers will be double. Pkt., 10c; ¼ oz., 20c; ½ oz., 35c.

CAMPANULA MEDIUM OR CANTERBURY BELLS HB

A family containing many beautiful border plants and several varieties suitable for pot plants. They thrive best in light, moderately rich soils, and bear a profusion of dainty, bell-shaped flowers. Sow seed outdoors early in spring and in the fall thin the plants to 18 inches or 2 feet apart. When the ground begins to freeze, cover with a little straw or coarse hay.

Single Canterbury Bells. The old-fashioned sort with beautiful, large, bell-shaped blossoms. Their colors are so pure that gorgeous effects may be had with them. Elegant as garden or pot plants. 2 feet.

Pkt. 1/8 oz.	Pkt. 1/2 oz.
1827—Blue 7c 15c	1830—Lilac 6c 12c
1828—White 5c 12c	1831—Rose 5c 12c
1829—Striped 10c 15c	1824—Mixed 5c 10c

One Pkt. each of above 5 for 28c; ¼ oz. each, 50c.

1823—**Double Mixed**. Produces a very large percentage of true, double-flowering plants. Pkt., 15c; ¼ oz., 50c.

Cup and Saucer Canterbury Bells (Calycanthema). They differ from the single in having an extra large calyx, the same color as the flower, giving the appearance of a cup and saucer. 2 to 2½ feet. Desirable both for the garden or as pot plants.

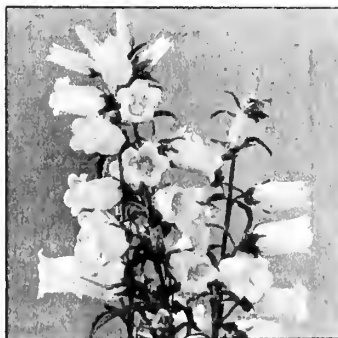

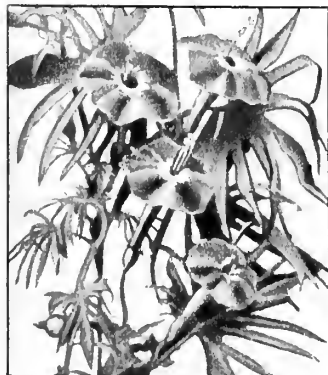

1864—Calycanthema Blue	1866—Calycanthema Lilac
1865—Calycanthema White	1822—Calycanthema Mixed

Per Pkt., 12c; ¼ oz., 50c; ½ oz., 90c.
One Packet each of above 3 for 29c; ¼ oz. each for \$1.25.

Your Cup and Saucer Canterbury Bells were the largest and most beautifully colored, I ever saw.—Miss Hannah Gillette, 1034 No. Front St., Marquette, Mich.

Cup and Saucer Canterbury Bells or Campanula (See Page 77)

Campanula, Carpatia Alba (Harebell)

SALZER'S SURPRISE MIXTURE

This mixture contains Hardy Annual Flowers that bloom at different periods so that one may have a constant succession of flowers for either cutting or garden decoration, from early summer till frost.

Sow Salzer's Surprise Mixture broadcast if you wish, in some neglected corner, or to cover some waste spot, and have an endless succession of brilliant flowers, instead of allowing unsightly weeds to predominate. The seeds in this grand mixture are all of the highest quality, carefully cleaned, and Cliffwood tested. 1552—Pkt., 5c; $\frac{1}{4}$ oz., 10c; $\frac{1}{2}$ oz., 15c; oz., 25c; $\frac{1}{4}$ lb., 75c; lb., \$2.50.

CAMPANULA or BELLFLOWER HP

The tall varieties are ideal for cutting while the dwarf sorts make excellent border plants. Some of the varieties will flower from seed the first season if sown early.

1553—**Carpatia Blue** (Harebell). Blue, bell-shaped flowers all summer. 6 inches. Fine for edging. Pkt., 10c; $\frac{1}{4}$ oz., 30c; $\frac{1}{2}$ oz., 50c.

1554—**Carpatia Alba**. White flowered. Pkt., 10c; $\frac{1}{4}$ oz., 30c; $\frac{1}{2}$ oz., 50c.

1525—**Persicifolia Blue** (Peach Bells). One of the finest of the hardy Bellflowers, 2 to 3 feet, with large blue flowers. Pkt., 10c; $\frac{1}{4}$ oz., \$1.00; $\frac{1}{2}$ oz., \$1.75.

1526—**Persicifolia White**. The white flowered Peach Bell. Pkt., 10c; $\frac{1}{4}$ oz., \$1.00; $\frac{1}{2}$ oz., \$1.75.

1555—**Pyramidalis Blue** (Chimney Bellflower). Spikes 3 to 4 feet tall; erect, pyramidal flowers, large and of exquisite blue. Pkt., 10c; $\frac{1}{4}$ oz., 50c; $\frac{1}{2}$ oz., 80c.

CANDYTUFT (Iberis) HA

Valuable for masses and edging, and considered indispensable for cutting. Seed sown in April flowers in June; successive sowings should be made at intervals. Hardy and easy to grow, blooming profusely. 1 foot.

1535—**Fragrant**. White, sweet scented. Pkt., 5c; $\frac{1}{8}$ oz., 12c; $\frac{1}{4}$ oz., 18c.

1537—**New Crimson**. Rich, deep shade. Pkt., 5c; $\frac{1}{8}$ oz., 12c; $\frac{1}{4}$ oz., 18c.

1538—**Rose Cardinal**. Brilliant deep rosy-red, one of the best for bedding. Pkt., 10c; $\frac{1}{8}$ oz., 15c; $\frac{1}{4}$ oz., 20c.

1542—**Giant Hyacinth-Flowered or Empress**. The very finest white, something new. Branching plants 18 inches high, carrying immense spikes of very large, pure white flowers. Fine for cut flowers. Pkt., 10c; $\frac{1}{4}$ oz., 15c; $\frac{1}{2}$ oz., 25c.

1540—**Summer Glory**. A grand mixture of dwarf hybrids, valuable for cutting or borders. Colors, carmine, flesh, lilac, purple, etc. Pkt., 10c; $\frac{1}{8}$ oz., 15c; $\frac{1}{4}$ oz., 20c.

1534—**Finest Mixed**. A splendid mixture, containing all the colors. Pkt., 5c; $\frac{1}{8}$ oz., 10c; $\frac{1}{4}$ oz., 15c.

1536—**Gibraltarica Hybrids**. HP. 1 foot. Fine for the hardy border. Purple and white flowers. Pkt., 10c; $\frac{1}{8}$ oz., 20c; $\frac{1}{4}$ oz., 35c.

1539—**Sempervirens**. HP. Evergreen, glossy foliage, flowers white. Fine for cemeteries or rock gardens. 6 inches. Pkt., 15c; $\frac{1}{8}$ oz., 60c; $\frac{1}{4}$ oz., \$1.00.

Candytuft, Giant Hyacinth-Flowered

CANNA (Indian Shot). HHP. One of the most effective of showy foliage plants. The seed should be soaked in warm water until they swell. Plant indoors one-half inch deep in rich soil and keep moist until sprouted.

1550—**Dark Leaved Varieties, Mixed**. Pkt., 10c; $\frac{1}{4}$ oz., 15c; $\frac{1}{2}$ oz., 25c.

1552—**Salzer's Finest Mixture**. Contains many large flowering varieties. Pkt., 15c; $\frac{1}{4}$ oz., 25c; $\frac{1}{2}$ oz., 40c.

1556—**CARDINAL CLIMBER** (Ipomoea Quamoclit Hybrid). HHA. A brilliant and beautiful climber growing rapidly and attaining a height of 30 feet. Foliage fernlike; flowers cardinal-red, $1\frac{1}{2}$ inches across, borne in clusters and produced in great profusion from midsummer until frost. The seed should be started indoors, but may be sown in the open in late May. Soaking the seed or notching the seed-coat will hasten germination. Pkt., 20 seeds, 10c; $\frac{1}{4}$ oz., 25c; $\frac{1}{2}$ oz., 40c.

1567—**CERASTIUM** (Snow in Summer). HP. A very pretty dwarf white leaved edging or rock plant, bearing small white flowers. Pkt., 10c; $\frac{1}{8}$ oz., 45c; $\frac{1}{4}$ oz., 80c.

From one packet of your Campanula seed, I had the loveliest flowers imaginable.—Mrs. H. C. Briceland, Davenport, Ia.

CARNATION HMB

Indispensable, both for house culture in winter and for the garden in summer. Easily grown from seed.

1859—**Giant Marguerite**. Produces flowers of immense size, measuring 2½ to 3 inches across, very double and beautifully fringed. With a little protection will live over winter outdoors. Mixed colors. Pkt., 100 seeds, 10c; ¼ oz., 35c; ½ oz., 60c.

1861—**Perpetual Early Flowering** (Double Chabauds). Blooms in 12 to 14 weeks after being sown and continues to bear its splendid double flowers indefinitely. Fine for pot plants. Mixed. Pkt., 100 seeds, 12c; ¼ oz., 40c.

1862—**Salzer's Cliffwood Mixed**. A choice strain, seeds saved from largest show flowers only. Suitable for blooming indoors in winter, or outdoors in summer. Pkt., 100 seeds, 15c; ¼ oz., 50c; ½ oz., 90c.

CARNATION, CLIFFWOOD GIANT DOUBLE HMB

A meritorious strain of immense Carnations that we introduced in 1927. Blooms in four to five months after being sown, and continues to produce its beautifully fringed, intensely fragrant, large double flowers, almost indefinitely. Salzer's Cliffwood Giant Double Carnations received highly favorable comment from everyone. Easily grown. For few, but enormous flowers, pinch off all the buds as they appear, except one to a stem. We offer the following lovely colors:

- 2810—Cardinal Red.
- 2811—Rose Pink.
- 2812—Crimson King.
- 2813—Queen of the Whites.
- 2814—Queen of the Yellows.
- 2816—Flesh Pink.
- 2815—Mixed.

Any of above, per pkt., 15c; ¼ oz., 75c; ½ oz., \$1.25. One pkt. each of the above 6 colors for 78c.

SOW SALZER'S SEEDS

I had wonderful success with your seed this season and took 8 prizes at the Flower Show held here. — H. G. Major, 185 South St., Houghton, Mich.

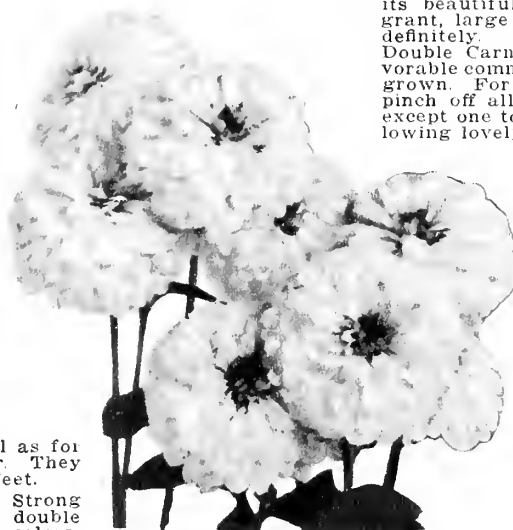

Carnations, Cliffwood Giant Double

CHRYSANTHEMUMS

Very showy; useful as pot plants as well as for cutting and bedding; bloom in late summer. They require plenty of room but little care. 2 feet.

1892—**Coronarum, Double Mixed**. HA. Strong bushy plants, bearing a profusion of large double flowers frequently 3 inches across. All colors. Pkt., 10c; ¼ oz., 15c; ½ oz., 20c.

1893—**Japanese Hybrids**. HHP. Extra choice seed. Sown indoors in February, one has strong plants by fall, which should be lifted in fall for blooming around Thanksgiving. Pkt., 20c; ¼ oz., 90c.

Chrysanthemum, Coronarium

CHRYSANTHEMUMS, SINGLE ANNUAL, OR PAINTED DAISIES HA

These charming annuals are very effective and showy in beds and borders, besides affording an immense amount of flowers for cutting. The flowers keep well in water for a long time. Sow seed early in spring where plants are to bloom and thin to nine inches apart. These improved varieties form bushy, compact, oval plants about eighteen inches high, and flower most abundantly during the summer. Of very easy culture.

2686—**Burridgeanum**. Pure white petals with zone of rich brownish red, inner zone of yellow surrounding the dark brown disc.

2687—**Eastern Star**. Beautiful clear yellow, zone deeper yellow, dark disc.

2688—**Northern Star**. Large flowers, pure white fringed petals with canary-yellow zone, dark brown disc.

2689—**Dawn**. Flowers often 3 inches across, petals canary yellow, zoned deeper yellow and the disc, dark yellow.

2690—**The Sultan**. Rich wallflower-red with a narrow yellow zone around the dark disc.

2691—**Chamelon**. Light yellow to tawny apricot petals, zoned garnet with yellow zone around dark disc.

1895—**Single Mixed**. Many colors, very showy.

Any of above, per Pkt., 150 seeds, 10c; ¼ oz., 20c; ½ oz., 35c. One packet each of above six varieties, for 45c.

Single Annual Chrysanthemums, Mixed

Your Carnation Seed gave me some flowers in the house all winter long.—Mrs. A. D. Dundore, R. D. 5, Tiffin, Ohio.

CENTAUREA

DOUBLE-FLOWERING CENTAUREA CYANUS or CORNFLOWER HA

There is, perhaps, no more popular annual than the Centaurea. It will grow anywhere and as a cut-flower it is considered indispensable. The Centaurea is sometimes called Bachelor's Button, Blue Bottle, Ragged Sailor and Bluet. This choice, extra long and heavy stemmed strain, which we are offering, furnishes immense and well-shaped flowers not only in the popular blue variety, but also in the desirable colors listed below. Salzer's Double Flowering is an astonishing improvement over, and not to be compared with, the old single sort. 2½ to 3 feet high.

Any good garden soil suits them. The seed may be sown right out of doors any time from early spring till midsummer, coming into flower in a few weeks' time and continuing without interruption until hard frost. We offer these choice double flowers in the following splendid colors:

1871—Light Blue	1873—Rose Pink
1872—Dark Blue	1885—Carmine
1882—White	1881—Rosy Red
1888—Muroon	1875—Double Mixed

Any of the above, 10c per packet 100 seeds; 15c per ¼ oz.; 25c per ½ oz.; 75c per oz. One packet each of the above 7 named colors for 50c; ¼ oz. each of the above 7 for 75c. All flower seeds are postpaid.

1876—Centaurea Cyanus, Single Mixed. HA. The original Cornflower, mixed colors as beautiful as ever. 2½ feet. Pkt., 100 seeds, 5c; ¼ oz., 10c; ½ oz., 15c.

1891—Centaurea Margaritæ. HA. Pure white and very sweet scented flowers, keeping well when cut. 2½ feet. Pkt., 100 seeds, 5c; ¼ oz., 15c; ½ oz., 25c.

1884—Dusty Miller or White Leaved Centaurea. HHP. Grown only for its fine-cut, silvery gray foliage. 1½ to 2 feet. Very effective. Pkt., 100 seeds, 12c; ¼ oz., 50c; ½ oz., 90c.

Centaurea Cyanus, Double-Flowering, Mixed

SALZER'S GIANT SWEET SULTAN. OR CENTAUREA IMPERIALIS HA

Hardy annuals, delightfully sweet-scented, bearing a wealth of large and perfectly formed flowers on long and strong stems, and ideal for cutting. The charming, sweet-scented, artistically shaped flowers will last for several days in water. They flower profusely and make beautiful bouquets. The flowers are exquisitely fringed and measure three to four inches across. It is best to sow them early in spring, so they perfect their blooms before hot weather arrives. They bloom over a very long period.

- 2692—The Bride. Beautiful pure white, large flowers.
- 2693—Violeceen. A charming shade of delicate lilac.
- 2694—Queen Anne. Very fragrant, large flowers, rose colored.
- 2695—Purple King. Immense purple blooms, perfectly formed.
- 2696—Dragon. A striking shade of amaranth-red.
- 2697—Scarlet Beauty. Brilliant rose, beautiful.
- 1890—Mixed. All colors.

Any of above, per Pkt., 75 seeds, 10c; ¼ oz., 20c; ½ oz., 35c. One packet each of above six varieties, for 49c.

1903—CLEMATIS (Paniculata). HP. A hardy climber, for permanent positions. Produces a mass of white star-like flowers and grows about 30 feet in a season. Flowers after first year. Pkt., 10c; ¼ oz., 20c; ½ oz., 35c.

1904—COBEA SCANDENS (Cathedral Bells). HA. A fine, rapidly growing, annual climber, with handsome foliage and large bell-shaped flowers of deep violet blue color. A well-established plant will often grow from 20 to 50 feet in a season. Pkt., 15 seeds, 10c; ¼ oz., 20c; ½ oz., 35c.

1906—COIX LACRYMA (Job's Tears). HA. Ornamental grass, bearing clusters of large pointed seed which is much in demand. Fine for making beads. Height about 2 feet. Pkt., 5c; ½ oz., 9c; oz., 15c.

1908—COLEUS. TP. Splendid bedding plants, grown for their beautiful and richly colored foliage. Easily grown from seed, which start indoors in March or April. Choice mixed. Pkt., 20c; ¼ oz., 85c; ½ oz., \$1.50; 1 oz., \$2.60.

Cobea Scandens or Cathedral Bells

I have never had such lovely Bachelor Buttons (Centaurea), nor such a profusion of bloom, as from your seed.—
Mrs. Clifford Schmitz, Box 331, Frazer, Minn.

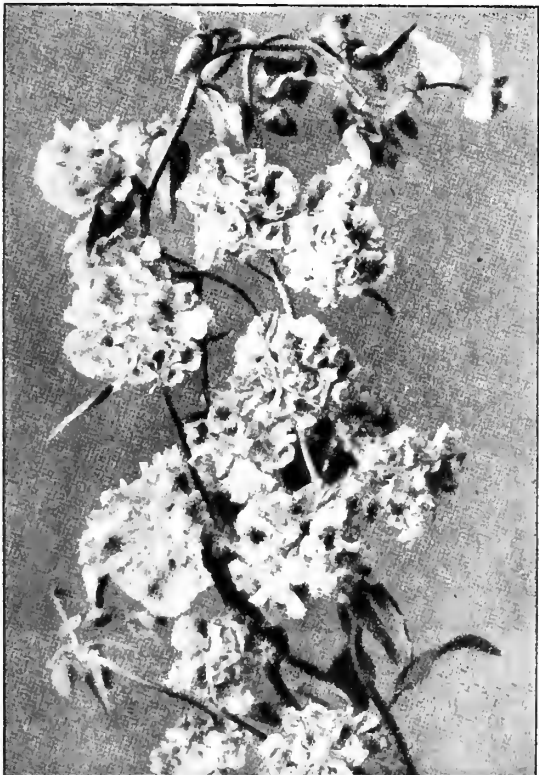

Cineraria; Giant Flowered, Dark Red

SALZER'S CLARKIA. HA.

This pretty and easily grown annual has been much improved in recent years. They do well either in sun or shade, are 2 to 2½ feet high, and bear sprays of brilliantly colored, double flowers, in great profusion.

1900—White Prince. 1902—Brilliant Crimson.
1901—Purple Prince. 1905—Finest Mixed.

Any pkt., 150 seeds, 10c; ¼ oz., 20c; ½ oz., 35c.
One pkt. each of above 3, for 25c

Clarkia

CINERARIA G

Beautiful flowering plants for the house or conservatory during the spring months.

Seed should be sown from May to September for succession. Where only one sowing is made, July should be preferred. Cinerarias grow so freely that the seedlings may go straight from the seed-pans to pots. After transplanting place in a cold frame facing north, if possible. When the pots become full of roots, shift into larger ones till the flowering size is reached. Our prize strain is justly celebrated for all good qualities, being especially noted for size, coloring and texture.

Salzer's Giant Flowered Light Rose, Dark Rose, Dark Red, Light Red, Light Blue, Dark Blue. Gigantic flowers, extra choice. State color wanted. Each: Pkt., 50c; 2 pkts., 95c.

1897—**Cineraria Multiflora Nana, Mixed.** An exceedingly choice and rare strain of giant flowers. Our seed is grown by a famous English specialist. Flowers seldom measure less than 3 inches in diameter, with plants of a very robust and dwarf habit. Comprises the following colors, mixed: light rose, dark rose, red, crimson, blue, violet, etc. Pkt., 45c; 2 pkts., 80c.

1899—**Salzer's Finest Mixed.** A mixture of the finest, large flowering strains and most brilliant colors. Pkt., 20c; 2 pkts., 35c.

Cleome or Giant Spider Plant

1907—**CLEOME (Giant Spider Plant). HA.** Spikes of rose-pink flowers which, on account of their long wiry stamens, bear a strange resemblance to spiders. A vigorous grower and bloomer, excellent for tall borders. 3 to 4 feet. It makes a striking subject for large beds or for interspersing amongst shrubby borders, and is used extensively in public parks. The plants should be given sufficient room to develop their full beauty. Pkt., 10c; ½ oz., 15c; ¼ oz., 25c.

1912—COREOPSIS,

Grandiflora. HP. The perennial Calliopsis. 2 to 3 feet. Bright yellow flowers from June until frost. This beautiful flower is one of the finest hardy plants. As cut flowers, they stand near the top of the list, having long stems and lasting over a week. They flower the first year from seed. Pkt., 75 seeds, 10c; ½ oz., 15c; ¼ oz., 25c.

1933—COREOPSIS, Semi-Double HP. Similar to the above, except the lovely flowers are double and semi-double. Very free bloomer. Pkt., 10c; ½ oz., 20c; ¼ oz., 35c.

Coreopsis, Semi-Double

Salzer's.
Extra-Early
Colossal
Cosmos

COSMOS, EXTRA EARLY, DOUBLE CRESTED

An extra early strain, with fine, large, full crests in the center. Invaluable for short season sections. It easily reverts back to its single form however, but a goodly percentage of the seed will bear perfect, crested Cosmos.

2953—Early Double Pink. 2955—Early Double White.
2954—Early Double Crimson. 2956—Early Double Mixed.

Any Pkt., 35 seeds, 15c; $\frac{1}{4}$ oz., 60c; $\frac{1}{2}$ oz., \$1.00. One Pkt. each of above 3, for 38c; $\frac{1}{2}$ oz. each, for \$1.60.

GIANT, DOUBLE CRESTED COSMOS

For points north of La Crosse, we recommend the Extra-Early strain listed above. Massive, perfectly shaped, crested flowers, very beautiful, indeed.

1921—Pink Beauty 1923—Crimson King
1922—White Queen 1913—Mixed

Any Pkt., 75 seeds, 10c; $\frac{1}{4}$ oz., 40c; $\frac{1}{2}$ oz., 70c. One Pkt. each of above 3 colors, for 25c; $\frac{1}{2}$ oz. each of above 3, for \$1.00.

COWSLIP (Primula Veris) HP

1910—Mixed. A beautiful hardy spring-flowering perennial. The flowers are of different colors such as yellow, brown-edged yellow, etc. Height 6 inches; very fragrant. Pkt., 15c; 2 pkts., 25c; $\frac{1}{4}$ oz., 90c; $\frac{1}{2}$ oz., \$1.60.

1911—Cliffwood Giant. Quite distinctive from the ordinary Cowslip, both in the stronger growth of the plant and in the massive flowers which are borne on stems 12 to 15 inches high. The colors range from pure yellow and orange to the deepest scarlet and crimson. Pkt., 25c; 2 pkts., 40c; $\frac{1}{4}$ oz., 75c; $\frac{1}{2}$ oz., \$1.25; $\frac{1}{2}$ oz., \$2.25.

COXCOMB (Celosia) TA

1868—Cristata. The large flower-heads or combs are of a beautiful feathery appearance. Very showy in the flower bed and excellent as pot plants. Annual. Fine mixed. Pkt., 10c; $\frac{1}{4}$ oz., 20c; $\frac{1}{2}$ oz., 35c.

1870—Plumosa (Thompsoni Magnifica). The finest mixture of the ostrich feathered sorts. Plants of branching habit and each stem tipped with graceful plumes, varying in color through all shades of yellow and red. Annual. Height, thirty inches. Pkt., 10c; $\frac{1}{4}$ oz., 25c; $\frac{1}{2}$ oz., 40c.

2565—Childs Crimson (Chinese Woodflower). Here we have a brilliant fire-like red, a bushy plant which grows two or three feet in height, and which will flourish in most any soil conditions. This variety is particularly effective in mass planting. It is of the feathered Coxcomb family and a very rapid grower. Pkt., 15c; $\frac{1}{4}$ oz., 30c; $\frac{1}{2}$ oz., 50c.

Salzer's Cosmos HHA

One of our most popular annuals for tall borders and for cutting, producing thousands of artistic flowers in pure white, pink, and crimson shades, furnishing an abundance of bloom for autumn decorations when other flowers are scarce. We recommend sowing about the first of May in the open ground, in rows covering the seed $\frac{1}{4}$ inch, and when the plants are 3 inches high, thin out or transplant to 18 or 20 inches apart. When the plants are 1 foot high, the tops should be pinched out to induce a bushy growth. May also be started under cover and afterwards transplanted.

Any garden soil will grow Cosmos to perfection; frequent cultivation around the base of the plants will greatly benefit them. The Autumn Giant sorts produce the largest flowers, but bloom late; for extreme northern parts, sow the extra-early flowering type.

EXTRA-EARLY COLOSSAL

Seed sown in the open ground April 26th produced plants riotous with bloom July 19th, 2 months before the late-flowering kind. By careful selection they now bear gigantic flowers and will perfect their flowers in very short season localities.

2950—Early White. Snow white, mammoth flowers.
2951—Early Pink. Very pretty; elegant shade of pink.
2952—Early Crimson. Very rich, showy, crimson scarlet.
1914—Early Mixed. A wonderful array of above colors.
Any Pkt., 100 seeds, 10c; $\frac{1}{4}$ oz., 15c; $\frac{1}{2}$ oz., 25c. One Pkt. each of above 3 colors, 25c; $\frac{1}{2}$ oz. each of above 3, for 35c.

1920—Cliffwood Mixed. An extra-choice strain of the Extra-Earlies, seed saved from the largest flowers on our great Cliffwood Farms. Pkt., 100 seeds, 12c; $\frac{1}{4}$ oz., 25c; $\frac{1}{2}$ oz., 40c; oz., \$1.25.

AUTUMN GIANT

Bears gigantic flowers, the largest of any of the Cosmos, with wide overlapping petals of good substance, making perfectly circular flowers, which are borne on long, stiff stems. For points north of La Crosse, we recommend the Extra-Early strains listed above.

2957—Giant White. Very large, snow white flowers.
2958—Giant Crimson. Intense crimson; large, perfect flowers.

1918—Lady Lennox. Very large, beautiful, pink flowers.
1917—Giant Mixed. All colors, enormous flowers.

Any Pkt., 100 seeds, 7c; $\frac{1}{4}$ oz., 10c; $\frac{1}{2}$ oz., 15c. One Pkt. each of above 3 colors, for 18c; $\frac{1}{2}$ oz. each of above 3, for 25c.

Cosmos, Extra Early, Double Crested

1926—CYPRESS VINE (Ipomoea Quamoclit). HFA. Well known climbers with fern-like foliage and small trumpet shaped flowers. 10 feet. Fine for trellises. Sow when danger from frost is past. Pkt., 5c; $\frac{1}{4}$ oz., 10c; $\frac{1}{2}$ oz., 15c.

The Extra Early, Double Crested, Cosmos secured from you last year, proved very satisfactory.—W. S. Clarke, 13 E. Washington St., Kensington, Md.

Salzer's Cyclamen—Glory of Wandsbeck

CYCLAMEN G

A favorite pot plant for winter and spring flowering bearing graceful orchid-like flowers in 8 to 10 months from sowing. The seed is fine and must be carefully handled, but few plants will so well repay a little extra care.

1925—**Glory of Wandsbeck**. Beautiful salmon-rose. Pkt., 25c.
1927—**Christmas Red**. Deep glowing red. Pkt., 50c; 2 pkts., 90c.

1931—**Margaret**. White, lilac eye. Pkt., 25c; 2 pkts., 45c.
1924—**Salzer's Show Mixture**. Colors range from white to crimson, with all intermediate shades. Pkt., 20c; 2 pkts., 35c.

DAISY (Bellis Perennis) HP

Does well in almost any soil, preferring a partially shaded position. Flowers from early spring until early fall and may then be divided and held in frames for following season's planting. Or may be left in ground and protected with litter over winter.

1935—**Giant or Monstrosa**. Each plant produces several enormous double flowers, almost as large as a good-sized Aster. Mixed colors. Pkt., 12c; ½ oz., 50c; ¼ oz., 90c.

1936—**Longfellow**. Large, double pink flowers. Pkt., 10c; ½ oz., 50c; ¼ oz., 85c.

1938—**Snowball**. A fine large, double, free-flowering pure white. Pkt., 10c; ½ oz., 50c; ¼ oz., 90c.

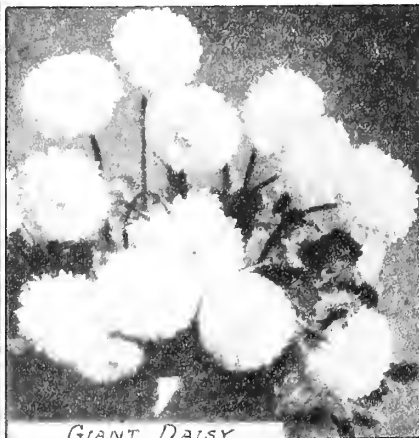

1934—**Finest Double Mixed**. All colors and varieties, double flowers, mixed. Pkt., 10c; ½ oz., 40c; ¼ oz., 70c.

1937—**Shasta Daisy**. A splendid hardy perennial with flowers seldom less than 5 inches across, with broad overlapping petals, and borne on long stems. A beauty for cutting. Height, 2 feet. Pkt., 10c; ½ oz., 50c; ¼ oz., 90c.

1944—**DATURA** (Angel's Trumpet), HA. Showy annual, large trumpet-shaped flowers, measuring often seven to nine inches; inside coloring pure white, and outside marbled with purple. Pkt., 5c; ½ oz., 10c; ¼ oz., 15c.

Chinese Woolflower

GIANT DAISY

DAHLIAS HHP

The double sorts bloom the first season if sown at the beginning of April, the single sorts bloom from seed sown as late as June.

1930—**Single Giant, Finest, Mixed**. Pkt., 10c; ½ oz., 30c; ¼ oz., 50c.

1929—**Double Giant Flowering, Mixed**. Pkt., 12c; ½ oz., 50c; ¼ oz., 90c.

1923—**Double Cactus Flowered, Mixed**. Pkt., 15c; ½ oz., 75c; ¼ oz., \$1.25.

1972—DIMORPHOTHECA

Aurantiaea. (African Daisy) HA. A rare, extremely showy and greatly improved annual which has become a general favorite. The bushy plants grow about 15 inches high. The flowers are often three inches across, of unique, rich, glossy orange gold color. Blooms lavishly until late fall, producing a great quantity of bloom. Pkt., 10c; ½ oz., 25c; ¼ oz., 40c.

Shasta Daisy

DIGITALIS (Foxglove) HB

Handsome and highly ornamental hardy plants of stately growth, succeeding under almost all conditions, and with but little attention will give a wealth of flowers during June and July. Although biennials, if given protection, they frequently persist for years and are much used amongst shrubbery. 3 to 5 feet.

Gloxinlaeflora. This is a fine strain of the ordinary Foxglove Digitalis purpurea, with handsome spotted Gloxinia-like flowers on long spikes.

1971—**Purple** 1975—**White**
1974—**Rose** 1977—**Mixed**
Any pkt., 10c; ½ oz., 20c; ¼ oz., 35c. One pkt. each of above 3 colors, for 25c; ½ oz. each of above 3, for 50c.

1970—**Digitalis Purpurea**. The old-fashioned Foxglove; mixed colors. Pkt., 5c; ½ oz., 15c; ¼ oz., 25c.

Digitalis Gloxinlaeflora

I was very successful in raising beautiful Cyclamen from your seed.—Mrs. Frank Fleming, Box 32, Willard, Kans.

DELPHINIUM (Perennial Larkspur) HP

The Delphinium, or Perennial Larkspur, as it is better known, with its long clustered spikes of beautiful irregular flowers, often with long spurs, is especially valuable for supplying the garden with shades of blue. Sow seed in early spring in shallow boxes or in a hot-bed. When an inch high, transplant in flats 3 to 4 inches apart each way. When the ground can be worked, set out in the garden, about 6 inches apart. Treated this way, they usually flower the first season.

1912—**Salzer's Meteor Delphinium**, HP. An elegant new color in delphinium, a beautiful chamomile shade, that we introduced in 1927. Gives a charming contrasty effect when planted with the other Delphinium. Pkt., 20c; $\frac{1}{16}$ oz., 85c; $\frac{1}{8}$ oz., \$1.50; $\frac{1}{4}$ oz., \$2.75.

1951—**Gold Medal Hybrids**. This is one of our finest and most important specialties, and is unquestionably the best strain of mixed hybrids ever offered. The original stock came from England, and consisted of the choicest named varieties. The plants are of strong, vigorous habit, with large flowers on spikes two to three feet long, the majority running in the lighter shades of blue. Pkt., 10c; $\frac{1}{8}$ oz., 40c; $\frac{1}{4}$ oz., 70c.

1913—**Yellow King**. A very rare and very choice introduction. Yellow King bears immense spikes of clear sulphur-yellow flowers, two feet and more in length. The plants are of strong and vigorous growth. Picture to yourself the beautiful effect in your hardy garden, of these rich sulphur-yellow beauties contrasting with the lovely blue shades of Delphiniums. Pkt., 20c; $\frac{1}{16}$ oz., 75c; $\frac{1}{8}$ oz., \$1.25; $\frac{1}{4}$ oz., \$2.25.

1941—**Cardinale**, New. Showy, brilliant scarlet flowers on spikes 30 inches long. Makes a fine contrast with the yellow and blue delphinium. Pkt., 20c; $\frac{1}{16}$ oz., 85c; $\frac{1}{8}$ oz., \$1.50.

1917—**Formosum**. Large, rich dark blue, white center, borne on spikes 2 to 3 feet tall. Pkt., 10c; $\frac{1}{8}$ oz., 75c; $\frac{1}{4}$ oz., \$1.35.

1916—**Bethdonna** (Everblooming Hardy Larkspur). One of the finest and most continuous bloomers. Clear turquoise-blue flowers. Pkt., 15c; $\frac{1}{8}$ oz., 30c; $\frac{1}{4}$ oz., \$1.50.

One pkt. each of above 4, for 45c; 2 pkts. each, for 80c.

1918—**Finest Mixed**. Pkt., 10c; $\frac{1}{8}$ oz., 30c; $\frac{1}{4}$ oz., 60c.

DIANTHUS OR PINKS

The varieties classed as annuals are really biennials, but are treated as annuals and may be sown out of doors when the danger from frost is past, and in a few weeks' time they are a mass of bloom, continuing so until after hard frost. As a rule, they survive the winter if given slight protection, flowering abundantly the following season. They grow about a foot high, and can be used in beds or borders of solid or mixed colors. Dianthus or Pinks are fine for cutting and flower profusely over a long period. They are not particular as to soil, but should have a sunny location.

THE ANNUAL PINKS HA

1952—**Chinensis** (China Pinks). About 1 foot high, covered with large double flowers all summer long. A great variety of colors. Pkt., 5c; $\frac{1}{8}$ oz., 15c; $\frac{1}{4}$ oz., 20c.

1960—**Snow Queen**. Large, double white; splendid for cutting or as a border. Pkt., 10c; $\frac{1}{8}$ oz., 20c; $\frac{1}{4}$ oz., 35c.

1963—**Mourning Cloak**. Rich, blackish, velvety crimson margined white, double. Pkt., 10c; $\frac{1}{8}$ oz., 30c; $\frac{1}{4}$ oz., 50c.

1964—**Heddevigii Fl. Pl.** (Double Japan Pink). Double mixed, running the whole gamut of colors. Beautiful Pkt., 10c; $\frac{1}{8}$ oz., 18c; $\frac{1}{4}$ oz., 30c.

1954—**Fireball**. Rich, double, blood-red. Fine companion to Snow Queen. Pkt., 10c; $\frac{1}{8}$ oz., 25c; $\frac{1}{4}$ oz., 40c.

1956—**Inciliatus Mirabilis** (Single Fringed Pink). A beautiful fringed variety; various colors mixed. Pkt., 10c; $\frac{1}{8}$ oz., 25c; $\frac{1}{4}$ oz., 40c.

1959—**Salzer's Finest Mixed**. A good bargain. Single and double varieties in various shades, mixed. Pkt., 10c; $\frac{1}{8}$ oz., 18c; $\frac{1}{4}$ oz., 30c.

HARDY GARDEN PINKS HP

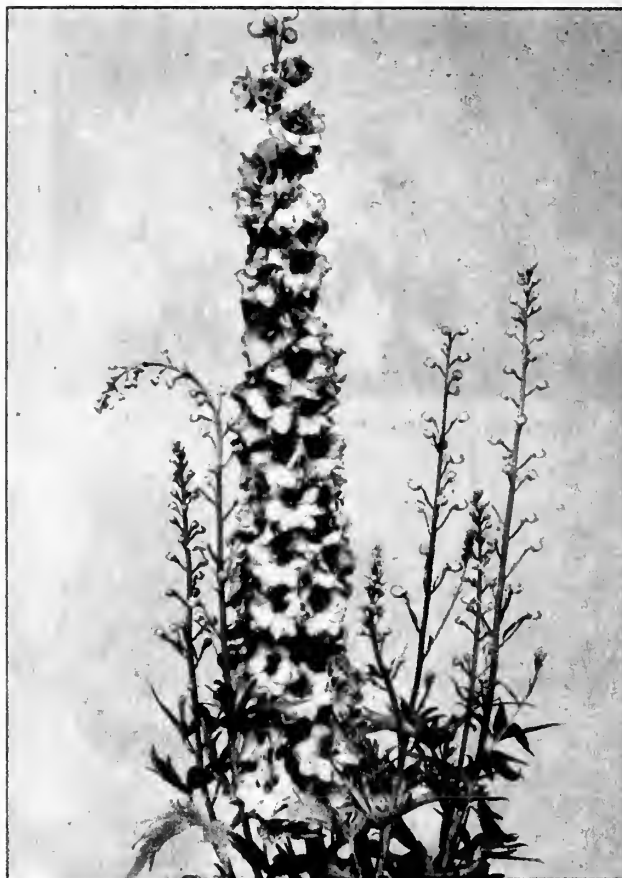

Perfectly hardy and very desirable for perennial beds, borders, cemetery plantings, etc.

1957—**Plumarius Nanns Fl. Pl.** (Double Hardy Garden Pinks). Double and semi-double varieties in beautiful colors. Pkt., 15c; $\frac{1}{8}$ oz., 50c; $\frac{1}{4}$ oz., 90c.

1958—**Plumarius Semperflorens** (Everblooming Hardy Garden Pinks). Very continuous blooming, sweet-scented, double, semi-double and single flowers in many colors. Pkt., 10c; $\frac{1}{8}$ oz., 25c; $\frac{1}{4}$ oz., 40c.

1990—**Plumarius** (Grass Pinks, Scotch Pinks or Pheasant-Eye Pink). A beautiful single Pink with delightfully fringed flowers; mixed colors. Pkt., 5c; $\frac{1}{8}$ oz., 15c; $\frac{1}{4}$ oz., 25c.

1976—**DOLICHOS** (Hyacinth Bean). HHA. Ornamental climber with large, handsome foliage, which is not affected by insects, and showy pea-like flowers in long erect racemes, followed by curious flat pods in purple and white. 8 to 10 feet. Pkt., 5c; $\frac{1}{8}$ oz., 10c; $\frac{1}{4}$ oz., 15c.

Delphinium Gold Medal Hybrid

Annual Dianthus, Snow Queen and Fireball

The Dianthus seed I got from you, produced a most wonderful display of flowers.—Miss Elizabeth Hainke, R. D. 7, Box 58, Wisconsin Rapids, Wis.

**Escholtzia New Hybrid Mixed**

1978—**ECHEVERIA** (Heb and Chickens). G. A very fascinating, interesting and curious looking flower. Gets its name from the peculiar manner in which the parent stem sets its rosette like bloom. These tender perennials are easily grown and will furnish a real surprise. Used extensively in public parks for ribbon and carpet bedding. Pkt., 15c; $\frac{1}{16}$ oz., \$2.50.

**"ECHEVERIA"****Euphorbia****Forget-Me-Not, Ruth Fischer****ESCHOLTZIA (California Poppy) HA**

Bushy plants about 1 foot high, with finely cut, bluish-green foliage and glossy flowers of satin-like texture. Splendid for beds or borders and good for cutting. Seed may be sown at any time during the spring, the earlier the better, where they are to remain, as they do not stand transplanting.

1966—**Crocea**. Rich orange, double. Pkt., 10c; $\frac{1}{4}$ oz., 20c; $\frac{1}{16}$ oz., 35c.

1969—**Gelshu**. Bright scarlet on the outside, inside rich golden orange. Pkt., 10c; $\frac{1}{4}$ oz., 25c; $\frac{1}{16}$ oz., 40c.

1968—**Mandarin**. Bright orange and brilliant scarlet. Pkt., 5c; $\frac{1}{4}$ oz., 10c; $\frac{1}{16}$ oz., 15c.

1983—**Aurantacea**. The best pure orange. Exquisite. Pkt., 5c; $\frac{1}{4}$ oz., 10c; $\frac{1}{16}$ oz., 15c.

One Pkt. each of above 4, for 20c; $\frac{1}{4}$ oz. each, for 45c.

1982—**Finest Mixed**. Single and double flowers, all colors. Pkt., 5c; $\frac{1}{4}$ oz., 10c; $\frac{1}{16}$ oz., 15c.

1991—**New Hybrid Mixed**. This mixture has been saved from a number of new sorts of wonderful colors, and includes wall-flower red, old gold, fire-red, cream and other unusual tones. Pkt., 15c; $\frac{1}{4}$ oz., 30c; $\frac{1}{16}$ oz., 50c.

1985—EUPHORBIA variegata (Snow-on-the-Mountain).

HA. Robust grower; foliage margined white. 2 feet. Suitable for beds of tall growing plants or mixed borders. The flowers in themselves are inconspicuous but the foliage is exceedingly ornamental. Pkt., 10c; $\frac{1}{4}$ oz., 25c; $\frac{1}{16}$ oz., 40c.

FORGET-ME-NOT (Myosotis)

Lovely little plants for moist and shady situations. Seed may be sown any time from spring till mid-summer. Perennials and hardly if given slight protection over winter. May also be lifted in fall and potted for winter blooming. The Alpestris varieties and Dissitiflora come into bloom in April, and the Palustris sorts in May, 6 to 8 inches.

1992—**Alpestris Coerulea**. HP. Compact and much branched, with large bright blue flowers. Pkt., 8c; $\frac{1}{4}$ oz., 25c; $\frac{1}{16}$ oz., 40c.

1996—**Ruth Fischer** (Alpestris Hybrid). HP. The best variety for pots. Dwarf and compact, with large deep blue flowers as much as $\frac{1}{2}$ inch in diameter. Blooms over a long season. Grand bedder, also. Extra choice. Pkt., 25c; 2 pkts., 40c; $\frac{1}{16}$ oz., \$2.50; $\frac{1}{4}$ oz., \$4.75.

1997—**Eliza Fonrobert** (Alpestris). HP. Sky blue, white eye. Charming. Pkt., 10c; $\frac{1}{4}$ oz., 30c; $\frac{1}{16}$ oz., 50c.

1993—**Alpestris Mixed**. HP. Blue, white and rose mixed. Pkt., 10c; $\frac{1}{4}$ oz., 20c; $\frac{1}{16}$ oz., 35c.

1994—**Dissitiflora**. HB. Of dwarf, compact habit, with sprays of large blue flowers, fine for planting with spring flowering bulbs. Pkt., 15c; $\frac{1}{4}$ oz., \$1.25; $\frac{1}{16}$ oz., \$2.25.

1995—**Palustris Semperflorens**. HP. An everblooming variety beginning to flower in May and continuing till Autumn. Large, clear blue flowers. Pkt., 15c; $\frac{1}{4}$ oz., 55c; $\frac{1}{16}$ oz., 95c.

One Pkt. each of above 6 sorts for 65c.

2002—FOUR-O'CLOCKS (Marvel of Peru; Mirabilis) HA.

Free-blooming from June to September. The flowers open in the afternoon and close the next morning. A very popular flower for beds and borders; always satisfactory no matter how unfavorable the soil or weather may be. Sweet-scented. 30 inches. Pkt., 5c; $\frac{1}{4}$ oz., 10c; $\frac{1}{16}$ oz., 15c.

FREESIA G. Favorite house plants producing a profusion of flowers which are of delicious fragrance. Will bloom in about six months from sowing seed.

2004—**New Hybrid**. Shades of red, blue and orange mixed. Pkt., 10c; $\frac{1}{4}$ oz., 50c; $\frac{1}{16}$ oz., 90c.

GERANIUM HHP

Not difficult to grow from seed. Start in a pot or box in the house in rather light soil, covering seed $\frac{1}{4}$ inch deep, and keep temperature as near 65° F. as possible. Seed is slow to germinate. Water moderately and when the third leaf appears, pot singly in two-inch pots, transferring to open ground in May or June.

2016—**Apple Scented**. Sweet-scented leaves. Pkt., 25c; 2 pkts., 40c.

2018—**Zonale**. Mixed. Single and double, scarlet shades. Large flowers. Pkt., 15c; $\frac{1}{4}$ oz., 75c; $\frac{1}{16}$ oz., \$1.35.

2017—**Pelargonium Mixed** (Lady Washington Geraniums). Beautifully blotched flowers. Pkt., 25c; 2 pkts., 40c; 3 pkts., 55c.

**Zonale Geranium**

Last year I planted your Sweet Pea seed, and had prettier Sweet Peas than ever before.—Mrs. Sadie McNutt, R. D. 6, Greenville, Ohio.

GAILLARDIA (Blanket Flower)

ANNUAL VARIETIES. HA. Splendid, showy flowers, remarkable for the profusion, size and brilliancy of their blooms, flowering steadily from early summer till November; excellent for beds, borders or for cutting; should be sown where they are to bloom. Will grow almost anywhere. 1½ feet.

2014—**Amblyodon.** Large, single, salmon-red flowers with deep crimson centers. Pkt., 10c; ¼ oz., 20c; ½ oz., 35c.

2015—**The Bride.** Entirely new. Double, pure white flowers. Pkt., 15c; ¼ oz., 50c; ½ oz., 90c.

2012—**Picta, Single Mixed.** Free flowering, many shades. Pkt., 5c; ¼ oz., 10c; ½ oz., 15c.

2011—**Picta Lorenziana, Double.** Grand double flowers, mixed colors. Pkt., 7c; ¼ oz., 15c; ½ oz., 25c.

PERENNIAL VARIETIES. HP. Thrive in almost any position or soil and require little or no protection or care. If sown early, will flower from July on; fine for cutting; 2 feet.

2013—**Dazzler.** Few flowers rival the Gaillardia for making a gorgeous display in the garden, and this fine recent variety is an advance on all others of its class. It produces larger flowers with wider florets, often attaining a diameter of 4 and 5 inches. The color is bright golden yellow with rich mahogany red center. The plant is vigorous, throwing up a profusion of long and erect flower stalks, which provide excellent material for cutting and are unsurpassable for table decoration. Pkt., 15c; ¼ oz., 45c.

2010—**Grandiflora Compacta.** Bushy plants, only 12 inches high, bearing long-stemmed flowers well above the foliage. Mixed colors, rich and varied. Pkt., 10c; ¼ oz., 30c; ½ oz., 50c.

GEUM. HP. Fine plants for the hardy border; easy to grow and thriving on poor soil providing they have plenty of sun. 2019—**Atrosanguineum.** Strong-growing, with large, deep red, semi-double flowers, valuable for cutting. 2 feet. Pkt., 10c; ¼ oz., 85c; ½ oz., \$1.60.

2020—**Mrs. Bradshaw.** Large, double, bright scarlet flowers; blooms profusely all summer. Pkt., 10c; ¼ oz., 50c; ½ oz., 85c.

GLOXINIA. G. Superb house plants, producing magnificent flowers of the richest colors. Sow in March. 2027—**Hybrid Grandiflora.** An unsurpassed strain, containing the spotted hybrid as well as the finest colored sorts. Pkt., 20c; 2 pkts., 35c.

2026—**Giant Sorts.**

Magnificent flowers, measure often five inches and more in diameter. Pkt.,

25c; 2 pkts., 45c.

Gaillardia

2024—**GOMPHRENA** (Globe Amaranth). HA. Sometimes called "Bachelor's Buttons." Popular bedding plants; flowers resemble clover heads and can be dried and used in winter bouquets. Rose, White, Purple, and Mixed. Each, pkt., 5c; ¼ oz., 10c; ½ oz., 16c.

Samples of Gourds

ORNAMENTAL GOURDS. HHA. Rapid growing annual vine with heavy foliage. The unique fruit of grotesque shapes are ornamental and useful. Height, twenty to thirty feet.

2032—**Mixed Varieties.** Large and small sorts. Will give the children a big collection to play with. Pkt., 5c; ¼ oz., 10c; ½ oz., 15c.

GYPSOPHILA (Baby's Breath)

Annuals and early-flowering perennials, bearing graceful panicles of small flowers that are elegant for cutting and for bunching with other flowers.

2066—**Elegans Grandiflora, Alba.** HA. An improved large-flowered, white form; the famous Covent Garden strain. Pkt., 5c; ¼ oz., 10c; ½ oz., 15c.

2065—**Elegans Rosea.** HA. Lovely, rose-pink flowers. Pkt., 5c; ¼ oz., 10c; ½ oz., 15c.

2067—**Paniculata.** HP. Blooms the first season if sown early. White, single flowers, fine for borders or cutting. 2½ feet. Pkt., 10c; ¼ oz., 15c; ½ oz., 25c.

2059—**Paniculata Fl. Pl.** HP. Extra choice. A goodly percentage of the plants will bear small, double white flowers. Pkt., 15c; 2 pkts., 25c; ¼ oz., \$1.00; ½ oz., \$1.85.

GODETIA HA

Of all the hardy annuals for garden decoration, Godetias are unsurpassed for the brilliant effect they produce in beds and borders. The single sorts grow 15 inches high and the double varieties, 24 inches. They are extremely easy to grow and the plants remain in full beauty for a long period. Godetias are

especially recommended for shady locations, where many flowers will not bloom. When cut, the long graceful sprays of the tall varieties make handsome bouquets.

2855—**Gloriosa.** Blood red, single.

2856—**Crimson Glow.** Single, crimson.

2857—**Rosamond.** Single, shell pink.

2858—**Single, Finest Mixed.**

Any of above, pkt., 10c; ¼ oz., 30c; ½ oz., 50c. One pkt. each of above 3 colors, for 25c; ¼ oz. each, for 80c.

2859—**Tall Double Crimson.**

2860—**Tall Double Mauve.**

2861—**Tall Double Rose.**

2862—**Tall Double, Finest Mixed.**

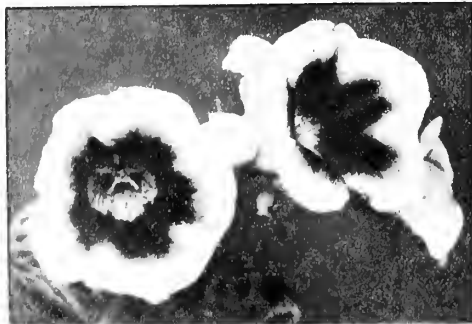

Any of above, pkt., 10c; ¼ oz., 25c; ½ oz., 50c. One pkt. each of above 3 colors, for 25c; ¼ oz. each, for 85c.

Gypsophila, Paniculata Flora Plena

Salzer's Godetia

Giant Glaxine

My relative, visiting from Denmark, wishes to take some of your seed along home. My Pansies especially were wonderful — Hans C. Bonefeld, R. D. 1, Box 67, Stonington, Mich.

Helichrysum or Strawflowers HA

One of the very finest of the well-known "Everlastings." Large, full, double, daisy-like flower heads with prominent centers and stiff overlapping scales, produced in various bright shades on stems of good length. Splendid for cutting. Highly desirable also as dried flowers and for use in making winter bouquets. This is undoubtedly the most popular of the "Everlasting" flowers. The new and improved varieties listed opposite, are showy and attractive when grown in the garden, and they keep well as cut flowers. When dried, their bright and brilliant colorings make beautiful house decorations during winter.

The plants grow readily from seed sown in the open ground when the trees are starting out in leaf, and in order to allow them to obtain the maximum development, thin the plants out to at least one foot apart. Those flowers which you desire for winter decorations should be cut with as long stems as possible when they are about one-third open. The foliage should then be stripped from the stems, the flowers tied in small bunches, and hung (flowers downward) in some dark, dry, cool place until cured.

Strawflowers grow from two to two and one-half feet high and are easily grown, succeeding in any good garden soil. Very effective in beds and borders. Plant a packet this spring and dry some of the flowers for next winter. We offer the following choice colors, extra selected, pedigreed seed:

GIANT FLOWERING HELICHRYSUM

2068—**Canary Yellow.** The best of the yellows.
2069—**Fireball.** The richest crimson.
2071—**Salmon Queen.** A fine, soft salmon.
2060—**Scarlet.** Very showy and attractive.
2061—**Violet.** Pleasing shade of violet.
2062—**Snowball.** Pure white.
2063—**Mixed.** A choice mixture of the above.
Any of the above: Pkt., 100 seeds, 10c; $\frac{1}{8}$ oz., 20c;
 $\frac{1}{4}$ oz., 35c.
One Pkt. each of above 6 colors for 50c; $\frac{1}{8}$ oz., each, 95c.

OTHER CHOICE EVERLASTINGS

The flowers of all of the following may be dried and kept for winter bouquets.

Acerollinum. HA. Good also for cutting. $1\frac{1}{2}$ feet. 1608—Double Rosea. Pkt., 10c; $\frac{1}{8}$ oz., 20c; $\frac{1}{4}$ oz., 30c; and 1609—Double Mixed. Pkt., 8c; $\frac{1}{8}$ oz., 15c; $\frac{1}{4}$ oz., 25c.

Globe Amaranth (Gomphrena). HA. 2 feet. Showy foliage and small, brightly colored globe-shaped flowers. 2024—Mixed. Pkt., 5c; $\frac{1}{8}$ oz., 10c; $\frac{1}{4}$ oz., 16c.

Rhodanthe. HA. $1\frac{1}{2}$ feet. Silvery leaves and dainty pink and white flowers on long, nodding stems. Much prized. 2428—Mixed. Pkt., 5c; $\frac{1}{8}$ oz., 15c; $\frac{1}{4}$ oz., 25c.

Statice (Sea Lavender). HP. Splendid also for the hardy border and rockery. Bears panicles of minute flowers which "cure" nicely. 2462—Mixed. Pkt., 5c; $\frac{1}{8}$ oz., 10c; $\frac{1}{4}$ oz., 15c.

Xeranthemum (Immortelle). HA. 3 feet. Tall, showy, double flowers in white, rose, purple, etc. 2569—Mixed. Pkt., 10c; $\frac{1}{8}$ oz., 20c; $\frac{1}{4}$ oz., 35c.

2490—**Everlasting Mixed.** All varietles and all shades of the various Everlastings. A good bargain. Pkt., 9c; $\frac{1}{8}$ oz., 15c; $\frac{1}{4}$ oz., 25c; oz., 85c.

HELIOTROPE (Cherry Pie) TP

Its delightful perfume makes it a most desirable bouquet flower. Useful for bedding, pots or window-boxes. Prefers a cool, moist atmosphere, and a rich soil. Seed may be started indoors in early spring and transplanted to the open in late May, or sow outdoors in May. May be potted up in fall for winter blooming indoors.

2075—**White Lady.** Pure satiny white, massive heads of blooms, sweetly fragrant. The best of the whites. Pkt., 15c; $\frac{1}{8}$ oz., 60c; $\frac{1}{4}$ oz., \$1.10.

2073—**Regal.** A new variety with immense heads of flowers, fragrant, all colors mixed. Pkt., 15c; $\frac{1}{8}$ oz., 50c; $\frac{1}{4}$ oz., 90c.

2072—**Fine Mixed.** A good bargain; large flowers. Pkt., 10c; $\frac{1}{8}$ oz., 40c; $\frac{1}{4}$ oz., 70c.

2074—**HESPERIS** (Sweet Rocket). HP. Erect growing, 2 feet tall, with clusters of sweet scented lavender flowers. Nice for borders and for cutting, thriving in poor soil. Pkt., 7c; $\frac{1}{8}$ oz., 15c; $\frac{1}{4}$ oz., 25c.

Mixed Straw Flowers or Helichrysum

Heliotrope, Regal

Last year I ordered Strawflowers from you and grew the largest and most beautiful flowers I had ever had.—Mrs. Wm. Jones, Fleming, Ohio.

HOLLYHOCK HB

One of the most majestic of hardy plants, and a clump or line in a garden gives an effect not attainable with any other plant. For planting among shrubbery or forming a background for other flowers, it is without equal. From seed sown in early spring, they often produce a few flowers in late summer, but they are at their best the second year.

DOUBLE VARIETIES. These superb varieties bear tall spikes closely set with showy, round, double flowers. As they usually re-seed themselves, a bed once established will last for years. 6 to 8 feet. This is the true Chater's Double strain.

Pkt.	1/4 oz.	Pkt.	1/4 oz.
2081—Deep Scarlet.	10c 30c	2088—Maroon	10c 30c
2082—Yellow	10c 30c	2089—Salmon	10c 30c
2083—Newport Pink	10c 30c	2077—Rose	10c 30c
2087—White	10c 30c	2085—Mixed	10c 30c

One pkt. each of above 7 colors for 50c; 1/4 oz. each, for \$1.75.

2084—**Allegheny.** Mammoth flowers, wonderfully formed with loosely arranged fringed petals. The colors range from the palest shrimp pink to deep red. Flowers are double and semi-double. Hardy perennial. Pkt., 9c; 1/8 oz., 25c; 1/4 oz., 40c.

2086—**Cliffwood Double Mixed.** Hardy perennial. Saved from largest and best flowers, all colors. Pkt., 10c; 1/8 oz., 30c; 1/4 oz., 50c.

EVERBLOOMING or ANNUAL VARIETIES. These are really biennials which bloom the first season from seed sown in early spring and commence to bloom in June the second season, continuing until frost.

2078—**Double Fringed.** Mixed colors, elegantly fringed double flowers. Pkt., 10c; 1/8 oz., 20c; 1/4 oz., 35c.

2079—**Finest Double Mixed.** Splendid. Free blooming, perfect flowers on long spikes. Pkt., 10c; 1/8 oz., 25c; 1/4 oz., 40c.

2080—**Finest Single Mixed.** Unusually handsome and free-blooming single flowers, all colors. Pkt., 5c; 1/8 oz., 15c; 1/4 oz., 25c.

HELIANTHUS (Sunflower) HA

Remarkable for the stately growth, size and brilliancy of their flowers, making a very good effect among shrubbery or for screens. Fine for cutting. Sown in a sunny spot in April or May they bloom from early summer until cut down by frost.

2495—**Nanus Purpureus.** Red and yellow shades. Single flowers with small disc, and long rays which are slightly curled. Height, about five feet. Pkt., 5c; 1/8 oz., 10c; 1/4 oz., 16c; 1/2 oz., 50c.

2496—**Californicus.** Fl.

Pl. Beautiful double flowers of a dark yellow color. Height, five feet. Pkt., 10c; 1/8 oz., 15c; 1/4 oz., 20c.

2500—**Mixed Decorative.**

This mixture contains the most beautiful single and double flowered sorts. Pkt., 10c; 1/8 oz., 15c; 1/4 oz., 25c.

2094—**ICE PLANT.** HA. A trailing plant suitable for hanging baskets, and rockeries, also makes an ornamental pot plant. Leaves are covered with watery vesicles like ice crystals. 10 inches. Pkt., 5c; 1/8 oz., 10c; 1/4 oz., 15c.

SOW SALZER'S SEEDS

I have planted your seeds for the last ten years, and they can't be equalled.—D. A. Coyne, Murdo, S. D.

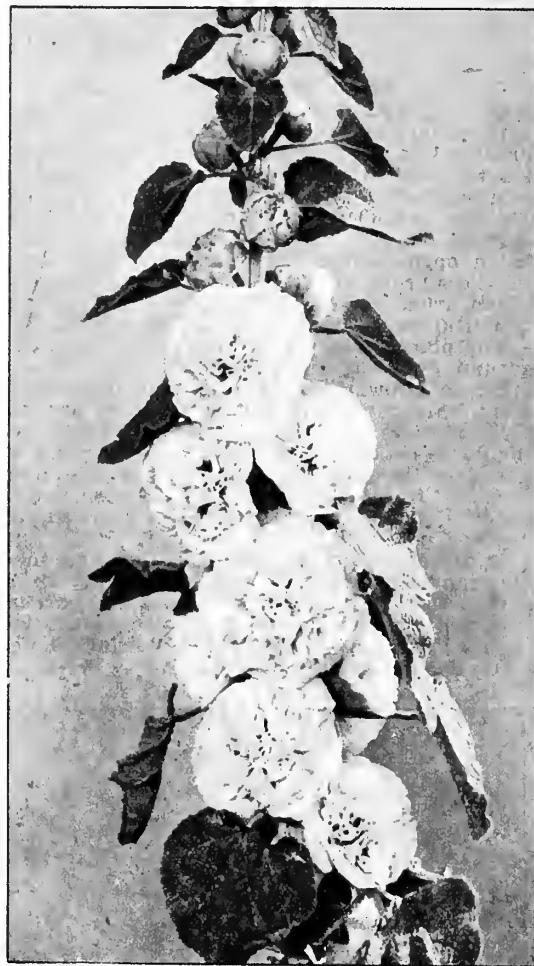

Kochia

Hunnemanlia or Tulp Poppy

HUMULUS (Japanese Hop). HHA. Sown end of May, it will, within four to six weeks, climb 10 to 15 feet, covering arbor or trellis with dense, highly ornamental foliage, followed by clusters of white flowers.

2090—**Japonicus.** Growing to 30 feet in season. Pkt., 5c; 1/8 oz., 10c; 1/4 oz., 15c.

The Majestic Hollyhock

2092—**HUNNEMANIA** (Giant Yellow Tulip Poppy, or Bush Escholtzia). HA. This is by far the best of the poppy family for cutting, remaining in fine condition often for a week. Seed sown early in May will, by the middle of July, produce plants covered with their large buttercup-yellow, poppy-like blossoms, and are never out of flower until hard frost. The plants grow 2 feet high, and are quite bushy, with beautiful feathery foliage. Pkt., 10c; 1/8 oz., 20c; 1/4 oz., 35c.

2098—**KOCHIA** (Burning Bush; Summer Cypress). HHA. Very handsome, symmetrical plants, forming beautiful, ornamental shrubs, and growing 3 feet tall in three months. Wherever a quick-growing annual hedge is wanted there is nothing better than Salzer's Kochia. Turns to a gorgeous carmine in fall. Pkt., 5c; 1/8 oz., 10c; 1/4 oz., 15c.

2099—**KUDZU VINE** HP. A Japanese climbing vine with large leaves and fragrant wistaria-like flowers. It will climb 25 to 30 feet in a season, freezing down each winter but coming up from the roots again in the spring. Pkt., 10c; 1/8 oz., 15c; 1/4 oz., 25c.

LANTANA *hybrida*. HHP. Handsome bedding plants and beautiful for pots. The seed should be started indoors very early in the spring. Produces verberna-like clusters of pink, orange and red flowers.

2100—**Tall Mixed.** 2 feet. Pkt., 7c; 1/8 oz., 18c; 1/4 oz., 30c.

2101—**Dwarf Compact Mixed.** A new and improved strain. Pkt., 10c; 1/8 oz., 25c; 1/4 oz., 40c.

Your Hollyhock and Snapdragons were beautiful, and admired by everyone.—Mrs. John H. Sehorn, 1704 Parkwood Ave., Charlotte, N. C.

LARKSPUR

(Annual Delphinium) HA

These are among the best-known garden flowers, and in recent years a vast improvement has been effected by careful selection in size and color of the blossoms and the general habit of the plant. Seeds sown in the open ground before the close of April will produce flowering plants by the beginning of July, and give a continuous succession of flowers from then until frost, a record that is not surpassed by any other annual. They make handsome beds or lines, and their free, graceful habit and bright colors are very effective when interspersed in the old-fashioned flower or shrubby border. They stand well when cut, and a vase of one or mixed colors is indeed charming.

TALL DOUBLE STOCK- FLOWERED

Height, 2½ to 3 feet. Thin the plants to one foot apart for best results. Splendid for cutting and for tall borders. They produce many candelabra-like trusses of beautiful, very double, flowers.

1950—**Exquisite.** A new race of larkspur or annual delphinium; a most beautiful, stately flower, pink in color. As its name indicates, this introduction is of sterling merit and should be in every garden. The clear shell pink of its flowers is not equaled for delicacy and beauty by any other variety. Pkt., 100 seeds, 15c; ½ oz., 30c; ¼ oz., 50c.

2053—**Pink.** Soft pink. Pkt., 75 seeds, 12c; ½ oz., 20c; ¼ oz., 35c.

2054—**Ageratum Blue.** Lovely. Pkt., 75 seeds, 12c; ½ oz., 20c; ¼ oz., 35c.

2055—**Dark Blue.** Beautiful. Pkt., 75 seeds, 12c; ½ oz., 25c; ¼ oz., 40c.

2058—**Bright Rose.** Pkt., 75 seeds, 15c; ½ oz., 35c; ¼ oz., 60c.

2056—**White.** Pkt., 75 seeds, 12c; ½ oz., 25c; ¼ oz., 40c.

2048—**Lustrous Carmine.** Pkt., 75 seeds, 15c; ½ oz., 35c; ¼ oz., 60c.

2091—**Lilac.** Elegant. Pkt., 75 seeds, 12c; ½ oz., 25c; ¼ oz., 40c.

2057—**Mixed.** All colors. Pkt., 100 seeds, 10c; ½ oz., 15c; ¼ oz., 25c.

One Pkt. each of above 8 colors for 95c; ½ oz., each for \$1.90.

2103—**Tall Emperor.** The famous European strain. Beautiful light blue, free-flowering, 30 inches. Pkt., 100 seeds, 5c; ½ oz., 10c; ¼ oz., 15c.

DWARF EMPEROR

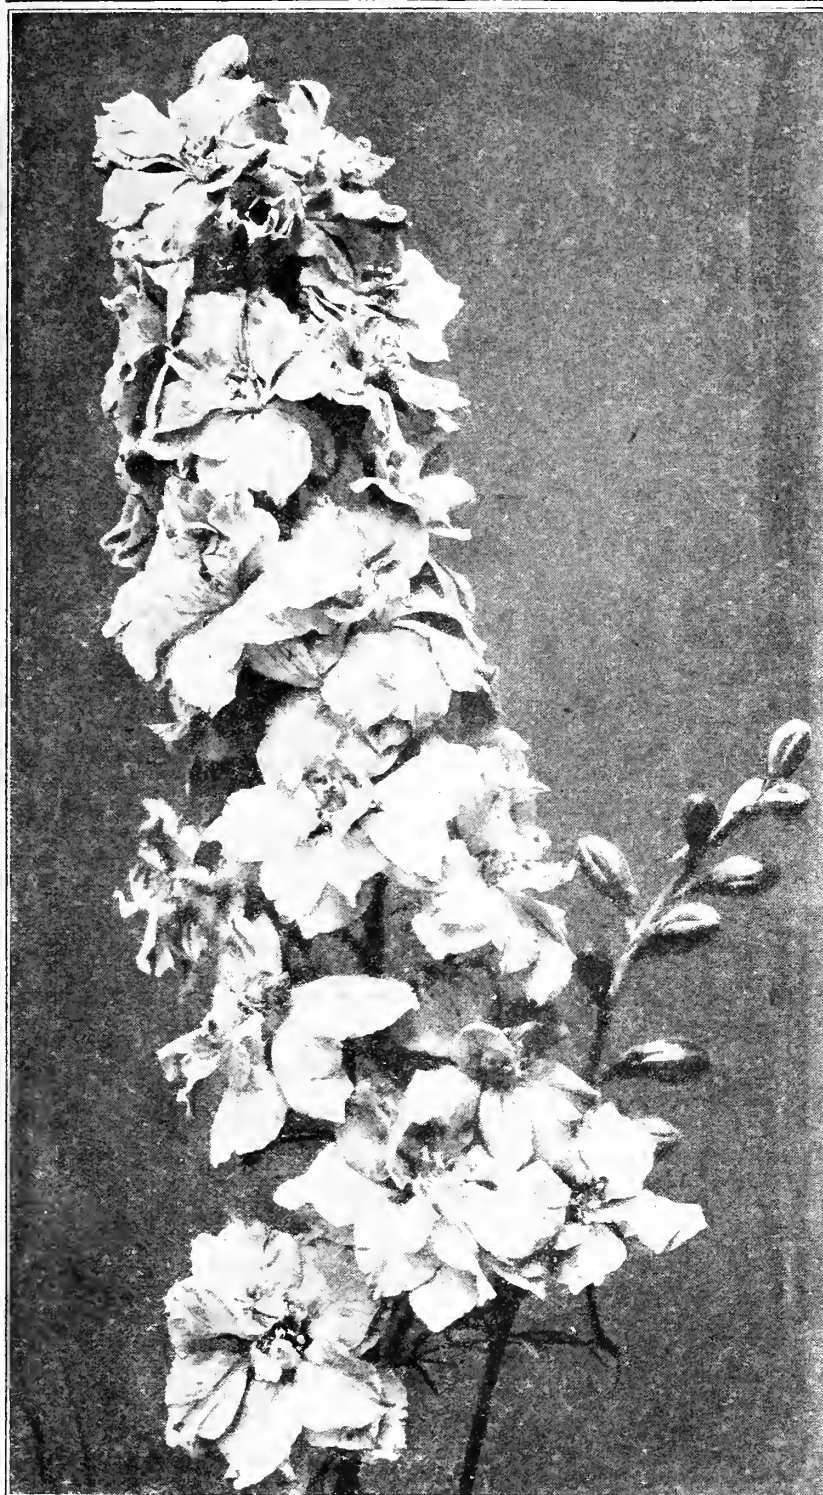

(Larkspur)

This grand strain of Delphinium Imperiale Fl. Pl. grows 2 feet high and is of true candelabra-branching habit. Fine for borders or cutting. Free-blooming.

2050—**Violet** 2051—**Mauve** 2104—**Rose**
2052—**White** 2105—**Mixed**

Any Pkt., each, 100 seeds, 7c; ½ oz., 15c; ¼ oz., 25c. One Pkt. each of above 4 colors, for 20c; ½ oz., each of above 4, for 45c.

2102—**Double Dwarf Rocket.** Fine bedders growing 1½ feet tall, blooming very early. Also fine for bordering. All colors mixed. Pkt., 100 seeds, 7c; ½ oz., 15c; ¼ oz., 25c.

Salzer's Tall Double Stock-Flowered Larkspur

SOW SALZER'S SEEDS

I have a long row of your Sweet Peas that are just loaded with buds and large blossoms of the most beautiful colors we could wish for. It seems every stem has three and four blossoms. I am giving away many bouquets, and my friends are just delighted with them.

Grace Miller, Omro, Wisconsin.

The garden and flower seeds that I got from you last year, produced the best vegetables and flowers I have ever raised, in spite of the fact that last summer was the worst season I have ever seen.

John M. P. Symes, Alexis, Ills.

Am more than pleased with all your seeds, and would not do without them.—Miss Katherine Dickman, R. D. 2, Granite City, Ills.

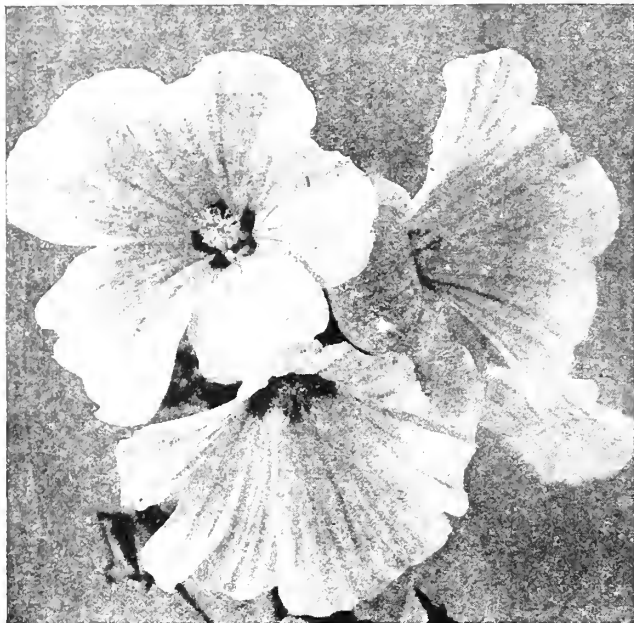

LATHYRUS Latifolius (Perennial Pea). HP. Hardy vines of robust growth resembling Sweet Peas, but the flowers are not fragrant. Blooms through a long season and are excellent as cut flowers. The plants die down in the fall and start growing from the roots early in spring. Height six feet. For best results inoculate with Stimulgerm.

2117—**White Pearl**. Pure white. Pkt., 15c; $\frac{1}{8}$ oz., 30c.
 2118—**Pink Beauty**. Charming. Pkt., 10c; $\frac{1}{8}$ oz., 25c.
 2119—**Red**. Purplish carmine. Pkt., 10c; $\frac{1}{8}$ oz., 25c.
 2106—**Finest Mixed**. Pkt., 10c; $\frac{1}{8}$ oz., 25c; $\frac{1}{4}$ oz., 40c.
 One Pkt. each of above 3 colors, for 25c; $\frac{1}{8}$ oz. each for 70c.

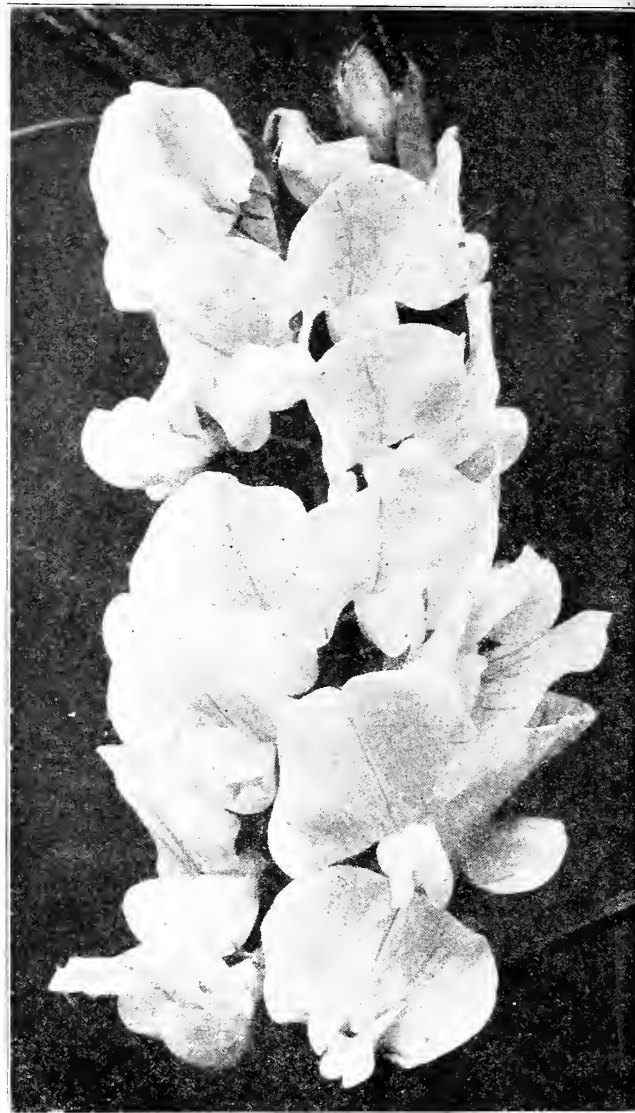

LAVATERA (Annual Mallow) HHA

Beautiful and showy. Bushy plants about 2 feet high, bearing large bowl-shaped flowers of a charming rose-pink color. These richly colored flowers may be cut on stems two feet long, which with their bronzy green foliage make a beautiful bouquet. The flowers are borne abundantly during summer and fall, making it very desirable for beds on the lawn or as border decorations. Sow the seed in May where they are to bloom and later thin the plants to one foot apart.

2109—**Rosea**. Beautiful rose-pink. Pkt., 10c; $\frac{1}{8}$ oz., 15c.

Lavatera, Very Beautiful

Lathyrus Latifolius or Perennial Sweet Pea

2120—**LINARIA** (Kenilworth Ivy). HHP. A very graceful creeper or climber with glossy, ivy-like foliage. Dainty flowers in lilac, rose and white, mixed. Most attractive for boxes, baskets, etc. Pkt., 5c; $\frac{1}{8}$ oz., 12c; $\frac{1}{4}$ oz., 20c.

2108—**LINUM (Rubrum)** (Flax). HA. One of the most effective and showy annuals; bedding plants of long duration, having fine foliage and delicate stems, with brilliant crimson flowers. 1 foot. Pkt., 5c; $\frac{1}{8}$ oz., 10c; $\frac{1}{4}$ oz., 15c.

LOBELIA HA

A dainty and continuous blooming annual of compact growth, remarkable for its profusion of beautiful blue flowers. Unexcelled for edging, ribbon beds, hanging baskets or window boxes. Height, about six inches.

2110—**Blue Bird**. Light blue flowers, very effective. Pkt., 10c; $\frac{1}{8}$ oz., 55c; $\frac{1}{4}$ oz., 95c.

2112—**Compacta, Crystal Palace**. Erect and very free-blooming. Best dark blue for edging. Fine for pots. Pkt., 12c; $\frac{1}{8}$ oz., 95c; $\frac{1}{4}$ oz., \$1.70.

2111—**Finest Mixed**. Dwarf and compact plants; flowers in all shades, including white, rose, etc. Pkt., 10c; $\frac{1}{8}$ oz., 30c; $\frac{1}{4}$ oz., 50c.

2136—**MATHIOLA, Bicornis** (Evening Scented Stock). HA. Blooms from June till frost. The purplish lilac flowers are of an exquisite fragrance which permeates the air during the evening. 16 inches. Pkt., 5c; $\frac{1}{8}$ oz., 10c; $\frac{1}{4}$ oz., 15c.

Lobelia, Crystal Palace

I have always had wonderful success with all of your seeds, but especially with your Sweet Peas.—Mrs. Leo Wiese, 612 No. 6th Ave., Jamestown, N. D.

LUPINUS (Lupine; Sun-Dials)

Thrive in almost any situation. Sow where they are to bloom in May, and as plants grow thin out to 1 foot apart. The annual varieties bloom freely from June until September, and the perennials will make a grand addition to the hardy border.

2122—**Cliffwood Mixed**. HA. 2 feet high. All shades and colors. Gorgeous. Pkt., 5c; $\frac{1}{8}$ oz., 10c; $\frac{1}{4}$ oz., 15c.

2123—**Polyphyllus, Mixed**. HP. 3 feet high. Long spikes of blossoms in spring and early summer. Hardy. Pkt., 5c; $\frac{1}{8}$ oz., 10c; $\frac{1}{4}$ oz., 15c.

LYCHNIS (Burning Star or Jerusalem Cross) HP

Free and continuous bloomer. 2126—**Chalcidonia**. Heads of small, intensely bright scarlet flowers. Pkt., 10c; $\frac{1}{8}$ oz., 25c; $\frac{1}{4}$ oz., 40c.

MARIGOLD HA

The African and French Marigolds are old favorite free-flowering annuals of easy culture; both are extremely effective. The former have uniformly large yellow or orange-colored flowers, and are well adapted for large beds or mixed borders; the latter are dwarfer in growth, with beautifully striped flowers, and are better suited for bedding purposes and pot culture. They succeed best in a light soil, with full exposure to the sun.

TALL DOUBLE AFRICAN (*Tagetes Erecta*). Flowers often 3 inches in diameter. 2 $\frac{1}{2}$ feet high.

The Giant Show strains of the following three immense Marigolds have been carefully developed at Cliffwood Farms for several years, and we are offering it as being much superior to anything we have previously been able to obtain. The seed has been saved only from plants of proved types.

2132—**Double, African, Lemon Queen**. Large, double lemon yellow flowers on vigorous plants 3 feet high. Pkt., 10c; $\frac{1}{8}$ oz., 15c; $\frac{1}{4}$ oz., 25c.

2133—**Double African, Prince of Orange**. Height, three feet. Large double orange-yellow flowers; beautiful. Pkt., 12c; $\frac{1}{8}$ oz., 18c; $\frac{1}{4}$ oz., 30c.

2135—**Double African, Meteor**. Beautiful sulphur yellow with an orange margin, having a silvery sheen effect over the whole flower. Pkt., 10c; $\frac{1}{8}$ oz., 15c; $\frac{1}{4}$ oz., 25c. One Pkt., each of above 3 for 25c.

2131—**Tall Double Mixed**. Large, double flowers, gorgeous colors. Pkt., 10c; $\frac{1}{8}$ oz., 15c; $\frac{1}{4}$ oz., 25c.

2128—**Dwarf African, Mixed**. 15 inches. Brilliant shades of yellow and orange. Double flowers. Pkt., 10c; $\frac{1}{8}$ oz., 15c; $\frac{1}{4}$ oz., 25c.

2151—**Gold Striped**. Double, golden yellow flowers, each petal striped brownish red. Pkt., 5c; $\frac{1}{8}$ oz., 15c; $\frac{1}{4}$ oz., 25c.

DWARF FRENCH (*Tagetes Patula*). Bushy in growth, about 12 inches high and in bloom all summer.

2150—**Brunea**. Double, quilled flowers, rich brown with a narrow edge of yellow. Pkt., 5c; $\frac{1}{8}$ oz., 15c; $\frac{1}{4}$ oz., 25c.

2152—**Legion of Honor** (Little Brownie). 9 inches. Blooms from June till frost, the charming single golden flowers blotched velvety crimson at the base of each petal. Pkt., 10c; $\frac{1}{8}$ oz., 15c; $\frac{1}{4}$ oz., 25c.

2129—**Dwarf French, Mixed**. 15 inches. Double flowers, mixed. Pkt., 7c; $\frac{1}{8}$ oz., 15c; $\frac{1}{4}$ oz., 25c.

MATRICARIA (Feverfew) HP

A very free-flowering border plant, bearing masses of white or yellow flowers. Good also for cutting.

2138—**Golden Ball** (Eximea). Double yellow flowers. 12 inches. Pkt., 10c; $\frac{1}{8}$ oz., 40c; $\frac{1}{4}$ oz., 70c.

2139—**Snowball** (Capensis). 18 inches. Double white. Pkt., 10c; $\frac{1}{8}$ oz., 20c; $\frac{1}{4}$ oz., 35c.

MIMULUS HHP

A grand plant for pots, hanging baskets for winter blooming, or moist shady situations outdoors. 1 ft.

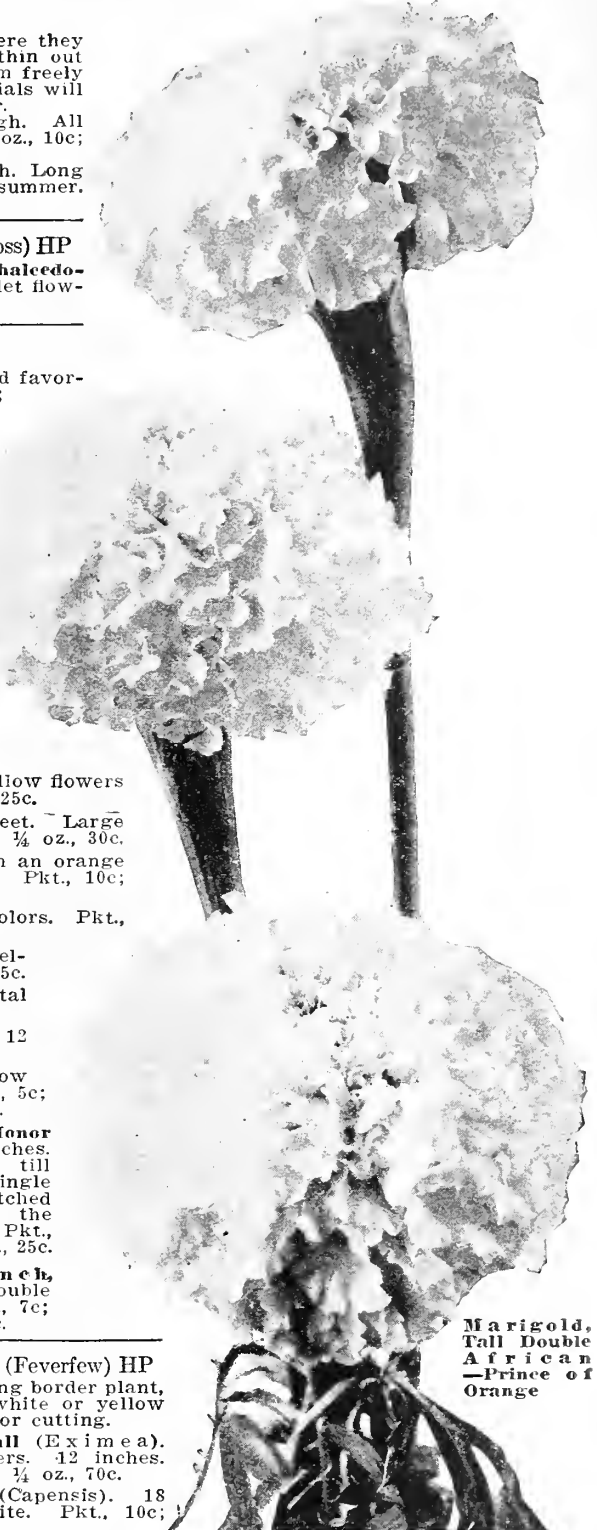

2156—**Moschatus** (Musk Plant). Yellow flowers, scented foliage. Ideal for pot culture. Pkt., 15c; $\frac{1}{8}$ oz., 75c; $\frac{1}{4}$ oz., \$1.25.

African
—Prince of
Orange

Your Lemon Queen and Prince of Orange Marigold, and your Frost Proof Pansies, are just beauties.—
Mrs. A. B. Hudson, R. D. 1, Alanson, Mich.

MIGNONETTE (Reseda) HHA

No garden is complete without a bed of Mignonette. If sown in April and again in July, these fragrant plants will bloom steadily until November. 16 inches. Splendid for pot culture for winter.

- 2146—**Goliath**. Fire-red. Pkt., 10c; $\frac{1}{8}$ oz., 25c; $\frac{1}{4}$ oz., 40c.
 2147—**Machet**. Scarlet. Pkt., 5c; $\frac{1}{8}$ oz., 10c; $\frac{1}{4}$ oz., 16c.
 2148—**Odorata**. Extra fragrant. Pkt., 5c; $\frac{1}{8}$ oz., 10c; $\frac{1}{4}$ oz., 16c.
 2149—**Snow Queen**. White. Pkt., 7c; $\frac{1}{8}$ oz., 12c; $\frac{1}{4}$ oz., 20c.
 2145—**Golden Queen**. Yellow. Pkt., 5c; $\frac{1}{8}$ oz., 10c; $\frac{1}{4}$ oz., 16c.
 One Pkt. each of above 5 for 25c; $\frac{1}{8}$ oz. each for 55c.
 2144—**Finest Mixed**. All the sorts. Pkt., 7c; $\frac{1}{8}$ oz., 12c; $\frac{1}{4}$ oz., 20c.

MORNING GLORY (Convolvulus) HHA

Well known climbers which grow and blossom profusely in almost any soil.

2164—**Tall, Mixed**. The common Morning Glory, always satisfactory for trellises, stumps, fences, etc., thriving in any soil. All shades of blue, pink and red. Pkt., 5c; $\frac{1}{8}$ oz., 7c; $\frac{1}{4}$ oz., 10c; oz., 20c.

2165—**Aurora**. A grand variety, white flowers beautifully striped with violet. Pkt., 10c; $\frac{1}{8}$ oz., 15c; $\frac{1}{4}$ oz., 20c.

2166—**Brazilian**. An extremely rapid grower with leaves often 10 inches across. The large flowers appear in late summer and are deep red with a five-pointed star of satiny pink. Very showy. Pkt., 10c; $\frac{1}{8}$ oz., 25c; $\frac{1}{4}$ oz., 40c.

2162—**Dwarf, Mixed**. 1 foot. A beautiful bedding and border plant. Free blooming, all colors. Pkt., 5c; $\frac{1}{8}$ oz., 8c; $\frac{1}{4}$ oz., 12c.

2163—**Japanese, Mixed**. Remarkable for the brilliant colors of the flowers as well as for the form and variegation of the foliage. Flowers in all conceivable shades of red, blue, wine, mauve, cerise, white, etc., many of them margined or mottled. Start indoors in March or sow outdoor in late May. Pkt., 7c; $\frac{1}{8}$ oz., 15c; $\frac{1}{4}$ oz., 25c.

NICOTIANA (Sweet-Flowering Tobacco) HHA

Beautiful border plants, sometimes used for pots and boxes, easy to grow. They do best in a deep, loamy soil and in a sheltered situation. It is well to start the seed indoors, although both late spring and fall sowings give good results.

2233—**Afinis Hybrids**. Plants are in full flower every sunny day from June till frost. Clusters of trumpet shaped blooms in blue, red and rose on tall stems above the luxuriant foliage. $2\frac{1}{2}$ to 3 feet. Pkt., 5c; $\frac{1}{8}$ oz., 15c; $\frac{1}{4}$ oz., 25c.

2234—**Sanderac Hybrids**. 2 feet. Compact and bushy, splendid for beds. Large flowers in white, pink, lavender, red and purple, mixed. Pkt., 10c; $\frac{1}{8}$ oz., 18c; $\frac{1}{4}$ oz., 30c.

2243—**OENOTHERA, After Glow** (Evening Primrose). HP. Blooms very freely all summer. Opens in the evening and lasts well during the next day. Yellow flowers with brilliant red calyx, very attractive. 2 to 3 feet. Pkt., 5c; $\frac{1}{8}$ oz., 10c; $\frac{1}{4}$ oz., 15c.

Japanese Morning Glory

Odorata Mignonette

MOONFLOWERS TA

Quick-growing climbers with dense, dark green foliage and immense flowers that open in late afternoon and close when the morning sun appears. The vines will reach a height of 20 feet or more and bear hundreds of great salver-shaped blossoms from late August until October. It is best to start the seed in pots indoors about March 15 and transplant to the open ground in mid-May, although the seed may be sown outdoors after the soil is warm and the trees well out in leaf. Soak the seed overnight in lukewarm water before planting.

2160—**Alba**. Large white flowers. Pkt., 10c; $\frac{1}{8}$ oz., 15c; $\frac{1}{4}$ oz., 25c.

2159—**Blue**. Blue flowers, very large. Pkt., 10c; $\frac{1}{8}$ oz., 15c.

NIGELLA HA

2238—**MISS JEKYLL, Blue** (Love in the Mist or Devil in the Bush). A very attractive, hardy annual, giving an abundance of lovely long stemmed flowers of a clear cornflower blue, prettily set in slender, elegant foliage. Pkt., 10c; $\frac{1}{8}$ oz., 20c; $\frac{1}{4}$ oz., 30c.

2239—**MISS JEKYLL, White**. Same as the blue except has white flowers. Pkt., 10c; $\frac{1}{8}$ oz., 20c; $\frac{1}{4}$ oz., 30c.

2241—**ORNAMENTAL GRASSES, Finest Mixed**. HA. They serve the double purpose of rendering the flower-beds or borders attractive during the summer and for the use of the spikes or panicles in a dried state in winter bouquets. Sow when danger from frost is past. 2 to 3 feet. All sorts mixed. Pkt., 5c; $\frac{1}{8}$ oz., 10c; $\frac{1}{4}$ oz., 15c.

2246—**Oxalis** (Wood Sorrel). HP. Brownish foliage, clover-like leaves, thickly starred with small, bright yellow flowers from June till frost. Good for pots, baskets, and for bedding, 6 to 8 inches. Pkt., 10c; $\frac{1}{8}$ oz., 95c; $\frac{1}{4}$ oz., \$1.70.

PHYSALIS
or Chinese
Lantern
Plant. HP.
2365—An ornamental plant, 2 feet high, bearing masses of bright orange-scarlet, lantern-like fruits, which can be cut and dried for winter bouquets. Highly interesting. Pkt., 10c; $\frac{1}{8}$ oz., 35c; $\frac{1}{4}$ oz., 65c.

Nicotiana,
Afinis Hy.

Your Sweet Pea Seed is the only kind that I want to plant.—Mrs. M. E. Carey, Turtle Lake, Wis.

Salzer's Dwarf, Giant Flowering, Perpetual Blooming Nasturtiums

SALZER'S GIANT FLOWERING NASTURTIIUMS HA

For ease of culture, duration of bloom, brilliancy of coloring and general excellence, nothing excels Nasturtiums. All they need is a moderately good soil in a well-drained, sunny position, and within a few weeks from sowing until hard frost comes, they bloom freely.

DWARF, GIANT FLOWERING, PERPETUAL BLOOMING

Grand new dwarf varieties without a rival, brilliantly colored, vigorous, of rapid growth. Flowers are large (often 3 inches across) and are borne on long stems, making them invaluable for cut flowers. Unequaled for bedding and color schemes. Plants are compact, bushy, fine for beds, and blossom freely from June until frost.

- 2178—**King Theodore**. Deep, dark garnet-red.
 2179—**Cloth of Gold**. Large scarlet flowers, golden foliage.
 2170—**Empress of India**. Fine deep crimson, dark leaved.
 2180—**California Orange**. Very rich yellow-orange.
 2174—**Moonlight**. Clear, light primrose flowers.
 2181—**Mixed**. Above shades, and many others, mixed.
 Any packet of the above, 10c each; ½ oz., 20c; oz., 30c; ¼ lb., \$1.00. One Pkt. each of above 5 for 45c; ½ oz. each for 75c; 1 oz. each for \$1.10.

TALL OR CLIMBING VARIETIES

Elegant and luxurious climbers. The seed pods may be gathered while green and tender, for pickling. 6 to 10 feet. Fine for trellises, fences, etc.

- | | |
|--------------------------|----------------------------|
| 2188— Chameleon | 2192— Golden Yellow |
| 2189— Lilac Brown | 2193— Deep Crimson |
| 2190— Chocolate | 2194— Reddish Black |
| 2191— Straw color | 2195— Creamy White |
- Any Pkt., 5c; oz., 15c; ¼ lb., 50c. One Pkt. each of above 8 for 35c; 1 oz. each for \$1.10.
 2209—**Mixed**. All of the above and many other colors. Pkt., 5c; oz., 15c; ¼ lb., 50c.
 2213—**Finest Mixed**. Saved from our largest and best plants. Many colors. Pkt., 7c; ½ oz., 12c; oz., 20c; ¼ lb., 60c.

TOM THUMB, DWARF, OR BEDDING

Splendid and popular sorts for beds, especially selected by us, after exhaustive trials.

- 2198—**Crimson**. Dark leaves. Pkt., 7c; ½ oz., 15c; oz., 25c.
 2199—**Golden Yellow**. Dark leaves. Pkt., 5c; ½ oz., 12c; oz., 20c.
 2200—**Chameleon**. Various colors on same plant. Pkt., 5c; oz., 20c.
 2201—**Scarlet**. Dark leaves. Pkt., 5c; ½ oz., 10c; oz., 15c.
 2202—**White**. Creamy white. Pkt., 5c; ½ oz., 10c; oz., 15c.
 2203—**Orange**. Spotted with scarlet. Pkt., 5c; oz., 15c.
 2204—**Maroon**. Dark foliage. Pkt., 5c; ½ oz., 12c; oz., 20c.
 2205—**Violet**. Purplish violet. Pkt., 7c; ½ oz., 15c; oz., 25c.
 2207—**Salmon**. Salmon rose, dark leaves. Pkt., 5c; ½ oz., 10c.
 2208—**Mixed**. Big pkt., 5c; ½ oz., 10c; oz., 15c; ¼ lb., 50c.
 One pkt. each of above 9 colors, 40c; 1 oz. each, \$1.50.
 2214—**Dwarf Finest Mixed**. Saved from our largest and best flowers. Pkt., 7c; ½ oz., 12c; oz., 20c; ¼ lb., 60c.

MISCELLANEOUS VARIETIES

2221—**Dwarf, Ivy Leaved**. Beautiful, dark-green, ivy-like foliage, furnishing an effective setting for the lovely, large, brilliantly colored flowers. Fine for bedding. Mixed colors. Pkt., 5c; oz., 15c; ¼ lb., 50c.

2224—**Tall, Ivy-Leaved**. Similar to the above except in height. Grows 6 to 10 feet tall. Pkt., 5c; oz., 15c; ¼ lb., 50c.

2222—**Dwarf, Variegated-Leaved**. These comparatively new varieties are robust and thrifty in growth, and produce freely their immense flowers in various colors. The foliage is ornamental and even when out of flower, the plant is attractive. Fine bedders. Mixed colors. Pkt., 5c; oz., 15c; ¼ lb., 50c.

My Nasturtiums last year were gorgeous and were indeed perpetual bloomers.—Mrs. Archie Lorimer, R. D. 1, Stoughton, Wisc.

SALZER'S FROST PROOF PANSIES

Pansies HHB

(Heartsease)

Salzer's Frost Proof Pansies are what their name implies; they successfully winter through the severe climate of this north country and will bloom long after frost. For a number of years Frost Proof Pansies at our Cliffwood Farm have delightfully surprised us with the number of beautiful blossoms we pick during the cold months.

The flowers themselves are very large, often measuring 3 inches across, and are produced in a beautiful variance of colors from deepest black to snow white. Mrs. J. W. Webb, R. D. 1, Box 301, Roanoke, Va., writes, "One packet of seed gave me a lovely bed of Pansies. They were in bloom January 23rd." Miss Rhoda Cole, Okemah, Okla., writes, "I picked Pansies December 24th, and they were lovely."

We are able to give you varieties in straight colors as listed, or straight blended Cliffwood mixture in which all colors, bronze, blue, mahogany, yellow, mauve, black, etc., are represented. Have pansies after all other flowers are killed by frost.

SALZER'S FROST PROOF PANSIES

- 2295—**Snowdrift**. Snowy white. Beautiful.
 2296—**Northern Lights**. A combination of all the pansy colors; attractively shaded and blotched.
 2297—**Alaska**. Red, pink and wine colored shadings.
 2298—**Iceland**. A rich dark blue. Stunning.
 2299—**Yukon**. Mahogany, bronze, red, blue and gold.
 2299—**Northern Star**. An enchanting shade of deep yellow.
 2279—**North Pole**. Luxurious deep purple and other art shades, blotched lighter shades.

Any of above varieties: Per pkt., 150 seeds, 25c; 4 pkts., 85c; ¼ oz., \$1.25. One pkt. each of above, 7 separate colors for \$1.25.

2312—**Cliffwood Mixed**. Contains all of the above seven colors carefully mixed. A beautiful array of colors and shadings. Pkt., 35c; ¼ oz., \$1.45.

TWO NEW PANSIES

2281—**Cliffwood Triumph**. The flowers are of the Giant Flowering type, being of uniformly large size and somewhat frilled at the edges. The color is a deep orange in the center, shading to a lighter orange on the outside with no spots or marks of any kind. Very easy to grow. Pkt., 125 seeds, 20c; ¼ oz., 50c; ½ oz., 90c.

2280—**Orchid Flowering Pansies**. A distinct new type, with petals beautifully ruffled and waved. We can only furnish it this year in mixed colors, but the colors are many and varied. A true orchid flowering Pansy that is unsurpassable for the shapeliness and grace of the flowers. Pkt., 125 seeds, 15c; ¼ oz., 40c; ½ oz., 70c.

PANSIES IN MIXTURE

2311—**Triumph of the Giant**. The flowers are of enormous size and rounded form. Petals have undulated curled borders, are very broad and overlapping, making the flower appear almost double. Extremely rich and brilliant shades. Pkt., 20c; 2 pkts., 35c; ¼ oz., 40c; ½ oz., 70c.

2310—**Masterpiece** (Ruffled or Frilled Pansy). A remarkable type, the petals of the rich, velvety flowers being conspicuously curled or waved. Colors are mainly the

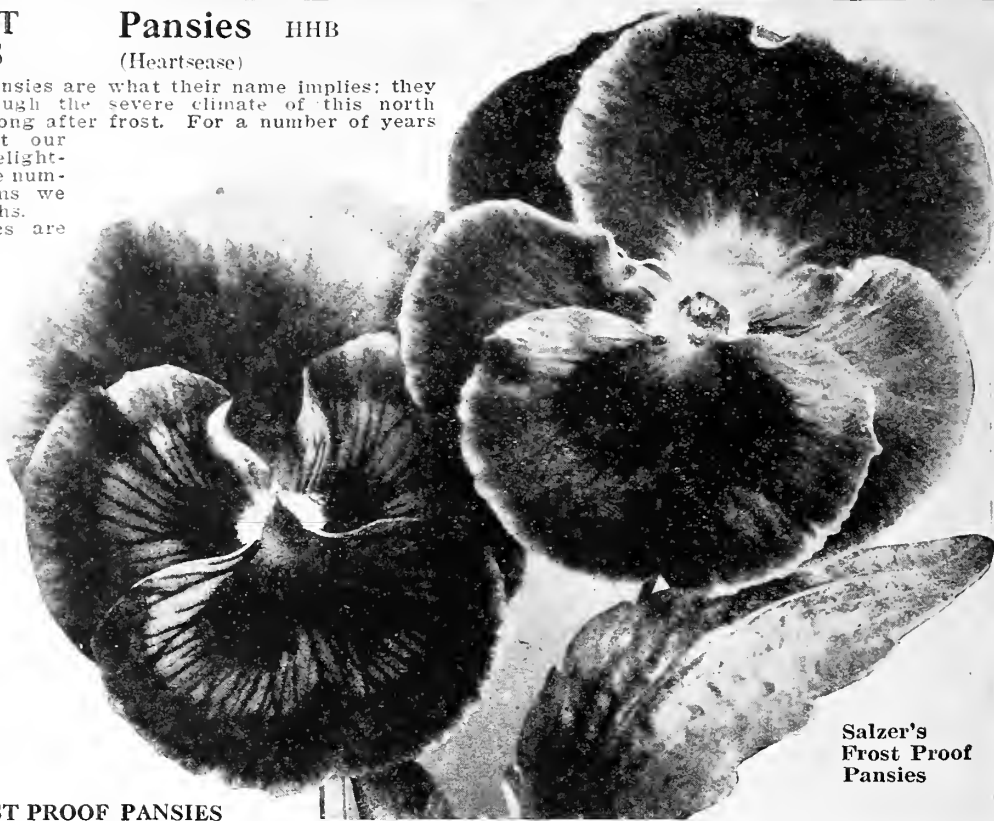

SOW SALZER'S SEEDS

Your Frost Proof Pansies were the most wonderful pansies I have ever grown or seen around this vicinity. So distinct, so extra large, such glorious coloring. They withstood bad droughts and very heavy frosts.

Mrs. Daniel Davis, R. D. 1, Gales Ferry, Conn.

Your Frost Proof Pansy Seed grew nicely and bloomed wonderfully. In spite of the very hard winter, the plants are all green and just about ready to bloom.

Mrs. Alex Graber, Apple Creek, Ohio.

Salzer's
Frost Proof
Pansies

luxuriant, dark, velvety tones. Price of Masterpiece: Pkt., 25c; 2 pkts., 40c; ¼ oz., 45c; ½ oz., 75c.

SALZER'S MASTODON PANSIES

This is a highly developed strain of immense flowers, frequently measuring 3 inches and more in diameter, covering a wide range in gorgeous shades and colors.

- 2300—**Prince Henry**. Dark blue. Beautiful.
 2306—**Parisian**. Beautiful yellow.
 2301—**Grand Duke Michel**. White as snow.
 2302—**Madam Perrett**. Shaded wine, pink and red.
 2304—**Jupiter**. Red, bronze, mahogany, blue, black and gold. These shades and blotches are striking.
 2307—**Bronze**. All the different shades from burnished brass to gold.

Any of above, per pkt., 150 seeds, 20c; 3 for 50c; ¼ oz., 60c; ½ oz., \$1.00.

2293—**Volcano**. Purple bronze. Pkt., 25c; ¼ oz., 85c.

2276—**Finest Mixture**. All of above colors mixed. Pkt., 150 seeds, 20c; 3 for 50c; ¼ oz., 50c; ½ oz., 90c.

AMERICAN BEDDING VARIETIES

On account of their very free blooming habit, compact growth, wide range of colors, exceptional hardiness and vigorous growth, they are highly prized for mass and bedding purposes. We specialize in Pansy seed and regardless of price, we do not believe superior quality can be purchased anywhere else. Our seed is all Cliffwood Tested.

	Pkt.	1/8 oz.		Pkt.	1/8 oz.
2264—Black	10c 45c	2268—Purple	10c 35c
2265—Brown	8c 32c	2269—Red	7c 30c
2266—Dark Blue	10c 35c	2270—White	7c 30c
2267—Light Blue	8c 32c	2271—Yellow	7c 30c

1583—One pkt. each of the above eight colors for 45c.
 2272—**American Bedding, Mixed**. All colors. Pkt., 200 seeds, 7c; ¼ oz., 25c; ½ oz., 40c.

2275—**Good Mixed**. Flowers are frequently three inches across. Perfect beauties of most exquisite colors. Pkt., 200 seeds, 5c; ¼ oz., 15c; ½ oz., 25c.

Culture of Pansies. The seed germinates better, and the plants grow more freely, in cool weather. Good results may be had from sowing the seed in April in a light, cool, but well-moistened soil, enriched with well rotted manure, or fine ground bone. Sow in drills, covering four times the diameter of the seeds, firming well. Seed will germinate in about two weeks and should not be allowed to dry out. A small covering of newspapers will hasten germination. When plants are large enough to handle, thin to 10 inches apart. Do not plant Pansies in the shade of trees or buildings. During dry weather, water daily.

I got about 200 plants from your Frost Proof Pansy seed, and picked 800 blossoms every other day for 6 weeks.—
 Mrs. F. Benbon, 1102 Walker St., Jackson, Mich.

PETUNIA HA

Few flowers excel Petunias in brilliant and gorgeous display, especially for porch or window boxes. They commence flowering very early, and continue their riotous production of bloom throughout the whole season, until killed by frost. Easily cultivated, requiring only a good soil and a sunny position. It is best to sow them indoors and transplant to the open in May, although the seed may be sown directly out of doors in May. 1 to 1½ feet.

CLIFFWOOD BALCONY SORTS

This type has become very popular within the last few years. They are unusually free-blooming, trailing in growth, with immense single flowers averaging three inches in diameter, and are particularly suited for hanging baskets, porch or window boxes, also very showy in beds.

- 2330—**White.** Beautiful snow-white.
 2331—**Rose.** Very brilliant rose-pink.
 2332—**Blue.** Rich, velvety indigo blue.
 2333—**Purple.** A gorgeous purple, striped white.
 2334—**Mixed.** Above colors, and others, mixed.
 Any of above: Pkt., 15c; 3 pkts., 40c; ½ oz., \$1.00. One Pkt. each of above 4 colors for 50c; ½ oz. each, \$3.50.
 2335—**Cliffwood Balcony Mixed.** Our own savings from the finest flowers; of very large size and beautiful shape, varied and brilliant colors. Pkt., 20c; 3 for 50c; ½ oz., \$1.50.

SOW SALZER'S SEEDS

We have been customers of yours for 36 years, and have always been well satisfied. Holy Rosary Mission, A. C. Riester, Supt., Pine Ridge, S. D.

Salzer's Mixed Balcony Petunias

GIANT-FLOWERED PETUNIAS

Vigorous growers, semi-trailing in habit, with flowers that frequently measure four inches in diameter. Gorgeous flowers for both window boxes, etc., and beds.

- 2339—**Giants of California.** Flowers very large, single, in many beautiful light shades, mostly in blotches and pencil markings of a different color in the throat. Pkt., 20c; 2 pkts., 35c; ½ oz., \$1.00; ½ oz., \$1.90.

2340—**Ruffled Giants.** A distinctive type of recent development. Flowers of extraordinary size and substance, deeply ruffled and elegantly fluted. Extra choice. Pkt., 25c; 2 pkts., 45c; ½ oz., \$1.00; ½ oz., \$1.90.

2341—**Fluffy Ruffles.** A new, most beautiful and rare type of Petunia. The immense single blooms, in a grand mixture of gorgeous colors, are handsomely ruffled, fluted and fringed, of good substance, and each flower is a superb, crinkly mass of bloom. Unusually effective. Pkt., 25c; 3 pkts., 70c; ½ oz., \$3.00; ½ oz., \$5.50.

One Pkt. each of the above 3 types for 60c.

SOW SALZER'S SEEDS

The Petunias I ordered from you are beautiful,—in fact, I have never seen such large, rich blossoms.

Miss Jennie C. Johnson, Pellston, Mich.

Petunia—
Fluffy
Ruffles

SINGLE BEDDING PETUNIAS

These make good-sized, bushy plants about 10 inches high, covered with showy flowers all summer long. Wonderfully effective in beds, borders, etc.

- 2325—**Howard's Star.** Rosy-crimson with a clearly defined five-pointed star of bluish-white. Elegant. Pkt., 10c; ½ oz., 20c; ½ oz., 35c; ¼ oz., 60c.

2327—**Rosy Morn.** Soft rose-pink with white throat. Charming and very dainty. A window box planted to nothing but Rosy Morn Petunias is strikingly effective. Pkt., 10c; ½ oz., 25c; ½ oz., 45c; ¼ oz., 80c.

2329—**Violacea.** A superb new strain, very free-flowering. The blooms are a beautiful deep violet in color and are unusually large. Pkt., 15c; 2 pkts., 25c; ½ oz., 30c; ½ oz., 50c; ¼ oz., 85c.

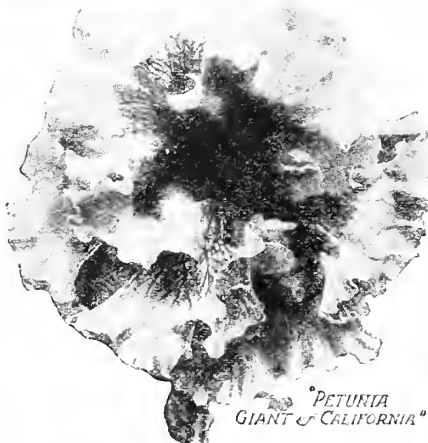

2323—**Dwarf Mixed.** Compact, bushy plants, about 6 inches high, covered with showy flowers. Pkt., 7c; ½ oz., 15c; ½ oz., 25c.

DOUBLE PETUNIAS

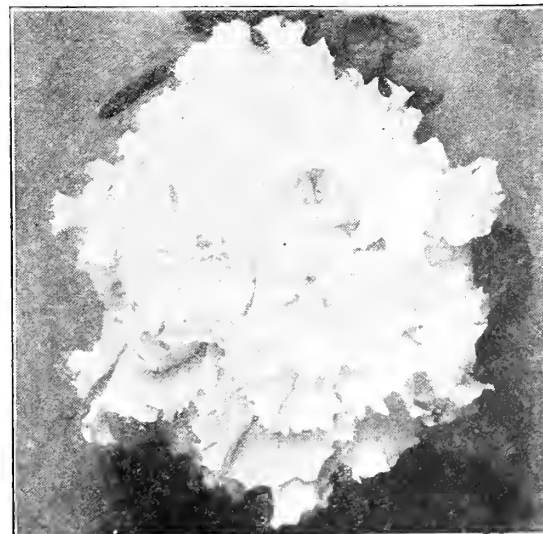

The seed of the double-flowering Petunias is obtained by hand-hybridizing; 50 to 70 per cent will be the big double, fluffy flowers. In growing them from seed, the weaker seedlings should receive the most attention as they usually produce the finest double flowers.

2338—**Salzer's Double Fringed.** Saved from our own unrivalled collection; will produce a large percentage of double flowers of the largest fringed varieties in bright colors. Pkt., 25c; 2 pkts., 45c; ½ oz., \$4.00; ½ oz., \$7.50; ½ oz., \$14.00.

My Double Petunias, your seed, are just beautiful. People can't believe I grew them from seed.—Mrs. G. Reiser, 1159—24th St., Milwaukee, Wis.

"PETUNIA
GIANT OF CALIFORNIA"

Salzer's Double Fringed Petunia

Scarlet Phlox. Tall,
Large-Flowering

PHLOX DECUSSATA HP

Very hardy everywhere, lasting for years when once established on good soil, and blooming from July till September. Sow seed during the summer or fall months. 3 feet.

2351—**Finest Mixed.** Saved from the largest and best varieties. Seed germinates slowly and irregularly over a period of six months or more. Pkt., 15c; $\frac{1}{8}$ oz., 50c; $\frac{1}{4}$ oz., 90c.

Platycodon or Chinese Bellflower

2372—**PLATYCODON, Mixed** (Chinese Bellflower). HP. Balloon-like buds, followed by broad, charming, bell-shaped flowers in deep blue and white, mixed. $1\frac{1}{2}$ feet. Blooms from spring till fall. Easily raised from seed, which begins to flower in August, if sown outdoors in April. Pkt., 15c; $\frac{1}{8}$ oz., \$1.00; $\frac{1}{4}$ oz., \$1.75.

PORTULACA (Moss Rose). HA. Ideal bedding flower for light dry soils, blooming profusely in the hottest weather and hottest situations, where other plants would die. 6 inches. The seed should be sown where the flowers are wanted and the plants thinned out to stand 10 inches apart. Height, 6 inches.

2402—**Parana.** Immense single blossoms, often 3 inches across, of bright ruby-red color. Free blooming. Pkt., 10c; $\frac{1}{8}$ oz., 35c; $\frac{1}{4}$ oz., 60c.

2401—**Single, Mixed.** All colors, single flowers. Pkt., 5c; $\frac{1}{8}$ oz., 15c; $\frac{1}{4}$ oz., 25c.

2400—**Double Mixed.** A large percentage of the flowers will come double, all colors. Pkt., 10c; $\frac{1}{8}$ oz., 60c; $\frac{1}{4}$ oz., \$1.00.

PHLOX (Flame Flower)

A very beautiful and useful genus. They will grow and thrive in any kind of soil if given a sunny position, but they prefer a light, rich loam. Seed may be sown in the open ground any time when danger from frost is past, and in a few weeks they are a sheet of bloom, remaining so till frost. All faded trusses of flowers should be removed to get continuous bloom.

SALZER'S TALL, LARGE-FLOWERING SORTS HHA

Improved, large-flowering, tall varieties, producing showy trusses of big, round florets. Sow outdoors in April or May, or start indoors for earlier flowers. Thin plants to 10 inches apart. Height, 15 inches.

2344—**Scarlet** 2347—**Snow White**
2345—**Rose** 2348—**Violet**
2346—**Shell Pink** 2349—**Yellow**
Any pkt., 10c; $\frac{1}{8}$ oz., 30c; $\frac{1}{4}$ oz., 50c.
One pkt. each of above, 6 for 50c.

2350—**Finest Mixed.** Pkt., 8c; $\frac{1}{8}$ oz., 25c; $\frac{1}{4}$ oz., 40c.

2360—**Double Flowering, Mixed.** Very choice and rare double and semi-double flowers. Pkt., 15c; $\frac{1}{8}$ oz., 65c.

2363—**Starred and Fringed.** Mixed colors, deeply fringed and pointed petals. Pkt., 10c; $\frac{1}{8}$ oz., 30c.

SALZER'S

DWARF PHLOX DRUMMONDI HHA

Average 6 inches in height. Excellent for edging and low borders; compact in growth. Immense heads of flowers.

2361—**Fireball.** Brilliant scarlet. Pkt., 10c; $\frac{1}{8}$ oz., 50c; $\frac{1}{4}$ oz., 90c.

2359—**Dwarf Mixed.** A choice mixture. Pkt., 10c; $\frac{1}{8}$ oz., 50c; $\frac{1}{4}$ oz., 90c.

2358—**Dwarf Cecily.** A strain which produces extra-large trusses of flowers, mostly in the lighter colors. Mixed. Pkt., 15c; $\frac{1}{8}$ oz., 65c; $\frac{1}{4}$ oz., \$1.20.

Starred and Fringed Phlox

Also called Moss
Rose. Ideal for
very hot, dry
situations.

Double Portu-
laca or Moss
Rose

We have used your seeds for 29 years and have always been well pleased with them.—Fred W. Redies, R. D. 2, Colome, S. D.

SALZER'S NORTHERN GROWN POPPIES HA

Annual Poppies should be sown as early in the spring as possible where they are to remain, as they do not stand transplanting. Sow very thinly, preferably in cloudy weather or after a shower, barely cover the seed, press down firmly and they will come up in a few days. If they come up too thickly, thin out to 3 or 4 inches apart for best results. The flowers will last several days in water, if picked just before expanding. Pick the old flowers as soon as fallen, to lengthen the blooming season.

TALL, DOUBLE, CARNATION-FLOWERED

A new race of Poppies which we are introducing. Splendid, very double, and elegantly fringed flowers, resembling very much the Carnation. The beautifully formed flowers are large in size and globular shaped. 2 feet high.

- 2387—American Flag. White, bordered with scarlet.
 2388—Salmon Pink. An exquisite shade.
 2389—Plum Violet. Rich, reddish violet.
 2390—Currant Red. Deep, glowing red.
 2391—Mixed. All colors mixed. Any Pkt., 10c; ¼ oz., 25c; ½ oz., 40c. One Pkt. each of above 4 colors, for 35c.

DOUBLE, PEONY-FLOWERED

Large and massive, showy, very double flowers, resembling a double Peony. The robust plants grow about 2 feet high and carry on stout stems the immense blooms frequently 3 to 4 inches in diameter.

- 2377—Pansy Violet. 2376—White Swan.
 2396—Shrimp Pink. 2378—Black Prince.
 2374—Cardinal Red. 2382—Mixed.
 Any of the above: Pkt., 7c; ¼ oz., 15c; ½ oz., 25c. One Pkt. each of above 5 colors, for 25c; ½ oz. each, for 70c.

SINGLE ANNUAL POPPIES

2379—Salzer's Flanders. Lest we forget, "In Flanders fields the poppies blow." The large, single flowers are of a deep crimson color. 18 inches. Ideal for massing or borders. Pkt., 10c; ¼ oz., 15c; ½ oz., 25c.

2392—Admiral. A single peony-flowered variety, having large, smooth-edged flowers of glistening white, with a broad band of brilliant scarlet around the top. Pkt., 5c; ¼ oz., 12c; ½ oz., 20c.

2393—Charles Darwin. Large, smooth-edged flowers of a striking, rich dark purple, with a velvety black spot at the base of each petal. Pkt., 5c; ¼ oz., 12c; ½ oz., 20c.

2397—Dainty Lady. Immense flowers, 4 to 5 inches across, of a charming shade of rosy mauve, with a large dark metallic blotch at the base of each petal. Pkt., 5c; ¼ oz., 12c; ½ oz., 20c.

2398—Tulip Poppy (Papaver Glaucum). One of the most brilliant poppies. The flowers are 3 inches across and closely resemble the brilliant Scarlet Gesneriana Tulip. 2 feet. Pkt., 10c; ¼ oz., 15c; ½ oz., 30c.

2383—Salzer's Improved Mammoth Shirley. The artistic flowers are mostly single, but occasionally semi-double, and range in color from the purest white through all the delicate tints of pink, rose and carmine to the deepest crimson and blood-red. So varied are they that scarcely two flowers are alike. Mixed. Pkt., 10c; ¼ oz., 15c; ½ oz., 25c; oz., 75c.

2384—Finest Mixed. Single and double varieties of brilliant colors. Pkt., 5c; ¼ oz., 10c; ½ oz., 15c; oz., 50c.

ORIENTAL POPPY

Double Peony-Flowered Poppy—Pansy Violet

PERENNIAL POPPIES

While these are hardy perennials, they flower the first year from seed, blooming almost as quickly as

Salzer's Flanders Poppies

the annual sorts. They are of graceful, neat habit with fernlike foliage, formed in tufts, from which issue slender stalks 12 inches high, bearing their brilliant flowers in endless profusion. Desirable for cutting, for which purpose pick when in bud. The plants remain ever-green throughout the winter, blooming early the following spring.

2394—Iceland Poppy (Papaver Nudicaule). HP. The latest development in this lovely species, immense flowers ranging in color from sulphur-yellow to rose and crimson. Gorgeous. Pkt., 10c; ¼ oz., 35c; ½ oz., 60c.

2395—Oriental Poppy. 2½ feet. HP. The showy flowers of pink to deepest red are often 6 inches across. This is the flaming "Decoration Day" poppy. Sow early in spring. The plants disappear during July and August, appearing again as soon as the weather gets cool. Pkt., 10c; ¼ oz., 30c; ½ oz., 50c.

PRIMULA (Primrose) G

Among the finest and most important winter blooming pot plants, easily grown. Seed sown in March or April will bloom in winter; start in August for spring blooming. Sow in shallow pans, using good porous loam (do not sow in peat or leaf mould). Keep temperature as near 60° as possible, repotting frequently, increasing the richness of the soil with each transfer.

2407—Chinese Primrose (Primula Sinensis). Unequaled for the house or conservatory. Seed saved from the finest fringed free-flowering plants, mixed colors. Pkt., 25c; 2 pkts., 45c; ½ oz., \$1.00; ¾ oz., \$1.75.

2411—Obconica Grandiflora. Large flowers and very free-blooming. Mixed colors. A splendid house plant. Pkt., 20c; 2 pkts., 35c; ½ oz., 60c; ¾ oz., \$1.00.

2410—Malacoides (Baby Primrose). Large flowers in profusion on long stems; lavender-pink. Fine for pot plants. Pkt., 20c; 2 pkts., 35c; ½ oz., 90c; ¾ oz., \$1.50. One Pkt. each of above 3, for 55c.

HALF-HARDY PRIMROSES

Useful for rockeries and borders, as well as for pot culture, but must be protected over winter.

2406—Auricula (Primula Auricula). Beautiful low-growing, early spring-flowering plants, fine for borders, pot culture, etc. The fragrant flowers of many rich colors, each marked with a distinct eye, are borne in clusters on the top of stems 5 to 6 inches long. Our seed saved from choice mixed varieties. Pkt., 20c; ½ oz., 75c; ¾ oz., \$1.25.

2409—Japonica (Japanese Primrose). Fine for shady locations; mixed colors. 1½ feet. Pkt., 10c; ¼ oz., 35c; ½ oz., 60c.

2413—Vulgaris (English Primrose). Sweet-scented, canary yellow flowers in early spring, 6 inches. Pkt., 20c; 2 pkts., 35c; ½ oz., 45c; ¾ oz., 70c. One pkt. each of above 3, for 40c.

I was delighted with the Dwarf Phlox. I never knew they came in such beautiful colors.—Mrs. John W. Barrett, Spring St., R. D. 3, Seymour, Conn.

PYRETHRUM HP

2425—Hybridum, Single Mixed. Bears quite large daisy-like flowers ranging in color from white to deep red, with bright yellow centers. Very hardy, blooms profusely. Pkt., 10c; $\frac{1}{16}$ oz., 20c; $\frac{1}{8}$ oz., 35c.

2424 — Hybridum Grandiflorum. Produces the largest and most brilliant flowers of all the Pyrethrum, mixed colors. Very showy and very hardy. Pkt., 15c; $\frac{1}{16}$ oz., 60c; $\frac{1}{8}$ oz., \$1.00.

2426—RUBBECKIA (Golden Glow). HP. The large flowers have rich yellow petals surrounding a large purplish-black cone. Also known as the Cone Flower. 6 feet. Free-blooming. Pkt., 10c; $\frac{1}{8}$ oz., 25c; $\frac{1}{4}$ oz., 40c.

RICINUS

Castor-Oil Plant. HHA. Unsurpassed for sub-tropical effects. Fine for lawns or centers of beds. For quickest results, start seed in pots.

2430—Zanzibariensis. A distinct sort, presenting a splendid aspect with its gigantic leaves. The different varieties in this mixture have light and dark green leaves, and some of coppery bronze. Pkt., 5c; $\frac{1}{4}$ oz., 10c; $\frac{1}{2}$ oz., 18c; oz., 30c.

2431—Mixed. All sorts. Pkt., 5c; $\frac{1}{4}$ oz., 8c; $\frac{1}{2}$ oz., 14c; oz., 25c.

1265—ROSEMARY. HHP. An old favorite aromatic herb, delightfully fragrant flowers, light blue. 2 feet. Should be planted in a warm, dry situation and given a little protection. Pkt., 10c; $\frac{1}{8}$ oz., 15c; $\frac{1}{4}$ oz., 25c.

SALZER'S ORCHID FLOWERING SALPIGLOSSIS HA

Also called Painted Tongue. See illustration below. This beautiful flower has been more or less neglected, for some inexplicable reason, but with this new strain which we are introducing we expect it to again come into its own. Few flowers contribute such a wealth of bloom from summer until cut down by frost. 2 $\frac{1}{2}$ feet.

The flowers are funnel-shaped, facing upward, and reveal exquisite and infinitely wrought veinings of either gold or silver, running throughout the groundwork of the flowers, the whole shapely flower having an orchid-like appearance. In this grand new type that we have perfected the elegant flowers reach the highest degree of perfection and size, the stems are 24 to 30 inches long, and heavy, making it invaluable for cutting. And, this new type is very easy to grow. Blooms freely. Seed may be started indoors or in a hotbed about the end of March, or sown outdoors when danger from frost is past. The plants should not be set closer than 12 inches apart.

2444—Purple and Gold	2448—Rose and Gold
2445—Light Blue and Gold	2449—Violet and Gold
2446—Scarlet and Gold	2473—White and Gold
2447—Brown and Gold	2435—Mixed.

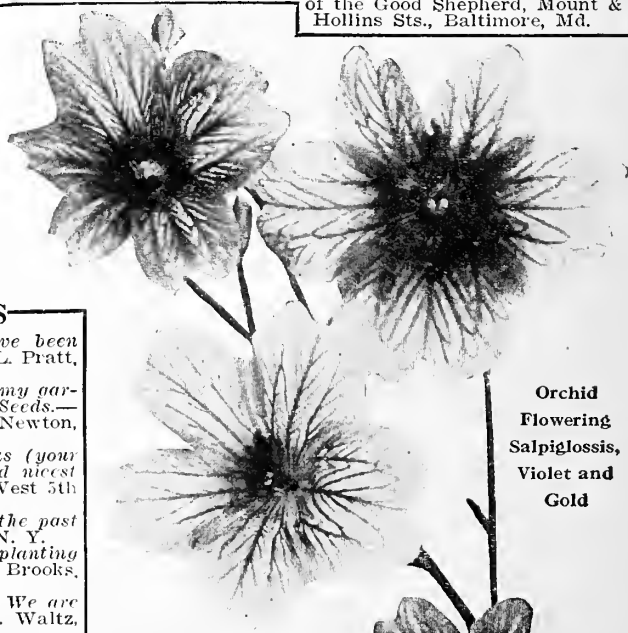

Any of the above, 200 seeds, 10c per packet; $\frac{1}{8}$ oz., 35c; $\frac{1}{4}$ oz., 60c. One packet each of the above 7 named colors for 60c; $\frac{1}{8}$ oz. each of the above 7 for \$1.95.

2434—Emperor. Flowers not quite so large, mixed colors, but also beautifully veined with gold. A fine type. Pkt., 200 seeds, 8c; $\frac{1}{8}$ oz., 30c; $\frac{1}{4}$ oz., 50c.

SOW SALZER'S SEEDS

Your Orchid Sweet Peas are the most gorgeous I have seen this year. All of my friends that grow flowers at all are very much interested in them.—Mrs. Eugene A. Hollis, 524 W. Shawnee, Nowata, Okla.

We were delighted with your Gladioli last spring.—Sisters of the Good Shepherd, Mount & Hollins Sts., Baltimore, Md.

Orchid
Flowering
Salpiglossis,
Violet and
Gold

Ricinus, Zanzibariensis

2477—SCARLET RUNNER BEAN. HA. Well known, annual, rapid climbers, bearing ornamental flowers and foliage, and long edible pods. Very desirable for trellises, poles, fences, etc. Pkt., 10c; $\frac{1}{8}$ oz., 15c; $\frac{1}{4}$ oz., 25c.

2460—SMILAX. TP. This graceful and popular vine of the florists is readily grown from seed, and will attain a height of 6 to 12 feet. Should have a rich soil. Most suitable for conservatory. Pkt., 10c; $\frac{1}{8}$ oz., 20c; $\frac{1}{4}$ oz., 35c.

2461—SOLANUM (Jerusalem Cherry). TA. A very useful pot plant for winter decoration; leaves small and bearing in great profusion, bright scarlet globular berries. 1 foot. Pkt., 10c; $\frac{1}{8}$ oz., 15c; $\frac{1}{4}$ oz., 25c.

2533—THUNBERGIA (Black-Eyed Susan). HHA. A slender trailing annual which will grow in the poorest soil and blooms under the most trying conditions. Flowers are produced in the greatest profusion; white, cream and yellow, mixed, many with black centers. Excellent for window boxes. 4 feet. Pkt., 10c; $\frac{1}{8}$ oz., 25c; $\frac{1}{4}$ oz., 40c.

Thunbergia

SOW SALZER'S SEEDS

Your beautiful Peony Poppies have been greatly admired by everyone.—Viola L. Pratt, Jackson, Wyo.

I have had wonderful success with my garden, since I began using Salzer's Seeds.—Mrs. Wm. F. Belcher, 122 Goble St., Newton, Ills.

Everyone that sees my Sweet Peas (your seed), says they are the largest and nicest they ever saw.—A. G. Sherry, 1410 West 5th St., Anderson, Ind.

I have bought seeds from you for the past 35 years.—F. J. Hannum, Mayville, N. Y.

I had a lovely garden last year by planting only your seeds.—Mrs. Elijah Barrow, Brooks, Minn.

The shrubs we ordered look fine. We are well pleased with them.—Mrs. R. M. Waltz, 2698 Pasadena, Detroit, Mich.

All of your seeds have always been most satisfactory.—G. H. Moeching, 715 N. High St., Lake City, Minn.

New Salvia, Harbinger

SALVIA (Flowering Sage) HHA

Very satisfactory bedding plants, bearing long spikes of flowers in great profusion from July to frost. Start indoors in March, or sow in the open ground in May.

2437—**Salzer's Salvia, Harbinger.** A splendid Salvia from England, which we introduced in 1927. It is a handsome, large flowering sort, freely producing until frost, tall spikes of vivid scarlet flowers and bracts, which are effectively displayed against the deep green foliage. A bed of this flower is exceedingly beautiful. 2 feet. Pkt., 18c; $\frac{1}{4}$ oz., 50c; $\frac{1}{2}$ oz., 85c.

2438—**Bonfire.** The erect spikes of brilliant scarlet flowers stand clear above the dark green foliage and completely cover the plant.

One of the finest types. 2 feet. Pkt., 10c; $\frac{1}{8}$ oz., 25c; $\frac{1}{4}$ oz., 40c.

2439—**Fireball.** Very early, freest and most continuous bloomer of all Salvia. Very uniform in growth, and is literally ablaze with scarlet flowers. 18 inches. Pkt., 15c; $\frac{1}{8}$ oz., 70c; $\frac{1}{4}$ oz., \$1.25.

2442—**Splendens** (Scarlet Sage). Beautiful bright scarlet. 3 feet. Pkt., 10c; $\frac{1}{8}$ oz., 30c; $\frac{1}{4}$ oz., 50c.

2443—**Zurich.** The earliest sort, blooms 10 days in advance of any other. Brilliant scarlet. 20 inches. Pkt., 10c; $\frac{1}{8}$ oz., 60c; $\frac{1}{4}$ oz., 95c.

2441—**Patens** (Blue Sage). HHP. Rich and lovely azure blue. Splendid plant for the border. 2 feet. Protect over winter. Pkt., 20c; 2 pkts., 35c; $\frac{1}{16}$ oz., 50c; $\frac{1}{8}$ oz., 90c.

SCABIOSA HA

Also known as Pin-Cushion, Mourning Bride and Sweet Scabiosa. These ever-beautiful, hardy annuals grow about 2½ feet high, and bloom from July on, until cut down by frost. They are very easily grown and are highly desirable for cutting as well as for beds and borders. The great abundance and long succession of richly colored, fragrant blossoms on long stems, make it one of the most useful decorative plants of the garden.

Flower heads are about two inches across, the florets are double and surround the thimble-shaped cone, giving it a fancied resemblance to a pin-cushion. We have been carefully developing and improving the tall, double, large-flowering varieties below, at our great Cliffwood Farms, and for size of flower, length of stem, brilliance of coloring and ease of growth, our seed cannot be surpassed.

New Scabiosa, Peach Blossom

SOW SALZER'S SEEDS.

I have had more flowers and pleasure from your Frost Proof Pansy seed than I can tell you. I gave away Pansies, until the ground froze, and early this spring, when I uncovered them, they were budding.—Mrs. Fred Valentine, 1409 S. Shabbona St., Streator, Ills.

Two New Scabiosa HA

2458—**Shasta.** A pure white flower of truly enormous size for a Scabiosa. The flowers are double and measure three to three and one-half inches across, are perfectly formed, and are borne on stout and extremely long stems, making them invaluable as cut flowers. A bouquet of these pure white flowers is indeed charming and remains in good condition for a very long period. Easily grown. Pkt., 15c; $\frac{1}{4}$ oz., 45c; $\frac{1}{2}$ oz., 80c.

2459—**Peach Blossom.** Rivals the Shasta above, in size; one of the largest Scabiosa ever produced. The large and perfect, very double blooms are borne on long, stiff stems, hence are splendidly suited for cutting. The beautiful, peach-blossom pink flowers attracted much favorable comment from all who saw it at Cliffwood Farms, and all agreed that it is one of the finest colors they had ever seen in Scabiosa. Pkt., 13c; $\frac{1}{4}$ oz., 40c; $\frac{1}{2}$ oz., 70c. One packet each of above two new varieties, for 25c.

Perennial Scabiosa HP

2450—**Caucasica.** A perennial Scabiosa, coming up each year. Two to three feet high, thriving everywhere. Lovely white and pleasing lilac-blue flowers, mixed. Pkt., 15c; $\frac{1}{16}$ oz., 40c; $\frac{1}{8}$ oz., 70c; $\frac{1}{4}$ oz., \$1.25.

Salzer's
Scabiosa
Azure
Fairy

I am very much pleased with your Frost Proof Pansy Seed. The Pansy Bed is a mass of blossoms.—Philip E. Dunshee, R. D. 1, Groton, Conn.

STOCKS (Gilliflower) HHA

Very popular flowers, easily grown, and are so highly fragrant and of such great beauty that they deserve a place in every garden in the country. They are considered almost indispensable where a fine display of flowers is wanted and are particularly valued for edgings, bedding and pot-culture. The improved varieties we offer produce dense spikes of very fragrant and beautiful rosette-like double flowers in a wide range of attractive colors, grow about twenty inches high. Sow outdoors early in spring, using well-fertilized, carefully pulverized soil, covering with $\frac{1}{4}$ inch of fine soil, firmly pressed down. Thin to 6 inches apart in rows 15 inches apart. For earlier blooming, start indoors and transplant.

LARGE-FLOWERING TEN WEEKS. Particularly suited for beds and borders. Plants are pyramidal in growth, about 16 inches high, very free blooming, and produce a high percentage of double flowers.

2466—Blood Red 2469—Dark Blue
2467—Canary Yellow 2470—Light Blue
2468—Crimson 2471—White

Any of above: Per Pkt., 10c; $\frac{1}{8}$ oz., 50c; $\frac{1}{4}$ oz., 90c.
One pkt. each of above 6 colors for 50c.

2472—Mixed. All colors. Pkt., 10c; $\frac{1}{8}$ oz., 30c; $\frac{1}{4}$ oz., 40c.
CUT-AND-COME-AGAIN STOCKS. Excellent for cutting, producing an abundance of big fragrant trusses; perpetual bloomers. 12 feet.

2482—Princess Alice. White. Pkt., 10c; $\frac{1}{8}$ oz., 60c.
2484—Sapphire. Blue. Pkt., 15c; $\frac{1}{8}$ oz., 60c; $\frac{1}{4}$ oz., \$1.10.

2485—Sunburst. Yellow. Pkt., 10c; $\frac{1}{8}$ oz., 35c; $\frac{1}{4}$ oz., 60c. One Pkt. each of above 3 for 30c.

MAMMOTH FLOWERING BEAUTY STOCKS. A magnificent, comparatively new strain, plants about 2 feet high, bearing very large, double, fragrant flowers. Started in February or March, they produce plants that bloom outdoors from mid-summer till frost. If sown outdoors from June to August the plants may be potted in September and brought indoors for winter flowering.

2481—Crimson King. Crimson.
2483—Queen Alexandria. Rose.
2480—Beauty of Nice. Pink. 2486—Mixed. All colors.
Any of above: Per Pkt., 10c; $\frac{1}{8}$ oz., 35c; $\frac{1}{4}$ oz., 60c.
One pkt. each of above 3 for 25c; $\frac{1}{8}$ oz. each for 90c.

SWEET WILLIAM HP

Popular free-blooming plants producing clusters of brilliantly colored, sweet scented flowers on stout stems. Seed may be sown in early spring, the plants then coming into their best bloom the second season, or it may be sown in August or September for flowering the following spring. Sweet William does best in a fairly rich soil and in a sunny location.

2527—Single Giant Flowered. Immense heads of single flowers in a brilliant mixture of colors. Pkt., 5c; $\frac{1}{8}$ oz., 12c; $\frac{1}{4}$ oz., 20c.

2524—Double Giant Flowered. Beautiful and large umbels of double flowers measuring one inch in diameter. Mixed colors. Pkt., 10c; $\frac{1}{8}$ oz., 20c; $\frac{1}{4}$ oz., 35c.

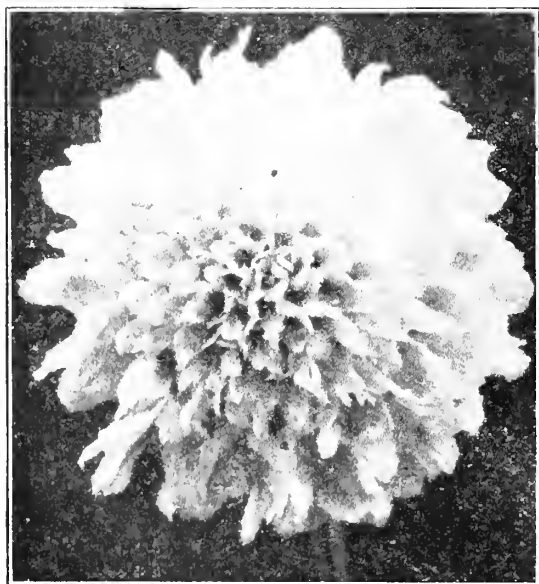

2523—Annual Sweet William. H. The result of a cross between two types. It resembles the perennial

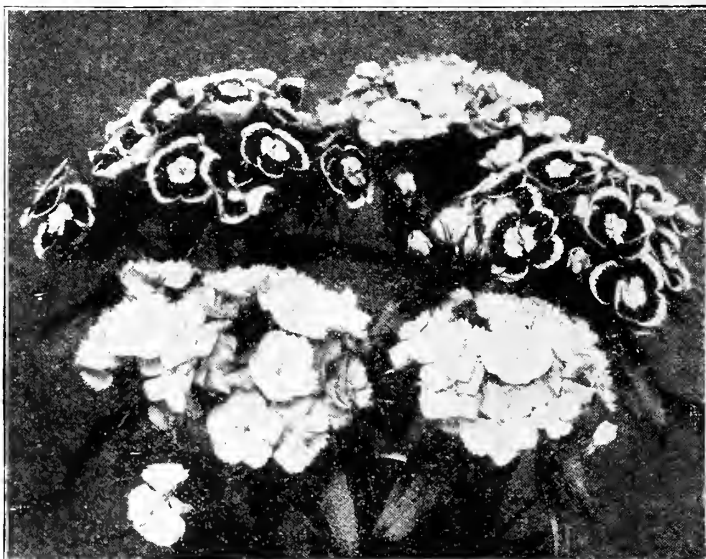

Stocks, Large Flowering, Ten Weeks

Sweet William, but is a true annual, blooming in mid-summer from seed sown early in May. Mixed colors. Pkt., 10c; $\frac{1}{8}$ oz., 25c; $\frac{1}{4}$ oz., 40c.

2566—WILD FLOWER GARDEN MIXTURE. HA. In this mixture we have included the easiest and surest growing kinds that can be sown broadcast, and with little or no care will produce a bright effect in places that might otherwise be covered with weeds. Will furnish many fine flowers for cutting. Pkt., 5c; $\frac{1}{8}$ oz., 10c; $\frac{1}{4}$ oz., 15c; oz., 25c; $\frac{1}{4}$ lb., 85c.

New Scabiosa, Shasta (See Page 59)

Annual Sweet William, Mixed

We have been very pleased with all of the seed we ordered from you.—Mrs. H. J. Wiebe, R. D. 1, Box 41, Sea-trice, Nebr.

Verbena, Auricula Flowered

MISCELLANEOUS VERBENAS

- 2546—**Hybrida, Mixed.** A splendid mixture, flowers very fragrant but not quite so large as our Mammoth sorts. Pkt., 5c; $\frac{1}{4}$ oz., 20c; $\frac{1}{2}$ oz., 35c.
- 2536—**Lucifer.** A new variety of the Mammoth type. The entire large flower is intense, brilliant scarlet, showing up like flame against the deep green foliage. Pkt., 15c; $\frac{1}{4}$ oz., 50c; $\frac{1}{2}$ oz., 80c.
- 2682—**Auricula Flowered, Mixed.** Large, fragrant, florets of many colors, each marked with a distinct white eye. Very pretty. Pkt., 10c; $\frac{1}{4}$ oz., 30c; $\frac{1}{2}$ oz., 50c.
- 2675—**Lemon Verbena, TP.** Every garden should have a few plants of this deliciously fragrant flower. Its pale green, lemon-scented foliage is indispensable for bouquets. Start seed indoors. Pkt., 10c; $\frac{1}{4}$ oz., 60c; $\frac{1}{2}$ oz., \$1.00.

ROYAL BOUQUET, BUSH VERBENA

2683—This superb Verbena forms a plant 15 to 18 inches high and not more than 10 inches across, no lateral branches being thrown out, and what gives this strain its special value is the fact that the flowers will compare in size and variety of color with those of the finest strains of Auricula-eyed Verbena. The corymbs of blooms are borne on long stems and group themselves together at the summit of the plant. One great possibility in connection with this valuable introduction is its suitability for growing in pots, a thing which has hitherto been impracticable. A fuller and more extended use can therefore now be made of the magnificent flowers which the Verbena produces in such abundance. From the seed that we offer, not less than 75% of plants true to type may be confidently expected. Pkt., 20c; 2 pkts., 35c; $\frac{1}{2}$ oz., 30c; $\frac{1}{4}$ oz., 50c; $\frac{1}{2}$ oz., 90c.

TRITOMA, HP. Popularly known as Torch Lilies, Red Hot Poker, and Flame Flower, they are among our showiest hardy plants. Easily grown from seed and flower well the second year. For plants, see plant section.

2528—**Uvaria Grandiflora.** The Red Hot Poker Plant. Immense orange-red flowers on spikes 4 to 5 feet high. Pkt., 15c; $\frac{1}{4}$ oz., 50c; $\frac{1}{2}$ oz., 85c.

2529—**New Hybrids, Mixed.** All colors, shades of lemon and yellow to crimson. Pkt., 20c; $\frac{1}{4}$ oz., 55c; $\frac{1}{2}$ oz., 95c.

SALZER'S MAMMOTH FLOWERING VERBENA HA

Few flowers give greater satisfaction in the garden than these Mammoth Flowering Verbenas. They produce their large, fragrant clusters of blossoms constantly, from midsummer until killing frost, in all kinds of weather and on even the poorest soils. They make splendid window-box plants and are ideal for low beds and borders.

For best and quickest results, the seed should be sown early in the house or the hotbed and transplanted to their flowering quarters in May. Seed may also be sown outdoors in May and when well grown, the seedlings transplanted to 15 inches apart in rows. Verbenas are better grown from seed than from cuttings, being more vigorous and not liable to disease.

2676—**Defiance.** Deep glowing scarlet. Pkt., 10c; $\frac{1}{4}$ oz., 30c; $\frac{1}{2}$ oz., 50c.

2538—**Dark Blue.** Beautiful soft shade. Pkt., 10c; $\frac{1}{4}$ oz., 30c; $\frac{1}{2}$ oz., 50c.

2678—**Mayflower.** Unusually fragrant, very large flowers, mostly in charming shades of pink and rose. Pkt., 12c; $\frac{1}{4}$ oz., 50c; $\frac{1}{2}$ oz., 90c.

2679—**White.** Pure snowy white. Pkt., 10c; $\frac{1}{4}$ oz., 25c; $\frac{1}{2}$ oz., 40c.

2681—**Lutea.** Rich yellow; elegant. Pkt., 10c; $\frac{1}{4}$ oz., 25c; $\frac{1}{2}$ oz., 40c.

2680—**Italian Striped.** Large fragrant flowers, the florets in various colors, striped with fine radiating lines. Pkt., 12c; $\frac{1}{4}$ oz., 30c; $\frac{1}{2}$ oz., 50c.

One packet each of above 6, for 50c; $\frac{1}{4}$ oz., each, for \$1.35.

2544—**Mixed.** All of above, and other colors, mixed. Pkt., 10c; $\frac{1}{4}$ oz., 25c; $\frac{1}{2}$ oz., 40c.

SOW SALZER'S SEEDS

Your Sow. de Claudius Pernet Rose has bloomed three times. The first time it had 3 blooms, second, 9, and now 26, and still full of buds.—Iola Sackett, Bennett, Wis.

Salzer's "Royal Bouquet" Bush Verbena

Explanation of Abbreviations Used in the Descriptions

HARDY ANNUALS, HA. These should be sown outside in April or May, according to season, latitude, and condition of soil, or they may be sown at a somewhat earlier date in a hotbed or greenhouse, the combining of the two methods being advisable, thereby providing for a succession of plantings if both sowings prosper. Seed sown under glass will also produce earlier-blooming plants than seed sown outdoors.

HALF-HARDY ANNUALS, HHA, HALF-HARDY BIENNIALS, HHB, and HALF-HARDY PERENNIALS, HHP. These may be sown indoors, as above directed, from March to May, and outdoors after the middle of May. Many of the Biennials and Perennials will bloom the first season if sown early.

HARDY BIENNIALS, HB, and HARDY PERENNIALS, HP. can be sown outdoors as soon as the soil is in good tillable condition. If sown early indoors, many of them will bloom the first season. Sowings made from July to September will produce well-established plants for the

next season. These should be somewhat protected during the winter. Many seeds of Hardy Biennials and Hardy Perennials are of very slow germination, and seeds of such should not be condemned as bad if a quick germination does not show.

TENDER ANNUALS, TA, TENDER BIENNIALS, TB, and TENDER PERENNIALS, TP, can be sown in March in the greenhouse or in hotbeds in shallow boxes. Transplant to secure sturdy plants, which can then be planted outdoors after danger of frost is over, about May 15.

HHA, HHB, and HHP designate Half-Hardy Annuals, Biennials and Perennials.

HB and HP designate Hardy Biennials and Perennials.

TA and TP designate Tender Annuals and Perennials.

G designates plants generally grown indoors only in pots.

Any species or variety to which no letters are affixed are to be considered as Hardy Annuals.

ALL FLOWER SEEDS ARE SENT POSTPAID

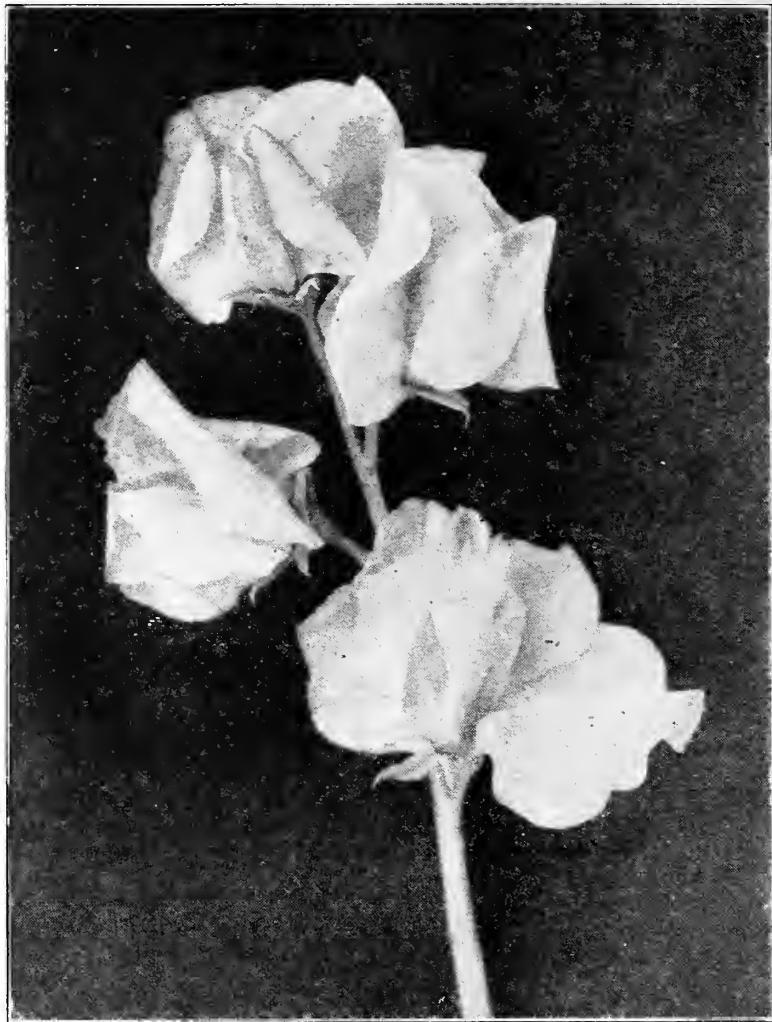

Salzer's New Giant Early Orchid Flowering Sweet Peas HA

For years our specialty in flower seeds has been Sweet Peas, and last year, our 60th Anniversary—our Jubilee Year,—we offered the following, one of the most complete list of varieties ever offered by any seedsmen. You will find in the varieties below, a wide and brilliant array of colors and shades, a list that will delight the specialist and layman alike, and more than that, a list reasonably priced. Years of labor and much money has been expended to get the varieties of this beautiful flower true to type, very early, so that short season sections may enjoy them, and to breed into them immense size and brilliancy of color.

The flowers of Salzer's New Giant Early Orchid Flowering Sweet Peas are of extraordinary size, the largest of all Sweet Peas, they are beautifully waved, and they are usually borne four to a stem. They commence blooming two to three weeks ahead of all others and surpass all others in brilliant coloring. If kept cut, they bloom over an unusually long period. Regardless of price, our Northern Grown Sweet Pea seed cannot be surpassed for size and profusion of bloom. The following superb sorts are the best of their class.

Extra Choice Varieties

Especially Selected for Size and Brilliancy
of Color

- 3450—(1) **Peach Blossom.** A delightful shade of orange pink.
- 2665—(2) **Fire King.** Dazzling, brilliant, orange scarlet.
- 3451—(3) **Loveliness.** Pink, edged white. Very dainty.
- 3452—(4) **True Blue.** Large, charming blue, much in demand.
- 3453—(5) **Early King.** A true crimson, extra large flowers.
- 3454—(6) **Ivory.** A superb ivory, dainty and lovely.
- 3455—(7) **Lavender King.** A luxurious shade of lavender.
- 3456—(8) **Pink Queen.** Enchanting rose-pink, very early.
- 3457—(9) **Maroon Prince.** Deep maroon; an unusual color.
- 3458—(10) **Mauve Beauty.** Rose mauve, very attractive.
- 3459—(11) **White Star.** Best of the whites, large flower.
- 3460—(12) **Flamingo.** Salmon orange, very effective.
- 2632—(13) **Liberty.** Brilliant crimson, large, very early.
- 3461—(14) **Bohemian Girl.** Deep pink, very beautiful.
- 3462—(15) **Harlequin.** Deep chocolate on light background.

Any of above; Per Packet, 15c; 3 pkts. for 38c; 6 for 65c. One packet each of above fifteen varieties for \$1.45.

Other Very Choice Varieties

- 2631—**Heather Bell.** Charming mauve lavender.
- 2633—**Melody.** Enchanting rose pink. Elegant.
- 2634—**Morning Star.** A rich, deep orange-scarlet.
- 2635—**Snowflake.** Pure white, large, beautifully waved.
- 2636—**Song Bird.** Lovely and delicate, pale pink.
- 2637—**Meadow Lark.** Primrose yellow, very choice.
- 2638—**Warbler.** Rich mauve-purple; striking.
- 2639—**Fire Queen.** Fiery red. One of the most popular.
- 2640—**Sunset.** A rich rose shade, blotched golden.
- 2641—**Harmony.** Clear lavender, large flowers.
- 2642—**Aviator.** Dazzling fiery crimson-scarlet.
- 2643—**Hercules.** Mammoth flowers, clear rosy-pink.
- 2644—**Rose Queen.** An elegant shade of soft rose.
- 2645—**Blue Bird.** Violet blue, extra large flowers.

Early Orchid Flowering Sweet Pea, Miss Jane Salzer

- 2646—**Columbia.** Salmon rose, with white wings.
- 2664—**Amethyst.** Brilliant, clear, royal purple.
- 2666—**Glitters.** Glittering deep orange, very large.
- 2667—**Grenadier.** Glowing poppy—scarlet, early.
- 2668—**Miss Jane Salzer.** Beautiful pink suffused with salmon on a deep cream background.
- 3463—**White Orchid.** Largest waved, pure white flower.
- 3464—**Chevalier.** Pure rose, very large flower.
- 3472—**Miss Spokane.** Cerise red with scarlet wings.
- 3473—**Milk Maid.** Blush pink suffused salmon.
- 3474—**Blanche Ferry.** Delightful rose pink, white wings.
- 3475—**Torch.** Salmon orange, very popular.
- 3476—**Mrs. Kerr.** Pure rich salmon, self color.
- 3477—**Mrs. Spanolin.** Lovely pure white.
- 3478—**Enchantress.** Enchanting shade of rose pink.
- 3479—**Apricot Orchid.** Large flowers, buff and pink.
- 3480—**Asta Ohn.** Charming lavender, suffused mauve.
- 3481—**Mrs. A. A. Skach.** Deep pink, very early.
- 3482—**Rosebud.** Bright rose suffused bronze.
- 3483—**Aurora.** White, artistically striped orange red.
- 3484—**Quaker Maid.** Clear lavender, extra early.
- 3485—**Princess.** Delightful lavender, suffused mauve.
- 3489—**Daybreak.** Rich rosepink on cream background.
- 3490—**Mrs. Warren C. Harding.** Beautiful silver blue.
- 3491—**Zvolanek Swan.** Extra large, pure white flowers.
- 3492—**Zvolanek Red.** Very vivid, fiery red.
- 3493—**Zvolanek Edward.** Enormous flowers, rich lavender.
- 3494—**Zvolanek Rose.** Giant rose pink flowers.
- 3495—**Zvolanek Pink.** Beautiful shade of pure pink.

Any of the Sweet Peas listed on this page, per pkt., 15c; 3 pkts. for 38c; 6 for 65c; 12 for \$1.17; any variety, ½ oz., 45c; oz., 75c; ¼ lb., \$2.65. One pkt. each of above 57 varieties, for \$4.68.

For several years now, your New Giant Early Orchid Flowering Sweet Peas have been the admiration of the whole neighborhood.—Hazel F. Miller, 4241 West Pine Blvd., St. Louis, Mo.

**Stimugerm**

For the very best results, Sweet Peas should be inoculated with Stimugerm before planting. Besides giving more and larger flowers, Stimugerm fertilizes the soil. Garden size, 25c, postpaid.

Spencer
Sweet Pea,
Heavenly Blue

SALZER'S GOLDEN JUBILEE MIXTURE

A special mixture of the fifty-seven named varieties listed on Page 102, made up especially for our Sixtieth Anniversary in 1928. Will give you the widest possible range of brilliant colors, enormous flowers beautifully waved, and distinctive blooms. Our biggest bargain this year! The entire mixture is composed of only the Early Orchid Flowering type, so that flowers may be had in short season sections.

2649—Big pkt., 15c; 2 pkts., 25c; oz., 50c; ¼ lb., \$1.25; ½ lb., \$2.25; lb., \$4.00.

SOW SALZER'S SEEDS

My friends admired your beautiful Orchid Sweet Peas and all were anxious to know where I got the seed.

Mrs. J. L. Thomas,
Cor. Reade and Dent Sts., Elkins, W. Va.

Your Orchid Flowering Sweet Peas were wonderful and were greatly admired by all who saw them.

Mr. W. G. Strasser,
2701 Thompson Ave., Ft. Wayne, Ind.

Last year my California Giant Asters and Early Orchid Flowering Sweet Peas were the talk of the town. Will always order from Salzer's hereafter.—Mrs. A. A. Kreger, Toronto, S. D.

SALZER'S SPECIALLY SELECTED SPENCER SWEET PEAS HA

Salzer's Specially Selected Spencer Sweet Peas are second early in season of bloom, following the Early Orchid Flowering type. The large flowers of exquisite shape, borne in threes and fours on long, stout stems are of incomparable magnificence. Mrs. D. R. Reynolds, R. D. 1, Sheldon, Wis., writes, "I never saw such beautiful Sweet Peas as those I grew from your Spencers."

HEAVENLY BLUE (Spencer)

2669—Introduced in 1926. Late flowering. A fine new blue, of a most beautiful soft tone of Delphinium blue. It is a pure self-color that does not show a trace of violet. Flowers of immense size. Pkt., 15c; ¼ oz., 85c; ½ oz., \$1.50.

OTHER CHOICE SPENCER VARIETIES

	Pkt.	Oz.
2606—Cliffwood Improved King Edward. Of the Spencer Sweet Peas, we consider this enlarged and intense crimson beauty one of the grandest and most perfect of them all. The exquisitely waved flowers, often measuring two inches across, are of a deep crimson color with a glossy sheen.	\$0.12	\$0.15
2600—Afterglow. Violet blue, shading to rosy amethyst. Wings electric blue.	\$0.10	\$0.35
2601—Austin Fredrick. Best lavender.	.10	.35
2604—Dazzler. Rich orange standards, rosy amethyst. Wings electric blue.	.10	.35
2617—Fiery Cross. Rich orange scarlet, a wonderful clear flame color.	.10	.35
2603—Florence Morse Spencer. Rich Blush pink.	.10	.35
2593—Gladys Unwin. Light pink. Very dainty.	.05	.25
2605—Illuminator. Salmon cerise, suffused with orange.	.10	.35
2514—King White. Glistening pure white.	.10	.35
2614—King Manuel. A deep chocolate maroon.	.05	.25
2620—The Cardinal. A majestic beauty of the most gorgeous bright scarlet.	.10	.35
2619—New Buttercup. Rich golden yellow.	.15	.60
2613—Royal Purple. A rich deep royal purple.	.10	.40
2612—Thomas Stevenson. Orange scarlet.	.05	.20
2515—Vermilion Brilliant. Bright scarlet.	.05	.25
2516—Mrs. Thos. Jones. Bright silvery blue.	.05	.20
2616—Spencer Mixed. The above and other selected Spencer colors.	.10	.35

1519—One pkt. each of the above sixteen separate colors for \$1.15; 1 oz., each for \$4.00.

SALZER'S RAINBOW MIXTURE GIANT SPENCER SWEET PEAS

The following are offered to those of our customers, who rather than the named varieties, prefer only the various shades of Sweet Peas. They will produce the same large, well-waved flowers, and are invaluable for color schemes.

SEPARATE SHADES

2623—Red Shades.	2624—Blue Shades.
2626—White Shades.	2622—Pink Shades.
2621—Orange Shades.	2625—Purple Shades.

Each of the above Mixtures of separate shades. Pkt., 7c; oz., 25c; ¼ lb., 85c; lb., \$3.00.
2502—Above shades mixed: Pkt., 10c; oz., 35c; ¼ lb., \$1.25; lb., \$4.00.

SALZER'S LARGE FLOWERING GRANDIFLORA SWEET PEAS IN SEPARATE SHADES

The large demand for separate shades of the different varieties of Grandiflora Sweet Peas shows a strong love for a plot of sweet peas of distinct colors. The lovely Grandiflora Sweet Peas are a late season type. The flowers are good and large, and are brilliantly colored, being borne on long stems.

2512—White Shades.	2513—Yellow and Orange Shades. Primrose to orange.
2509—Pink Shades. Light to deep pink.	2511—Red Shades. Bright rose to dark scarlet.
2504—Blue Shades. Lavender to mauve and heliotrope.	2510—Purple and Maroon Shades. All the dark colors.

Each of the above mixtures of Separate Shades. Pkt., 5c; oz., 20c; ¼ lb., 70c; lb., \$2.25.

1586—Collection of above six shades: One pkt. each, 25c; one oz. each, \$1.00.

2507—Salzer's Finest Mixture. All of the above large flowering sorts and a wide range of the best colors. Big pkt., 5c; oz., 20c; ¼ lb., 60c; lb., \$2.00.

CUPID, THE DWARF SWEET PEA

2505—Low growing varieties, about six to eight inches high, for edging, low beds and pot culture. They are unique and pretty. Flowers are good size and borne in profusion. Mixed colors only. Pkt., 10c; oz., 25c.

VINCA (Periwinkle) TA

Great favorites for bedding, as they do well in partly shaded or in sunny locations, and do not require rich soil. The plants are very ornamental with their bright green shiny foliage and produce their charming star-shaped flowers over a long period. 18 inches. Also make fine window box plants. Start the seed early indoors or in the hotbed. May also be sown out of doors in May, or as soon as the ground is warm. Is frequently potted for winter blooming.

2558—White.

2562—White with Rose Eye

2560—Rose.

2557—Mixed.

Per Pkt., 10c; $\frac{1}{8}$ oz., 50c; $\frac{1}{4}$ oz., 90c. One pkt. each of above 3, for 25c; $\frac{1}{8}$ oz. each, for \$1.25.

VIOLA (Tufted Pansy). HP. Splendid for bedding in damp, shady spots. The flowers are not as large as the true Pansies, but the plants are perfectly hardy and they bloom profusely over a long period. In extreme climates, it is advisable to protect over winter with leaves or litter.

2559—**Cornuta.** A splendid mixture of gorgeous colors. Sown in April, the plants will flower in June. 4 inches. Pkt., 10c; $\frac{1}{8}$ oz., 35c; $\frac{1}{4}$ oz., 60c.

WALLEFLOWER (Cheiranthus). Long spikes, closely set with sweet-scented flowers. Fine for cool, moist locations.

2564—**Double Mixed.** HHP. Deliciously fragrant, double flowers, ranging in color from yellow to brown; some tinged with red and purple. Blooms lavishly in spring from seed sown the previous summer. Pkt., 15c; 2 pkts., 25c; $\frac{1}{8}$ oz., \$1.00; $\frac{1}{4}$ oz., \$1.75.

2563—**Extra Early Annual Sorts.** HA. The earliest blooming, single varieties, mixed. Magnificent, deliciously fragrant flowers of golden yellow, blood-red, bright yellow, white, etc. Both this and the variety above, should be grown more widely in this country. Pkt., 10c; $\frac{1}{8}$ oz., 25c; $\frac{1}{4}$ oz., 40c.

2568—**WISTARIA.** HP. The well known hardy perennial vine; of luxuriant and rapid growth, bearing during the spring immense panicles of fragrant purple-blue flowers in great profusion. Does not bloom till second year. 50 feet. Pkt., 10c; $\frac{1}{8}$ oz., 20c; $\frac{1}{4}$ oz., 30c.

Vinea or Periwinkle, Rose

2599—**YUCCA, Filamentosa (Adam's Needle).** HP. Its broad sword-like foliage and 5 to 6 feet tall branched spikes of fragrant, large, drooping creamy-white flowers during June and July, make a majestic display. Does not flower till third year. Pkt., 10c; $\frac{1}{8}$ oz., 35c; $\frac{1}{4}$ oz., 60c.

1572—SALZER'S GARDEN GAY FLOWER COLLECTION—75c

- | | |
|--|---------------------------------|
| 1. Antirrhinum, Mixed | 8. Nasturtium, Perpetual Dwarf. |

Fourteen separate packets of beautiful annual flowers. The finest strains of each variety. 14 full size packets for 75c.

Salzer's Lilliput Zinnias

TWO NEW ZINNIAS

LILLIPUT ZINNIAS HA

The plants form handsome little bushes (15 inches high) that fairly bristle with tiny, medium-stemmed, very double flowers. They are very pretty plants, blooming all summer until late in the fall, and are splendid for borders or edging. We introduced this strain in 1927 and received many letters last year as to the fine success it gave.

2765—Canary Yellow

2767—Scarlet Gem

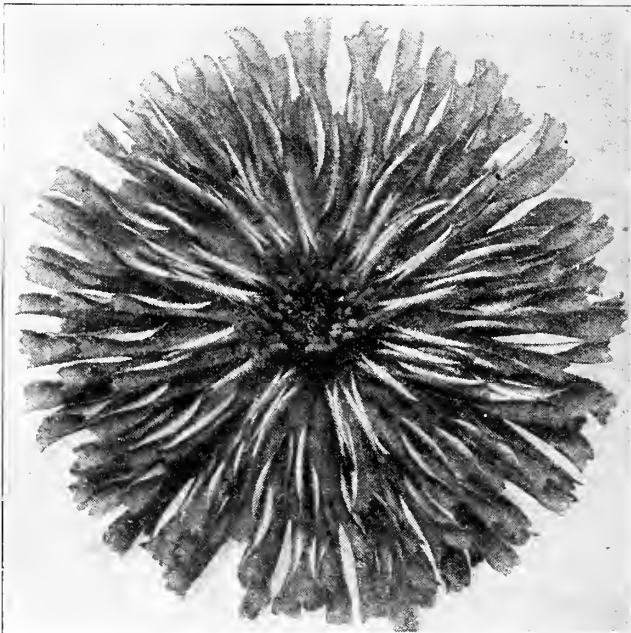

2766—Double Crimson

2768—Mixed Colors

Any of above: Per Pkt., 10c; $\frac{1}{8}$ oz., 35c; $\frac{1}{4}$ oz., 60c. One Pkt. each of above 3 colors for 25c; $\frac{1}{8}$ oz. each for 90c.

CURLED AND CRESTED ZINNIA HA

Introduced by us in 1927. The petals of this beautiful strain are curled, twisted, and crested into the most fantastic and graceful forms, giving the flower a soft and fluffy effect. Mixed colors only. A very desirable sort. 2571—Pkt., 10c; $\frac{1}{8}$ oz., 25c; $\frac{1}{4}$ oz., 40c.

New Curled and Crested Zinnia

We had beautiful Zinnias last year, many of them measuring six and seven inches across.—Mrs. U. S. Marsh, R. D. 1, Lucerne, Ind.

CALIFORNIA GIANT ZINNIA PLANTS

We have an elegant supply of plants of this grand new type of Zinnia which we are offering at a real bargain price. These are strong, healthy, transplanted plants that will give you a wealth of flowers much earlier than can be had from seed. Sprinkle a little Vigoro near some of your Zinnia plants, and see what monstrous blooms you will have. We offer these plants in the following colors:

Cerise Queen
Lemon Queen
Orange King

Rose Queen
Scarlet Gem
Finest Mixed

Plants of any of above: 98c per dozen; 25 for \$1.90; 50 for \$3.69, postpaid.

SOW SALZER'S SEEDS

Last summer I raised Zinnias from your seed, and I wish you could have seen them. I planted some real late, and am still picking them (November 18). Everyone went wild over them. They are sold weekly to one of the finest hotels for table decorations, and the guests are delighted with them.

Mrs. Frieda Arrechca,
Dufferin & Washington, Riverside, Calif.

SALZER'S CALIFORNIA GIANT ZINNIAS

This fine new type has smaller centers and more loosely placed petals than the old Large Flowering Dwarf Zinnias, thus presenting a pleasing appearance. The size of the flower has been notably increased over the Giant Show type. The petals are decidedly imbricated and the flower from bud to bloom assumes a succession of graceful forms.

The flowers are truly giant in size, frequently measuring 6½ to 7 inches in diameter, and are borne on long and strong stems. When cut the graceful flowers last exceptionally long in water, and make a lovely bouquet. Everyone who has seen them has greatly admired this lovely new mammoth type of Zinnia, and its lovely range of colors. We offer it to our customers with the confidence that it will be a most welcome addition to the flower garden.

2740—Cerise Queen	2743—Rose Queen
2741—Lemon Queen	2744—Scarlet Gem
2742—Orange King	2745—Finest Mixed

Any of above, 14c per packet; ¼ oz., 75c; ½ oz., \$1.25. One packet each of above five separate colors, for 58c; ½ oz., each of above five, for \$3.25.

LARGE FLOWERING DWARF ZINNIA HA (YOUTH AND OLD AGE)

Such rapid strides have been made in the development and improvement of this useful class of annual flowers that the modern Zinnias would hardly be recognized by the gardeners of a generation or two ago. The old-fashioned Zinnias were stiff and prim and their colors were dull and raw, but the Zinnias of today are elegant in form and rival even the tulips in brilliancy and variety of color. Certain it is that few of our common flowers produce such a gorgeous display over as long a period with only a minimum of care.

The seed may be started in boxes indoors during March or sown directly in the open ground early in May. Transplanting, if necessary, should be done while the plants are still quite young, preferably when they are only about 2 or 3 inches high. They will grow almost anywhere except in shade, but they do best in a fairly rich, medium heavy soil and appreciate an occasional watering in dry weather. In thinning or transplanting leave the young plants plenty of room in which to develop; the large-flowering varieties should stand at least 1½ feet apart.

Large Flowering Dwarf. The Large Flowering Dwarf Zinnias grow bushy, compact plants about 15 inches high, bearing immense, double flowers.

Each of the undernoted colors: Pkt., 10c; ¼ oz., 20c; ½ oz., 35c.

2577—Orange 2579—Rose 2581—White
2578—Pink 2580—Scarlet 2582—Yellow

1589—One packet each of the above 6 separate colors, 50c.
2583—Mixed, all colors. Pkt., 10c; ¼ oz., 20c; ½ oz., 35c.

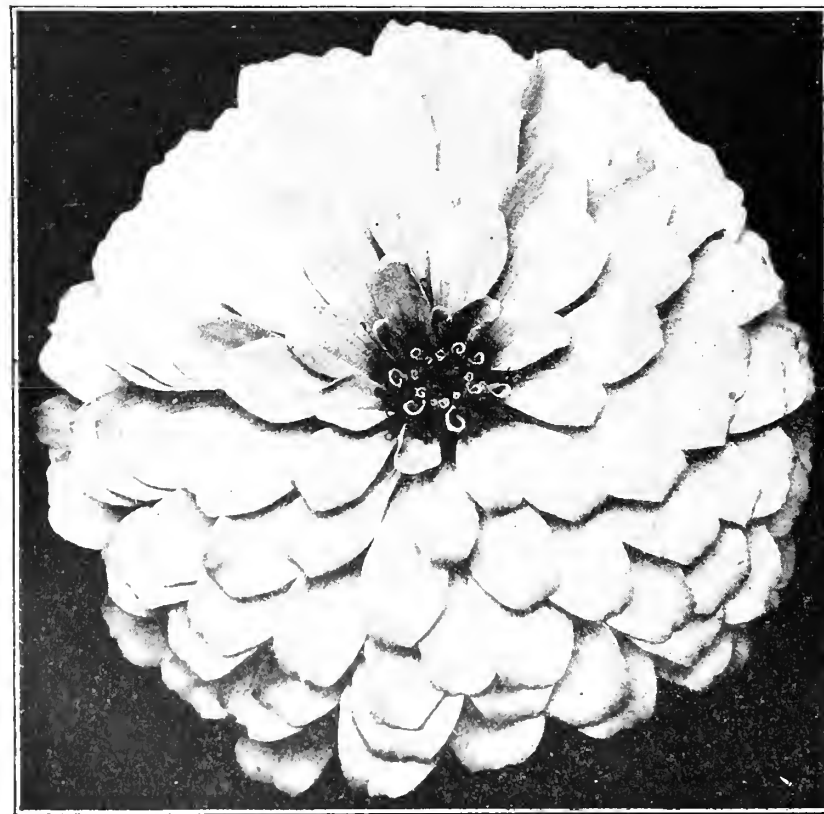

2572—**GIANT SHOW** (Grandiflora Robusta Plenissima). Huge flowers measuring often five to six inches across, semi-globular and very double. Grand and long-lasting effects can be produced in beds and borders with this new race. Plants grow about three feet high. Mixed colors. Pkt. 10c; ¼ oz., 20c; ½ oz., 35c.

2576—**VICTORY ZINNIAS.** A very distinct variety, with large densely double quilled flowers. Mixed colors only, the colors being mostly in orange, russet, old rose and other autumn tints. Pkt., 15c; ¼ oz., 50c; ½ oz., 85c.

2769—**RED RIDING HOOD ZINNIAS.** A very pretty dwarf Zinnia only a foot high and covered all over with little round bright scarlet flowers about an inch across and very double. Very effective for borders. Pkt., 10c; ¼ oz., 35c; ½ oz., 60c.

A Bed of Large Flowering Dwarf Zinnias

Salzer's New Dahlia Flowered Zinnia, Crimson Monarch

NEW DAHLIA FLOWERED ZINNIA HA

Besides producing by far the largest flowers of all the Zinnias, the Dahlia-flowered varieties are distinguished by being nearly as deep in the center as they are wide, with smaller individual petals than the ordinary varieties, but many more of them. Moreover, their colors are softer and more pleasing, being characterized by blended shades and pastel effects which, with the slightly reflexed and closely overlapping petals, give the whole flower the appearance of a fine satin cushion. The plants are tall and vigorous, producing a wealth of immense blooms from July until frost.

We are offering the most popular shades separately and predict a record-breaking sale on these easy to grow flowers.

2585—**Exquisite.** Light rose, center deep rose. Most pleasing color in Zinnias.

2586—**Old Rose.** A charming old rose shade. Very popular.

2587—**Golden State.** Deep yellow in the bud, turning to clear rich orange in full bloom.

2588—**Crimson Monarch.** Striking crimson. Enormous flowers, often 8 inches in diameter.

2589—**Dream.** Deep lavender turning to purple. A rare color in Zinnias.

2590—**Polar Bear.** Pure white.

2591—**Buttercup.** A very pleasing shade of rich golden yellow.

Any of above: Per Pkt., 15c; 2 pkts., 25c; ¼ oz., 70c; ½ oz., \$1.20. One pkt. each of above 7 colors for 80c; ½ oz. each for \$4.45.

2584—**Mixed.** All of above and other colors, mixed. Pkt., 10c; ¼ oz., 50c.

PLANT AND BULB DEPARTMENT

Salzer's Plants and Bulbs have a national reputation. They are the hardiest of any obtainable. They shoot up quickly and bloom early and freely, bearing flowers for a much longer time than less robust stock.

ORDER EARLY

We urge our friends to place their orders as early as possible. Last year we quickly sold out of different varieties, and although we have larger stocks on hand this spring, there is less likelihood of our having run out of some kinds, and your being disappointed, if your order is received early in the season.

TIME OF SHIPMENT

All plants are shipped when stock is ready and when the weather permits planting. For the south, orders are naturally filled much earlier than for the northern states. As orders are received, we book them and ship at planting time unless you instruct us otherwise.

HOW WE SHIP

To reduce weight and volume, plants are shipped without pots and with most of the dirt removed. However, if you wish us to ship house and bedding plants with soil attached to the roots, add 10c extra for each plant so ordered. Many of our customers want to receive their plants in the original ball of earth, and this extra charge of 10c covers the additional labor and expense.

PRICES

All prices under this department are for delivery by mail, postage prepaid, unless otherwise specified. Express shipments are not prepaid.

SALZER'S NORTHERN GROWN CANNAS

Cannas do well in all sections of the country and their noble proportioned foliage is extremely attractive, with rich shades of chocolate, red, green, and bronze. Cannas should not be planted less than twenty inches apart each way. Dig up bulbs in fall and plant again in spring. At the beginning of the season we send dormant bulbs; as the season advances, depending also upon the weather, we send out started plants, which will give one earlier flowers. The most effective arrangement is a massed planting in one color, but they may also be planted to produce many striking effects.

THREE FINE CANNAS

APRICOT—A superb new Canna, appropriately named for its rich apricot color. Foliage is a shiny, rich green. 4 feet. The flower trusses are complete, always fresh, and continuous. Each, 21c; 3 for 59c; 6 for \$1.12, postpaid.

YELLOW KING HUMBERT—Orchid-like flowers that measure 5 to 7 inches across; deep rich yellow color, softly spotted and blotched with bright red. Foliage very dark green. Some plants occasionally give a scarlet or scarlet striped flower, which we consider an improvement rather than a defect. 4 feet. Each, 28c, 3 for 80c; 6 for \$1.50, postpaid.

MRS. ALFRED CONARD—Large, exquisitely shaded, salmon-pink flowers produced in great abundance on robust and strong stalks. The finest of all pink flowered Cannas. 4 feet. Each 26c, 3 for 74c, 6 for \$1.40, postpaid.

One each of above 3 for 68c, postpaid.

Two each of above 3 for \$1.24, postpaid.

EXTRA-CHOICE CANNAS

THE PRESIDENT—Immense, flaming scarlet flowers. Won the gold medal from the National Department of Horticulture. It leads all of the red varieties in quality and quantity of bloom. The flowers are 7 inches across, petals are firm and long standing and do not burn. Stems are stiff and strong. Foliage is rich green and burn-proof in the hottest weather. 4 feet high. Each, 34c, 3 for 97c, 6 for \$1.84, postpaid.

KING HUMBERT—One of the best Cannas grown. Large heart-shaped leaves of purple brown over bronze—simply gorgeous foliage. Massive orchid-like flowers, immense individual petals that are velvety orange-scarlet, flecked carmine; rose tinted at margin and base. Each, 24c, 3 for 68c, 6 for \$1.30, postpaid.

One each of above 2 for 48c, postpaid.

Two each of above 2 for 89c, postpaid.

King Humbert Cannas

SALZER'S GIANT FLOWERING CANNAS

KING MIDAS—5 ft. Very large flowers of glittering gamboge-yellow. An outstanding variety, making glorious trusses on stems as straight as an arrow. A true Canna aristocrat. Each 32c, 3 for 90c, postpaid.

THE AMBASSADOR—4 ft. Brilliant, large cherry-red flowers borne freely on strong stems well above the healthy bronze foliage. Splendid for bedding. This variety is spoken of as the "bronze-leaved President." Each 38c, 3 for \$1.03, postpaid.

MONT BLANC—Pure waxy-like white flowers. Immense trusses; green foliage. Best practical white canna grown. 34c, 3 for 97c, 12 for \$3.26, postpaid.

GLADIATOR—Flowers golden yellow, dotted crimson. Green foliage 4½ feet. 26c, 3 for 74c, 12 for \$2.50, postpaid.

MME. CROZY—Rich scarlet, bordered golden yellow. Fine flowers, attractive green foliage, 3½ feet. 22c, 3 for 63c, 12 for \$2.10, postpaid.

ROSEA GIGANTEA—Extra large flowers, color a uniform deep rose, almost carmine, 4

feet. Rich green foliage. 26c, 3 for 74c, 12 for \$2.50, postpaid.

VENUS—Gay rosy pink, delicate in texture, border of creamy yellow. Continuous bloomer. 4 feet. 27c, 3 for 77c, 12 for \$2.59, postpaid.

WYOMING—Rich purplish bronze foliage; large perfect flowers, bright orange, slightly flaked rose. 6 ft. 24c, 3 for 58c, 12 for \$2.30, postpaid.

BLACK PRINCE—Intense velvety maroon. Green foliage, 4½ feet. 22c, 3 for 63c, 12 for \$2.10, postpaid.

GIGANTEA or ROBUSTA—Beautiful bronze foliage; immense leaves; largest and tallest of all Cannas. Flowers red; 29c, 3 for 83c, 12 for \$2.78, postpaid.

HUNGARIA—A leader. Pink flowers the color of Paul Neyron Rose. 27c, 3 for 77c, 12 for \$2.59, postpaid.

LOUISIANA—Height 3½ to 4 feet. Vigorous grower. Flowers vivid scarlet. 22c, 3 for 63c, 12 for \$2.10, postpaid.

Mlle. BERAT—Entirely distinct from any other sort. Darkest of all the pink Cannas. 26c, 3 for 74c, 12 for \$2.50, postpaid.

GORGEOUS CANNAS

12 for \$1.80

SPECIAL OFFER—Red and Green foliage varieties in pink, red, yellow or variegated. 12 for \$1.80, 25 for \$3.00, 50 for \$6.00. 20 for \$2.40, 39 for \$4.68, 65 for \$7.80.

SALZER'S SUNSET CANNA COLLECTION

Collection of marvelous colorings, one each of following: Venus, rosy-pink; The Ambassador, cherry-red; King Midas, yellow; Wyoming, rich orange; and Black Prince, velvety maroon. Price only \$1.29, postpaid.

LAWN BED NO. 3. Bed 8 ft. in diameter 28 King Humbert Cannas for center and 21 Salvias for border. (Plantings 1 ft. each way) 49 plants in all.\$7.52, postpaid.

SPECIAL OFFER—Lawn Bed Collection for bed 5 ft. in diameter, plants set 1 foot apart, 7 Caladiums, 5 Cannas, 15 Pennisetum; 27 plants in all for \$4.22, Postpaid.

Salzer's Hardy Roses

FOUR CHOICE HYBRID TEAS

LOS ANGELES

One of the grandest all-around Roses of American origin that has ever been produced. The color is a beautiful flame pink, toned with coral and shaded finely with gold at the base of the petals. The stems are long and heavy, and the flowers unusually large. Exceptionally hardy, vigorous foliage, and free blooming. Nice 1-yr. plants, 32c each; 3 for 90c. Strong Field Grown Stock: Each, 69c; 3 for \$1.98, postpaid.

SOUVENIR DE CLAUDIUS PERNET

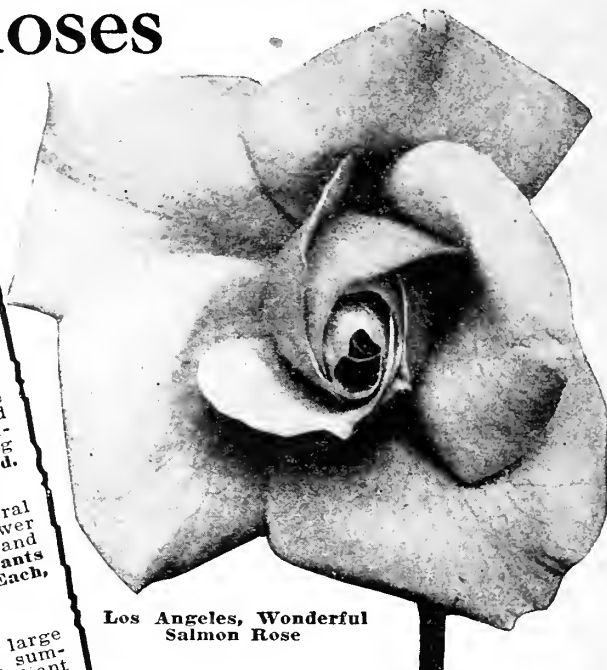

A grand new rose, the best yellow ever introduced. The color is a decided and unstained sunflower yellow, even deeper toned at the center. Unlike most yellows, hot weather and exposure have little effect upon its pigments, the matured bloom gleaming as richly yellow as when first unfolding. Nice 1 yr. plants 62c each; 3 for \$1.72. Strong Field Grown Stock: Each, 79c; 3 for \$2.25, postpaid.

MADAME EDOUARD HERRIOT

A majestic, new rose. In color, its buds are coral red, shaded with yellow at the base; the open flower is a glowing coral red, shaded with yellow and bright rosy scarlet. Free blooming. Nice 1-yr. plants 35c each; 3 for \$1.00, postpaid.

PINK RADIANCE

An ideal rose that continues to produce its large flowers throughout the most unfavorable hot summer weather. The blooms are a dazzling, brilliant carmine-pink, with salmon-pink and yellow shadings at the base of the petals. Nice 1-yr. plants, 28c each; 3 for 80c. Strong Field Grown Stock: Each, 59c; 3 for \$1.69.

Pink Radiance. No Better Pink Rose for the Garden

Souvenir De Claudius Pernet. The Best of All Yellows

SPECIAL OFFER—One each of the three Roses illustrated in 1 yr. size \$1.10; 3 in field grown size \$1.99, postpaid.

HARDY HYBRID TEA ROSES

This class of roses is splendid for outdoor culture and blooms almost constantly from June until frost. They are very hardy. Leaflet, "Rose Culture," sent free upon request.

OPHELIA—Color, clear bright salmon, often deepening toward golden pink; very fragrant, perfect buds and flowers, stiff stems. Nice 1 yr. plants 28c each, 3 for 80c; field grown stock 59c each, 3 for \$1.72, postpaid.

RED RADIANCE—A sport of the Pink Radiance, bright and showy cerise-red, in bloom all the time. Nice 1 yr. plants 30c each, 3 for 85c; field grown stock 50c each, 3 for \$1.45, postpaid.

WHITE KILLARNEY—The most popular white rose. Large, fine, perfect flowers, white as snow. Nice 1 yr. plants 28c, 3 for 80c; field grown stock 50c each, 3 for \$1.45, postpaid.

WILLOWBERRY—Large, full, handsome roses of a rich shrimp-pink, shaded yellow in the center, flushed carmine-pink at the edges. Nice 1 yr. plants 28c each, 3 for 80c; field grown stock 60c each, 3 for \$1.72, postpaid.

DUCHESS OF WELLINGTON—Intense saffron-yellow stained with deep crimson, changing to deep coppery saffron-yellow as the large, full, flowers open. Very fragrant. Nice 1 yr. plants 30c each, 3 for 85c; field grown stock 50c each, 3 for \$1.45, postpaid.

GRUSS AN TEPLITZ—Dark red, of intense depth and richness of color, shading to a velvety crimson. Fragrant, very free blooming, and thrives everywhere. Nice 1 yr. plants 24c each, 3 for 68c; field grown stock 69c, 3 for \$1.95, postpaid.

MRS. AARON WARD—Buds are deeply cupped, the open flowers are large and very double; color, beautiful deep golden orange. Nice 1 yr. plants 30c each, 3 for 85c; field grown stock 59c each, 3 for \$1.72, postpaid.

COLUMBIA—Strong and sturdy in growth, handsome foliage. Flowers glowing pink, when fully developed it is more vivid in color than in the bud state. Nice 1 yr. plants 28c each, 3 for 80c; field grown stock 55c each, 3 for \$1.59, postpaid.

LADY HILLINGDON—Very free-blooming, vigorous growth, and beautiful, even, coppery shade of apricot-yellow in color, all through the year. Nice 1 yr. plants 30c each, 3 for 85c; field grown stock 50c each, 3 for \$1.45, postpaid.

BRIARCLIFF—Color, deep rose pink at center, lighter on outer petals with touch of citron-green at base. Nice 1-yr. plants 38c, 3 for \$1.08, 12 for \$3.65. 2-yr. plants 85c each, postpaid.

SPECIAL OFFER—One each of above in 1 yr. plants for \$2.69, postpaid. One each in 2 yr. plants for \$5.29, postpaid.

HARDY HYBRID TEA ROSES

LADY PIERRE—An ideal variety. Deep coppery reddish-salmon, inside of petals apricot-yellow flushed fawn and copper. Nice 1-yr. plants 32c each, 3 for 90c, 12 for \$3.07. 2-yr. plants 75c each, postpaid.

MME. RAVARY—A splendid variety. Double flowers of a rich nankeen-yellow becoming lighter as it expands. Very fragrant. Nice 1-yr. plants 26c each, 3 for 74c, 12 for \$2.50. 2-yr. plants 75c each, postpaid.

HADLEY—Color a deep velvety crimson; retains its brilliancy at all seasons of the year. Outstanding. Nice one-year plants 28c each, 3 for 80c, 12 for \$2.69. 2-yr. plants 75c each, postpaid.

MRS. CHAS. RUSSELL—A beautiful shade of rosy pink. Buds long and pointed produced on long stems. Nice 1-yr. plants 27c each, 3 for 77c, 12 for \$2.69. 2-yr. plants 75c each, postpaid.

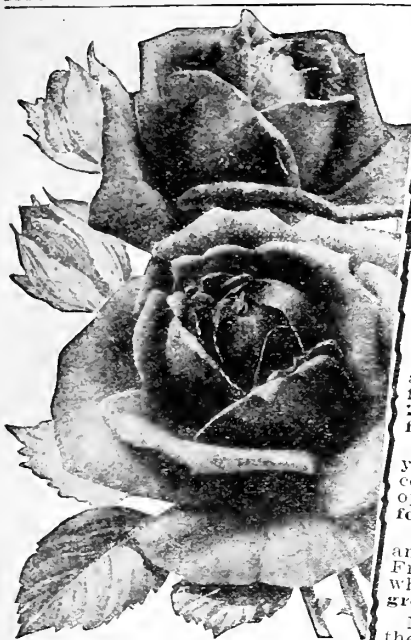

ANGELUS—Fine for cut-flower work. Color, white with sometimes a creamy center when open, buds pure white. Nice 1-yr. plants 26c each, 3 for 74c, 12 for \$2.50. 2-yr. plants 70c each, postpaid.

CONSTANCE—Produces beautiful orange-yellow buds of perfect form. A free flowering variety. One of the best. Nice 1-yr. plants 28c each, 3 for 80c, 12 for \$2.69. 2-yr. plants 75c each, postpaid.

TEMPLAR—Blooms large and full. Of vigorous growth. Handsome foliage. Color, exquisite clear bright red. Nice 1-yr. plants 32c, 3 for 90c, 12 for \$3.07. 2-yr. plants 80c each, postpaid.

MME. ALEX. DREUX—A constant blooming variety. Produces very fragrant flowers of an extraordinary beautiful orange copper. Marvelous. Nice 1-yr. plants 50c each, 3 for \$1.43, 12 for \$4.80. 2-yr. plants 90c each, postpaid.

SPECIAL OFFER—One each of above in 1 yr. for \$2.28, postpaid. One each in 2 yr. for \$5.61, postpaid.

BABY RAMBLER—Beautiful flowers of brightest red are borne in large clusters. Price 1 yr. 24c; 3 for 68c; 12 for \$2.30; 2 yr. 65c; 3 for \$1.85; 12 for \$6.21, postpaid.

BABY TAUSENDSCHOEN—Flowers upon opening are delicate flesh pink changing to rosy-carmine. Price 1 yr. 26c; 3 for 74c; 12 for \$2.50; 2 yr. 65c; 3 for \$1.85; 12 for \$6.21, postpaid.

CATHERINE ZEIMET—Produces double pure white flowers in greatest abundance. An excellent variety. Price 1 yr. 26c; 3 for 74c; 12 for \$2.50; 2 yr. 65c; 3 for \$1.85; 12 for \$6.21, postpaid.

ERNA TESCHENDORFF—Flowered deep crimson flushed with carmine. Popular Easter cut-flower. Price 1 yr. 32c; 3 for 90c; 12 for \$3.07; 2 yr. 70c; 3 for \$2.00; 12 for \$6.72, postpaid.

CLOTHILDE SOUPERT—Color beautiful ivory white shading towards center to silvery-pink. Price 1 yr. 28c; 3 for 80c; 12 for \$2.69; 2 yr. 60c; 3 for \$1.70; 12 for \$5.66, postpaid.

GEORGE ELGER—A lovely golden yellow free in growth, free in bloom, with small glossy foliage. Price 1 yr. 28c; 3 for 80c; 12 for \$2.69; 2 yr. 75c; 3 for \$2.14; 12 for \$7.20, postpaid.

GRUSS AN AACHEN—Color yellowish-rose with salmon-pink shadings. A strong free bloomer. Price 1 yr. 28c; 3 for 80c; 12 for \$2.69; 2 yr. 75c each; 3 for \$2.14; 12 for \$7.20, postpaid.

IDEAL—A beautiful dark velvety crimson flower borne in clusters. Price 30c; 3 for 85c; 12 for \$2.88; 2 yr. 70c; 3 for \$2.00; 12 for \$6.72, postpaid.

Wichuriana or Creeping Roses

WICHURIANA OR CREEPING ROSES

Indispensable because of their trailing, creeping habit, for covering graves, climbing over walls, stumps or trees. Foliage retained until late winter. Very easy grown.

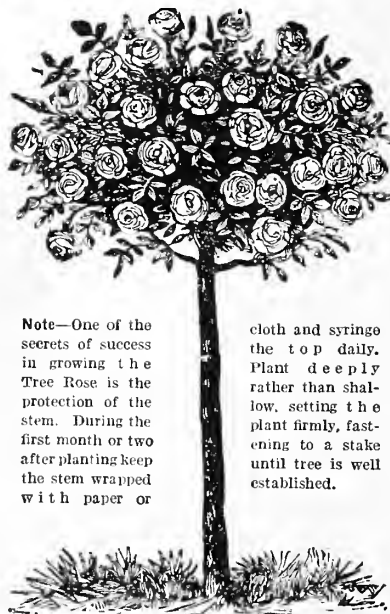

WICHURIANA—Color pure white with golden yellow disc. Flowers single. Creeping habit. Price 1 yr. 25c; 3 for 72c; 12 for \$2.50; 2 yr. field grown stock 48c; 3 for \$1.39, postpaid.

HIAWATHA—Brilliant ruby carmine flowers borne on pendulous sprays. First class. Price 1 yr. 25c; 3 for 72c; 12 for \$2.40; 2 yr. 60c; 3 for \$1.70; 12 for \$5.66, postpaid.

PINK ROAMER—Flowers large and single. Color brilliant rich pink with orange red stamens. Price 1 yr. 28c; 3 for 80c; 12 for \$2.69; 2 yr. field grown stock 48c; 3 for \$1.39, postpaid.

UNIVERSAL FAVORITE—Beautiful rosy-pink blooms of large size borne in abundance. Price 1 yr. 26c; 3 for 72c; 12 for \$2.50; 2 yr. 60c; 3 for \$1.70; 12 for \$5.66, postpaid.

SALZER'S WONDERFUL TREE ROSES

Note—One of the secrets of success in growing the Tree Rose is the protection of the stem. During the first month or two after planting keep the stem wrapped with paper or

cloth and syringe the top daily. Plant deeply rather than shallow, setting the plant firmly, fastening to a stake until tree is well established.

This beautiful and highly decorative form of roses is seldom offered to the general public. We are extremely fortunate in having a limited quantity this year, but as this type is very scarce, we suggest that you order early.

As shown in the illustration, the plant throws up a single stout stem (like the Tree Hydrangea), at the top of which many lateral branches are thrown out, bearing in profusion a large quantity of large, perfect roses. As a lawn ornament, Tree Roses cannot be surpassed, remaining highly ornamental even when through flowering. Prices are for 36 inch to 42 inch stems, roots individually wrapped, shipped by express, not prepaid.

RED TREE ROSE—Large semi-double flowers, freely borne, of an intense, vivid scarlet. Hardy. Each \$2.49; 3 for \$7.25, not prepaid.

YELLOW TREE ROSE—Very large, full flowers, of a most striking sunflower yellow, deeper yellow in the center. Hardy. Each \$2.45; 3 for \$7.20, not prepaid.

WHITE TREE ROSE—Hardy. Lovely, large, pure snow white flowers. Elegant. Each \$2.40; 3 for \$7.05, not prepaid.

PINK TREE ROSE—Hardy. Immense perfect flowers, beautiful bright silvery rose color with a light golden base. Each \$2.43; 3 for \$7.15, not prepaid. One Each of Above 4 Tree Roses for \$9.00, not prepaid.

Salzer's Wonderful Tree Rose

HARDY RUGOSA ROSES

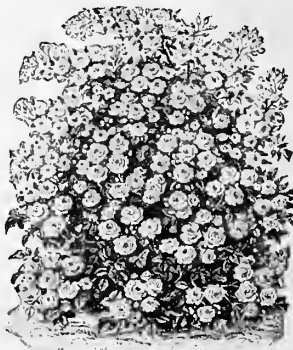

CONRAD FERDINAND MEYER—Flowers, large cup shaped. Color deep bright pink. Price 1 yr. 32c; 3 for 90c; 12 for \$3.07; 2 yr. field grown stock 48c each; 3 for \$1.39, postpaid.

SIR THOS. LIPTON—Flowers perfectly double, pure snow white. Very fragrant. A strong and vigorous grower. Price 1 yr. 26c; 3 for 74c; 12 for \$2.50; 2 yr. field grown stock 18c each; 3 for \$1.39, postpaid.

HANSA—Flowers a reddish violet, double and fragrant; one of the best varieties of the family. 1 yr. 30c; 3 for 82c; 2 yr. field grown stock 48c each; 3 for \$1.39, postpaid.

HARDY ROSE HUGONIS

HUGONIS—"The Golden Rose From China." A beautiful hardy bush rose. Color intense canary yellow, hardy everywhere. The flowers are followed by rich scarlet berries. Price 1 yr. 32c; 3 for 90c; 12 for \$3.07; 2 yr. field grown stock 60c each; 3 for \$1.74, postpaid.

Hardy Rose Hugonis

SPECIAL OFFER—Six different colored Bush Baby Rambler Roses. Will make a fine bed, 6 in 1 year size \$1.56; 6 in 2 year size \$3.65, postpaid.

SALZER'S Hardy Climbing Porch Roses

You may not have space enough in your garden to give expression to your love for roses, but these hardy, rambling, climbing varieties need only a foothold and will climb and trail over trellises, fences, poles, etc. Mr. Fred Heuer, Palatine, Ill., writes: "I bought some Rambler Roses from you and everybody was surprised at the number of flowers on them this year."

CRIMSON RAMBLER—This rapid, hardy climber produces a marvelous profusion of rich crimson flowers in clusters. It reaches a height of 10 to 20 feet in a single season. Nice plants, 24c each; 3 for 68c; strong field grown plants, 45c each; 3 for \$1.30, postpaid.

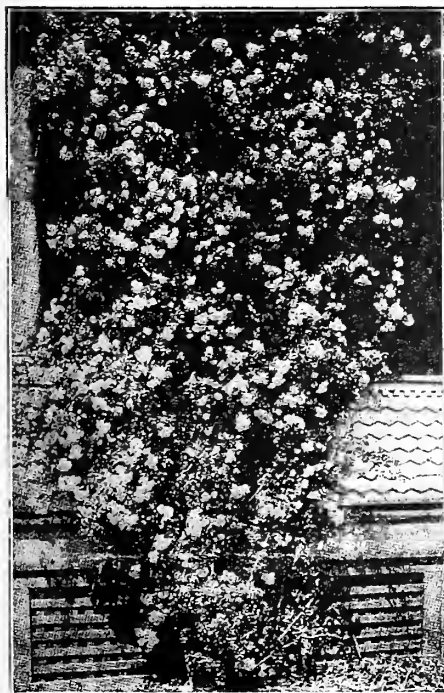

DOROTHY PERKINS—Hardy, with fine glossy foliage, soft shell pink blooms of good size, very double and borne in clusters. Nice plants 27c each; 3 for 77c; strong field grown plants, 34c each; 3 for 97c, postpaid.

AMERICAN PILLAR—Hardy, highly recommended. Not troubled with insects. A beautiful rose, flaming pink in color, the blooms fairly covering the bush. Nice plants 22c each; 3 for 63c; strong field grown plants, 39c; 3 for \$1.12, postpaid.

CLIMBING GRUSS AN TEPLITZ—A perfect sheet of dazzling crimson when in bloom. A vigorous climber. Nice 1 yr. plants 28c each; 3 for 80c; strong field grown plants 59c; 3 for \$1.70, postpaid.

CLIMBING PINK COCHET—One of the best new Roses. Vigorous grower with rich, healthy foliage. The extra large flowers are produced on long stems, are very double, and the buds and half expanded flowers are simply exquisite in their graceful form, delicate color of deep rose-pink. Each 1 yr. plants 25c; 3 for 73c; 2 yr. plants 65c, postpaid.

CLIMBING MARY WALLACE—Hardy, fine glossy foliage comparatively new. Blooms large and of a bright clear rose-pink with salmon base. Nice plants 30c each; 3 for 85c; strong field grown plants 55c each; 3 for \$1.59, postpaid.

Climbing Rose, Mary Wallace

CLIMBING LOS ANGELES—A very vigorous grower with flowers of exquisite pink shading to coral. Nice 1 yr. plants 30c each; 3 for 85c; strong field grown plants 79c; 3 for \$2.29, postpaid.

WHITE DOROTHY PERKINS—Hardy, a sturdy climber with good foliage and flowers of pure snowy-white, borne in clusters. Nice plants 24c each; 3 for 68c; strong field grown plants 34c; 3 for 97c, postpaid.

PAUL'S SCARLET CLIMBER—Hardy, of vigorous growth and an outstanding rose in the way of its wonderful color. Blooms produced in large clusters in a vivid scarlet. Nice plants 27c each; 3 for 77c; strong field grown plants 56c each; 3 for \$1.59, postpaid.

EXCELSA or RED DOROTHY PERKINS—Hardy, a distinct variety in form, color and habit. Blooms showy of an intense crimson-maroon with tips of petals slightly tinted scarlet. Nice plants 24c each; 3 for 68c; strong field grown plants 34c each; 3 for 97c, postpaid.

Hardy Climbing Rose, Gold of Ophir

GOLD OF OPHIR—A splendid variety magnificently colored. The beautiful blooms are nasturtium-yellow suffused with coppery-red. Nice plants 29c each; 3 for 83c; strong field grown plants 48c; 3 for \$1.39, postpaid.

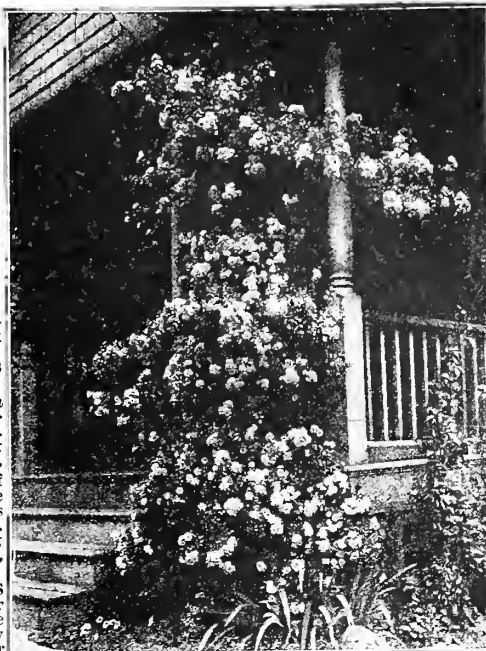

CLIMBING SUNBURST—A strong grower bearing large yellow flowers beautiful either in bud or bloom. Nice 1 yr. plants 30c each; 3 for 85c; 2 yr. plants 75c each, postpaid.

DR. W. VAN FLEET—Hardy, large blooms, delicately perfumed on extra long stiff, stems. Color a delicate shade of flesh pink, deepening to rosy flesh in the center. Nice plants 28c each; 3 for 80c; 2 yr. plants 75c each, postpaid.

CLIMBING METEOR—Flowers are a rich velvety maroon color. Highly recommended. Nice 1 yr. plants 26c each; 3 for 74c; 2 yr. plants 75c each, postpaid.

CLIMBING KAISERIN AUGUSTA VICTORIA—An exquisite shade of pure white. Of vigorous climbing habit. Nice 1 yr. plants 26c each; 3 for 74c; 2 yr. plants 70c each, postpaid.

CLIMBING WHITE COCHET—A very popular rapid climber. Produces huge white flowers. First class. Nice 1 yr. plants 26c each; 3 for 74c; 2 yr. plants 65c each, postpaid.

Hardy Climbing American Beauty

CLIMBING AMERICAN BEAUTY—Hardy, strong growing with foliage of bright glossy green. Blooms anywhere a porch rose will grow. Large blooms of soft, glowing red, very showy. Nice plants 24c each; 3 for 68c; strong field grown stock 54c each; 3 for \$1.52, postpaid.

AVIATEUR BLERHOT—Hardy, with a full double bloom saffron-yellow with deeper center of golden-yellow. Flowers borne in clusters. Nice plants 26c each; 3 for 74c; 2 yr. plants 60c each, postpaid.

CLIMBING EUGENE JACQUET—Hardy, and of easy cultivation. Foliage dark green resisting mildew. Color, cherry-red and very fragrant. Nice plants 38c each; 3 for \$1.08; 2 yr. plants 85c each, postpaid.

CLIMBING OPHELIA—A favorite in the south. Color salmon-flesh shaded rose. A vigorous climber. Nice 1 yr. plants 30c each; 3 for 85c; 2 yr. plants 70c each, postpaid.

TAUSENDSCHON—Tausendschon means Thousand Beauties and is a very appropriate name to give to this great rose. It is a strong grower, impervious against mildew and absolutely hardy. Has beautiful foliage with few thorns. It is a cluster blooming rose ranging in color from delicate balsam or tender rose, through the intermediate shades of bright rose and carmine, with white, yellow and various other delicate tints showing. A single cluster of flowers is a whole bouquet in itself hence the very fitting name. Each nice plants 26c; 3 for 74c, strong field grown stock 48c; 3 for \$1.39, postpaid.

CLIMBING MARECHAL NIEL—A superb yellow rose with large deep golden yellow fragrant flowers. Nice 1 yr. plants 26c each; 3 for 74c; 2 yr. plants 70c each, ppd.

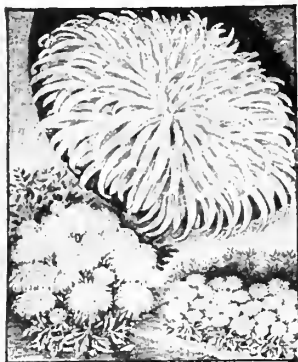

ALIDA LOVETT—Hardy, with mildew-proof foliage and buds and flowers of ideal form. Color a bright shell pink with touches of rich sulphur at base of petals. Nice plants 28c each; 3 for 80c; 2 yr. plants 65c each, postpaid.

EMILY GRAY—Hardy, a new yellow rambler with a dark, glossy green foliage and blooms nearly double of a beautiful shade of golden yellow. A vigorous grower and very popular. Nice plants 32c each; 3 for 90c; 2 yr. plants 75c each, postpaid.

PURITY—Hardy, of vigorous growth and a free bloomer. Large individual flowers snow-white and is recommended as one of the best of hardy white climbers. Nice 1 yr. plants 29c each; 3 for 83c; 2 yr. plants 70c each, postpaid.

SPECIAL OFFER—One each of the three Roses illustrated in 1 year size 74c; 3 in field-grown size \$1.50, postpaid.

BEDDING ASTERS

Beautiful Bedding Asters

CALIFORNIA GIANT—We now have plants to offer, of this grand, new, immense Aster at low prices. State kind wanted: Peach Blossom, Light Blue, Deep Rose, Dark Purple, White, Mixed. Each 22c, 3 for 63c, 12 for \$2.10, postpaid.

DWARF ASTERS—Lovely dwarf bushy Asters. Each 22c, 3 for 63c, 12 for \$2.10, postpaid.

BI-COLOR ASTERS—Double flowers, centers being golden yellow, surrounded by outer petals of soft lavender. Each 22c, 3 for 63c, 12 for \$2.10, postpaid.

GIANT BRANCHING—Assorted colors only, in dark crimson, rose, purple, white, etc. State color wanted. Each 22c, 3 for 63c, 12 for \$2.10, postpaid.

GIANT CREGO—Assorted colors only in crimson, dark blue, rose, white, etc. State color wanted. Each 22c, 3 for 63c, 12 for \$2.10, postpaid.

REX BEGONIA

Possibly the handsomest of all. Leaves, large, beautifully shaped, of satiny texture, frequently vari-colored, the under surface of leaves softly colored and shaded. Each 38c, 3 for \$1.08, 12 for \$3.65, postpaid.

Richly Colored Rex Begonia

Amaryllis Belladonna
—Gigantic Flowers

BIBLE PLANT

STAR OF BETHLEHEM—A fine plant for general outside decoration. Produces pale blue, almost white, star-like flowers. Prolific bloomer. Price: 4 bulbs for 14c, 8 for 25c, 12 for 34c, 25 for 62c, postpaid.

CROWN OF THORNS

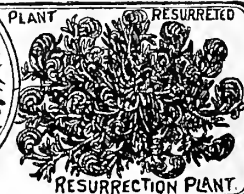

Or **EUPHORBIA**—A peculiar thorny plant with a few bright green leaves and an abundance of light rose blossoms. Of easy culture. Each 31c, 3 for 97c, 12 for \$3.26, postpaid.

THE RESURRECTION PLANT

A ball of tightly folded leaflets, dried and apparently dead. When saturated or placed in water, it "comes to life" forming loose expanded rosette of fine fern-like leaves. Each 16c, 3 for 46c, 12 for \$1.51, postpaid.

HARDY BEGONIA

An exceptionally valuable Begonia of rapid, healthy growth. It re-establishes itself in spring from root tubers. Produces clusters of flowers and buds of a beautiful pink color, in greatest abundance. Foliage very beautiful. Queen of all Begonias. Each 40c, 3 for \$1.14, 12 for \$3.84, postpaid.

Double Tuberous Begonias

TUBEROUS BEGONIAS

Crested and Fringed

CRISTATA—Tubers rest in winter but start again early in spring. We supply dormant bulbs only and not plants, which should be taken up before cold weather, spread out to dry, then packed in sand for winter, in cool place. State color wanted.

Wonderful crested and fringed flowers. White, Yellow, Red, Pink, each 28c, 3 for 80c, 12 for \$2.69, postpaid. Double, White, Yellow, Red, Pink, each 38c, 3 for \$1.08, 12 for \$3.65, postpaid.

FLOWERING BEGONIAS

Few house plants are so satisfactory in every way and so rich in color as these beauties.

ALBA PICTA—Leaves glossy green, spotted silvery white, flowers white. Each 26c, 3 for 74c, 12 for \$2.50, postpaid.

ALBA PICTA ROSEA—Long green leaves spotted silver; flowers bright rose color. Each 27c, 3 for 77c, 12 for \$2.59, postpaid.

ARGENTA GUTTATA—Purple bronze leaves with silvery markings; white flowers. Each 28c, 3 for 80c, 12 for \$2.69, postpaid.

LUMINOUSA—A new variety. Free bloomer with fiery scarlet flowers. Each 32c, 3 for 90c, 12 for \$3.07, postpaid.

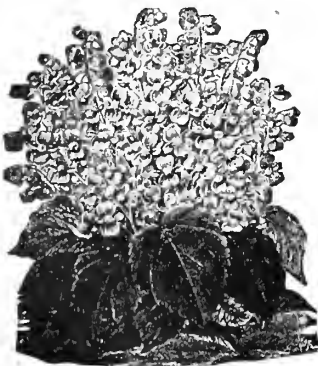

PRIMA DONNA—A fine bedding Begonia, bearing freely its large pink flowers. Each 30c, 3 for 85c, 12 for \$2.88, postpaid.

SHIMDITII—A dark green, small leaved variety; bears pure white flowers. Each 32c, 3 for 90c, 12 for \$2.88, postpaid.

CHRISTMAS RED BEGONIA—One of the most wonderful Begonias in the world. The foliage is a rich, glossy green, shaded deep bronze while the flowers are an exquisite bright cherry changing to coral-red. Its mass of color makes it an outstanding porch decoration. Each 26c, 3 for 74c, 12 for \$2.50, postpaid.

CHATELAINE SUPREME—A thrifty Begonia that flowers at all times. Its mass of color, rose, shading darker—makes it an outstanding porch or window garden decoration. Ornamental foliage. Price 38c, 3 for \$1.08, 12 for \$3.65, postpaid.

**All Plants Are
Sent Postpaid**

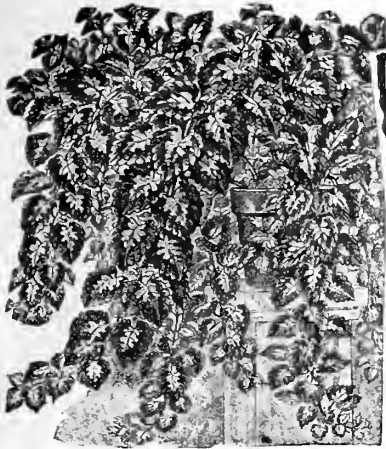

Hardy Begonia—Evansiana

Star of Bethlehem

SPECIAL OFFER—One each of the three Begonias illustrated, Rex Begonia, Hardy Begonia and Tuberous Begonia for pot plants indoors, or for outside planting, list price \$1.06, for 94c, prepaid.

Wonderful Coleus Trailing Queen

FANCY LEAVED CALADIUM

Beautifully variegated foliage plants, splendid for window-boxes, vases, etc., or for planting out of doors in a somewhat shady location.

The leaves are a riot of color with indescribable beauties of design. After being well started, they need liberal watering and adequate drainage. We furnish started plants only; if wanted in paper pots, add 10c per plant extra. Dig the bulbs in October and after drying keep in a warm dry place until spring. Price: Each 39c; 3 for \$1.12, postpaid.

Fancy Caladiums

CALADIUM ESCULENTUM

This plant is often called Elephant Ear on account of the enormous size of the single leaves. Stands six to seven feet high. Its mammoth leaves frequently measuring from 3 to 6 feet in circumference. It is easy to grow and no garden or lawn should be without it, as it is particularly striking when grown either singly or in a group on the lawn, with Cannas as center. Should have plenty of water and a good rich soil.

Each, 19c; 3 for 54c; extra large bulbs, 36c each; 3 for \$1.03, postpaid.

CALADIUM
ESCULENTUM

CACTUS

Wonderful varieties from Mexico with very odd and highly colored flowers having curiously intricate designs. We have selected the following varieties because of their ease of culture and their striking flowers and designs. Note our low prices.

LOBSTER—A wonderfully free bloomer; frequently blooming three or four times a season. Of drooping, weeping habit. Also called "Bleeding Cactus." Each, 38c; 3 for \$1.08, postpaid.

NIGHT BLOOMING CEREUS—Free flowering. This gorgeous cactus usually opens at 7 o'clock in the evening, attaining its greatest beauty at 12; blossoms often measure 12 inches in diameter. Stock extremely scarce this year. Each, 59c; 2 for \$1.14, postpaid.

PHYLLOCACTUS—The most brilliantly hued blossoms among cacti is found on this plant. Often bears 75 blossoms annually. Each, 39c; 2 for 75c, postpaid.

SANSEVERIA—A beauty. Immense and ornamental spikes of foliage with white markings. See illustration on page 116. Each, 32c; 3 for 90c postpaid.

STAPELIA—The Stapelia is a rare beauty and very odd. Beautiful buff yellow blossoms with deep maroon markings. Each, 34c; 3 for 97c, postpaid.

SPECIAL OFFER—One each of above 5 for \$1.82, postpaid.

Stapelia Cactus

TRAILING QUEEN COLEUS—Center of leaves fiery crimson surrounded with deep maroon; deeply serrated edges of bright olive-green. Each, 22c; 3 for 63c; 12 for \$2.10, postpaid.

CHOICE CARNATIONS

Plant out in the garden after all danger of frost is over and give about 12 inches of space. Carnations should bloom from July until late fall; or they may be kept "pinched back" to retard bloom, potted up at approach of frost and brought inside for winter blooming.

FOUR NOVELTIES

SOPHELIA—New. Intense pink. The latest introduction on the market. Unsurpassed in quality and quantity of blooms. Each, 42c; 3 for \$1.20.

RADIOLITE—A new, intense red variety. The large and perfect flowers are borne on long and strong stems. Each, 33c; 3 for 94c.

BETTY LOU—An elegant deep pink, massive flowers. Plants are vigorous and very free flowering. Spicily fragrant. Each, 29c; 3 for 82c.

NORTH STAR—The first yellow carnation ever produced. The flowers are large, perfectly formed, and borne in profusion on long, stiff stems. Each, 38c; 3 for \$1.09. 1 each of above 4, for \$1.28, postpaid.

THREE CHOICE SORTS

BETTY JANE—Large, silvery-pink flowers, long and heavy stems. Spicily fragrant. Each, 24c; 3 for 69c.

HERALD—A magnificent red carnation. The large flowers are borne on stiff, long stems. Each, 22c; 3 for 63c.

MATCHLESS—A large, pure white, long stemmed and free blooming. The petals are attractively fringed. Each, 22c; 3 for 63c. 1 each of above 3, for 62c, postpaid.

Salzer's Carnations

SPECIAL OFFER—One each of the items illustrated on this page, Trailing Coleus, Stapelia Cactus, Fancy Caladium, Radiolite Carnation, and Caladium Esculentum, for \$1.23 postpaid.

Hardy Garden Chrysanthemums

HARDY CHRYSANthemUMS

Salzer's Hardy Mums will flower in October and November in outdoor gardens when other dead and useless plants are practically tattered. Pinching tips of plants once or twice in June will force them to branch and form nice bushes. Varieties given below comprise all the colors of the Hardy Chrysanthemum family and are highly recommended.

TINTS OF GOLD—One of the earliest to flower. Beautiful bronze. 31c each; 3 for 88c, postpaid.

INDIAN—Best dark red grown. A very hardy, free blooming variety. Each, 30c; 3 for 85c, postpaid.

UVALDA—Pure milk white. Full blooms, stiff stems, early flowering. Best in color of its type. Each, 28c; 3 for 80c, postpaid.

AUTUMN GLOW—A beautiful full copper-bronze with red tinge. Excellent. Each, 29c; 3 for 83c, postpaid.

HOMESTEAD—A beautiful strong pink. Produces large flowers in greatest profusion. One of the best. Each, 32c; 3 for 90c, postpaid.

BRIGHT EYES—Marvelous flowers, the outer petals orange apricot and each flower having a bright eye. Each, 30c; 3 for 85c, postpaid.

SPECIAL OFFER—One each of above for \$1.67, postpaid.

Add 10c extra for each plant if wanted with original ball of earth.

Cigar Plant

CIGAR PLANT

A bushy plant about 15 inches high, bearing large numbers of narrow, tubular, scarlet flowers, which have purple and white tips. Very attractive and always in bloom. Each, 22c; 3 for 63c; 12 for \$2.10, postpaid.

Sansevieria Cactus (see page 115)

COLEUS

Plants are broad-leaved, with bushy foliage which is unequalled by any other plants for brilliancy of color. One of the finest bedding and border plants grown. Grows almost anywhere.

BECKWITH'S GEM—Center dark, velvety maroon, bordered fiery red. Edge green changing to creamy yellow at tip of leaf. Each, 16c; 3 for 46c; 12 for \$1.54, postpaid.

ELDORADO—Luxuriant, velvety foliage; old gold handsomely ribbed and blotched very dark garnet. Each, 16c; 3 for 46c; 12 for \$1.54, postpaid.

GOLDEN BEDDER—Lovely golden yellow. A beauty. Each, 16c; 3 for 46c; 12 for \$1.54, postpaid.

ROB ROY—Pinkish red with crinkled edges. Admired by all. Each, 16c; 3 for 46c; 12 for \$1.54, postpaid.

CHRISTMAS GEM—Leaves bright carmine shading to deep maroon, margin being yellow and green. Unexcelled as bedding plants. Each, 30c; 3 for 85c; 12 for \$2.88, postpaid.

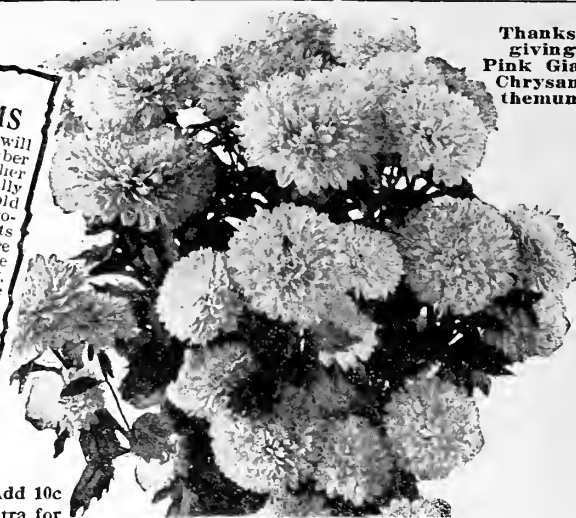

SPECIAL OFFER—One each of the above six Coleus for 85c, postpaid.

MIXED—Above and many other beautiful shades, each 15c; 3 for 42c; 12 for \$1.43, postpaid.

CINERARIA

These lovely house plants are not difficult to grow and are always greatly admired. See illustration on Page 81. We can offer them in mixed colors only. Each, 34c; 2 for 65c, postpaid.

Thanks-giving Pink Giant Chrysanthemum

EIGHT RARE GIANT CHRYSANthemUMS

The undisputed "Queen" of fall blooming flowers. Leaflet, "How to Grow the Florist 'Mums,'" sent free upon request. Prices include postage.

SEIDWITZ—An incurved pink, perfect large flower; early. Each, 28c; 3 for 80c.

DECEMBER GLORY—The largest late flowering white "Mum." Often 6 inches or more in diameter. A compact incurved variety. Each, 25c; 3 for 72c, postpaid.

ENCHANTRESS—An early pink of merit; incurved; early. Splendid growth. Each, 23c; 3 for 65c, postpaid.

GOLDEN KING—Large massive clear yellow flowers. Incurved, borne on long stems. Midseason. Each, 29c; 3 for 83c, postpaid.

MRS. G. G. MASON—Blood red flowers, with gold reverse. Simply gorgeous. Each, 29c; 3 for 83c, postpaid.

TEKONSHA—A splendid large bronze. The immense rich bronze blooms make a grand display. Each, 22c; 3 for 63c, postpaid.

SUNGOLD—All that the name implies. A late, intense yellow of strong upright growth. Each, 25c; 3 for 72c, postpaid.

TIGER—Beats the immense double yellow blooms, of fine upright growth, and holds its color for a long time. Each 27c; 3 for 77c, postpaid.

SPECIAL OFFER—1 each of above for \$1.39.

POMPONS

These flowers run from ¼ inch to above 2 inches in diameter, are small petaled and very compact. Make fine pot plants and are ideal for boutonnières. Each, 22c; 3 for 63c; 6 for \$1.19, postpaid.

BABY—Small white "Mums."

BUCKINGHAM—Bronze.

CHRISTMAS GOLD—Golden yellow.

DOTY—Rose pink.

LUCIA—Lavender pink.

1 each of above 5 for 59c, postpaid.

SPECIAL OFFER—Ten Chrysanthemums of the new large cut flower, large flowering kinds, all different, all labeled, our selection of varieties for \$1.98, postpaid.

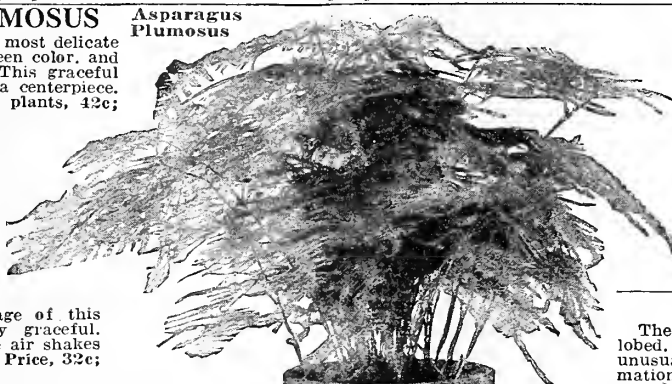

ASPARAGUS SPRENGERII FERN

SPRENGERII FERN—This fern is extensively used for hanging baskets and cut flower work. The rich green trailing fronds are of a fine filmy texture often reaching a length of four feet or more. Each, 24c; 3 for 68c; larger plants, 45c; 3 for \$1.28; extra large plants, 68c each, postpaid.

ASPARAGUS PLUMOSUS

The foliage is of the finest, most delicate texture, of a brilliant dark green color, and is lace-like in its fineness. This graceful plant can not be excelled as a centerpiece. Each, 26c; 3 for 74c; larger plants, 42c; 3 for \$1.20; extra large size, 68c each, postpaid.

Asparagus Plumosus

MOSS FERN

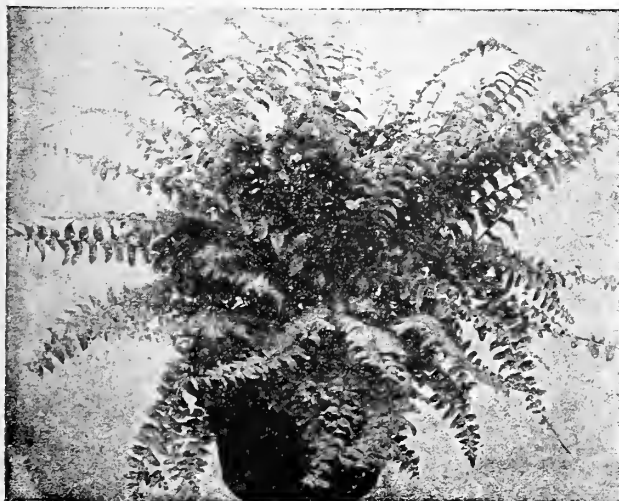

Upright growing, and forming a dense tuft. Attains 6 to 10 inches in height. One of our best varieties for fern dishes requiring little care. Each, 28c; 3 for 80c; 12 for \$2.69, ppd.

PTERIS TREMULA

(Shaking Fern)—The foliage of this Pteris variety is large, very graceful. The slightest movement of the air shakes the leaves. It grows readily. Price, 32c; 3 for 90c; 12 for \$3.07, ppd.

BOSTON FERN

This standard variety is the best for general purposes. The gracefully drooping fronds are rich dark green, spreading or hanging according to the light and often reach a length of five feet. Each, 22c; 3 for 63c; larger plants 38c; 3 for \$1.08; extra large size, 88c each, postpaid.

Boston Fern

EVERBLOOMING ERLANGEAS

A splendid house or garden plant that blooms steadily for at least six months. The tiny tubular, mauve lilac flowers form a dense corymb; foliage is scented. Each, 32c; 2 for 61c, postpaid.

FEVERFEW

Little clusters of very double, snow-white flowers are produced constantly. Very effective in mixed bouquets. Each, 22c; 3 for 63c; 12 for \$2.10, ppd.

DAISIES

CLIFFWOOD GIANT—Exquisite, extra-large double white flowers with yellow centers are borne in riotous profusion. Very hardy. Each, 23c; 2 for 45c; 3 for 65c; 6 for \$1.25, postpaid.

MARGUERITES

This beautiful class of Daisies is not hardy, but as an annual flower it is hard to surpass them. Ideal for window boxes, beds or borders.

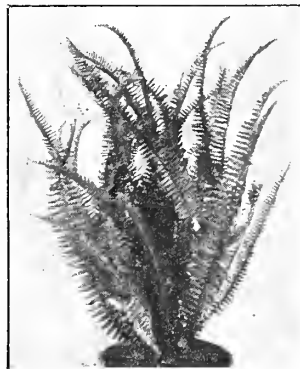

BOSTON YELLOW—Immense double yellow flowers, borne on stout stems. Each, 24c; 3 for 69c; 6 for \$1.29, postpaid.

MRS. SANDERS—Large double white flowers. Each, 21c; 3 for 59c; 6 for \$1.13, postpaid.

MOTHER'S FAVORITE—When potted they produce large, single, white daisy flowers throughout the winter. Each, 13c; 3 for 37c; 6 for 72c, postpaid.

HARDY FERNS

These graceful and universally popular plants are of easy culture. A shady nook where the soil is moist and drainage good will prove an ideal location. Many places more or less shut out from sunlight may be converted into beautiful spots of these ferns. Each, 39c; 3 for \$1.12; larger size, 64c, postpaid.

Sword Fern

SWORD FERN

Graceful fronds are of medium length and resemble the Boston Fern in leaf construction. An excellent plant to grow as a single specimen for pedestals. Each, 30c; 3 for 85c, postpaid. Larger plants, 50c each, postpaid.

STAGHORN FERN

The fronds are thick and irregularly lobed, wedge-shape in outline. A rather unusual variety, very distinct in its formation. Each, 36c; 3 for \$1.03, postpaid.

WHITMANII FERN

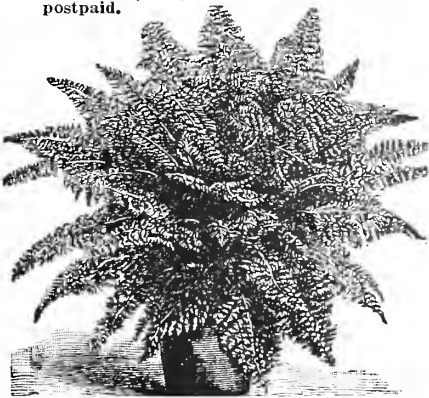

The luxurious, rich green foliage of this rather dense growing plant is more open and the leaf segments smaller and less elongated than the Verona Fern. A splendid variety. Each, 26c; 3 for 74c; larger plants, 48c; 3 for \$1.37; extra large plants, 75c each, postpaid.

VERONA FERN

A handsome new variety with "ostrich plume" foliage and a stiff mid-rib which enables the fronds to stand up with lovely gracefulness. Rather compact, dense and feathery, constantly unfolding fresh fronds. Each, 26c; 3 for 74c; larger plants, 38c; 3 for \$1.08; extra large plants, 75c each, postpaid.

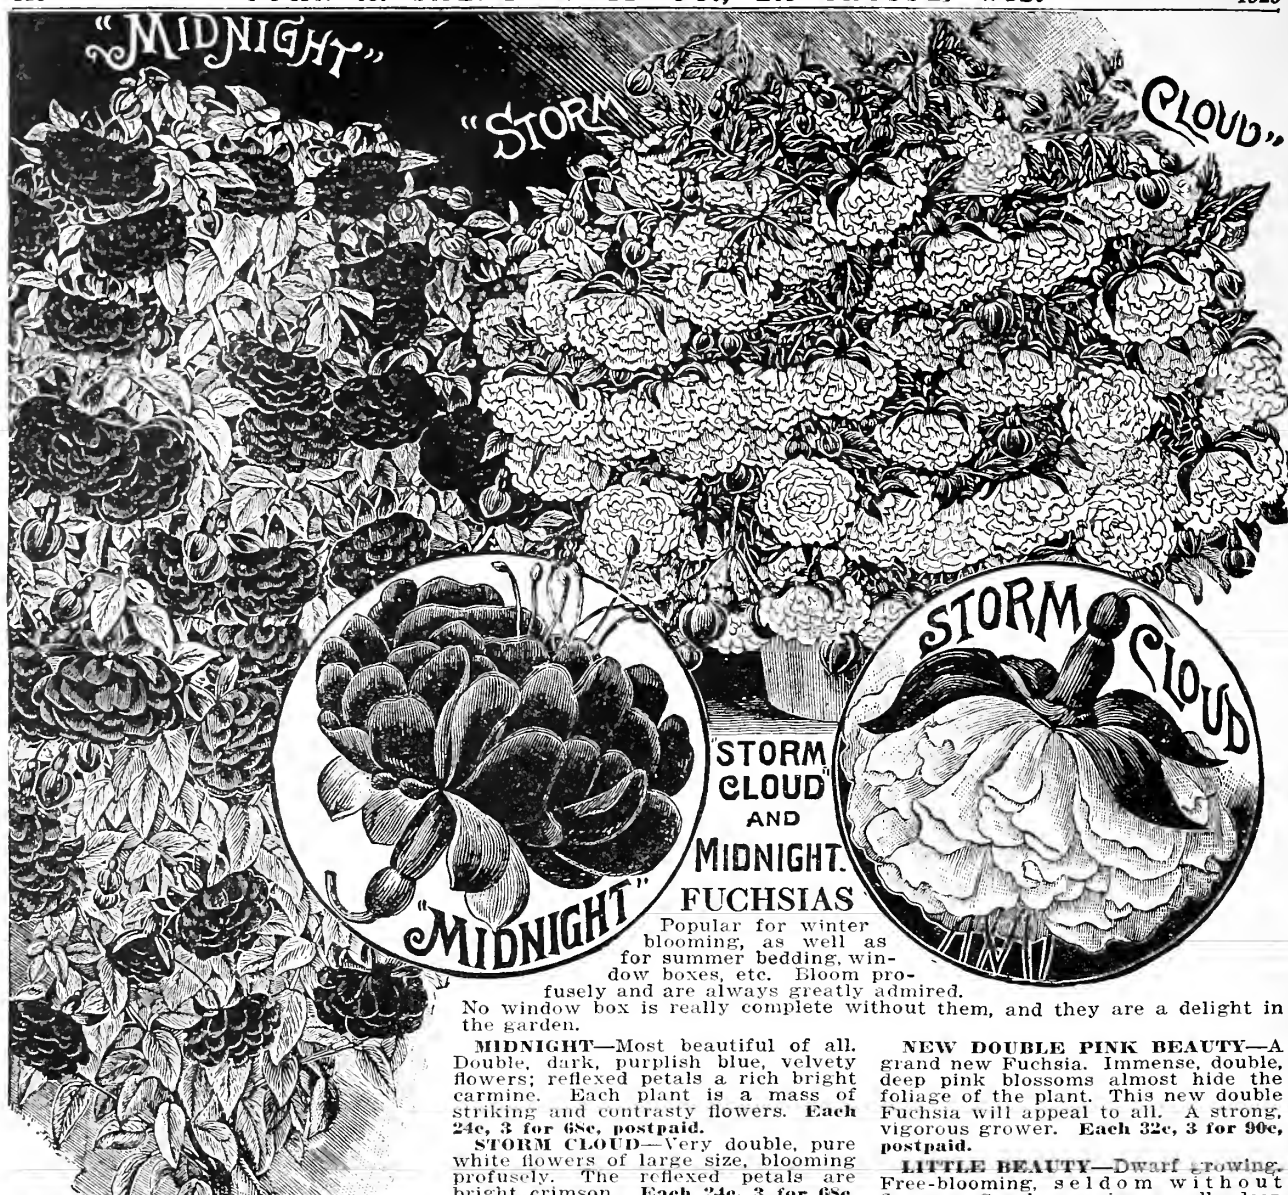

MAIDEN HAIR FERN

The most popular, beautifully graceful, richly green colored and easiest grown of all the Ornamental Ferns. The fronds of this wonderful variety are developed at the ends into bunching tasseled heads and are much used in cut-flower work. Each, 24c; 3 for 68c; larger size, 38c; 3 for \$1.08, postpaid.

Verona.—The New Crested Fern

SPECIAL OFFER—One each of the ferns illustrated on this page, Asparagus Sprengerii, Asparagus Plumosus, Boston Fern, Sword Fern and Verona Fern, list price \$1.19, postpaid. The five in the larger size for \$1.98, postpaid.

SPECIAL OFFER—
One each of the 3
Fuchsias
illustrated
for 70c,
postpaid.

Pansy Geranium, Mrs. Layal

Pansy Geranium

MRS. LAYAL—This Pansy Geranium is literally covered with flowers all the time; and as it requires little or no attention, it is invaluable as a window plant. The coloring and markings of the flowers are most extraordinary—light pink, white, dark purple, black, etc., rivaling the Pansy in uniqueness of flower. Each 35c, 3 for \$1.00, 12 for \$3.36, postpaid.

GOLDEN-LEAVED FUCHSIA WAVE OF LIFE—Golden foliage distinctly different. Flowers single dark purple. A beautiful variety. Each 24c, 3 for 68c, postpaid.

TRAILING QUEEN—This single wine colored Fuchsia is an entirely new departure; differing from all other large-flowering varieties in its habit of growth, as it is a trailing vine. The flowers are borne in large, drooping clusters. Each 29c, 3 for 83c, postpaid.

Fuchsia Trailing Queen

STORM CLOUD AND MIDNIGHT. FUCHSIAS

Popular for winter blooming, as well as for summer bedding, window boxes, etc. Bloom profusely and are always greatly admired.

No window box is really complete without them, and they are a delight in the garden.

MIDNIGHT—Most beautiful of all. Double, dark, purplish blue, velvety flowers; reflexed petals a rich bright carmine. Each plant is a mass of striking and contrasty flowers. Each 24c, 3 for 68c, postpaid.

STORM CLOUD—Very double, pure white flowers of large size, blooming profusely. The reflexed petals are bright crimson. Each 24c, 3 for 68c, postpaid.

PHENOMENAL—An immense ornamental variety with very double deep, violet-purple flowers, darker even than the Midnight. Reflexed petals, crimson. Each 27c, 3 for 77c, ppd.

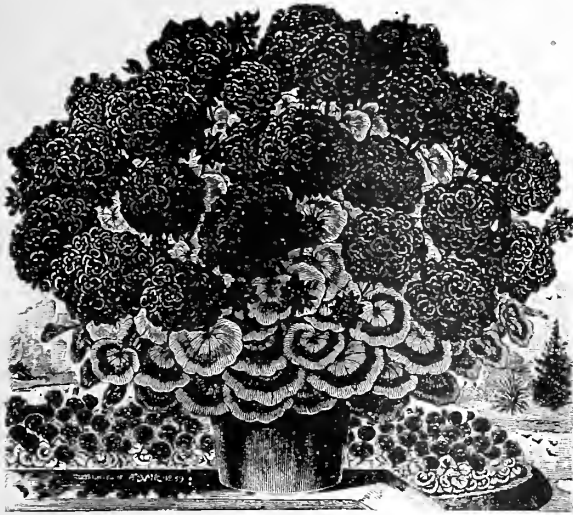

BLACK PRINCE—A splendid single kind. Young flowers are dark blue, changing to carmen-lake as they unfold; petals bright carmine. Each 25c, 3 for 72c, postpaid.

NEW DOUBLE PINK BEAUTY—A grand new Fuchsia. Immense, double, deep pink blossoms almost hide the foliage of the plant. This new double Fuchsia will appeal to all. A strong, vigorous grower. Each 32c, 3 for 96c, postpaid.

LITTLE BEAUTY—Dwarf growing. Free-blooming, seldom without flowers. Sepals carmine, corolla deep lilac. Each 30c, 3 for 85c, postpaid.

SPECIOSA—An aristocrat. Deep scarlet, single flowers, borne at end of long, waxy, white tubes flushed salmon; reflexed petals salmon pink, tipped green. Each 24c, 3 for 68c, postpaid.

SPECIAL OFFER. One each of the Fuchsias above—Phenomenal, Black Prince, Speciosa, Pink Beauty, Little Beauty and Wave of Life. Value \$1.62, for \$1.46, postpaid.

The Popular Double Bedding Geranium S. A. Nutt

SKELETON—Deeply cut fern-like leaves, strongly scented, flowers cerise. Each, 26c; 3 for 74c.

AMERICAN BEAUTY—Compact growth, stately shape, lustrous green foliage. Double American Beauty Rose colored flowers. Each, 29c; 3 for 83c.

MADAME BUCHNER—Flowers purest white. Large flowering type and fine bedder. Each, 24c; 3 for 68c.

S. A. NUTT—The best of the double, dark crimson scarlet bedders and blooms in great profusion. Always dependable for a constant blaze of crimson. Each, 22c; 3 for 63c; 12 for \$2.10, postpaid.

DUCHESS DE MONTMORT—Color, brilliant purple, nearest double blue Geranium we carry. Produces trusses of enormous size. Each 28c, 3 for 74c, 12 for \$2.50.

BRONZE BEDDER—Foliage golden-yellow. Scarlet double blossoms. Striking and perfect habit. Each 27c, 3 for 77c.

Gloxinia

NEW FRENCH HYDRANGEAS

New sorts of French introduction, remarkable for large trusses of flowers and beauty of coloring. Their massive blooms outlast most other plants. They are also excellent for house culture. These plants will be practically dormant when shipped, but will soon respond to sunlight and water.

BOUQUET ROSE—This attractive Hydrangea is exquisite deep rosy-amber turning to bright red. Each, 29c; 3 for 83c; 12 for \$2.78, postpaid.

RED GLOBE—The darkest red variety of the Hydrangeas. Unusually attractive. Each, 42c; 3 for \$1.20; 12 for \$4.04, postpaid.

BABY BIMBENET—Very dwarf, early and free flowering. Large compact trusses of silvery rose. Each, 27c; 3 for 77c; 12 for \$2.50, postpaid.

MADAME CHAUTARD—A grand new variety producing immense florets of deep pink flowers. Each, 26c; 3 for 74c; 12 for \$2.50, postpaid.

TROPHY—Massive trusses of darkest crimson red florets are produced in profusion. Each, 28c; 3 for 80c; 12 for \$2.60, postpaid.

OTSAKA—Produces immense heads of usually pink, but sometimes lovely blue, flowers of great beauty. Each, 26c; 3 for 74c; 12 for \$2.50, postpaid.

SALZER'S FAMOUS GERANIUMS

For Pansy Geraniums see Pelargoniums, Page 121.

JEAN OBERLE—Double, hydrangea-pink shading to white. Immense flowers in trusses. Each, 24c; 3 for 68c.

JEAN VIAUD—Semi-double flowers in large trusses. Beautiful clear rosy pink, white blotched in center. Each, 22c; 3 for 63c.

RADIO RED—New, brilliantly colored intensely glowing flame red flowers large and double. Striking and showy, vigorous grower, profusely blooming. Each, 34c; 3 for 97c.

RED BARNEY—Shapely plants bearing a profusion of immense, deep, fiery red blossoms, large and double. Each, 29c; 3 for 83c; 12 for \$2.78, postpaid.

ALPHONSE RICCARD—Bright vermilion scarlet, giant florets and trusses, semi-double. Each, 23c; 3 for 65c; 12 for \$2.20, postpaid.

BEAUTY OF POITEVINE—Double flowers, salmon-pink. Each, 24c; 3 for 68c; 12 for \$2.30, postpaid.

SILVER LEAVED MRS. PARKER—A beautiful double flowering variety. Foliage deep green with broad margin of pure white. Flowers exquisite shade of bright pink. Each, 38c; 3 for \$1.08; 12 for \$3.65, postpaid.

ROSE SCENTED—The standard, rose scented Geranium. Each, 22c; 3 for 63c; 12 for \$2.10, postpaid.

MME. SALLEROI—A tri-color variety. Six inches; leaves small, clear green edged with pure white. Each, 24c; 3 for 68c; 12 for \$2.30, postpaid.

HAPPY THOUGHT—Similar to the red flowering Happy Thought but with attractive solid pink flowers. Absolutely new. Each 32c, 3 for 90c, 12 for \$3.07.

Double Pink Hibiscus Peachblow

GLOXINIAS

One of the most charming and brilliant of the summer flowering bulbs for house culture. Their rich, velvety green leaves and magnificent graceful tubular flowers of the most glorious shades make them very effective. Bulbs potted in light sandy loam in February or March will bloom in June or July. State kind wanted. Solid white; solid scarlet; solid blue; violet with white edge; red with white edge; solid red with frilled edge; yellow with red edge; white with pink edge. Each, 35c; 3 for \$1.00; 6 for \$1.89; 12 for \$3.36, postpaid. Larger bulbs, 49c; 3 for \$1.40; 12 for \$4.70, postpaid.

All Plants Are Postpaid.

HIBISCUS

Strong growing plants with glossy foliage and large, brilliant, showy flowers. In the open ground during summer, they make a gorgeous display, blooming profusely, and they also make a fine decorative plant for a warm, sunny window.

AURANTIACA—Beautiful double orange colored flowers. Each, 25c; 3 for 72c; 12 for \$2.40, postpaid.

SUBVIOLEACEOUS—Enormous sized flowers, violet tinted. Each, 25c; 3 for 72c; 12 for \$2.40, postpaid.

PEACHBLOW—Double rich, clear pink. Exquisite. Each, 30c; 3 for 85c; 12 for \$2.88, postpaid.

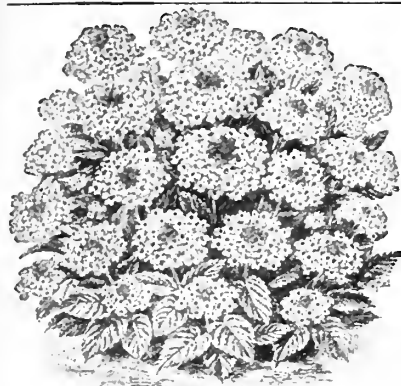

FIREBALL—Large double flowers, brilliant and attractive, first-class. Each, 25c; 3 for 72c; 12 for \$2.40, postpaid.

GLORY OF INDIA—Wonderful free blooming variety, single, large fiery red flowers. Each, 25c; 3 for 85c; 12 for \$2.88, postpaid.

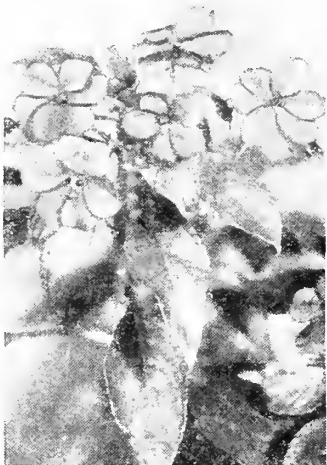

French or House Hydrangea, Madame Chautard

SPECIAL OFFER—One each of the New French Hydrangeas on this page, Bouquet Rose, Red Globe, Baby Bimbenet, Mine. Chautard, Trophy, Otsaka for \$1.62, any four for \$1.15, postpaid.

Large Flowering Bedding Lantanas
IMPATIENS

SULTANI. Elegant winter house plants, growing about 24 inches high, which are almost continuously in bloom! The plants are well shaped and bear profusely, their pure, self-colored, pink or salmon flowers. Also known as Sultans or Zanzibar Balsams. This lovely plant always gives satisfaction. Specify color wanted: Pink or Salmon. Each, 26c, 3 for 74c, postpaid.

Impatiens Sultani

PONDEROSA LEMON

It is an ever-bearing variety. On a fair-sized plant one can find a great many of these ponderous lemons growing at one time. It is a beautiful sight. The plant blooms, and at the same time has fruit in all stages of development, from the size of a pea up to the ripe fruit. Each, 32c; 3 for 89c. Larger plants 75c, postpaid. Cannot be sent into California.

Ponderosa Lemon

SPECIAL OFFER—One Each Otahite Orange and Ponderosa Lemon for 56c, postpaid.

SALZER'S BEDDING LANTANAS

Very desirable for bedding or baskets. Verbena-like heads of orange, white, rose, and other colored flowers. Blooms until frost.

THOMAS MEEHAN—Color, orange changing to deep vermilion. Each 27c, 3 for 77c, 12 for \$2.50, postpaid.

BIENCOURT—A beautiful shade of bright rosy pink. Flowers large and showy. Each 25c, 3 for 72c, 12 for \$2.40, postpaid.

MICHAEL SCHMIDT—Brilliant yellow passing to pure vermilion. 25c each, 3 for 72c, 12 for \$2.40, postpaid.

ALBA PERFECTA—Pure white, compact habit. Each 24c, 3 for 64c, 12 for \$2.30, postpaid.

TETHYS—New beautiful lemon yellow. Each 30c, 3 for 85c, 12 for \$2.88, postpaid.

RADIATION—Crimson changing to yellow at Each, 26c, 3 for 74c, postpaid.

OTAHITE ORANGE. As a pot plant this lovely dwarf Orange is most unique. Its beauty and value is its constant bloom and continuous bearing. Blossoms, green and ripe fruit on the same plant at the same time. Each, 30c; 3 for 82c. Larger plants, 50c, 75c and \$1.00, postpaid. Cannot be sent into California.

ALAMO OLEANDERS. Popular old-fashioned plant. Foliage, dark green, somewhat willow-like, grows easily but should be rested in winter. Decorative and desirable, semi-double. Red, Pink or White flowers. Red, each, 34c; 3 for 96c, postpaid. Pink, each, 32c; 3 for 89c, postpaid. White, each, 30c; 3 for 82c, postpaid.

HEN and CHICKENS (Echeveria). A very attractive and very effective little edging or border plant, largely used in design planting. Thrives in any kind of soil. Forms a rosette of leaves. Fine for bordering and rockeries. Each, 28c; 3 for 86c; 12 for \$2.69, postpaid.

HELIOTROPE CENTIFLEUR—A new and wonderfully fragrant Giant Flowered Heliotrope. The color is of darkest lavender. Strong and vigorous grower and a fine house plant. Each, 28c; 3 for 86c; 12 for \$2.69, postpaid.

Weeping Lantana
Fine Trailing Plant

WEeping LANTANA—Fine for winter flowering in hanging baskets or pots. Color, delicate shade of rosy lilac changing to violet purple. Free flowering. A great beauty. Each, 26c; 3 for 74c; 12 for \$2.50, postpaid.

OXALIS

Splendid little plants, very effective in masses and valuable for edging; should be planted about 3 inches apart. They begin to bloom almost as soon as planted and flower all Spring and Summer. Very popular for hanging baskets.

Everybody succeeds with the Oxalis. We offer bulbs, but as season advances, we send out started plants, which will give earlier flowers.

GRAND DUCHESS PINK—Exquisite pink.

GRAND DUCHESS LAVENDER—Rich lavender. Price of above: 6 for 42c; 12 for 75c; \$4.45 per 100, postpaid.

BERMUDA BUTTERCUP—Finest of all, strong and luxuriant growth with a great profusion of bright buttercup yellow flowers. 6 for 42c; 12 for 75c; \$4.55 per 100, postpaid.

Blue Lily of the Nile

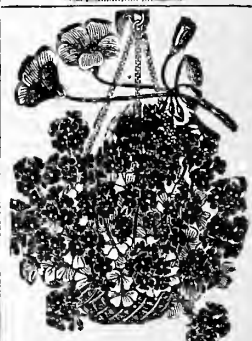

BLUE LILY OF THE NILE. Splendid ornamental amaryllis-like foliage. Blue flower spikes, 28c each; 3 for 86c. Larger, 42c, 60c, \$1.00 or \$1.50.

Otahite Orange

LOBELIA

Dainty blue flowers, dwarf and compact growth. Unexcelled for edging, window boxes and hanging baskets. Strong transplanted seedlings. Doz., 59c; 25 for \$1.10; 50 for \$1.95, postpaid.

Oxalis, Bermuda Buttercup

SPECIAL OFFER—One each of items illustrated. Radiation Lantana, Blue Lily, Impatiens, Weeping Lantana, Pink Oleander, and six Oxalis Bermuda Buttercup, for \$1.62 postpaid.

Grown from Salzer's Pansy Plants

PANSY PLANTS

Strong, thrifty plants of superb colors and markings, grown from our own superior strains of Pansy seed. Get a hundred started plants. They are already in bloom and will give you an enormous amount of flowers.

Doz., 52c; 25 for 98c; 50 for \$1.89; 100 for \$3.69, postpaid.

Cliffwood Crown. Frostproof Pansy Plants. (No. 1) Snowdrift; (2) Northern Lights; (3) Alaska; (4) Iceland; (5) Yukon; (6) Northern Star; (7) North Pole. Doz., 89c; 25 for \$1.58; 50 for \$2.98; 100 for \$5.49, postpaid. Mixed: Doz., 79c; 25 for \$1.49, postpaid.

ADD 10c EXTRA FOR EACH PLANT IF WANTED WITH ORIGINAL BALL OF EARTH

PELARGONIUMS

Also called Pansy Geraniums and Lady Washington Geraniums. They resemble geraniums in habit, character and treatment. Petals large and brilliantly blotched. Pelargoniums delight in hot sun-light, withstanding temperatures that would shrivel other flowers, but they demand plenty of water.

DIENER'S GIANT. New. Enormous, beautiful dark rose flowers, the two upper petals marked with a large dark blotch. Bears the largest flowers of any variety. Blooms freely all summer. Each, 59c; 3 for \$1.69, postpaid.

EASTER GREETING. This species is one of the earliest of all Pelargoniums, with enormous florets of fiery amaranth red, each petal marked with a large black blotch. Price: 37c; 3 for \$1.05, postpaid.

GARDENERS' JOY. This fine new variety bears probably the largest flower clusters of any kind, resembling to some extent the trusses of the Rhododendron. The color is apple-blossom pink, with upper petals heavily blotched with brown. Each, 36c; 3 for \$1.03, postpaid.

LUCY BECKER. A wonderful flower of wild rose pink. Each floret has from six to eight petals with dark red velvety spots edged with scarlet lake. Each, 32c; 3 for 90c, postpaid.

SWABIAN MAID. This is a new sort of Easter Greeting and has large almost jet carmine flowers with black almost jet blotches. Very effective. Coloring and ever blooming qualities like the Easter Greeting. Each, 35c; 3 for \$1.00, postpaid. One each of above 5, for \$1.80, postpaid.

Pelargonium Gardeners' Joy

PASSION VINE

Tender climbing vines, splendid for outdoor decoration as well as house culture. Attractive purplish blue flowers, blooming profusely for several months. Each, 29c; 3 for 83c, postpaid.

Passion Vine

SPECIAL OFFER
One each of the two Primroses listed for 56c, postpaid.

PRIMROSE

Charming and beautiful house plants, with varied colors of great brilliancy.

MALACOIDES (Baby Primrose). A new race of Primroses from China, that has proved very free-flowering for pot culture. Has rosettes of light green leaves with numerous wiry stems crowned with graceful white and lilac flowers. Mixed each, 24c; 3 for 68c, postpaid.

OBCONICA GRANDIFLORA. These Ever-blooming Primroses are also great favorites for indoor culture. Bear truly giant flowers, many of them 1½ inches in diameter, and bloom for a long period. Assorted colors only, ranging from dark red to lightest pink. Each, 28c; 3 for 80c; 6 for \$1.50; per dozen \$2.69.

Salzer's Primrose Obconica Grandiflora

Add 10c extra for each plant if wanted with original ball of earth.

DOUBLE PETUNIAS

Strictly double flowers, large, well-shaped. Customers find it difficult to grow the Double Petunias from seed, as they are produced from the weaker seedlings. We offer only strong, healthy vigorous plants out of 2½ in. pots. Last summer we counted 26 flowers on a single plant, each flower a crinkly mass of solid bloom, elegantly ruffled, averaging about 4 inches in diameter. Unexcelled for porch and window boxes. Prices include postage.

Double Rosy Morn. Soft rose pink, double flowers, borne very freely. Looks almost like a full carnation. Each, 39c; 3 for \$1.12; 6 for \$2.17.

Double Pink. Each, 26c; 3 for 72c; 6 for \$1.38.

Double Purple. Each, 27c; 3 for 79c; 6 for \$1.50.

Double White. Each, 25c; 3 for 72c; 6 for \$1.35.

Special, one each of above 4 Petunias for \$1.05, postpaid.

SINGLE PETUNIAS

GIANT ROYAL PURPLE. A splendid, very showy type. Immense single flowers, fringed and ruffled, often 4 to 5 inches in diameter, of a luxurious shade of rich purple. Nice plants, each 16c; 3 for 46c; per dozen, \$1.51, postpaid.

GIANT RUFFLED. Rich, gorgeous colors, flowers single. Beautifully ruffled and fringed with deep throats of various shades. Assorted colors only. Nice plants, each 16c; 3 for 46c; per dozen, \$1.51, postpaid.

ROSY MORN. Compact, bushy growth, about 12 inches high. Silvery white throat, outer edge heavily shaded rose pink. Nice plants, each 16c; 3 for 46c; per dozen, \$1.51, postpaid.

BALCONY MIXED. One of the best for outdoor culture. Colorful and striking shades, all assorted. Nice plants, each 16c; 3 for 46c; per dozen, \$1.51, postpaid.

Double Pink Petunias

SPECIAL OFFER—One each of plants illustrated on this page: Gardeners' Joy Pelargonium, Double Pink Petunia, Primrose Obconica, Passion Vine and 12 Pansies, for \$1.59, postpaid.

PENNISETUM

Also called Fountain Grass. A highly ornamental, tender grass growing 3 feet high, with gracefully drooping bronze-green foliage and upright purplish plumes. Prized for planting singly or as borders for Elephant's Ear or for Cannas. Each, 20c; 3 for 57c; 6 for \$1.08; per doz. \$1.92, postpaid.

PARROT'S FEATHER

PARROT'S FEATHER—A magnificent decorative water plant possessing light green, feathery foliage of drooping habit. Unexcelled for use in water tight vessels and aquariums, and will also grow in pots if the soil is kept saturated. Price 32c each; 3 for 90c, postpaid.

ARTILLERY PLANT (PILEA)

(ARTILLERY PLANT) PILEA—A low growing plant with fine bronze-green foliage and very peculiar in that the tiny flowers when disturbed by moving the plant or by watering it, burst open and the pollen is thrown out like a miniature cloud of smoke. Each, 24c; 3 for 68c; 12 for \$2.30, postpaid.

ROSEMARY

A delightful house plant, leaves fragrant, small lilac colored blossoms. Can be grown easily and with little care. Often sheared or clipped into the shape of a cross, etc. Each, 20c; 3 for 57c, postpaid.

Plumbago

PLUMBAGO

The Plumbagos are very desirable for the garden and for winter pot culture. They are constant bloomers and bear a profusion of handsome, phlox-like sky blue, graceful flowers. Plants are of vigorous growth. Easily grown. Each, 32c; 3 for 92c, postpaid.

SAGE PLANTS

Extensively used for seasoning. Plants are very robust, perfectly hardy, and increase with age. Order a few plants this year and grow your own sage. Each, 22c; 6 for \$1.19; doz., \$2.10, postpaid.

SWAINSONA

This continuous bloomer is known as the "Winter Sweet Pea." Foliage airy light green, may be twined and trained, flowers are widely used in bridal bouquets. Each, 26c; 3 for 74c, postpaid.

SALVIAS

Nice strong plants 20c each; 6 for \$1.03; per doz., \$1.92, postpaid.

AMERICA—Too well known to need description. Produces blooms of an exquisite shade of red. One of the best.

SPLENDENS—In autumn it is a mass of dazzling scarlet flowers that remain in bloom until killed by frost.

FIREBALL—A very early sort, dwarf and compact. Large, brilliant, scarlet flowers. Profuse bloomers. For price, see above.

VERBENAS

Showy, compact, flowering plants that bear masses of beautiful, highly colored flowers throughout the summer. Brilliant shades of purple, scarlet, white and pink. Assorted colors only.

Nice plants, each, 18c; 3 for 52c; doz., \$1.73, postpaid.

VINCA

MAJOR VARIEGATA. Splendid vines for hanging baskets, vases, or window boxes.

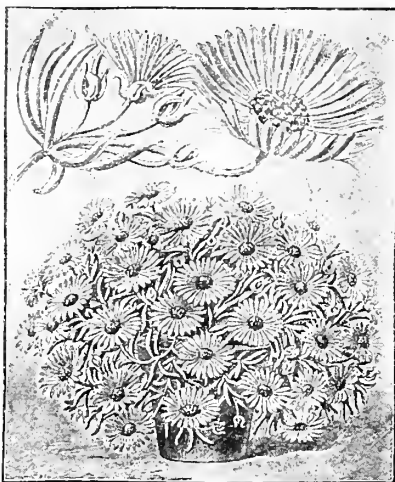

Beautifully variegated green and white foliage. Each, 18c; 3 for 52c; doz., \$1.73. Larger plants, 35c each, postpaid.

Violet—Gov. Herrick

POMEGRANATE

A splendid new, non-fruiting Pomegranate! Small bushy plants about ten inches high, fairly bristling at all times with bright scarlet, double flowers. Especially desirable for winter blooming, as its flowers are abundant and lasting. Easily cared for. Each, 40c; 3 for \$1.14, postpaid.

Wax Plant

PINK WAX PLANT

PINK FLOWERING WAX PLANT. (Desert Plant.) Produces beautiful pink flowers at all times. Of frosted wax-like appearance. Suitable for rock work, hanging baskets; also for a pot plant. Is of bushy growth and free flowering. Excellent. Price each, 26c; 3 for 74c; 12 for \$2.40, postpaid.

VIOLETS.

"Sweeter than Roses." Of easy culture. If grown in the house for winter flowers, keep at a low temperature as they do not bloom freely in a warm room. If left out over winter, protect with a covering of leaves. Our stock is Cliffwood grown.

Each, 28c; 3 for 80c; per doz., \$2.69, postpaid.

MARIE LOUISE. One of the finest Violets grown, very double and large; color, dark lavender blue.

GOVERNOR HERRICK. A wonderful large, dark blue single violet with dark glossy leaves.

WHITE SWAN. A pure white variety; flowers are double and of immense size; deliciously fragrant.

Special—1 each of above 3, for 76c, postpaid.

TUBE ROSES

One of the most beautiful and delightfully fragrant of the summer flowering bulbs. Large, massive spikes of creamy white waxes from July on.

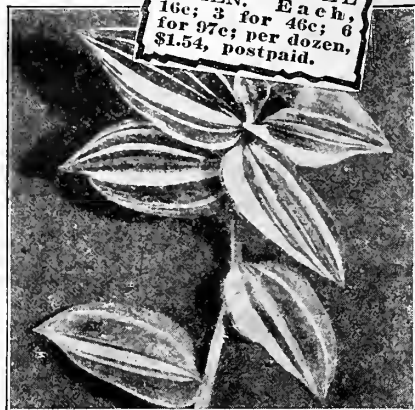

Excelsior. Double White Pearl. Each, 16c; 3 for 46c; 6 for 86c; doz. for \$1.54, postpaid.

Salzer's Tuberoses

WANDERING JEW

Fine variegated leaves striped crimson, or green and silver. These beautiful vines are trailing for window boxes, and also for house culture, especially on pedestals. Specify kind wanted: **GREEN, STRIPED SILVER; GREEN, STRIPED CRIMSON, or ALL GREEN.** Each, 16c; 3 for 46c; 6 for 97c; per dozen, \$1.54, postpaid.

Wandering Jew; Green, Striped Silver

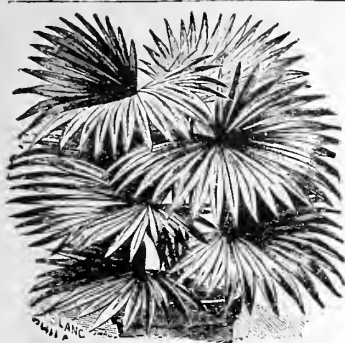

SPECIAL OFFER—Three beautiful house plants, Parrot's Feather, Pink Wax Plant, and Wandering Jew for 67c.

POPULAR DECORATIVE PLANTS

No collection of plants is complete without palms. Watering the soil not oftener than three times, nor less than once a week, and sponging the leaves frequently with tepid water, will normally preserve health and discourage the accumulation of unsightly dust or marauding insects.

LATANIA BORBONICA—This popular plant is known also as the Fan Leaved Palm because of its large, deeply divided, cheerful green fan shaped leaves. Hardy constitution. Each, 44c; 3 for \$1.26; large size 80c, each; 3 for \$2.28, postpaid.

PHOENIX ROEBELENI—The most graceful of the Phoenix, and a Palm which has become one of the most popular for room decoration. The plant is of vigorous growth, and its gracefully, recurving leaves, with very narrow dark green pinnae give it a lightness and airiness not surpassed, if equalled by any other; at the same time it is as hardy as a Kertia, succeeding admirably as a house plant. Each, 65c; 3 for \$1.85; larger plants \$1.25; 3 for \$3.56, postpaid.

Latania Borbonica Palm

ANTHERICUM (St. Bernard's Lily). Recurved, graceful foliage, a handsome pot plant, useful for vases. Leaves dark green, beautifully marked with broad stripes and bands of creamy-white. Bears large spikes of white flowers. 30c each. Larger plants 50c, postpaid.

RUBBER PLANT (Ficus Elastica)—The well known Rubber Plant, one of the most satisfactory of all house plants is of tropical nature being at its best under moist conditions and high temperature. Fine for decorative purposes and easily grown in the home. Each, \$1.25; 3 for \$3.56, postpaid.

Attractive Water Hyacinth

WATER HYACINTH—A very attractive water plant forming lovely rosettes of shining green leaves. The exquisite flowers are lilac-rose resembling Orchids. Each, 30c; 3 for 85c; 12 for \$2.88, postpaid.

WATERMELON BEGONIA—Leaves are distinctly variegated white and green, thick and waxy-like and have the appearance of being powdered with frosted silver. Each, 32c; 3 for 90c; 12 for \$3.07, postpaid.

Rubber Plant

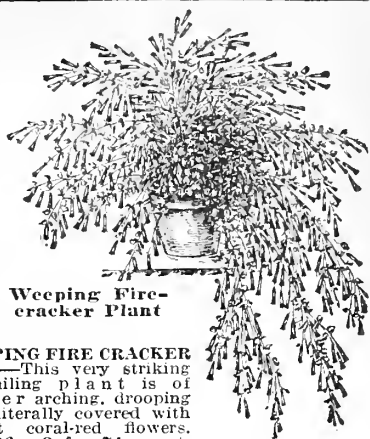

Umbrella Plant

UMBRELLA PLANT—This semi-aquatic plant produces stems 2 to 3 feet high surmounted with slender, drooping leaves. Flowers small, cream-colored. Each, 22c; 3 for 63c; 12 for \$2.10, postpaid.

Watermelon Begonia

Weeping Firecracker Plant

WEEPING FIRE CRACKER PLANT—This very striking semi-trailing plant is of slender arching, drooping habit, literally covered with brilliant coral-red flowers. Each, 26c; 3 for 74c, postpaid.

DRACAENA INDIVISA—The favorite center plant for boxes, vases and baskets. Has numerous slender, stiff grass-like green leaves. Each, 26c; 3 for 74c, postpaid.

SILK OAK TREE (Grevillea). A magnificent plant for decorative purposes. Of rapid easy growth, its fully cut foliage rivaling a rare Fern. An attractive decorative plant for pot or tub growing. 26c each, postpaid.

SALZER'S HAPPY HOME PLANT COLLECTION

We are obliged to grow large stocks of all kinds of plants and bulbs to make sure that we have enough—so after the heavy spring business is about over, in May, we take this stock of choice plants and make them into Happy Home Collections, our selections. You will find repeatedly in this Collection plants that are priced in the catalog at 25c each and higher.

We do not guarantee any specified plants in the Collection, but we do guarantee full money's worth. It usually contains at least 1 Fern, 1 Fuchsia, 1 Geranium, 1 Palm, Petunia, Calla Lily, 1 Mum, Salvias, Lantana, etc., depending upon what items we have a surplus of. All plants are carefully labeled.

All orders are booked and sent in spring at the close of our season, or earlier, as our stock permits. Because of delays in transit, no orders shipped to California. Order early.

**SALZER'S
HAPPY HOME
COLLECTION
87c POST PAID.**

SPECIAL OFFER—One each of items illustrated on upper half of this page, Latania Borbonica Palm, Firecracker Plant, Umbrella Plant, Water Hyacinth, Watermelon Begonia, and Rubber Plant for \$2.52.

JERSEY BEAUTY—(Peony)—The leader at all shows. Nothing better, worth several others. Be sure to buy it. Color rose-pink. \$1.55, 3 for \$4.12, postpaid.

EMMA SLOCOMB—(Decorative)—Greatly admired at shows. Good form and substance. Clear white. Very choice. 97c, 3 for \$2.76, postpaid.

CAMELLIA—(Show)—Massive in build. Free blooming. . . . "A glow of striking, satiny La France pink blooms until frost." 42c, 3 for \$1.20, postpaid.

DOROTHY PEACOCK, Light Pink (Peony)—Beautiful clear, light pink blending to white at center. Immense. Each 45c, 3 for \$1.28, 12 for \$1.32, postpaid.

EUREKA, Deep Purple (Cactus) — Very deep purple. Beautiful in form and color. Petals are long, straight and tightly quilled. Each 45c, 3 for \$1.28, 12 for \$1.32, postpaid.

SUNNY SOUTH, Deep Yellow (Cactus) — An immense, deep clear yellow. The best yellow Cactus grown. Fine for exhibition. Each 80c, 3 for \$2.28, 12 for \$7.68, postpaid.

MARATHON, Rich purple (Cactus)—Brilliant, rich purple with lighter shadings. Entirely distinct from other cactus varieties. Each 55c, 3 for \$1.57, 12 for \$5.28, postpaid.

PIERROT, Amber (Cactus)—Deep amber distinctly tipped white; sometimes solid amber. A splendid exhibition and garden variety. Each 50c, 3 for \$1.43, 12 for \$4.50, postpaid.

SHANGHAI, Chinese Orange (Cactus) — Brilliant Chinese orange. Flower large, distinct and beautiful both in coloring and form. Each 60c, 3 for \$1.70, 12 for \$5.66, postpaid.

ALL-COLOR DAHLIA COLLECTION

These unnamed varieties are for those who want Dahlia blooms in quantity and who care nothing for names. They take in all of the different classes, types and colors. Strong roots that will bloom this summer.

RED—Shades of scarlet, maroon, etc. 21c each.

YELLOW—Shades of yellow ranging from dark to light. 24c each.

PINK—Light pink, cerise pink, dark pink, etc. 21c each.

WHITE—Pure white flowers. 21c each.

PURPLE—Strikingly contrasted with red and pink, etc. 24c each.

VARIEGATED—Fancy varieties from the Cactus, Peony, Show and Decorative types. 21c each.

SPECIAL—All-type Dahlia Collection—One each of the six unnamed Dahlias above, \$1.24, postpaid.

SPECIAL OFFER—Six Dahlias; 2 Peony, 2 Decorative, 2 Cactus, in colors, Red, Pink and Yellow; a fine collection all named for \$1.52, postpaid.

SALZER'S Giant Flowering Dahlias

The most beautiful of all Autumn flowers. We believe the following varieties will give one all that today's best Dahlias will produce.

We supply dormant field roots only, which should be planted about six inches deep, laid flat, eyes or sprout up. Dahlias are not particular as to the soil or location, but the best results are obtained on moderately rich soil and exposed to the full sun. Leaf-let "How to Grow Dahlias" free upon request.

TYPES OF DAHLIAS—Decorative Dahlias are large, flat and full centered; petals quite irregularly situated, long, broad, flat and nearly straight. Peony Flowered Dahlias are semi-double, having two, three or more rows of broad, flat, loosely arranged petals surrounding a conspicuous rich, golden yellow center. Petals are often pointed, and sometimes twisted. Cactus Dahlias are loosely and artistically formed, and very irregular, resembling the Chrysanthemum.

ROSE PERFECTION (Decorative)—Flowers on unusually long, stiff stems. Of splendid decorative form, measuring fully nine inches across of a pleasing shade of solferino-pink with white suffusion. Each 55c, 3 for \$1.57, 12 for \$4.80, postpaid.

MAUDE ADAMS—(Show)—It is a distinct variety, in a class by itself. Blooms sensational in size, borne in remarkable profusion from early summer until frost. Color, a beautiful combination of silvery white, effectively overlaid and predominated with clear pink. Each 48c, 3 for \$1.37, 12 for \$4.60, postpaid.

MRS. I. DE VER WARNER—(Decorative)—Mauve-pink. Impressive on account of its size and beautiful orchid color. An abundant bloomer. \$1.05, 3 for \$3.00, postpaid.

BONNIE BRAE—(Decorative)—A wonderful combination of peach and cream shadings. Flowers are often 8 to 10 inches in diameter. \$1.05, 3 for \$3.00, postpaid.

PRIDE OF CALIFORNIA—(Decorative)—Brilliant, glowing cardinal red, of very large size, held on extra good stems. 52c, 3 for \$1.49, postpaid.

QUEEN EMMA—(Decorative)—Clear Pink. One of the very best pink Dahlias. Very large, with full center. A strong, healthy, vigorous, upright grower. Each 50c, 3 for \$1.43, 12 for \$4.80, postpaid.

WHITE SWAN—(Peony)—This magnificent Dahlia is pure silvery white. It is a vigorous grower and produces an abundance of blooms. Price 38c each, 3 for \$1.08, postpaid.

MILLIONAIRE—(Decorative)—Delicate lavender pink with faint pink over-cast. A monster Dahlia of wonderful color. 87c, 3 for \$2.48, postpaid.

NEWPORT PINK—(Peony)—A most delicate shade of lilac-pink. The yellow center is open with inner petals curling and twisting over it. Unusually attractive. 41c, 3 for \$1.18, postpaid.

DREAMLIGHT, Light Salmon (Peony)—Pale old rose, illuminated with yellow. Free bloomer. Very large attractive flowers. Each, 72c, 3 for \$2.06, postpaid.

PATRICK O'MARA, Orange Buff (Dec.)—Nationally famed. Beautiful shade of orange buff. A gold medal variety. Each, 62c, 3 for \$1.76, postpaid.

MASTERPIECE, Salmon (Dec.)—A blending of salmon-pink, red, orange, yellow and pure gold. Exceptionally good. Each, 85c, 3 for \$2.42, 12 for \$8.16, postpaid.

Salzer's Giant Flowering Dahlias

CLEOPATRA—(Marean)—Large flowers on good wiry stems. The color is a fine shade of yellow, the reverse of the petals being a tangerine shade, the combination being especially attractive. Fine for garden decoration. 48c, 3 for \$1.37, 12 for \$1.60, postpaid.

HELEN KELLER—(Two type)—Named by request in honor of one of the world's most noted women; the color is almost identical with the well known Dahlia, Rosenmawr, but it is an improvement on that variety, being larger and more beautiful in form. 48c, 3 for \$1.37, 12 for \$1.60, postpaid.

SNOWDRIFT—(Decorative)—Snow white. Giant, pure white, deep flowers with broad waxy petals. Fine for garden and exhibition purposes. 44c, 3 for \$1.26, postpaid.

AMERICAN BEAUTY—(Show)—Wine crimson. Flowers of gigantic size produced on long stems. Choice. 55c, 3 for \$1.57, postpaid.

NANCY HELEN, Shrimp Pink (Dec.)—Delicate shrimp pink. Free bloomer on long stems. Unusually attractive. Each 62c, 3 for \$1.76, postpaid.

INDIAN CHIEF, Indian Red (Colossal Peony)—A wonderful Dahlia. Indian red and gold. Immense flowers on long stiff stems. Each 48c, 3 for \$1.37, postpaid.

BREAK O'DAY, Yellow White (Dec.)—Sulphur Yellow tinted white at tips. Each 57c, 3 for \$1.63, postpaid.

BONNIE BLUE, Rosy Purple (Show)—Enormous flowers of rich rosy purple. An outstanding variety, splendid for cut-flowers and garden decoration. Each 62c, 3 for \$1.76, postpaid.

GLADYS SHERWOOD, Giant White (Colossal Cactus)—A Dahlia wonder. Marvelous blooms over ten inches in diameter, of unusual depth. Snow white. Profuse bloomer. Each 95c, 3 for \$2.70, postpaid.

EXQUISITE, Pale Pink (Cactus)—Pale pink shading to cream center. An attractive flower of a most dainty color combination. Each 90c, 3 for \$2.57, 12 for \$8.64, postpaid.

GEISHA, Orange, (Peony)—Orange, yellow center, paling towards tips. Twisted and curled. A great favorite. Each 52c, 3 for \$1.49, postpaid.

SPRINGFIELD, Red, (Cactus)—Rich amaranthine red. Splendid garden variety. Outstanding. Each 47c, 3 for \$1.34, postpaid.

TORCHLIGHT, Vivid Orange, (Dec.)—Flowers of bright orange streaked and splashed with carmine. Each 50c, 3 for \$1.43, postpaid.

OREGON BEAUTY, Orange Red, (Dec.)—Gorgeous flower of orange-red. A specimen variety for the garden. Very popular. Each 62c, 3 for \$1.76, postpaid.

Yellow Peony Dahlia, California

CALIFORNIA—(Peony)—In color it is a beautiful clear rich deep yellow. The blossoms are large, and produced upon good long stiff stems. Very free-flowering. 42c, 3 for \$1.20, 12 for \$4.04, postpaid.

SPECIAL DAHLIA COLLECTION

These Collections are made from the various types of Dahlias, assorted colors only, and of our selection. Will give you a fine array of flowers.

Collection No. 1—Five Roots, 78c, postpaid.

Collection No. 2—Eight Roots, 98c, postpaid.

Collection No. 3—Fifteen Roots, \$1.68, postpaid.

SALZER'S PERENNIAL PHLOX

Our Giant Phlox are one of the most desirable of the hardy perennial plants. They can be used to good advantage in a border, planted in front of shrubbery, or in large groups on the lawn, and will thrive in any soil or position. Very hardy. For Phlox Subulata, see Page 132.

B. COMPTE—This striking variety is exceptionally attractive planted in beds of contrasting colors. It is tall growing and very showy, producing large, brilliant heads of rich, satiny French purple with crimson-carmine shadings. It thrives well in any soil and is very hardy. Price 30c each, 3 for 85c, 12 for \$2.88, postpaid.

COLQUILCOT—We offer an improved form of this choice, attractive variety. The gorgeous flowers are rich, vivid, scarlet-red, very brilliant and distinctive. Wherever a deep color effect is needed this plant will meet all requirements. It is a very vigorous grower and will withstand the severe cold weather. Price 25c each, 3 for 80c, 12 for \$2.63, postpaid.

RJINSTROOM—The exquisite coloring of this variety closely resembles that of the Paul Neyron Rose and cannot be surpassed by any other of its type. It is a vigorous and abundant grower producing innumerable stems, each bearing immense, compact trusses of brilliant rose-pink flowers. Price 25c each, 3 for 72c, 12 for \$2.40, postpaid.

ECLAIREUR—Beautiful clear rose with large lighter halo, large florets. Magnificent bedder. 25c each, 3 for 72c, 12 for \$2.40, postpaid.

ELIZABETH CAMPBELL—Salmon pink; dark crimson eye. One of the handsomest and most attractive varieties. 30c each, 3 for 85c, 12 for \$2.88, postpaid.

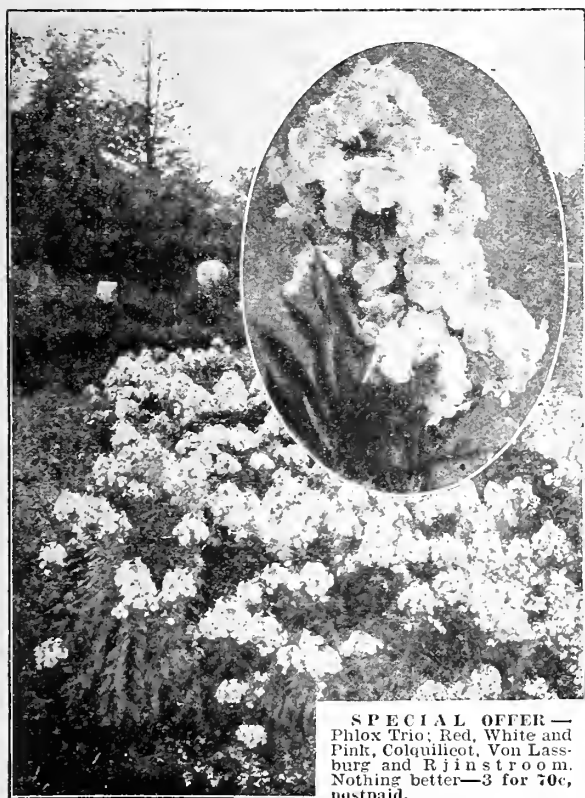

RHEINLANDER—Salmon pink with distinct claret-red eye. Immense flowers and trusses. 25c each, 3 for 72c, 12 for \$2.40, postpaid.

MRS. WM. JENKINS—Pure white flowers. An early and free bloomer. 25c each, 3 for 72c, 12 for \$2.40, postpaid.

FRAULEIN G. VON LASSBURG—Purest white in cultivation. Largest of whites. 25c each, 3 for 72c, 12 for \$2.40, postpaid.

MRS. CHARLES DORR—Profuse bloomer; blue mauve flowers. Each 21c, 3 for 68c, 12 for \$2.30, postpaid.

RICHARD WALLACE—A fine violet-eyed, white variety. Each 21c, 3 for 68c, 12 for \$2.30, postpaid.

SPECIAL OFFER—Phlox Trio: Red, White and Pink, Colquiliot, Von Lassburg and Rjinstroom. Nothing better—3 for 70c, postpaid.

SPECIAL OFFER—One each of large flowering Phlox, Red, White, Pink and Lavender in color, all named for 88c, postpaid.

Funkia Grandiflora or Plantain Lily

VARIEGATED DAY LILY

FUNKIA or Plantain Lily Media—12 to 18 in. high. Broad, massive foliage, variegated green and white; large, lovely purple, lily-like flowers. Succeeds equally well in sun or shade. Blooms in July. Broad massive foliage. 30c, 3 for \$5c, 6 for \$1.62, postpaid.

GREEN LEAF DAY LILY

FUNKIA GRANDIFLORA—See illustration above. Another superb Plantain Lily, large, pure white, lily shaped fragrant flowers, 3 ft. The Plantain Lilies are among the easiest plants to manage, and they are splendid for shaded locations. 26c, 3 for 74c, 6 for \$1.40, postpaid.

HEMEROCALLIS—The wonderful Day Lily, a rich, pure golden yellow color and of a rather thick, velvety substance. Delicately fragrant. 12 to 18 inches high. 24c, 3 for 68c, 6 for \$1.30, postpaid.

The Richly Colored Liliun Elegans

BIG VALUES FOR Hardy Garden Lilies

All herbaceous borders should have a few Lilies scattered through them. The varieties offered below can be planted with excellent results during the early spring months.

Improved Single Tiger Lily—The grandest of the Tigers; black polished stems, sometimes 6 feet high. Very large pyramids of flowers, orange-red, spotted with black. Blooms in August. We have an elegant stock of these lilies, of extra-fine quality, and which are very hardy everywhere. 3 to 4½ feet. 18c, 3 for 49c, 6 for 95c, dozen \$1.82, 25 for \$3.55, postpaid.

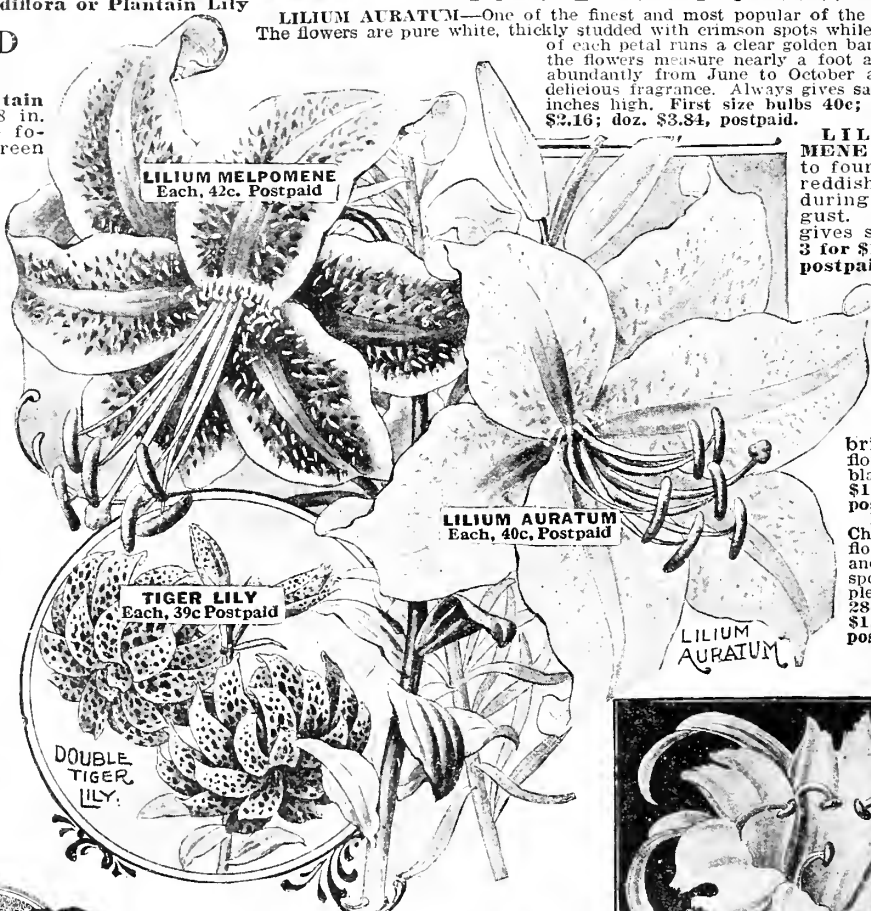

GOLD BANDED JAPAN LILY

LILIUM AURATUM—One of the finest and most popular of the hardy garden lilies. The flowers are pure white, thickly studded with crimson spots while through the center of each petal runs a clear golden band. Fully expanded, the flowers measure nearly a foot across, are produced abundantly from June to October and possess a most delicious fragrance. Always gives satisfaction. 24 to 30 inches high. First size bulbs 40c; 3 for \$1.14; 6 for \$2.16; doz. \$3.84, postpaid.

LILIUM MELPOMENE—Grows three to four feet. Exquisite reddish orange flowers during July and August. Hardy, always gives satisfaction. 42c, 3 for \$1.20, 12 for \$4.00, postpaid.

DOUBLE TIGER LILY—(Lilium Tigrinum)—One of the most popular hardy lilies. It produces an immense number of double bright orange-red flowers spotted with black. 39c, 3 for \$1.12, 12 for \$3.74, postpaid.

LEOPARD LILY—Charming, showy lily, flowers rich scarlet and yellow, elegantly spotted brownish purple. 13 to 20 inches. 28c, 3 for 80c, 6 for \$1.50, doz. \$2.70, postpaid.

ISMENE CALATHINA

Also called Peruvian Daffodil. A grand summer flowering bulb, producing with great freedom large Amaryllis-like, pure white, fragrant blossoms. Keep the bulbs in a dry, warm place, and plant out in June. Bulbs can be taken up in October, and after a few weeks' rest, potted and flowered in the house in the winter, or kept over for planting out another season. Easily grown. Each, 38c; 3 for \$1.08; 12 for \$3.65; Larger size, 52c each, postpaid.

LILIUM ELEGANS

Grand, large, tulip-shaped blossoms in the richest hues of yellow and red on the same flower. The flowers are erect and are borne in large clusters. This class includes some of the most beautiful hardy garden lilies. 1 to 2 feet high. Blooms in July. Each, 40c; 3 for \$1.14; 6 for \$2.16; dozen \$3.85, postpaid.

Ismene Calathina

SPECIAL OFFER—One each of the following Hardy Japanese Lilies; Elegans, Melpomene, Tiger Lily and Auratum for \$1.45, postpaid.

YOUR GARDEN!

SPECIAL PRICES

Tigridia Pavonia, New

TIGRIDIA PAVONIA LILY.

New. Very showy, late summer-flowering, also known as Tiger Flower or Shell Flower. Grows 2½ feet tall, bearing erect spikes of attractive, deep orange and oddly, brown blotched flowers, with cup shaped centers and wide-spreading outer leaves. Blooms in July and August. Plant like Gladioli and dig up bulbs in fall. Each, 32c; 3 for 89c; 6 for \$1.69, postpaid.

RUBRUM or Roseum LILY—White, shaded and spotted with rose and red. One of the most showy of lilies; of medium height, 2½ to 3 feet. Blooms in August and September. Each 35c, 3 for \$1.08, 12 for \$3.65.

SUMMER FLOWERING HYACINTH—(Hyacinthus Candicans)—Flowers are pure white pendulous bells arranged on pyramidal spikes often reaching the height of 5 feet or more. 22c, 3 for 63c, 12 for \$2.10. Jumbo size 42c, 3 for \$1.20, 12 for \$4.04, postpaid.

THE REGAL LILY

THE REGAL LILY—A new introduction from Western China, admittedly one of the most beautiful Garden Lilies. Grows 3 to 5 feet high. Blooms out of doors in July, continuing its glorious display well into August. Perfectly hardy, flourishes under varied conditions. Large trumpet shaped delicately scented flowers, produced freely; ivory white, shaded pink and tinged with canary yellow. Easily grown. Strong bulbs 44c, 3 for \$1.25, 6 for \$2.35, postpaid. Large size (5 to 7 in. circumference): 65c, 3 for \$1.89, 6 for \$3.50, postpaid.

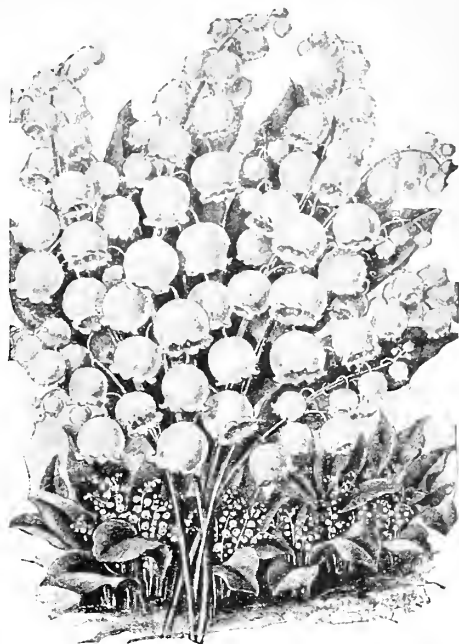

Milk and Wine Lily

CALLA LILIES

GODFREY CALLA. See illustration, inside rear cover. Seldom used except for house bloom, but as such it is very popular, its pure, spotless white lending an air of serenity and beauty to the rooms. It is one of the most profuse flowering of all sorts and blooms almost continuously. Very easily grown. Each, 22c, 3 for 63c, doz. \$2.10. Larger size, 36c, 3 for \$1.03, doz. \$3.45.

LARGE WHITE CALLA—(Ethiopia)—Grows freely, producing large pure white flowers during winter and spring. Rest during June and July. Excellent variety. 32c each, 3 for 90c, 12 for \$3.07. Larger size 65c each, 3 for \$1.85, 12 for \$6.24.

SPOTTED LEAVED CALLA—The Richarda Alba or Spotted Calla is a plant of magnificent appearance. The leaves are of the richest green, spotted with pure white. The flowers are white with delicate chocolate throat. 30c each, 3 for 85c, 12 for \$2.88.

Sweet-scented Lily of the Valley

LILY OF THE VALLEY

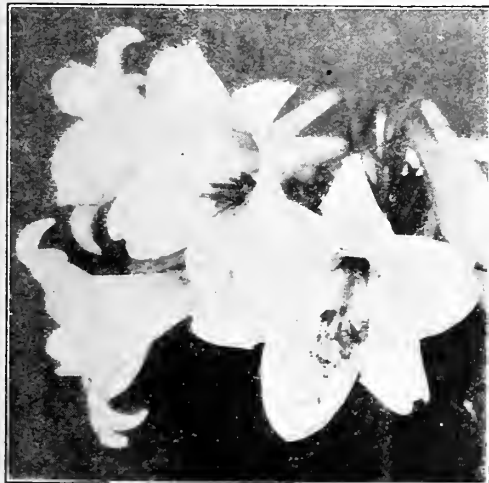

One of the daintiest and sweetest of flowers, having scalloped bells, creamy white color, pendant long slender stems. Leaves are broad, and the flowers being very fragrant, they make up beautiful bouquets. A valuable plant for reclaiming shaded unused ground. Spreads rapidly.

FLOWERING PIPS—For pot culture and forcing these pips can not be excelled. 5 for 32c; 10 for 58c; 25 for \$1.19; 50 for \$2.24, postpaid.

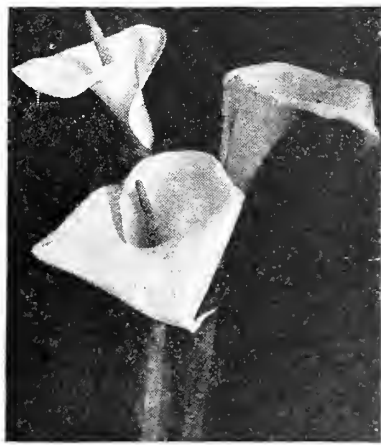

SALZER'S GIANT CLUMPS—For outdoor planting we recommend the use of clumps. Salzer's Giants are the largest flowering variety produced; the spikes are immense and the bells twice the size of any other sort. Each, 34c; 3 for 98c; 6 for \$1.92, postpaid.

MILK AND WINE LILY

Excellent for pot culture for both summer and winter blooming. Will bloom either winter or spring according to time of year that the bulb has had a rest period. Flower stalks bear a large umbel composed of fragrant lily-like flowers. The petals are broad and pure white. Beautifully banded. Prefers light, porous, well-drained soil; partial shade if planted out-doors. Fine effect among shrubbery. 42c, 3 for \$1.20, 12 for \$1.04; larger sizes 68c each, postpaid.

Salzer's Regal Lily

Godfrey Calla Lily

SPECIAL OFFER—Seven beautiful Lilies; 1 Tigridia, 3 Lily of the Valley, 1 Milk and Wine Lily, 1 Regal Lily, and 1 Calla Lily for \$1.80, postpaid.

Hardy
Northern

GLADIOLI

Cliffwood
Grown

This class of summer flowering bulbs makes one of the most imposing and most gorgeous of displays. They make a brilliant show of field bloom and supply a generous mass of cut flowers. Gladioli, when cut, develop to a fine perfection in water and last longer than most other cut flowers. Grow best in rich, light soil exposed to plenty of sunlight, and the stately flowers alongside the house or massed in beds, produce a beautifully attractive and brilliant array. Set bulbs 2 to 3 inches deep and 2 inches apart in drills; in beds about 4 inches apart each way. Leaflet, "How To Grow Gladioli," sent free upon request.

Miss Elsie V. Nelson, 1402 24th St., Galveston, Texas, writes, "Your Gladioli Bulbs gave me the nicest Glads that I ever had." Miss Hazel H. Simpson, 9305 Conn. Ave., N. Chevy Chase, Md., writes, "Your Gladioli Bulbs bore lovely flowers, which were admired by everyone."

One each of the above 26 varieties, \$1.48, postpaid.

SALZER'S CLIFFWOOD GLADIOLI COLLECTION

This is the same collection which we illustrated for several years in color and which has become so popular. All extra-fancy No. 1 size bulbs, and includes one each of the following: Mr. Mark, Cracker Jack, Halley, Mrs. Francis King, Mrs. Frank Pendleton, Niagara, Panama, Schwaben, Princepin and Willie Wigman.
Price: 1 Collection, 10 bulbs, 52c; 2 Collections, 20 bulbs, 97c, postpaid.

NEW GLADIOLI

Offered for the First Time This Year

MISS U. S. A.—Daintiest blush white. A charming delicate color, very refined and beautiful. Large flowers. Each, 12c; doz., \$1.15; 100 for \$6.75, postpaid.

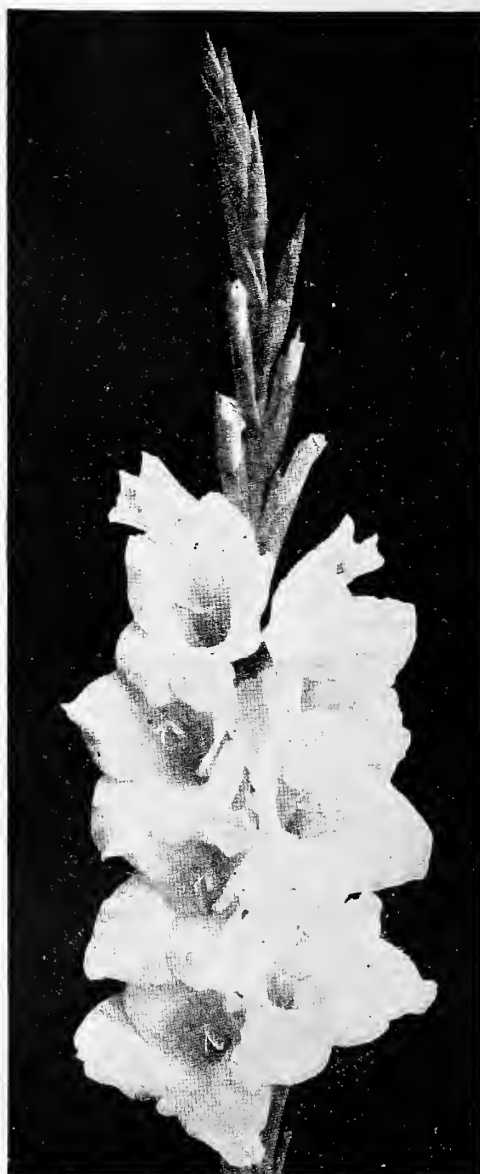

ORANGE QUEEN—Beautiful coppery orange, very early and vigorous grower. Large, perfect flowers produced on strong spikes. Each, 19c; doz., \$1.95; 100 for \$11.50, postpaid.

RED CLOUD—Dazzling bright red, many flowers open at the same time, white bar in the three lower petals. Always attracts attention. Each, 22c; doz., \$2.25; 100 for \$13.25, postpaid.

ROSE ASH—A decidedly new color. Old rose, overlaid and blended daphne pink and daphne red, petals edged yellow, and shaded eugenia red. General effect, what is known as "Ashes of Roses." Very prolific, fine for cutting. Each, 16c; doz., \$1.65; 100 for \$9.65.

BYRON L. SMITH—Most refined lavender to lavender-pink on a white background. Very popular and very desirable. Each, 17c; doz., \$1.75; 100 for \$9.95, postpaid.

One Each of Above 5, for 79c, Postpaid.

Golden Measure Gladiolus

Up to 25 bulbs at dozen rate; 25 and over at 100 rate, except collections of bulbs.

LOS ANGELES

THE CUT AND COME AGAIN GLAD!

Here is a fine new pink variety of Gladioli that we know will appeal to everyone. It produces large and perfectly formed, beautiful shrimp-pink flowers with a glowing orange-carmine blotch in the throat, on tall and graceful spikes.

The most remarkable feature of this new Gladiolus is its ability to withstand cutting over a long period, and to constantly throw forth new blooms. Its lateral branches are produced so freely, that several cuttings may be made from one spike, and it has come to be known as the "Cut and Come Again Glad." This novelty is of such real merit, that it will appeal to all who want something a little bit different in their gardens. Grows $3\frac{1}{2}$ to $4\frac{1}{2}$ feet tall and has thrown twenty and more spikes of flowers to one bulb.

First Size Bulbs: Each, 24c; 3 for 67c; 6 for \$1.29; dozen, \$2.45; 25 for \$4.65; 50 for \$8.95, postpaid.

Smaller Size Blooming Bulbs: Each, 19c; 3 for 54c; 6 for \$1.00; dozen, \$1.90; 25 for \$3.55; 50 for \$6.25, postpaid.

BARGAINS IN GLADIOLI!

Everyone succeeds with Gladioli! They grow everywhere and anywhere, are never attacked by insects, and in addition to furnishing one with two to three months of solid bloom every summer, the bulbs increase in size and multiply rapidly each year.

We have an enormous surplus of mixed Gladioli. We are not going to sell them to other houses. Our customers are first. We want to give every single customer of Salzer's, whether new or old, the first chance to get bulbs of this beautiful flower for almost nothing. These bulbs will all bloom this year, will bear large flowers, every color of the rainbow is represented. Most people like a beautiful display in their yard, rather than just a few named varieties, so we offer them mixed. Don't pass by this most liberal offer!

FIRST SIZE BULBS

These are the big, large bulbs. They produce big, large blooms the same year planted, and the bulbs multiply rapidly. Many houses charge 15c to 25c each for these. Our price: 12 for 59c; 25 for \$1.09; 50 for \$1.98; 100 or more at \$2.89 per 100, postpaid.

SECOND SIZE BULBS

Smaller bulbs but they grow just as big flowers and just about as many spikes of blooms as the First Size. But since they are smaller size, many people think they aren't much good. Most houses charge 8c to 10c each for these. Our price: 25 for 59c; 50 for 98c; 100 or more at \$1.78 per 100, postpaid.

THIRD SIZE BULBS

A big bargain! Not only will they produce large flowers this year but they will also produce almost as many blooms as the Second Size Bulbs! Our bargain price: 25 for 33c; 50 for 59c; 100 or more at 98c per 100, postpaid. "Gladioli Culture" Free With Every Order, If Requested.

PRIMULINUS HYBRIDS

The original of this beautiful type of flower was introduced from South Africa. The flowers usually are a little smaller than the other gladioli, but are good size, very pretty, on tall, graceful spikes, and are particularly adapted for cutting. Colors run in beautiful shades from tan and light yellow to orange, apricot and crimson, all mixed. Healthy, vigorous, very showy and attractive.

MIXED—Doz., 29c; 50 for \$1.10; 100 for \$2.10, postpaid.

GLADIOLUS BULBLETS

These are the small, tiny bulblets, about $\frac{1}{4}$ or $\frac{3}{8}$ of an inch in diameter, from which are grown the blooming size bulbs to be sold next year and the year after. A few of them will bloom this year but all will flower next spring, and in addition, will multiply themselves.

First come, first served! These bulblets are the cheapest thing one can buy, and afford an economical method of securing a large collection of Gladioli. State variety wanted (no others supplied): **Baron Hulot; Evelyn Kirtland; Peace; Marshal Foch; Black Pansy**, dark red, pansy throat; **Challenger**, rich dark red; **Ming Toy**, large buff flowers; **Autumn Queen**, cream yellow; **Bertrex**, white shaded lilac; **John Dunbar**, bronzy red; **Mary Pickford**, white, yellow throat; **Myra**, Salmon yellow. **Price:** 100 bulblets (no less sold of any one variety), for 58c; 200 for \$1.10; 500 for \$2.65; 1,000 for \$4.87, postpaid. **Mixed—All varieties we catalog, and many others. Price:** 100 bulblets for 49c; 200 for 89c; 500 for \$2.15; 1,000 for \$3.98, postpaid.

Your Gladioli Bulbs were most satisfactory and produced lovely flowers.—Miss Bess Barstow, 423 Ludington Ave., Menominee, Mich.

CLIFFWOOD Hardy Perennial Plants GROWN

Hardy, Cliffwood grown, well rooted stock which may be planted as early in the spring as the ground is workable, or in the autumn. By using plants instead of seeds, one secures a lovely array of bloom the very first year. Also, for the amateur gardener, who wants a permanent bed of flowers, plants are to be recommended, rather than seed, as it obviates the labor of transplanting. For complete description, see flower seed section.

Giant Achillea, The Pearl

GIANT ACHILLEA (The Pearl)—Its many branches hold their great mass of pure white feverfew like flowers about a foot from the soil, for cemetery planting it is the most valuable of all white flowers. Blooms from May until snow flies. Price, 25c each; 3 for 72c; 12 for \$2.10, postpaid.

ALYSSUM (Goldentuft) — Grows 1 foot. Is covered with masses of bright yellow flowers in early spring. One of the best. Each, 27c; 3 for 77c; 12 for \$2.69, postpaid.

ANTHEMIS KELWAYI (Golden Marguerite) — A beautiful perennial with blooms of a golden-yellow and daisy like all summer. Each, 28c; 3 for 80c; 12 for \$2.69, postpaid.

AGROSTEMMA (Mullein) — Dainty, deep blood red flowers, star shaped, with silvery foliage. Blooms from June until July. Three feet. Price, 27c; 3 for 77c; 12 for \$2.59, postpaid.

ASTERS (Hardy Perennial) — Also called Michaelmas Daisies. These single fall blooming plants thrive in any good garden soil. Two and one half feet. Blooms October to Thanksgiving. Price, 35c; 3 for \$1.00; 12 for \$3.36, postpaid.

BLEEDING HEART (Spectabilis) — It will stand the coldest winters and a single plant will bear from 50 to 100 long spikes of blood-red, heart-shaped drooping flowers, hence the name, Bleeding Heart. Two to two and one-half feet. Each, \$1.10; 3 for \$3.13; 6 for \$6.00.

BLEEDING HEART — (Plumy) — A perfectly hardy plant very desirable for borders, etc. A more dwarf variety than the older sort. Flowers an exquisite pink. Each, 58c; 3 for \$1.66; 12 for \$5.10, postpaid.

ARABIS ALPINA (Rock Cress) — A very desirable early spring-flowering plant, forming a dense carpet, completely covered with pure white flowers. Each, 29c; 3 for 83c; 12 for \$2.78, postpaid.

ARTEMISIA ABROTANUM (Mountain Fringe) (Old Man) — Grows 2 ft. The foliage is a marvelous shade of dark green, finely cut, with a pleasant aromatic odor. Produces flowers from August to September with creamy white flowers in panicles. Each 30c, 3 for 85c, 12 for \$2.88, postpaid.

CHELONE — (Shell Flower) — Handsome perennials growing about 2 feet high and bearing numerous spikes of large, coral-red flower heads until Fall. 27c; 3 for 77c; 6 for \$1.46; 12 for \$2.59, postpaid.

CREeping MYRTLE — An especially valuable hardy trailing plant for use in cemeteries and gardens. Foliage dense; flowers bright blue. 20c; 3 for 57c; 6 for \$1.08, postpaid.

CARNATION — Hardy border type of the Dianthus family. State colors wanted. Pink, white, red, or mixed, 28c; 3 for 80c; 6 for \$1.50; 12 for \$2.69, postpaid.

CENTAUREA (Montana) — One of the best Hardy Perennials, also called Perennial Cornflower. Produces marvelous deep violet-blue flowers. Height, 2 ft. 27c each; 3 for 77c; 12 for \$2.59.

COREOPSIS — One of the finest hardy plants with flowers of rich golden yellow produced in the greatest abundance during the entire summer. Very attractive and unique. Price, 21c; 3 for 60c; 12 for \$2.02, postpaid.

DIANTHUS — Plumarius Semperflorens — Pink, purplish and white, fragrant flowers. Handsome foliage. Fine for border or rock garden. Blooms continuously. Price each, 30c; 3 for 85c; 12 for \$2.88, postpaid.

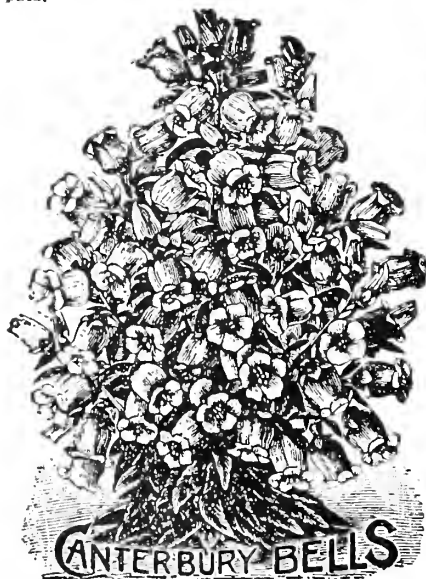

AQUILEGIA — (Columbine) — Blooms early in spring. Desirable for rock work, along side of walls, etc. 1½ to 2 feet. Price for all Aquilegia: 27c, 3 for 77c, 6 for \$1.46, doz., \$2.59, postpaid.

— **Caerulea**. Deep blue and white.
— **Californica Hybrid**. Orange and yellow.
— **Chrysantha**. Pure yellow, long spurs.
— **Mrs. Scott Elliott**, Mixed. Many new and beautiful shades, large and elegantly spurred flowers.

— **Vulgaris**. Rich velvet blue. For prices see above.

EULALIA JAPONICA ZEBRINA (Plumed Zebra Grass) — Foliage variegated evenly crosswise, with broad bands of golden yellow. Each 28c, 3 for 80c, 12 for \$2.69, postpaid.

EULALIA GRACILLIMA UNIVITATA (Japan Plumed Grass) — 6 to 7 feet tall. Produces narrow bright green foliage with silvery mid-rib. Each 27c, 3 for 77c, 12 for \$2.59, postpaid.

CANTERBURY BELLS

Bleeding Heart

Mrs. Scott Elliott Aquilegia
(Columbine)

SPECIAL OFFER—One each of plants illustrated on this page, Achillea, Campanula, Bleeding Heart, Aquilegia (\$3.30 value) for \$2.97, postpaid.

CLIFFWOOD

HARDY PERENNIAL PLANTS

FOR PERMANENT PLANTING IN BEDS OR BORDERS

GROWN

GAILLARDIA (Grandiflora)—The flower center is dark red brown, while the petals are marked with rings of brilliant crimson. Blooms from June throughout the entire season. Each, 21c; 3 for 60c; 12 for \$2.02.

GYPHOPHILA PANICULATA (Baby Breath)—Graceful branched panicles of pretty little white flowers. 2 to 3 feet. Blooms in August and September. Each, 27c; 3 for 77c; 12 for \$2.59.

HEUCHERA SANGUINEA (Fairy Flowers or Coral Bells)—Blooms of bright crimson produced from June to September. Very free flowering. 12 to 18 inches. Each, 42c; 3 for \$1.20; 12 for \$4.01, postpaid.

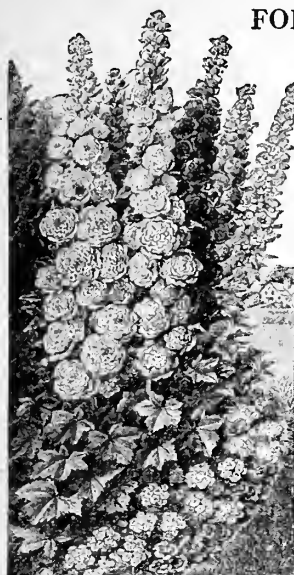

HARDY GLOXINIA (Incarvillea)—Begonia-like flowers with deep yellow throats. Excellent for borders or greenhouse decoration. Height, 18 inches. Price each, 35c; 3 for \$1.00; 12 for \$3.36, postpaid.

IBERIS or **HARDY CANDYTUFT**—Most desirable, having evergreen foliage and dense heads of pure white flowers. 10 inches. Blooms early in spring. Each, 25c; 3 for 72c; 12 for \$2.10.

STOKESIA (Cornflower Aster)—Blooms from June until September. Flowers lavender-blue ranging through all colors to white and yellow. Beautiful plants growing 18 inches. Each 27c, 3 for 77c, 12 for \$2.59, postpaid.

TUNICA SAXIFRAGA—A very pretty tufted plant with light pink flowers produced all summer. A very popular hardy perennial. Each 28c, 3 for 80c, 12 for \$2.69, postpaid.

LUPINE—Thrives in almost any situation. Long spikes of blue pea-shaped blossoms. 3 ft. Price each, 33c; 3 for \$3.36, 91c; 12 for \$3.17, postpaid.

Double Flowering Hardy Hollyhocks

LYCHNIS CHALCEDONICA—One of the brightest plants in the hardy border. Heads of flowers vivid scarlet. Fine. Each, 35c; 3 for \$1.00; 12 for \$3.36, postpaid.

Delphinium, Belladonna

Physostegia

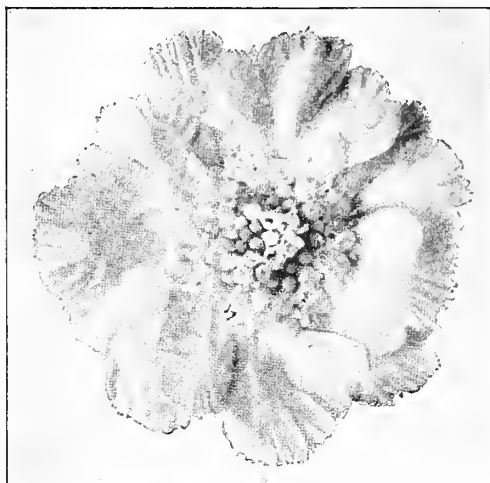

PHYSOSTEGIA (False Dragon-head)—Elegant bushy plants, bearing large spikes of pink, tubular flowers from July to September. 4 to 5 feet. Each, 28c; 3 for 80c; 12 for \$2.69.

DELPHINIUM—A very showy and hardy perennial, easily grown. Splendid flowers with curiously cut leaves.

BELLADONNA—A exquisite, clear turquoise—blue color. Each, 37c; 3 for \$1.05; 12 for \$3.55.

GOLD MEDAL HYBRID—Grand assortment of colors ranging from lightest blue to purple on spikes 2 feet long. Never out of flower from July until cut down by hard frost. Each, 37c; 3 for \$1.05; 12 for \$3.55.

GLOBE FLOWER (Trollias Orange Globe)—A fine plant in bloom from May until August. Is free flowering, with bright yellow, buttercup like blooms, buttercup shape on stems 1 to 2 feet. Each 79c, 3 for \$2.23, 12 for \$7.32, postpaid.

Scabiosa Caucasica

SCABIOSA CAUCASICA—Commences to bloom in June, continuing until September. Flowers a soft shade of lavender. Excellent. Each, 32c; 3 for 90c; 12 for \$3.07, postpaid.

MONARDA DIDYMA—Produces showy crimson scarlet blooms, during July and August. Height, 2 to 3 ft. Aromatic foliage. One of the best. Each, 35c; 3 for \$1.00; 12 for \$3.36, postpaid.

MYOSOTIS (Forget-Me-Not)—This old popular favorite should be in every garden. Color, blue, 3 to 9 inches; fine for damp places. Each, 27c; 3 for 77c; 12 for \$2.59.

POPEY, ICELAND—Of easiest culture. Far surpassing in splendor of bloom all annual and biennial kinds. Bright green foliage. Height, 1 ft. Each, 40c; 3 for \$1.14; 12 for \$3.81, postpaid.

PERENNIAL FLAX—Desirable for the border or rocky. Height, 2 ft. Attractive in foliage and in bloom. Flowers beautiful pale blue. Each, 40c; 3 for \$1.14; 12 for \$3.81, postpaid.

GLOBE THISTLE—Grows from 3 to 4 ft. Is an odd, interesting plant with globular heads of bluish white very thistle-like flowers. Each 32c, 3 for 90c, 12 for \$3.07, postpaid.

LOBELIA CARDINALIS (Cardinal Flower)—One of the most attractive plants to be had, a single plant is a show in itself. Strong plants with rich fiery cardinal flowers produce 10 to 18 spikes 24 to 30 inches long. Each 28c, 3 for 80c, 12 for \$2.69, postpaid.

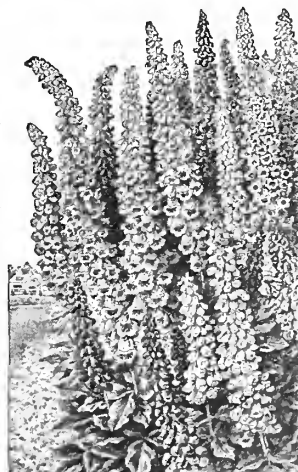

LIATRIS (Blazing Star)—An easily grown hardy perennial that blooms from July to September. It attains a height of four feet and produces long showy spikes of rosy purple. Each 35c, 3 for \$1.00, 12 for \$3.36, postpaid.

PENSTEMON—Most useful and showy perennials, 2 to 3 feet high, bearing long spikes of large, Gloxinia-like flowers in a wide range of colors. 35c each; 3 for \$1.00; 12 for \$3.30.

PHYSALIS (Chinese Lantern Plant)—Bears balloon-like fruits, resembling little Chinese lanterns, of bright scarlet. They dry well and are very desirable for winter decoration. 2 feet. Showy and handsome. Each, 27c; 3 for 77c; 12 for \$2.59.

DIGITALIS (Foxglove)—Hardy biennial, but if given protection they frequently persist for years. Of handsome, stately growth, reaching a height of four feet, and bearing tall spikes of flowers. State colors wanted. **WHITE, ROSE or PURPLE.** Price each, 27c; 3 for 77c; 12 for \$2.59, postpaid.

PLATYCODON (Chinese Bell Flower)—This makes an excellent border plant growing erect with stiff stems. Bell-shaped flowers which open out almost flat are produced all during June, July and August. Color blue, or white veined with blue. Each 26c, 3 for 74c, 12 for \$2.50, postpaid.

New Giant Foxgloves

SPECIAL OFFER—One each of plants illustrated on this page, Hollyhock, Delphinium, Scabiosa, Physostegia, Digitalis, for \$1.75, postpaid.

CLIFFWOOD

HARDY PERENNIAL PLANTS

FOR PERMANENT PLANTING IN BEDS OR BORDERS

GROWN

Pyrethrum or Painted Daisy

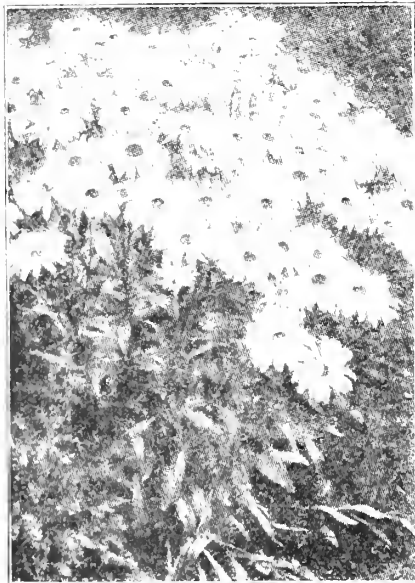

PYRETHRUM or PAINTED DAISY. Single and Double Mixed—Valuable, hardy, herbaceous plants with large single or double daisy-like flowers, 3 to 4 inches across, which are borne on stems 2 feet high. Splendid for cutting. Each, 28c; 3 for 80c; 12 for \$2.69.

—**ROSEUM**—Large, single, rose colored flowers. 28c; 3 for 80c; 12 for \$2.69, postpaid.

SWEET ROCKET (Hesperis)—Erect growing, 2 feet tall, with clusters of white and deep lavender flowers, sweet-scented. Thrives in poor soil. Assorted colors only. The flowers of this lovely plant are very fragrant. Each, 37c; 3 for \$1.05; 12 for \$3.55.

SHASTA DAISY—This great white California Daisy produces beautiful pure white flowers four inches across, on tall stems. Hardy and free flowering. Each, 37c; 3 for \$1.05; 12 for \$3.55, postpaid.

ETLALIA JAPONICA VARIEGATA (Variegated Jap. Plume Grass)—Leaves, long, narrow, striped white, often pink or yellow. Very ornamental. Each 29c, 3 for 83c, 12 for \$2.78, postpaid.

Shasta Daisies

PHLOX SUBULATA—The popular Creeping Phlox or Moss Phlox. Low-spreading stems and narrow evergreen leaves. Often used for covering graves. State color wanted. ROSE, WHITE and BLUE. Price each, 25c; 3 for 72c; 12 for \$2.10.

RUDBECKIA (Golden Glow)—Distinct, large flowering, hardy plant with golden yellow flowers. Hardy as oak. Spreads rapidly. Most desirable for rear plantings or back yard corners. Each, 27c; 3 for 77c; 12 for \$2.50.

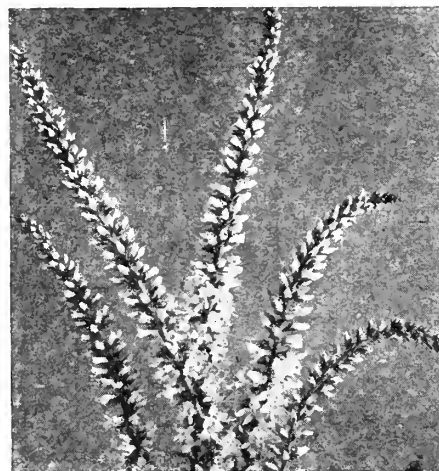

SPIREA FILIPENDULA—Blossoms June and July. Fern-like foliage. Produces an abundance of corymbs of white flowers. First-class. Each, 35c; 3 for \$1.00; 12 for \$3.36, postpaid.

TRITOMA—Popularly known as Torch Lilies, Red Hot Poker and Flame Flower. They make a showy display in autumn with their scarlet cone shaped flowers and rush-like foliage. 4 to 5 feet. Each, 32c; 3 for 90c; 12 for \$3.07, postpaid.

SWEET WILLIAM (Dianthus Barbatus)—Bears a succession of flower clusters for several weeks in June. 18 inches. Each, 25c; 3 for 72c; 12 for \$2.10, postpaid.

—**Pink Beauty**—Deep pink, very fine.

—**Scarlet Beauty**—Entire flower is intense scarlet.

Veronica, Spicata

VERONICA—Also called Speedwell. 1½ to 2 feet high. An excellent border plant, producing long spikes of bright blue flowers in June and July. Very hardy. Each, 28c; 3 for 80c; 12 for \$2.69.

MONKSHOOD (Aconitum)—Produces very showy blooms of beautiful shades of blue, somewhat in the shape of a hood. Rich green leaves with the tall flower stalk make an especially attractive addition to the garden when planted in masses. Each, 26c; 3 for 74c; 12 for \$2.50, postpaid.

HARDY HIBISCUS

WHITE—Tall, free flowering, perfectly hardy, color white, deep crimson center. Each, 37c; 3 for \$1.05; 12 for \$3.55, postpaid.

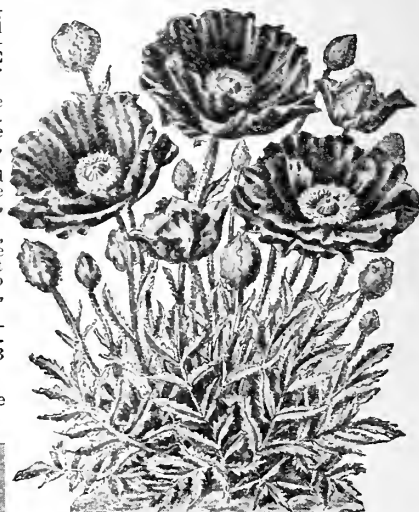

PINK—Similar to the hardy white Hibiscus, but the flower is of a clear, even pink; very striking. Each, 40c; 3 for \$1.11; 12 for \$3.81, postpaid.

CRIMSON—New and distinct. Immense striking deep crimson flowers. Each, 42c; 3 for \$1.20; 12 for \$4.01, postpaid.

SEDUM SPECIABLE (Live Forever)—The showiest stonecrop. Flowers of an exquisite shade of pink or rose-red are produced abundantly in flat clusters. Leaves very thick and juicy. Grows anywhere. Flowers open in late summer and remain in bloom several months. Each, 28c; 3 for 80c; 12 for \$2.69, postpaid.

BLUE BELL (Mertensia Virginica)—Growth about 1 to 1½ ft. high. Drooping panicles of light blue flowers fading to clear pink are produced in early spring. Each 28c, 3 for 80c, 12 for \$2.69, postpaid.

VIOLET (Hardy English)—An entirely hardy, perfectly double Violet. Color deep violet-purple. Deliciously fragrant. Surpasses all others. One of the most popular. Each 26c, 3 for 74c, 12 for \$2.59.

Hardy Oriental Poppies

POPPY, ORIENTAL—Immense flowers of brilliant deep scarlet. Permanent gorgeous colored poppies. Each, 35c; 3 for \$1.00, 12 for \$3.36.

YUCCA (Adam's Needle)—Stately, conspicuous, evergreen, broad, sword-like foliage. Showy flowers of creamy-white and bell-shaped. A striking subject for the lawn or boulevard. Small Size: Each, 40c; 3 for \$1.15; Medium Size: Each, 60c; 3 for \$1.70; Large Size: Each, \$1.00; 3 for \$2.85, postpaid.

VARIEGATED YUCCA—This wonderful new Yucca is of lasting, year-round beauty. Absolutely hardy. The center of the long, short pointed leaves is a deep rich green, while the outer margins are a creamy yellow. In late June appear the beautiful large drooping waxen-like white flowers on stocks 2 to 3 feet high. Highly ornamental the year around, especially in winter. Blooms third year. 50c, 3 for \$1.35. Larger plants, \$1.00; 3 for \$2.85; 6 for \$5.40, postpaid.

Yucca (Adam's Needle)

SPECIAL OFFER—One each of plants illustrated on this page, Pyrethrum, Veronica, Shasta Daisy, Poppy, Yucca, for \$1.52, postpaid.

PEONIES

Peonies are exceptionally hardy, requiring no protection even in severe climates, and increase in beauty each year. They should not be planted too deep, but the roots should be placed so that the crowns are covered with two inches of soil. Leaf-let, "Peony Culture," free upon request.

FANCY PEONIES

AVALANCHE—Large, double, pure white flowers, bomb shaped, sometimes flecked crimson. Elegant. Each, with 3 to 4 eyes, 58c; with 5 to 7 eyes, each 95c, postpaid.

EDULUS SUPERBA—Dark pink, immense, loose flat crown when open, very early and unusually fragrant. Each, 3 to 4 eyes, 55c, postpaid.

EDWARD ANDRE—Very early. Large, well formed flowers of an elegant shade of showy red. Very choice. Each, with 3 to 4 eyes, 68c; with 5 to 7 eyes, each, \$1.19, postpaid.

FELIX CROUSE—Extra choice. Large, globular flowers of a striking, brilliant, ruby-red. Very showy and effective. Each, with 3 to 4 eyes, 74c, ppd.

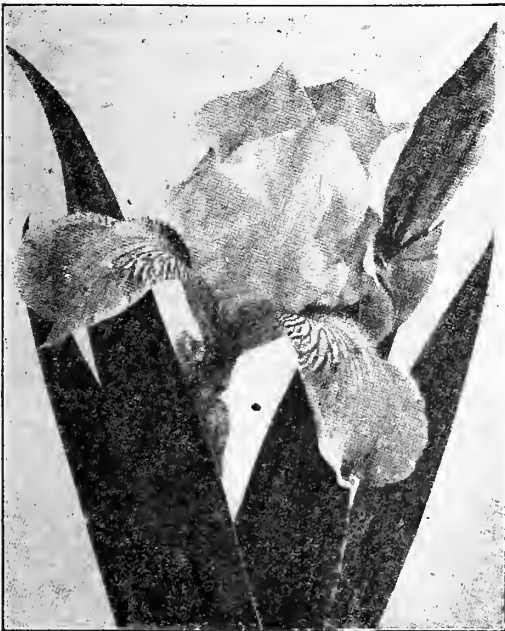

MONSIEUR JULES ELIE—Very large, medium compact, bomb type flower. A very beautiful pink, shaded, total effect, pale lilac-rose, guards and center clear, base of collar-petals amber-yellow. Each, 3 to 4 eyes, 98c, postpaid.

OFFICINALIS RUBRA—Rich deep crimson, sturdy grower, massive flowers, free bloomer, the great Decoration Day Peony. Each, 3 to 4 eyes, 98c, postpaid. One Each of Above Six, 3 to 4 eyes, for \$4.18, ppd.

JAPAN IRIS

The true Iris Kaempferi. They differ from the German Iris in that they carry their flowers on top of their stately stems, and flower later, thereby prolonging the Iris season. The flowers are of immense size, often 6 to 8 inches in diameter and beautiful beyond description. Very hardy. Prices include postage.

Purple. Each, 27c; 3 for 78c; 6 for \$1.52.
Light Blue. Each, 27c; 3 for 78c; 6 for \$1.52.
Bronze. Each, 29c; 3 for 84c; 6 for \$1.63.
Pink. Each, 29c; 3 for 84c; 6 for \$1.63.
One each of above 4 for \$1.04; 2 each, \$1.98.

German Iris, Honorabilis

CHOICE PEONIES

FESTIVA MAXIMA—Very large globular, rose type, pure white center, prominently flecked crimson. Early. Each, 3 to 4 eyes, 59c, postpaid.

FRAGRANS—A fine peony of medium size, compact, bomb type. Dark pink color, and very fragrant, hence the name. Late. Each, 3 to 4 eyes, 39c; 5 to 7 eyes, each, 69c, postpaid.

LADY BRAMWELL—Extremely early, bearing its large, globular, deep pink flowers in profusion. Each, 3 to 4 eyes, 45c; 5 to 7 eyes, each, 79c, postpaid.

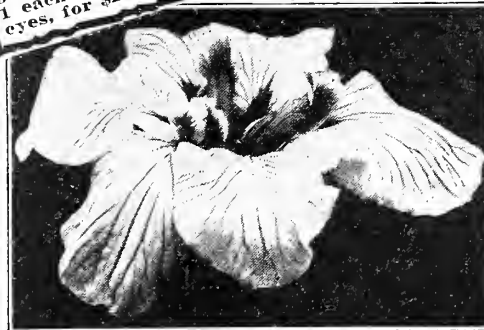

MARIE LEMOINE—Pure white, creamy-white center, large, compact, rose type. Desirable account of its lateness. Each, 3 to 4 eyes, 5 to 7 eyes, 55c, postpaid.

PRINCE DE TALINDIKE—A very glossy flower of a beautiful dark purple-crimson color. A fine late variety, one of the best. Each, 3 to 4 eyes, 44c; 5 to 7 eyes, each, 78c, postpaid.

TRIOMPHE DU NORD—A very attractive, bright, purplish-red color with silvery reflex. Very large, compact, bomb type, and very fragrant. Mid-season. Each, 3 to 4 eyes, 39c; 5 to 7 eyes, each, 69c, postpaid.

1 each above 6 Peonies, 3 to 4 eyes, for \$2.48, postpaid.

Peony, Avalanche

GERMAN IRIS

Also called Flag Iris. We consider the following the choicest of all the German Iris and the ones to give the best results under varied soil and climatic conditions. Iris are easily grown and will bloom year after year. They are very hardy and winter through everywhere.

In the descriptions (S) signifies standard or erect petals; (F) falls or drooping petals.

ORIENTALIS. (S) Intensely brilliant blue flowers; (F) rich clear purple, conspicuous orange beard.20	.58	1.10
PERFECTION. (S) Light blue; (F) dark velvety, violet-black, with orange beard. Handsome.19	.54	1.04
QUAKER LADY. (S) Cupped, smoky lavender, yellow shadings; (F) drooping ageratum-blue and old gold; stigmas yellow; elegant.24	.69	1.33
QUEEN OF MAY. Soft rose pink, with deeper veining on falls. A distinctive variety.18	.51	.97
RHEINIXE. (S) Pure White; (F) deep violet blue with white edge. A giant. Very showy.15	.42	.82
WALHALLA. (S) Lavender; (F) wine-red. Handsome, bold flowers, very conspicuous.19	.54	1.04
One each of the above thirteen Iris, for \$2.19, postpaid.			

The Tree Rose purchased from you, was just covered with blossoms. Everybody admired it.—Mrs. Wm. Schaefer, 432 49th Ave., West Allis, Wis.

Hardy Climbing Porch Vines

Bittersweet or Celastrus Scandens

BITTERSWEET or Celastrus Scandens—Handsome glossy foliage, yellow flowers in June, and large clusters of beautiful orange crimson berries retained on the vine all winter. The graceful sprays of berries make splendid house decorations. Each 32c, 3 for 90c, 12 for \$3.08; large plants 60c and 80c, postpaid.

TRUMPET VINE—Annual climber; large trumpet shaped, dark red flowers with orange throat. Climbs rapidly, unusually attractive and showy. Elegant for porches or covering unsightly places. Each 36c, 3 for \$1.03, 12 for \$3.46; larger plants 75c, postpaid.

CHINESE CINNAMON VINE—Once planted, this vine will grow a lifetime, standing the severest winters. Grows dense, heart-shaped leaves are very glossy. White flowers produced in clusters are wonderfully fragrant. Each 16c, 3 for 46c, 12 for \$1.54, postpaid.

MATRIMONY VINE—Hardy climbing plant, bright purple flowers succeeded by scarlet berries, remain on the vine in winter. Exceedingly handsome. Each 24c, 3 for 69c, 12 for \$2.65; larger plants 50c, postpaid.

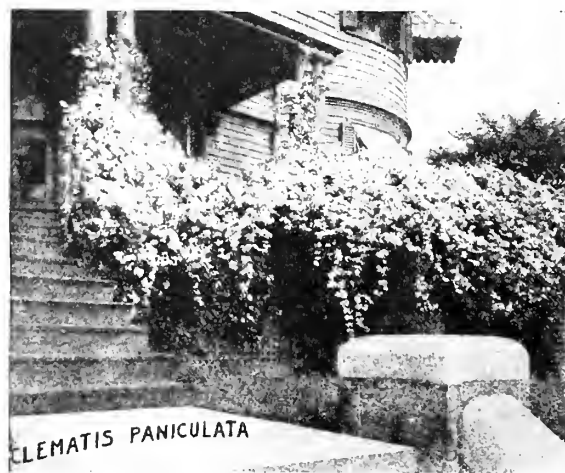

KUDZU VINE—A Japanese climber, growing very rapidly, with large leaves and fragrant wistaria-like flowers. Often grows 30 feet in one season. In the extreme Northern states the roots should be covered over winter. Each 22c, 3 for 63c, 12 for \$2.10; larger plants 10c and 75c, postpaid.

HARDY CLIMBING SWEET PEA—Pink Beauty—Extremely attractive climber, looks like the regular sweet pea. Flowers borne profusely in clusters all summer. Pure pink and delightfully fragrant. Vigorous, very hardy, living for years. Each 38c, 3 for \$1.00, postpaid.

CLEMATIS PANICULATA—The sweet scented Japan Clematis. The pure white flowers are of medium size, fragrant, and are literally borne in immense sheets in September. Rich, glossy green foliage. An extra choice variety for trellises and porches. Each 26c, 3 for 74c, 12 for \$2.50; larger plants 40c, 61c and 90c, postpaid.

PURPLE WISTARIA—An exceedingly handsome vine of vigorous growth. Large clusters of magnificent, rich violet-blue flowers are produced in profusion in early summer. One of the very best climbing vines for verandas, balconies, second-floor fronts, etc. Each 38c, 3 for \$1.08; 12 for \$3.65; larger plants \$1.00, postpaid.

WHITE WISTARIA—This differs from the purple variety only in color of flowers which are pure white, forming a striking contrast. It is attractive in growth and possesses all the good points of the blue variety. Very sweet scented. Each 38c, 3 for \$1.08; 12 for \$3.65; larger plants \$1.00, postpaid.

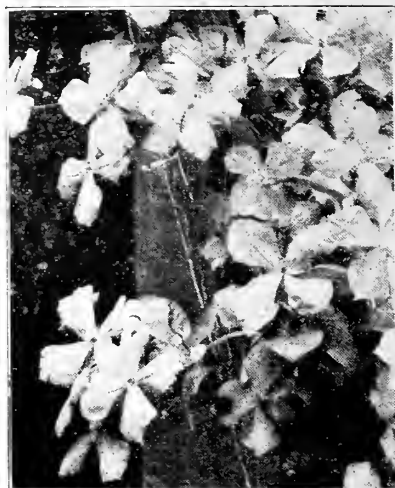

CLEMATIS PANICULATA

ARISTOLOCHIA or Dutchman's Pipe—Rapid growing, large leaved variety, retains its green color from spring until fall. Produces brownish colored flowers that resemble a Dutchman's pipe. We offer grafted stock that is hardy with protection in the extreme north. Each 60c, 3 for \$1.70; larger plants \$1.25, postpaid.

AMPELOPSIS VEITCHII—The well known Boston Ivy. Clings firmly to the smoothest surface, covering it closely with over-lapping foliage. Rich deep green color in summer, changing to brightest shades of crimson and yellow in autumn. Each 32c, 3 for 90c, 12 for \$3.07; larger plants 48c, 80c and \$1.25, postpaid.

AMPELOPSIS ENGLEMANII—Virginia Creeper—Deeply cut leaves turn to beautiful crimson in fall. Perfectly hardy, dense foliage. Each 24c, 3 for 69c, 12 for \$2.65, postpaid.

Clematis Jackmanii

SALZER'S CLEMATIS

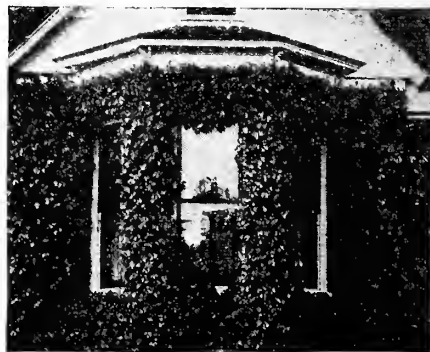

Note: Clematis, to grow successfully, should not be disturbed and we are therefore offering them this year in pots (with the exception of *Paniculata*). Prices are for plants in 4-inch pots, in paper pot and soil, postpaid. Remove from pot carefully and plant them without disturbing roots. The Clematis is a grand climber for pillars and trellises, old trees, pegged down for bedding, running over rockwork, etc. They delight in rich soil and sun.

CLEMATIS JACKMANII—Large blossoms of a rich velvety, violet-purple color. Blooms very freely. Clematis require rich, deep soil, perfect drainage, abundance of water, and a sunny position. They are one of the finest climbers and a little extra attention will well repay one. Each 98c; larger size \$1.25, postpaid.

CLEMATIS BARON VELLARD—This variety is elegant in every detail. Immense blossoms of a charming rose and rose-lilac are produced in profusion. It is a grand climber for pillars and trellises or may be pegged down for bedding, running over rockwork, etc. Each 89c; larger size \$1.25, postpaid.

CLEMATIS HENRYII—A vigorous hardy grower that is considered one of the best of all white varieties. Fine, large, creamy-white flowers are borne in great profusion, sometimes almost covering the foliage. Each 89c; larger size \$1.25, postpaid.

HARDY ENGLISH IVY—Deeply cut leaves which turn to a beautiful crimson in fall. Perfectly hardy, of luxuriant growth, dense foliage. Splendid for walls, trees, etc. Does best outdoors, also fine indoors. Each 28c, 3 for 80c; 12 for \$2.69; larger plants, 60c, postpaid.

Ampelopsis Veitchii (Boston Ivy)

Scarlet Honeysuckle

HONEYSUCKLE AUREA—Golden leaved, a grand climber and vigorous grower. Leaves are veined and netted with yellow and flowers are a beautiful shade of yellow, delightfully fragrant. Each 32c, 3 for 91c, 12 for \$3.50, postpaid. Larger plants 47c, postpaid.

HONEYSUCKLE HALLEANA—Also known as Hall's Japan Honeysuckle. Because of the enchanting fragrance of this variety it is highly favored everywhere. Flowers are buff yellow, shading to white. Each 24c, 3 for 69c, 12 for \$2.65; larger plants 47c, postpaid.

HONEYSUCKLE SCARLET TRUMPET—A hardy, sweet scented high-climbing variety. Leaves oval or oblong, bluish green above, glaucous beneath. Trumpet shaped flowers are scarlet, about two inches long and very showy. Profuse bloomer. Each 28c, 3 for 75c, 12 for \$2.85; larger plants 48c, postpaid.

SPECIAL OFFER—One each of the Vines, Bittersweet, Scarlet Trumpet Honeysuckle, Clematis Paniculata, Ampelopsis Veitchii, and Trumpet Vine for \$1.40, postpaid.

Rose Acacia

RUSSIAN OLIVE (*Elaeagnus Angustifolia*). While this plant will grow 20 feet tall yet when it is kept pruned rather severely, it is a most attractive and contrasty shrub. Its foliage is of a remarkable silvery hue, and in Autumn is simply beautiful. Admirable for tall backgrounds where unusual color tones are desired, for tall hedges, or for low hedges, by keeping it sheared similar to the Amoor Privet. Oval yellow fruit. Each 27c; 3 for 77c; 6 for \$1.45; doz., \$2.75; 25 for \$5.25.

WEeping FORSYTHIA. Similar to the variety shown on Page 138, except that it is of drooping habit. Has very long, slender arching branches, yellow flowers. Splendidly adapted for arches and trellises, or for among other shrubbery. Each, 30c; 2 for 58c; 6 for \$1.63.

Hardy Flowering Shrubs

CHOICE VARIETIES FOR 1929

Prices
Include
Postage

ROSE ACACIA (*Robinia Hispidia*). This charming shrub grows 4 to 5 feet tall, and is much appreciated because of the abundance of its large, loose, clusters of beautiful clear pink flowers, somewhat like Sweet Pea blossoms, borne in May and June. Each, 61c; 2 for \$1.19; 6 for \$3.49.

BUTTON BUSH (*Cephalanthus Occidentalis*). An uncommon but very desirable shrub. Forms a dense rounded bush 4 to 6 feet high, and in July is covered with large, fragrant, ball-like heads of creamy white flowers. Large glossy foliage, and suited to damp locations. Each, 49c; 2 for 95c; 6 for \$2.69.

RHODOTYPOS KERRIODES (White Kerria or Jet Bead). Beautiful and interesting shrub, 4 to 6 feet high, with handsome and distinct, corrugated foliage. Succeeds in all soils, in sun or shade. Large, single, white flowers in late May, followed by conspicuous shining black, bead-like fruit, that remains far into winter. Very desirable. Each, 49c; 2 for 95c; 6 for \$2.69.

CYDONIA JAPONICA (Firebush or Japan Quince). Early in spring it is completely covered with dazzling scarlet flowers, followed by small quince-shaped fruits which are quite fragrant. It is of bushy growth, 6 feet high, with small protecting thorns. Makes a fine hedge. Each, 31c; 2 for 59c; 6 for \$1.72.

Button Bush

DESMODIUM PEN- DULIFLORUM.

Not strictly a shrub,—rather a half-shrub as the long canes usually winter-kill. The stools, however, become stronger, throwing up more shoots each year, and quickly forming a thick shrub, 5 feet high, very showy in its September bloom. Long, close, drooping racemes of lovely rosy-purple flowers. Each, 69c; 2 for \$1.35; 6 for \$3.90.

CLETHRA ALNI- FOLIA (Sweet Pepper

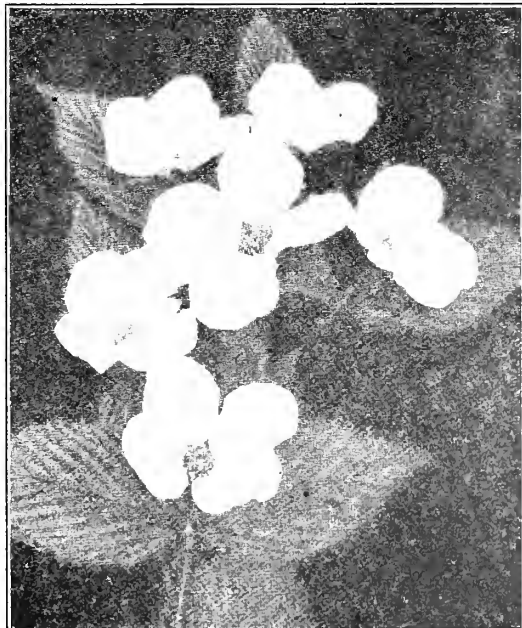

Bush). Long spikes of pure white flowers in Aug. and Sept. 5 feet. Unusually fragrant, and may be planted beneath the windows, to scent the house. Of neat, upright growth. Protect this lovely shrub over winter, in very cold sections. Each, 57c; 2 for \$1.10; 6 for \$3.24.

ROSE OF SHARON

(Shrub—Althea). Especially desirable for their late flowering, which is in August and September. The large, brightly colored flowers are borne in great profusion on the erect branches, 6 feet. Altheas are slow coming into leaf the season after transplanting. Customers should not be discouraged if, next year, the plants remain dormant well into July. State color wanted: **DOUBLE REDDISH LILAC**; **DOUBLE WHITE**; **DOUBLE PURPLE**. Each, 37c; 3 (or one of each color) for \$1.05; 6 for \$1.98.

CORNUS ELEGAN- TISSIMA, Variegated.

Attracts birds. 6 to 8 feet, purplish red branches, beautiful dark green foliage, striped silver. Contrasts nicely with other shrubbery. Each, 51c; 2 for 99c.

Rhodotypos or Jet Bead

One Each of the Above Ten Newer Shrubs (Your Choice of Color in the Rose of Sharon), for \$4.19, Postpaid; Two Each (20 Shrubs), for \$7.98, Postpaid.

HARDY FLOWERING SHRUBS

ALL SHRUBS ARE SENT POSTPAID

These ornamental flowering shrubs are perfectly hardy everywhere, they require no protection and last a lifetime. Leaflet, "How To Prune Shrubs," sent free upon request.

BERBERIS THUNBERGI (Japan Barberry). Of dwarf growth, uniformly bushy and rounded in form with small, numerous leaves densely covering the thorny twigs. Very desirable as a low, compact, hardy, impassable hedge for confining lawns or dividing properties. It becomes literally covered with bright scarlet berries and the foliage turns to a showy scarlet in fall. Each, 24c; 3 for 69c; 6 for \$1.30.

SALZER'S NEW RED LEAVED BARBERRY. This new Berberis Thunbergi is the same as that listed above, except that the foliage at all times is a rich, lustrous, bronzy red. Throughout the summer this color is intensified until in the fall its foliage changes to vivid orange, scarlet, and red shades, and is followed by brilliant scarlet berries which persist until far into winter. To develop its brilliant coloring, it should be planted in full exposure to the sun. Owing to the heavy demand for this new shrub, we suggest early ordering. Prices are for 1 year old, 12 to 15 inch stock. Each, 79c; 3 for \$2.29; 6 for \$4.45; 12 for \$8.35.

Sprays of Flowering Almond—Finest of All Small Lawn Trees

FLOWERING ALMOND.

A most desirable hardy shrub, three to five feet high, growing more like a small tree than a shrub. Because of its charming tree shape and its dwarf height, it is an elegant subject for lawn planting where a few conspicuous shrubs are desired. It is valuable also, in that the flowers usually appear before the leaves, making it unusually attractive and showy.

—**Double Pink.** Branches loaded in May with large, double rose colored blossoms like small roses. Each, 39c; 3 for \$1.12; 6 for \$2.17.

—**Double White.** Same as the above, except that the double flowers are pure white. Each, 37c; 3 for \$1.06; 6 for \$2.05.

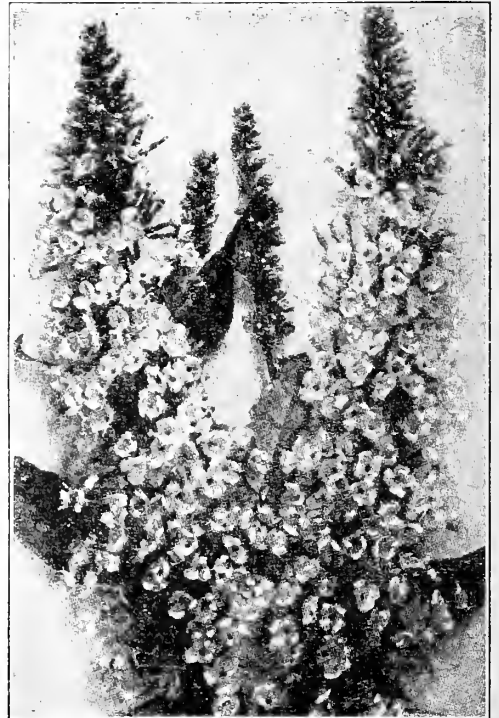

BUSH HONEYSUCKLES. Of true bush form and have bright and pretty, fragrant flowers, followed by showy berries during fall. Make fine hedges (grow 6 to 8 feet high) and are splendidly adapted for tall shrub groups. Ideal for shaded locations.

—**Fragrantissima.** A fine shrub for hedges or tall shrub groups, as it grows 6 to 8 feet high. **Splendid for shaded locations.** It is of strong growth, very fragrant, and bears a wealth of pink flowers in April. Each, 25c; 3 for 71c; 6 for \$1.37.

—**Morrowi.** A spreading variety, grows 4 to 6 feet tall. Has rich, yellow flowers in May, followed by showy red berries. Each, 23c; 3 for 65c; 6 for \$1.25; doz., \$2.35.

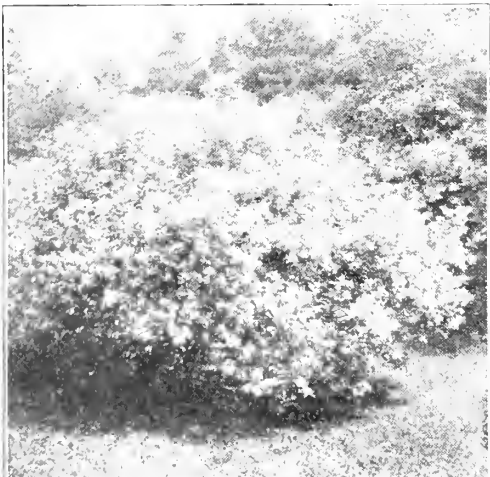

—**Tatarica.** Bears a profusion of lovely white flowers in May and June, followed by brilliant, red berries in fall. Each, 23c; 3 for 65c; 6 for \$1.25; doz., \$2.35.

Berberis Thunbergi or Japan Barberry

BUDDLEIA

(Everblooming Butterfly Bush or Summer Lilac.) A fine new shrub of vigorous growth, flowers very sweet and fragrant, blooming in spikes 8 to 12 inches long, of bright mauve-violet color. Begins flowering in July and continues until frost; ideal for cut flowers. As it is semi-herbaceous, it sometimes dies down to the ground in winter, but shoots forth quickly the next spring. 3 to 5 feet. Each, 29c; 3 for 82c; 6 for \$1.58; doz., \$2.89.

The Lovely Bush Honeysuckle Tatarica

Buddleia or Everblooming Butterfly Bush

The shrubs were in fine condition and were the nicest of any I have ever received.—Claty Hawk, 4140 East 29th St., Des Moines, Iowa.

HARDY FLOWERING SHRUBS

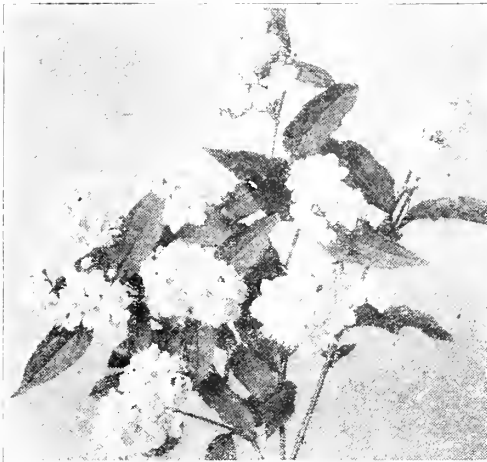

ALL SHRUBS ARE SENT POSTPAID

DEUTZIA. They flower in June, bearing masses of dainty bell or tassel-shaped flowers. Perfectly hardy.

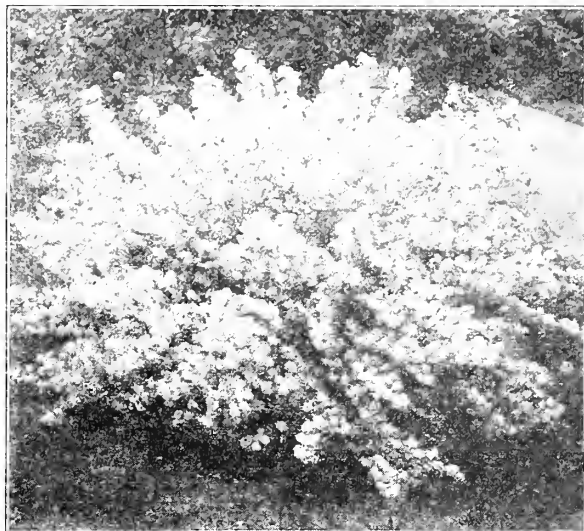

—**Crenata Rosea.** Beautiful flowers, single, delicate pale pink. Grows 4 to 6 feet high. Each, 24c; 3 for 69c; 6 for \$1.30; doz., \$2.45.

—**Lemoinei.** A new variety. Immense flowers, of purest white, borne in cone-shaped heads. Of dwarf habit, free flowering. Each, 33c; 3 for 94c; 6 for \$1.84; doz., \$3.29.

—**Pride of Rochester.** Large, double flowers, white tinged with blush. Grows 5 to 6 feet high. Blooms in May. Each, 25c; 3 for 70c; 6 for \$1.30; doz., \$2.45.

Deutzia, Crenata Rosea

Deutzia, Pride of Rochester

HYDRANGEA. One of the finest of all shrubs. Highly desirable for their massiveness of bloom and their long flowering season.

—**Paniculata Grandiflora.** The immense heads of bloom, often a foot long, are cream color in bud, pure white when fully expanded, changing to pink and bronze with age, and finally to brown when frosted. Attains a height of 5 to 7 feet; hardy everywhere. Splendid effects may be had by planting along driveways, along the foundations of the house, in groups among shrubbery, or as a center for beds. The blooms are often used for interior decorating for winter, after they have been frosted. Each, 30c; 3 for 85c; 6 for \$1.60; doz., \$3.00.

—**Tree Hydrangea.** The tree form of the Hydrangea Paniculata Grandiflora above. Has but a single stem from which the plant grows upward in tree form, reaching a height of 4 to 6 feet. Bears a profusion of flowers which are pure white, afterwards changing to pink, and which are borne in large pyramidal trusses a foot or more long and six to eight inches in diameter. Blooms in August. Considered one of the finest shrubs. Makes a grand single shrub for lawn planting, or planted between other shrubs, to arch over them. Each, 98c; 3 for \$2.79; 6 for \$5.29.

—**Arborescens Grandiflora (Hills of Snow).** Constantly in bloom from July until frost. Grows 3 to 5 feet high. Handsome foliage and great clusters of snow-white flowers. Excellent for solid, low borders, especially in partial shade, and for growing on north side of house. Very hardy. Each, 35c; 3 for 98c; 6 for \$1.88; doz., \$3.49.

Hydrangea, Paniculata Grandiflora—Elegant for Bordering Walks or for Foundation Plantings

Hydrangea, Arborescens Grandiflora, or Hills of Snow

My shrubs reached me O. K., and are the finest I have ever received.—N. L. Whieldon, Ebenezer, N. Y.

HARDY FLOWERING SHRUBS

ALL SHRUBS
ARE POSTPAID

FORSYTHIA FORTUNEI. (Golden Bell.) This graceful and beautiful shrub, growing 8 feet high in good soil, lights up the garden with glinting masses of yellow, very early in spring, before the leaves appear. It usually blooms with the Crocus, which is frequently planted in front of and beneath it.

It is of handsome erect form, is a very vigorous grower and a very prolific bloomer. The flowers are rich golden yellow and continue a long time. It is always a conspicuous object either alone or amongst other shrubbery. Each, 29c; 3 for 82c; 6 for \$1.58; doz., \$2.89.

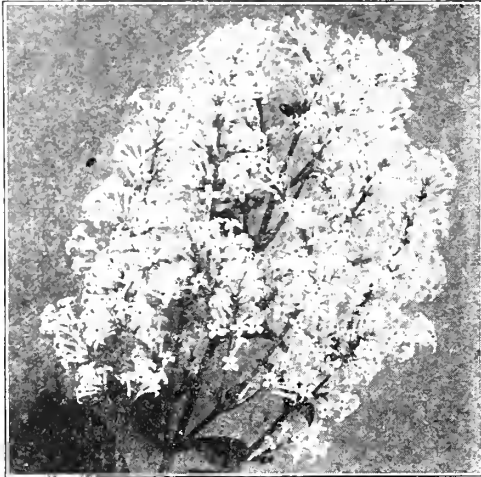

LILAC. Best beloved of the old-time garden shrubs, whose flowers never fail to charm with their delicate beauty or refresh with their tender fragrance.

—**New Persian or Rothomagensis.** Flowers are of a beautiful reddish purple, very fragrant and borne in profusion. Blooms in early June. Handsome leaves rich dark green and small.

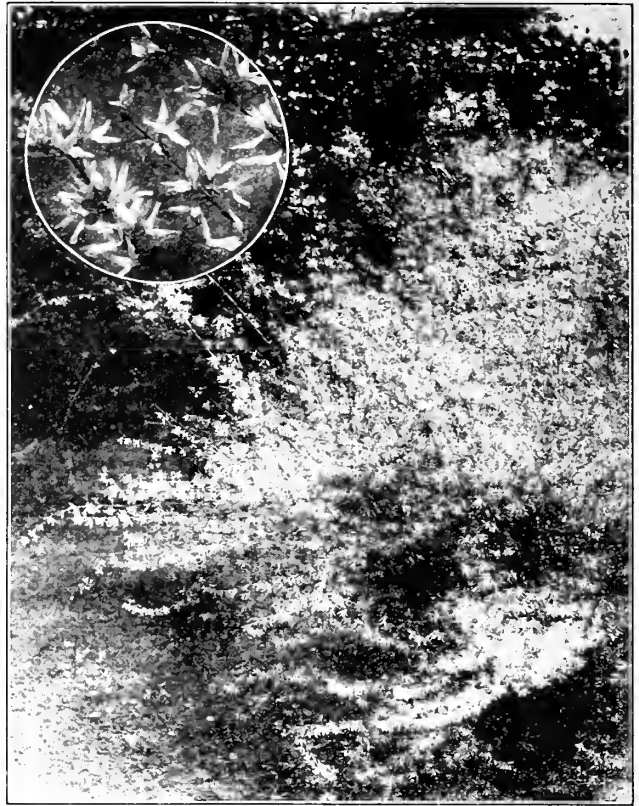

Each, 33c; 3 for 94c; 6 for \$1.78; doz., \$3.29.

—**Vulgaris.** The old fashioned purple Lilac. Covered in early spring with fragrant, lilac-colored blooms. Each, 35c; 3 for 98c; 6 for \$1.90; doz., \$3.50.

—**White.** Similar to the above, except that the fragrant flowers are pure white. Each, 33c; 3 for 94c; 6 for \$1.78; doz., \$3.29.

Flower of New Persian Lilac

Forsythia Fortunei or Golden Bell

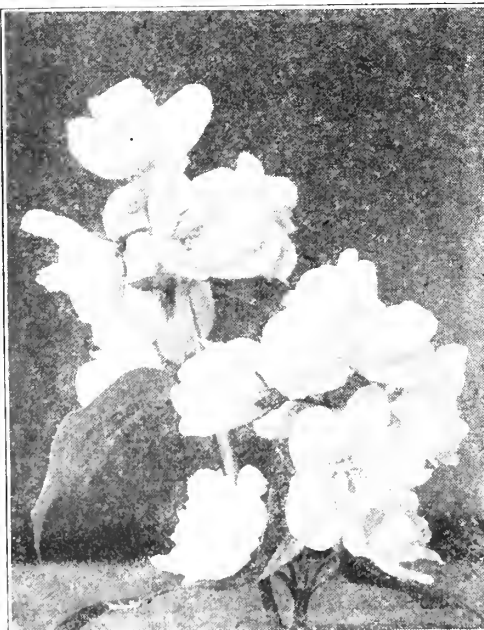

PHILADELPHUS (Mock Orange). Masses of exquisite, fragrant, white flowers in May and June. Grows 8 to 10 feet high. The flowers are very profuse, similar to strawberry blossoms, but larger, white, with a rich, creamy tinge imparted by the golden stamens. Each, 25c; 3 for 70c; 6 for \$1.30.

—**Philadelphus Virginalis.** This fine new shrub was granted a first-class certificate by the Royal Horticultural Society of England. Although a member of the common Mock Orange family, it far exceeds any of them in beauty and form.

Flowers are unusually large, with rounded petals and mostly double crested. They come in clusters of five to seven, the individual blooms measuring 2 inches or more in diameter, of the purest snow white, and sweetly scented. Flowers in June. 8 feet. Ideal for planting in front or alongside the porch or house. Each, 56c; 3 for \$1.59; 6 for \$2.98.

PRIVET, AMOOR RIVER.

Although not a flowering shrub, yet this is the one best hedge plant, combining beauty, hardiness and efficiency. Foliage is a beautiful, glossy, dark green. Is of quick, strong, symmetrical growth and may be sheared or trimmed to any desired shape. Unexcelled for bordering walks, grounds, etc. This is very similar to the well known California Privet, except that it is absolutely hardy everywhere. Good quality, having 3 canes: Each, 15c; 3 for 40c; 6 for 75c; doz., \$1.45; 25 for \$2.75. Extra heavy, having 5 canes: Each, 18c; 3 for 51c; 6 for 98c; doz., \$1.79; 25 for \$3.28.

Flowers of Philadelphus Virginalis

Privet, Amoor River

Hardy Flowering Shrubs

ALL SHRUBS ARE SENT POSTPAID

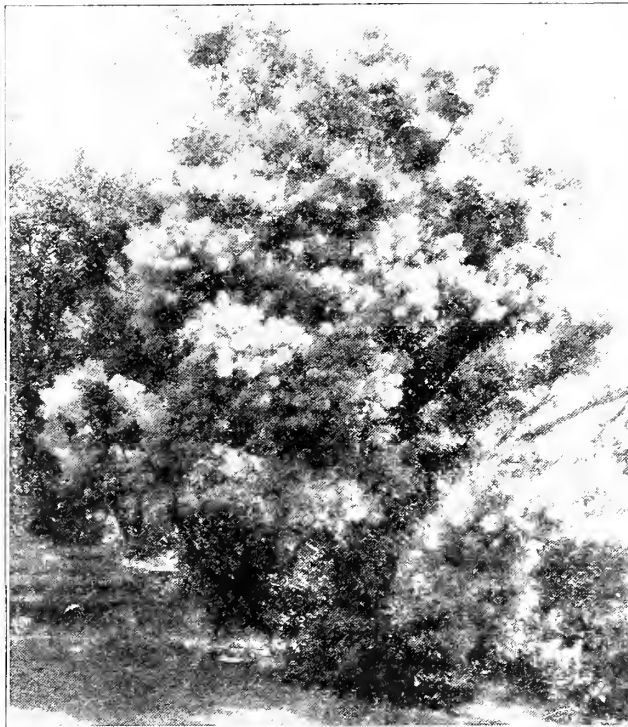

PRUNUS TRILOBA. (Double Flowering Plum.) This distinct and handsome little tree is a native of China but is perfectly hardy in the United States. It is of rather spreading growth, attaining a height of about ten feet, and is ideal for use as a single subject on the lawn or in rear plantings.

It bears a wealth of large double flowers, of a delicate pink color and upwards of an inch in diameter. The flowers are thickly set on the long, slender and graceful branches, all combining to make this one of the most beautiful and striking of the larger shrubs. Blooms in May. It is a unique and beautiful ornament at all times of the year. Each, 44c; 3 for \$1.27; 6 for \$2.39; doz., \$4.38.

Prunus triloba or Double Flowering Plum
RHUS COTINUS. (Smoke Tree or Purple Fringe.) This different, but most striking and graceful shrub, was brought to the United States from the southern part of Europe. It is perfectly hardy and easily grown, but as yet it is comparatively unknown.

Planted as a single specimen on the lawn, in a corner of the yard, or planted alongside the house where it can be seen to advantage, it always excites comment. In late summer and fall, it is entirely covered with a curious fringe of fine, purplish, misty-looking flowers which give the plant a smoky appearance. Grows 10 to 12 feet high, and requires plenty of space for development to its fullest beauty. Each, 69c; 2 for \$1.35; 3 for \$1.97; 6 for \$3.85.

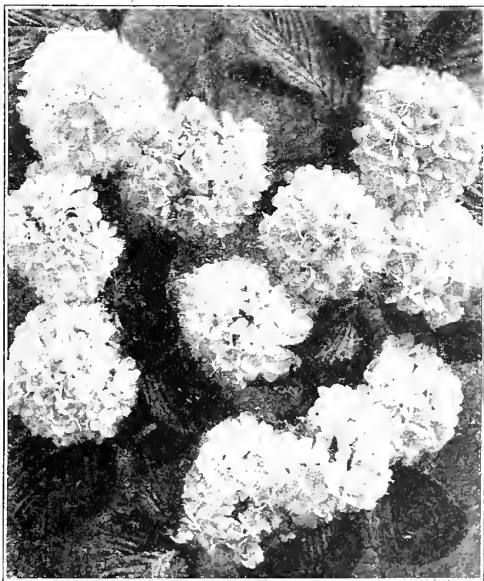

Rhus Cotinus, Purple Fringe, or Smoke Bush

SNOWBALL. This showy shrub grows about 8 feet high and flowers lavishly in Spring. Perfectly hardy and of vigorous and luxuriant growth. Its large, lovely, white balls of bloom are borne the end of May, and make a brave show for Decoration Day. Each, 38c; 3 for \$1.10; 6 for \$2.10; doz., \$3.78.

SPIREA. They bloom with a riotous extravagance that is most striking. Their rich green foliage is handsome and attractive, so that even when through blooming, they remain one of the most decorative of shrubs.

—**Anthony Waterer.** Also called the Perpetual Blooming Crimson Spirea. Is a dwarf variety, 3 to 5 feet high. Makes a fine, compact bush, its broad flat heads of crimson flowers continuing in perfection all summer. A splendid, showy, red shrub for dwarf shrubbery planting. Each, 30c; 3 for 85c; 6 for \$1.60; doz., \$3.00.

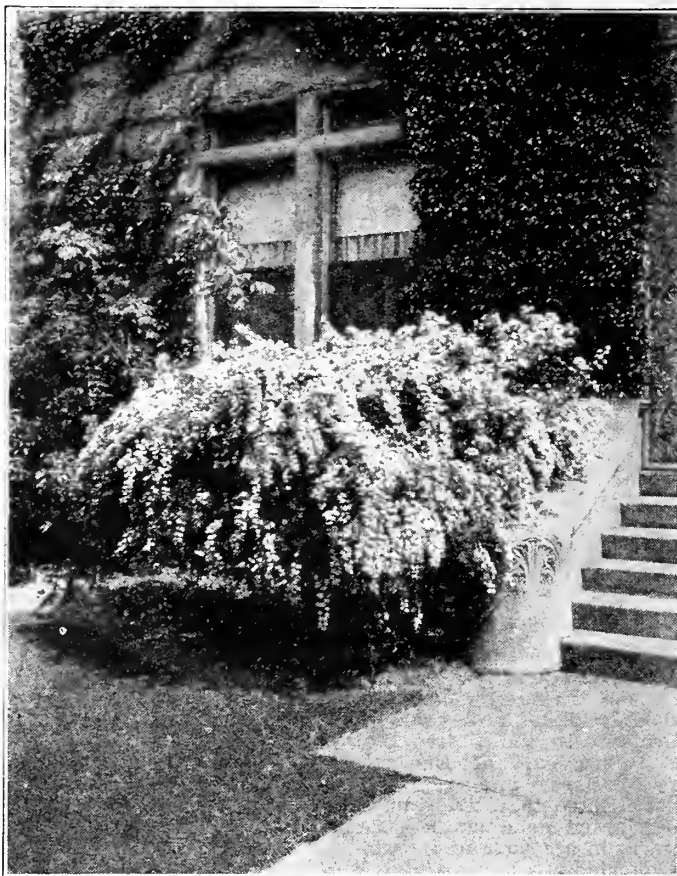

—**Froebeli.** A most beautiful new Spirea, about 3 feet high, with large, dense corymbs of brilliant, dazzling, rosy crimson flowers during July and August. Somewhat similar to Anthony Waterer. The young foliage turns to a beautiful reddish color in the Autumn. Easily grown. Conceded to be the best showy, red-flowered, dwarf shrub. Foliage rich green and healthy. Each, 27c; 3 for 76c; 6 for \$1.44; doz., \$2.68.

—**Opulifolia Anra.** (Golden Spirea.) Of upright growth, reaching 8 to 10 feet. In June the large heads of double white flowers cause the tall branches to gracefully droop. The foliage is green, bordered with rich golden yellow changing to golden bronze in the fall. Very conspicuous. Each, 25c; 3 for 70c; 6 for \$1.30; doz., \$2.45.

—**Prunifolia.** Plum leaved foliage; 3 to 5 feet; blooms very early, with clusters of double white flowers. In fall, the leaves turn to brilliant red. Each, 33c; 3 for 94c; 6 for \$1.78; doz., \$3.29.

—**Van Houttei.** The true Bridal Wreath. Grandest of all the Spireas. Grows about 5 or 6 feet high. At the flowering season in May and June, the plant is gorgeous with long sprays of large, white flowers, presenting a beautiful appearance. One of the finest shrubs grown. Ornamental the year round. Very hardy. Each, 20c; 3 for 55c; 6 for \$1.00; doz., \$1.95.

1 each of above 5 Spirea, for \$1.22; 2 each for \$2.39, postpaid.

Spirea Van Houttei or Bridal Wreath. Loveliest of all Shrubs.

HARDY FLOWERING SHRUBS

ALL SHRUBS ARE SENT POSTPAID

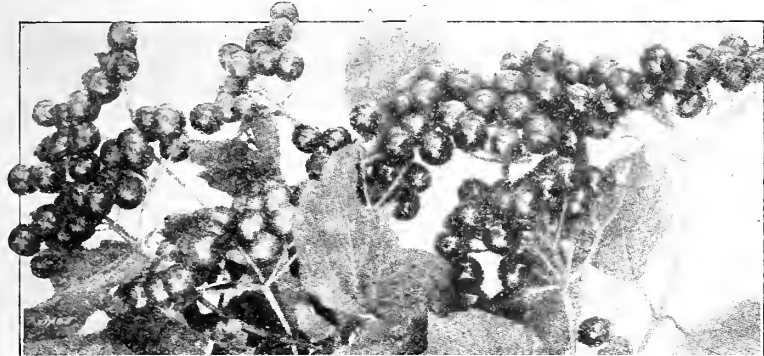

SNOWBERRY. A desirable small shrub (3 to 5 feet) that grows in almost any soil; valued for use in shaded locations. Easily grown and very hardy.

—**Racemosus.** The true Snowberry. Bears small, rose-pink flowers in summer, which are followed by an abundance of large clustered, milk white berries that remain on the bush until far into winter. Each, 25c; 3 for 70c; 6 for \$1.30; doz., \$2.45.

—**Vulgaris.** The well known and popular Indian Currant or Coral Berry. Low growing spreading bushes of graceful habit, bearing small, rose pink flowers in summer. These are followed by small red berries which cluster in thick ropes along the slender branches, and which remain until far into the winter. Beautiful in the extreme, especially when snow is on the ground. Valuable for planting in shady locations. 3 to 5 feet. Each, 24c; 3 for 69c; 6 for \$1.30; doz., \$2.40.

Snowberry

High Bush Cranberry (Viburnum Opulus)

TAMARIX.

Gallica Indica.

Grows about 8 feet high, with fine feathery foliage, and bears small and unusually pink flowers in fine sprays, so that almost the whole bush appears to be colored. Thrives in either wet or dry situations. Very hardy. Each, 26c; 3 for 73c; 6 for \$1.43.

VIBURNUM. Showy shrubs of vigorous growth, blooming freely in Spring and vividly brightening Fall with gleaming fruits and richly colored foliage.

—**Dentatum.** The well known Arrowwood. 8 to 12 feet high and very hardy. Bears creamy white flowers in May and June; foliage is bright green, the heart-shaped leaves turning to purple and red. Each, 29c; 3 for 82c; 6 for \$1.58.

—**Opulus.** (High Bush Cranberry.) 8 to 10 feet. Handsome, dense, brilliant green foliage. Its red berries, which resemble cranberries, enliven the late summer and persist on bare branches into the winter. Very hardy. Each, 33c; 3 for 91c; 6 for \$1.78.

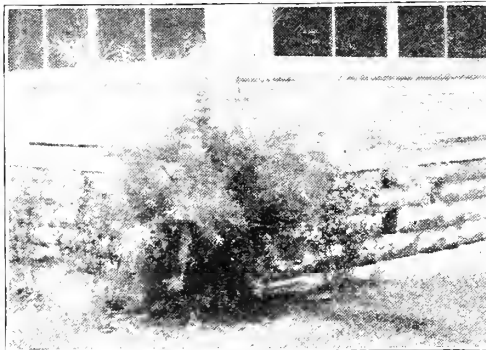

WEIGELA. These beautiful shrubs bloom in great profusion in May, June and July. 3 to 5 feet high.

—**Candida.** Lovely snow-white flowers in late June, and occasionally throughout the summer. Each, 29c; 3 for 79c; 6 for \$1.59.

—**Rosca.** An elegant shrub growing 3 to 5 feet high, of erect and compact growth. Also known as Diervilla. Bears a wealth of fine rose colored, bell shaped blossoms, in May and June, and often sparingly during the summer. Blossoms are borne all along arching canes, making it an object of unusual and striking beauty. Thrives almost anywhere. Each, 27c; 3 for 76c; 6 for \$1.44; doz., \$2.68.

—**Eva Rathke.** Large trumpet shaped, deep crimson flowers in May and June. Bush is vigorous and upright in growth, but more spreading with age. 6 to 8 feet. Very showy. Each, 49c; 3 for \$1.45.

—**Variegated.** Flowers are soft pink. Foliage is very attractive, being bordered with creamy white. Splendid for planting among your dark leaved shrubbery to lighten it and to give variety to it. Each, 33c; 3 for 91c; 6 for \$1.78. One each of Above 4 Weigelas, for \$1.21.

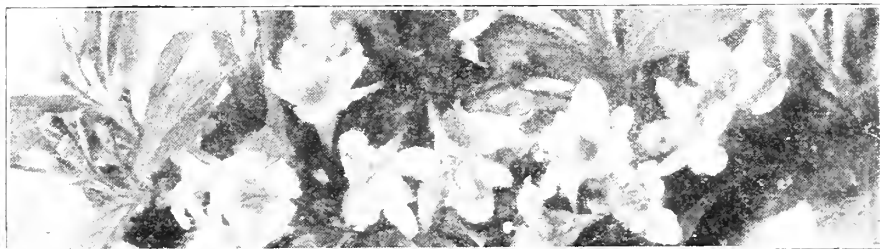

Tamarix, Gallica Indica

Weigela Eva Rathke

CLIFFWOOD COLLECTION

2 Berberis Thunbergi, 1 Pink Double Flws. Almond, 1 Hydrangea Paniculata, 1 Persian Lilac, 1 Mock Orange, 1 Bush Honeysuckle Tartarica, 2 Spirea Van Houttei, 1 Tamarix Gallica.—Ten shrubs for \$2.14, postpaid; 2 sets (20 shrubs) for \$3.99, postpaid.

Weigela Rosca. The Weigelas Are Beautiful Shrubs

Am greatly pleased with the Snowball bushes. They reached me in first class shape.—Mrs. R. G. Daggett, Port Ludlow, Wash.

VEGETABLE ROOTS

RUST-PROOF WASHINGTON ASPARAGUS ROOTS

Get your asparagus roots direct from Salzer's celebrated Cliffwood Farms this year! This new variety is so rapidly replacing all other strains, that we have discontinued growing any but the Rust-Proof Washington Asparagus Roots. The Washington type has been bred to resist rust. It has thick and heavy shoots, long and straight, and closely folded tips. It is a beautiful rich dark green color, darker green at the tips, and is a very heavy yielder. You will be delighted with both the quality and appearance of this fine variety. Growing rapidly, it is the most tender of all! Plant these extra large roots and save from 1½ to 2 years' time in having your bed ready for cutting. Set roots 4 inches deep and 18 inches apart in rows about 4 feet wide, fertilizing well with stable manure or other fertilizer. The richer the soil, the better the crop. Plant 100 roots to 15 by 20 foot bed. Two-year-old roots can be cut the following year.

PRICES: One-year-old roots: 12 for 30c; 25 for 55c; 50 for \$1.00; 100 for \$1.90, postpaid. Not prepaid, 500 for \$5.45; 1,000 for \$10.00. Two-year-old roots: 12 for 49c; 25 for 90c; 50 for \$1.35; 100 for \$2.39, postpaid. Not prepaid, 500 for \$9.15; 1,000 for \$17.75.

CHIVES (Schnittlauch)

This plant should be more widely cultivated than it is. Chives are grown for the young leaf stems, which have a mild onion flavor. Makes a delicious dish, especially when prepared with cottage cheese. Also used extensively in soups, stews, etc. They are easily grown indoors in pots, for winter use. We offer only Cliffwood Grown Roots, which are noted for their fine quality and flavor.

4106—Chive Roots, in clumps: Each, 18c; 3 for 49c; 6 for 90c; 12 for \$1.65, postpaid. Larger clumps, each 44c, postpaid.

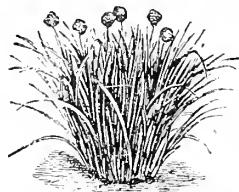

362—Pkg. (Seed), 10c; oz., 38c; 2 oz., 71c; ¼ lb., \$1.30, postpaid.

HORSE RADISH ROOTS

Instead of purchasing horseradish prepared at the store, plant a few of our Cliffwood grown roots this year, grate it yourself, and notice the wonderful difference in taste. You will only need a trifling space for enough horseradish for the whole year, but be sure to plant Salzer's Roots. Horseradish does best in a rather moist, partly shaded location.

4112—Cliffwood Roots: 6 for 18c; 12 for 30c; 25 for 55c; 50 for \$1.00; 100 for \$1.90, postpaid.

4111—Bohemian Roots: 6 for 15c; 12 for 25c; 25 for 45c; 50 for 80c; 100 for \$1.50, postpaid.

Salzer's Chives

Sow SALZER'S Seeds

We have been very well satisfied with your seeds. Have taken the sweepstakes for three consecutive years, at the County Fair.—W. J. Hall, R. D. 2, Port Orchard, Wash.

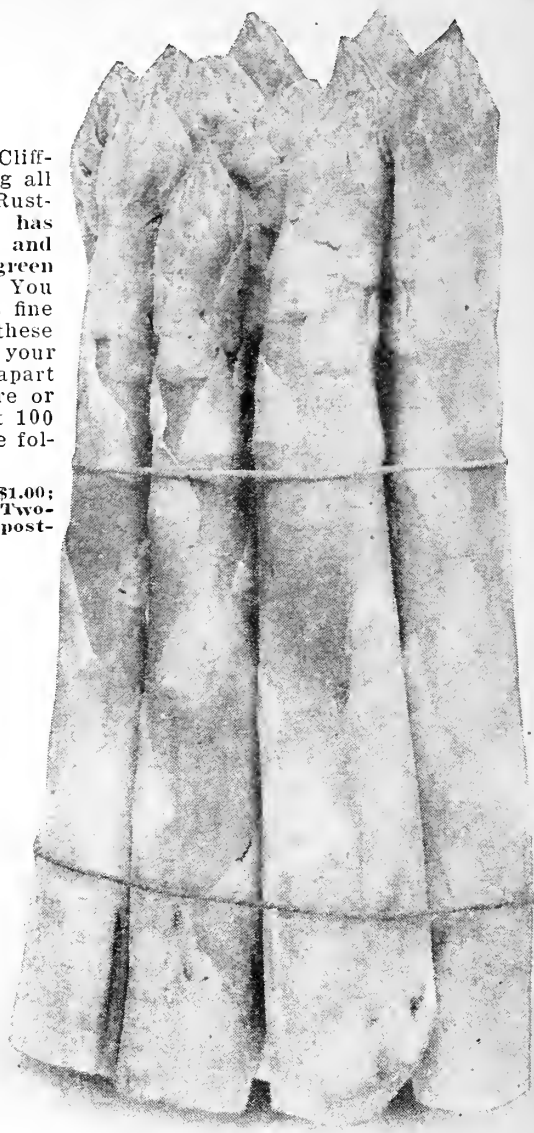

RHUBARB ROOTS

Rhubarb is about the earliest plant that you can pluck from your garden in the spring, for making pies and sauces. It is not only tasty and delicious, but it is very healthy, and every garden should have a small corner devoted to rhubarb. Our Cliffwood Grown Roots are unexcelled for tenderness, quality, appearance and flavor. Rhubarb should have a partly shaded location, to secure best result.

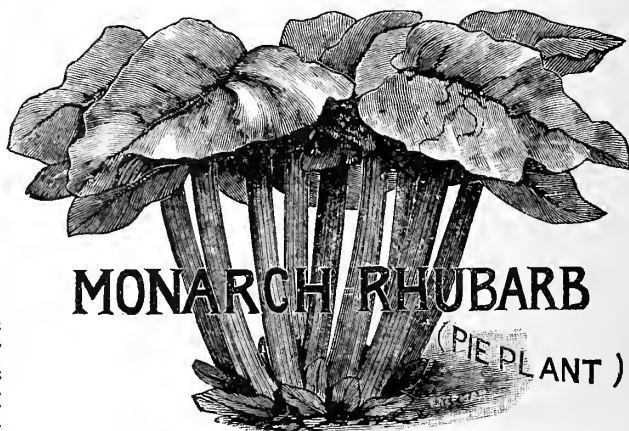

PRICES: One-year-old roots: 3 for 30c; 6 for 50c; 12 for 90c; 25 for \$1.75, postpaid. Two-year-old roots: 3 for 40c; 6 for 75c; 12 for \$1.40; 25 for \$2.60, postpaid. Extra large clumps, 65c each, postpaid.

MONARCH RHUBARB

(PIE PLANT)

NORTHERN GROWN STRAWBERRIES

All of the varieties listed below have "Perfect Flowers" and are not termed "Pistillate." We consider these varieties to be the most dependable and the most profitable to plant. We have tested and tried them out carefully at Cliffwood Farms, and you too will find them the best that can be planted.

Good cultivation is necessary for the best results, a liberal mulching during the summer is beneficial and the plants should never suffer for lack of water. When plants are received dip them in water at once and bury the roots in moist, shady ground until ready to set out.

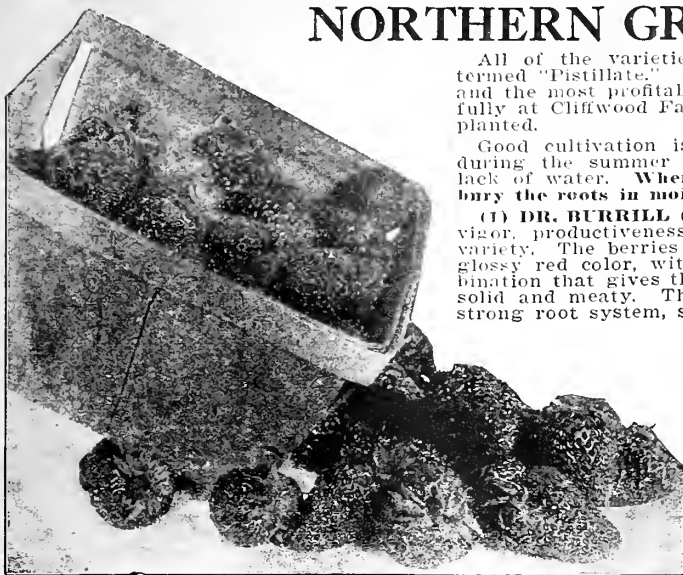

(1) **DR. BURRILL (Early).** An exceptionally fine early strain, a marvel of vigor, productiveness, quality, color, and size, seldom found in any one variety. The berries are large, delicious and beautifully formed, of a dark glossy red color, with rich green calyx and yellow seeds, making a combination that gives them an unusually attractive appearance. Fruit is very solid and meaty. The plants have a rich, dark green foliage and a very strong root system, so that it is not easily affected by drought or by leaf diseases. Very productive, blooms over a large season, and a splendid canner and shipper. We strongly recommend it.

(2) **SENATOR DUNLAP (Second Early).** An old and dependable variety and very well adapted to varied soils and climates. This strawberry is of the Warfield type, fruit is good size, regular form, rich, beautiful bright red color and glossy. Flesh is meaty, firm, is a splendid keeper and shipper, and of excellent quality and fine for canning. Ripens next to Dr. Burrill. A wonderful variety for those who haven't time to give it special care because it will produce a good crop under positive neglect.

(3) **GIBSON (Medium Late).** It commences to ripen with the second earliest and continues for a long season, making a heavy yield of fruit. The fruit stems are large and strong, and the dark green foliage is ample protection for the blossoms and fruit. It is a very strong variety with perfect blossoms and makes an excellent sort for pollenizing non-perfect varieties. The berry is large and regular in shape, holding its size well to end of season. Its color is a rich dark red clear through. Its flavor is fine, just right for home use. Withstands considerable frost.

(4) **AROMA (Late).** This variety has long been a favorite all over the United States; in fact it has long been considered the standard late variety. It is highly desirable for both home and for market, as its distinctive, delicious flavor is something one cannot forget. Aroma does best on the heavier soils. Berries are large, nearly round, solid, firm, and of an exquisite flavor. Yields heavily.

PRICES of above, postpaid (no less than 25 sold of any one variety): Per 25, 39c; per 50, 59c; 75 for \$3.9c; per 100 (25 of each if wanted), 98c; per 500, \$4.00; per 1,000 (any number of varieties), \$7.95. Full cultural directions sent free upon request.

PROGRESSIVE EVERBEARING

They produce a never ending yield of medium large berries, sweet, mild, and beautifully colored, throughout the entire summer and fall, until snow flies. To obtain the largest size and the best quality of berries in the fall, keep the flowers picked off until about August 1st. The plants are extremely vigorous and hardy. A splendid type for those who have never planted strawberries before. This variety is furnishing the bulk of the fall supply for the market and we strongly recommend it. Plants set out in spring will bear the following fall, and produce heavily thereafter.

PRICE, postpaid: 25 for 64c; 50 for \$1.18; 100 for \$2.10; 200 for \$4.00; 300 for \$5.85; 500 for \$8.29; 1,000 for \$15.95. Full cultural directions sent free upon request.

Sow Salzer's Seeds

Was very well pleased with your Mastodon Strawberry Plants. This year my neighbors will order from you.—Mrs. S. A. Hamilton, R. D. 1, Belgrade, Mont.

Your Strawberry Plants are the best I ever bought, and I have bought plants for years.—A. J. Genin, Basco, Wis.

Received the Strawberry Plants in fine shape.—Mrs. Harry Ingle, Ft. Recovery, Ohio.

SALZER'S MASTODON The New Big Everbearer

This astonishing new everbearing strawberry marks a new era in the growing of berries, whether for market or home. It is a great advance over all other strawberries; the berries are the largest of any variety are the most of a pronounced rich attractive, red color. They are of a delicious melting quality, very sweet and highly flavored. Every one pronounces them the best they have ever eaten.

Mastodon starts to ripen its large, wonderful berries within 92 days after the plants are set out and continues until freezing weather. Then, the next spring Mastodon bears as heavily as any spring variety, and after a six weeks' rest, starts in again and bears all summer and fall. Yields of 500 quarts and over have been recorded, at 25c per quart, 19 berries per quart. One berry measured 4 1/2 inches around, and they are just as big in late October (and later) as in July or September. They never run small. Set some out this spring and have berries the envy of your community, berries that bring you top prices!

Price Postpaid: 25 plants, 37c; 50 plants, 67c; 75 plants, \$1.20; 100 plants, \$2.00; 250 plants, \$3.25; 500 plants, \$5.00; 1,000 plants, \$9.35.

Jonathan
Apple

Salzer's Famous Apple Trees

Our Apple Trees are all hardy, northern grown, two year old trees, $\frac{7}{16}$ inch caliper, $3\frac{1}{2}$ feet and up in height, and with branched tops. Apple trees should be planted about 25 feet apart.

NEW WONDER APPLE, ANOKA

Originated by Prof. N. E. Hansen of the S. D. Agricultural Experiment Station. Has been developed to bear apples the second year after planting, something which has hitherto been impossible. Is very hardy, and bears very early. Apples

are round about $2\frac{1}{2}$ inches in diameter, reddish, splashed and striped, of splendid quality, juicy, and a melting, sub-acid flavor. An early Summer variety, tree of dwarf growth. Bears second year after planting. Price: $\frac{7}{16}$ in. caliper, 2 year old branched tops: Each, 89c; 3 for \$2.55. Postage extra, 5c per tree.

Our Special Prices on the Following Varieties:

Each, 54c; 2 for 98c; 5 for \$1.79; 10 for \$3.28.

(These prices are for trees F.

O. B. cars at our nursery in Iowa. If desired by parcel post, add 5c per tree extra. Trees will be sent separate from seed and plant orders.) You May Select From Any of the Following Varieties of Apple or Crab Trees, 2 Year Old, $\frac{7}{16}$ in. caliper:

FALL AND EARLY WINTER APPLES

WEALTHY—Very juicy and excellent flavor. Almost entirely red. Very early and abundant bearer.

WINESAP—One of the best little apples grown. Red. Fine for eating and excellent for baking. Good keeper.

SUMMER APPLES

RED ASTRACHAN—One of the best. Fruit large.

YELLOW TRANSPARENT—Trees bear when very young and early in the season. Color rich yellow with a faint blush. Flesh melting, juicy and sub-acid.

DUCHESS OF OLDENBURG—An old-time favorite. Round in form, with beautiful streaks of red and yellow.

LATE WINTER APPLES

DELICIOUS—Truly delicious in every sense of the word. Fruit large, rather elongated, with five little knobs on the blossom end. Beautiful rich crimson coloring on yellow background. With its extraordinary flavor it commands the highest prices and is the market favorite.

N. W. GREENING—Large, greenish-yellow fruit; firm and fine grained; will keep until late Spring.

TOLMAN SWEET—The finest of all sweet apples.

MCINTOSH—A great favorite in the Apple Belt. Large, deep crimson and beautiful; flesh pure white and crisp.

FAMEUSE (Snow)—Its white flesh contrasts beautifully with its deep crimson color.

GRIMES GOLDEN—Fruit medium to large, yellow veined, russeted; flesh yellow and fine grained; quality rich.

JONATHAN—One of the best sellers of all apples. Skin is bright red, quality of the finest, flavor of the best.

STAYMAN'S WINESAP—A dark, rich red apple, with rather indistinct striping. Larger and juicier than the old Winesap.

CRAB APPLES

HYSLOP—Dark, rich red on yellow ground; flavor very good.

WHITNEY—One of the very best Crab Apples. Yellowskin splashed with carmine. Fine flavor.

CHERRY TREES

Two year old trees, $\frac{7}{16}$ in. caliper, $2\frac{1}{2}$ feet and up in height, branched tops. Any varieties: Each, 68c; 2 for \$1.29; 5 for \$2.98. Postage, 5c per tree extra.

EARLY RICHMOND—Unsurpassed for cooking. Hardest of all varieties, bears heavily. Cherries are medium size, round and dark red. Flesh tender, juicy, and sub-acid. Early. Very popular, and a fine variety in every respect.

ENGLISH MORELLO—Easily grown, heavy producer, very hardy. Fruit dark red, quality very good, with a rich, acid flavor. Late.

MONTMORENCY—Best of all sour varieties; most in demand at all markets, widely used by canneries. Fruit is good size, bright clear red, fine quality, sub-acid flavor. Early. A splendid all around variety.

SALZER'S APPLE COLLECTION

Collections Cannot Be Altered, Divided, or Changed.

We feel that this is the finest apple tree bargain we have ever offered. It is one of our biggest values.

1 Red Astrachan, 1 Duchess, 1 Yellow Transparent, 3 Stayman's Winesap, 3 Jonathan, 3 Delicious, 3 Grimes Golden, 3 Winesap, 18 Apple Trees **\$3.98**

3 $\frac{1}{2}$ feet and up, branched tops, 2 years old. Think of it, FOR ONLY.....

If desired by parcel post, add 50c extra, for packing and postage.

PLUM TREES

Two year old trees, $\frac{7}{16}$ in. caliper, 3 feet and up in height, branched tops. Any varieties: Each, 62c; 2 for \$1.19; 5 for \$2.87. Postage, 5c per tree extra.

TERRY'S DE SOTO—Rich yellow color when ripe, excellent for canning, cooking, jelly and preserves.

WANETA—Originated by Prof. N. E. Hansen. Fruit is dark purplish red overlaid with blue bloom, delicious flavor. Often produces some fruit the year after it is planted.

SAPA—Another Hansen introduction. Large, rich dark purple plums that make sauce of superior excellence.

UNDERWOOD—New. Introduced by Minn. State Exp. Station. Vigorous grower, fruit large, roundish-oval, fine red, juicy, small stone, very early. 1 Each of Above 4, \$2.23, Ppd.

Waneta Plum

GRAPES

One Year Old Vines. Any varieties: Each, 25c; 4 for 92c; 6 for \$1.20; doz., \$2.00; 50 for \$6.50; 100 for \$10.95, postpaid. Write for large quantity prices.

AGAWAM—Deep red, large bunch, berries large and meaty.

CONCORD—Most popular of all.

Succeeds everywhere. Large, purplish-black.

MOORE'S EARLY—Extra early. Medium bunch, large berries, jet black, purple bloom.

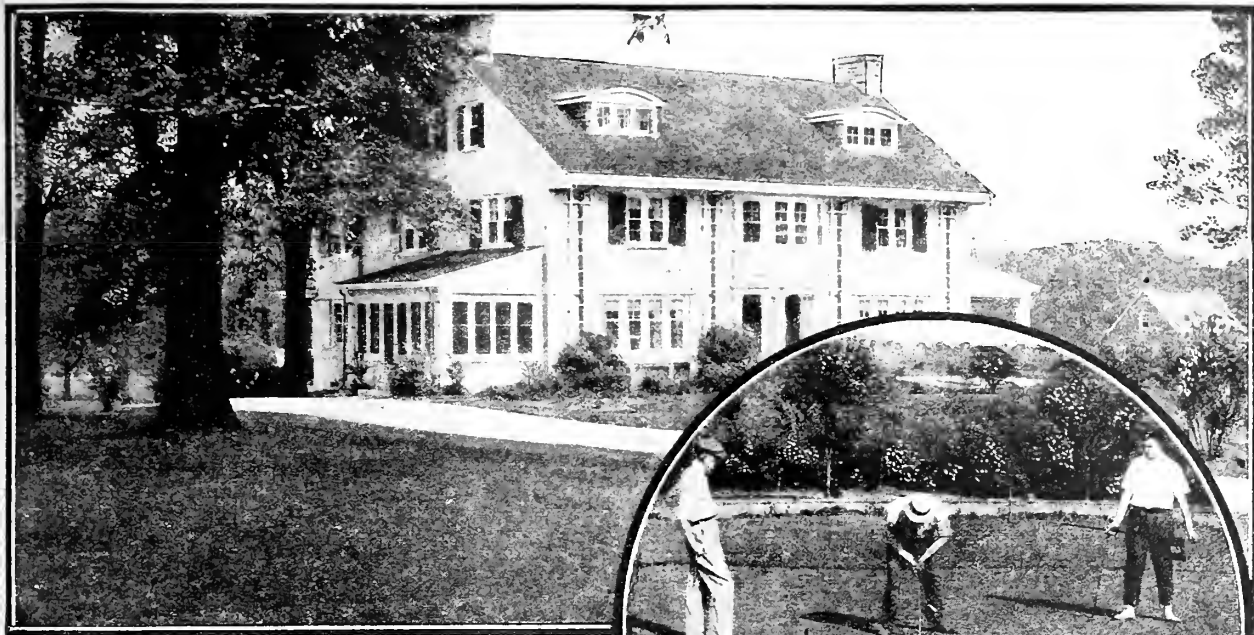

NIAGARA—Large, compact bunch, berry large, amber white with white bloom, thin skinned, sweet and luscious. Prices above.

Seven Big, One Year Grape Vines: 3 Concord, 2 Moore's Early, 1 Agawam, 1 Niagara, for only **\$1.00** Postpaid

Early Richmond Cherries

HOME ORCHARD COLLECTION: Our selection of 3 apples, 1 crab apple, 1 cherry, 2 plum trees and 3 Concord Grape Vines for \$2.78, postpaid.

SALZER'S RADIUM LAWN GRASS

It is the easiest thing in the world to grow a beautiful lawn. How often in our own city, as well as in other towns, do we find people spending from \$25.00 to \$50.00 sodding a lot, when 50c to \$1.00 worth of Lawn Grass Seed would do the work, would do it better and give a thicker swath and a greater growth than any sod you can find and put on anywhere. There is nothing that gives quicker growth and a thicker sod than Salzer's Radium Lawn Grass Mixture. It produces a perfect and enduring lawn of luxuriant richness, with closely interwoven, firm, elastic turf, and is often ready for mowing four weeks from sowing. This Lawn Grass is composed of a combination of various native and foreign, fine-leaved, deep-rooting grasses of interweaving habit, that flourish under our varied conditions, soils and climates, growing during different seasons of the year, so that a deep green, smooth and velvety sward, free from clumps, is maintained from spring to winter.

Mr. Cyril Marsh, 87 State Road, Ashtabula, Ohio, writes, "We think there is no better grass seed than your Radium Lawn Grass No. 4526. Our soil here is very sandy (close to Lake Erie) but we have a beautiful lawn from your seed. We are delighted with all your seeds and plants, finding them very reliable."

For a successful lawn, your soil should be rich, and carefully pulverized, smoothed and leveled. If your soil requires it, fertilize it with well rotted manure, or other fertilizer. Then plant vigorous, dependable lawn grass seed early enough to allow the grass to become well established before being subjected to hot weather, or to the direct rays of the hot summer sun. In spring, sow as early as possible and before a rain, and in fall, sow before the autumn rains. Sow about 1 pound to 200 square feet; about 12 lbs. to 50x50-foot plot. For renewing old lawns, about one-half as much. One pound is about 1½ quarts. Leaflet, "How To Make a Lawn," sent free upon request.

4526—RADIUM: ½ lb., 31c; 1 lb., 58c; 5 lbs., \$2.55, postpaid. Not prepaid: 10 lbs., or more, at 45c per lb.

4525—SUPERIOR: ½ lb., 29c; 1 lb., 55c; 5 lbs., \$2.40, postpaid. Not prepaid: 10 lbs., or more, at 42c per lb.

SHADY PLACE GRASS SEED

We have carefully prepared this combination of grasses for sowing in shady parts of your lawn, or under large trees, etc., where the ordinary grasses will not give the best results. It will practically overcome any difficulties you may have had with shaded spots.

4527—½ lb., 34c; 1 lb., 65c; 5 lbs., \$2.89, postpaid. Not prepaid: 10 lbs., or more, at 52c per lb.

WIZARD SHEEP MANURE

A splendid fertilizer for lawns. Wizard Sheep Manure is dry, pulverized and screened and all undigested weed seeds have been destroyed so they cannot under any circumstances germinate and fill your lawn with weeds. It is a natural plant food that produces thick, velvety, green lawns. Also good for the vegetable garden, greatly enriching the soil. Apply early in spring, and every month thereafter.

5586—Not prepaid: 5 lbs., 25c; 10 lbs., 40c; 25 lbs., 80c; 50 lbs., \$1.40; 100 lbs., \$2.60; 500 lbs., \$12.50; 1,000 lbs., \$23.00.

DWARF WHITE DUTCH CLOVER FOR LAWNS

While we do not put White Clover in our Lawn Grass Seed, we have many requests for it and recommend one ounce to each pound of lawn seed. Our Special Lawn Mixture always contains the right percentage of White Dutch Clover. 4249—Radium, per oz., 9c; ¼ lb., 19c; 1 lb., 58c; 2 lbs., \$1.10; 5 lbs., \$2.55, postpaid. Not prepaid: 10 lbs., \$4.50. See current price list for larger quantities.

SALZER'S SPECIAL LAWN GRASS

If for any reason you have been unable to get a good lawn, you should be able to obtain one by letting us give it our individual attention and making a special mixture to suit your needs. While for almost all general purposes, our grasses are unusually successful, yet extreme conditions require special care. Write us whether you have a new or old lawn, whether it is shady or sunny, level or sloping, heavy or light rainfall, mild or severe winters, whether fertilized, etc., and kind of soil. Send us a sample of your soil, if you wish. We can then send you a mixture which should give you fine results and enable you to get a good lawn.

4529—½ lb., 32c; 1 lb., 61c; 5 lbs., \$2.70, postpaid. Not prepaid: 10 lbs., or more, at 48c per lb.

Last year I received several prizes at the County Fair, by using your seeds.—Mrs. Fred Sarbach, Sr., Box 1, Montpelier, Idaho.

-better vegetables

"After applying Vigoro," writes Ad Hennig, of Neenah, Wisconsin. "I had tomatoes three weeks earlier than the year before. They were of a better quality, more delicious, and uniform in size."

"The same success was evident with the rest of my vegetables."

Vigoro is the ideal plant food for lawns, flowers, gardens, shrubbery and trees. It is easy to apply; results are quick and certain.

Clean, dustless, weedless, and Odorless! Vigoro is not to be compared with any other plant food you have ever known. It isn't at all costly.

VIGORO

Specially prepared plant food

SULPHUR TOBACCO SOAP

Make Tobacco soap suds and spray. Your plants will surprise you. Makes house plants bloom. 5480—3 oz. cake, 15c. 5481—8 oz. cake, 30c, postpaid.

LENOX SPRAYER

5307—For Indoor Plants. Spraying under the leaves kills the insects, removes the dust and keeps them healthy. Closing out on this item. Special price, 33c, postpaid.

GREENHOUSE NOZZLE

5918—The ideal nozzle for sprinkling gardens, flower beds, shrubbery, etc. Does not wash out holes in the flower bed, does not break the flower stems, does not force the petals from flowers. Also very practical for sprinkling the lawn. Made entirely of brass. Will last a lifetime. Each, \$2.15, postpaid.

DERRISOL

The ideal insecticide, powerful, highly concentrated, non-poisonous! Kills aphids or plant lice, green flies, black flies, red spiders, leaf hoppers, thrips, cabbage worms, saw fly larvae and other sucking and leaf eating insects. Absolutely safe to use on all roses, plants, etc., odorless, non-poisonous, and effective. Directions on each package. Price: Oz. bottle (makes 6 gallons) 55c; ½ lb. bottle (makes 50 gals.) \$1.55; 1 lb. can (makes 100 gals.) \$2.65, postpaid.

VIGORO

Specially prepared plant food

For the Lawn, Vigoro is the finest fertilizer and plant food obtainable. In making a new lawn, after the ground has been thoroughly prepared, apply 4 pounds of Vigoro per 100 square feet, mixing it thoroughly with the top soil. It is well, then, to wait one day before sowing the seed. After seed is sown, wet down thoroughly but carefully, so seed is not washed away.

On an established lawn, apply Vigoro early in spring, at the rate of 4 pounds per 100 square feet. Spread it evenly and then wet down thoroughly. Light applications of 2 pounds per 100 square feet, every six weeks thereafter, on both new and old lawns, will keep them beautiful and green through the season. Apply Vigoro evenly,—too much in one spot or heavy applications are wasteful and may burn the lawn.

A FEW DON'TS

Don't apply Vigoro on wet grass, plants or flowers. Wait until they are dry.

Don't allow Vigoro to come in direct contact with seed, foliage, or roots of plants.

Don't fail to water thoroughly after Vigoro is applied. This will prevent burning of grass, vegetable plants, and flowers.

Price of Vigoro: Lb., 25c; 2 lbs., 40c; 5 lbs., 80c, postpaid. Not prepaid: 10 lbs., 85c; 25 lbs., \$1.75; 50 lbs., \$3.00; 100 lbs., \$5.00.

ATLAS

NON-POISONOUS

WEED KILLER

Insures weed-free driveways, walks, garden paths, brick walks, tennis courts, etc. The appearance of a crushed stone driveway, walk, or path may be ruined by hand pulling or hoeing undesirable vegetation. One application of Atlas Weed Killer will easily kill practically all weeds, poison-ivy, quack grass, dandelions, thistles, etc. Atlas Weed Killer comes in a handy container, with a perforated top so that all that is necessary is to dust it on undesirable vegetation. Indispensable for the smaller yards as well as the larger grounds, farms, stations, etc. Non-poisonous and will not harm humans, animals or birds.

Price: (sufficient for 300 sq. feet or an average yard for a season) \$1.89, postpaid.

5359—It fits the hand so comfortably that the fingers are entirely free for use wherever necessary. Price, 23c, postpaid.

A NEW, SAFE SPRAY

for Healthier Gardens

Non-poisonous Spray Kills Insects

Now your plants can be assured of positive protection against insects. Sheps Plant Spray controls and kills both sucking and chewing insects, including Aphids, Thrips, Green Flies, Mealy Bugs, Worms, Caterpillars and others.

NON-POISONOUS for humans, birds, animals and plants. Sure death to insects. Will not injure the most delicate blooms or plants. Benefits soil and foliage.

The easiest spray to mix. Sheps Plant Spray is poured into water,—stirred for 15 seconds,—then poured into sprayer adding the required amount of water. 20 seconds from bottle to plant. No tedious and time-taking mixing—no soap suds solution. Spraying directions on each bottle.

Following sizes and prices:

2 oz. bottle, postpaid.....35c
8 oz. bottle, postpaid.....75c
16 oz. bottle, postpaid.....\$1.25
Quart can, postpaid.....2.00
Gallon can, postpaid.....6.35

Bulk Prices on Inquiry.

I tried everything for cucumber beetles without much success, until I used your Evergreen.—Mrs. May Roos, Box 430, Grand Island, Nebr.

EVER GREEN

NON-POISONOUS INSECTICIDE

The new, modern, insect control, safe to use on tender plants and blossoms. Very effective against Aphids, Beetles, Thrips, Moths, Cabbage Worm, Leaf Roller, Cut Worms, White Fly, Rose Insects, Leaf Hopper, Red Spider, Mealy Bug, Chrysanthemum Midge, Green and Black Flies, Squash or Stick Bugs, Cucumber Beetle, Potato Bugs, Cabbage Maggot, etc.

Evergreen is non-poisonous and cannot burn or damage the most tender foliage. It kills both chewing and sucking types of insects, it will not gum sprayers, it is fool-proof, operators or children do not become poisoned from it, it is economical, it keeps strength indefinitely.

Customers report it very effective in controlling Cut-worms, Cabbage Worms, Melon Worms, Cucumber Beetles, etc., in the vegetable garden, as well as practically every insect that can infest plants and flowers. Also recommended for Borers on Artichokes, Currant Worms, Gooseberry Worms, Caterpillars and Pickle Worms. We recommend it highly. It is inexpensive and there are complete directions on every bottle.

Price: 1 oz. bottle, 39c; 6 oz. bottle, \$1.10; 16 oz. bottle, \$2.15, postpaid.

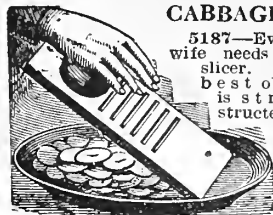

LOCKED PLANT BANDS

The simplest way to handle plants for transplanting is to grow them in our Ready-To-Use Plant Bands. They come already folded, and all you have to do is to open them, fill with soil and then plant. These bands are economical. They make an ideal worm guard; in transplanting into the field simply put the band and all into the ground, thus preventing exposing the roots to the air, which always sets the plant back. By using these it is even possible to transplant sweet corn, cucumbers, squash, melons, beans, etc. We do not put bottoms in them, so that in the field the roots will not be hindered in any way.

5201—Price, postpaid: 2x2x2½ in. deep, 49c per 100; \$1.10 per 250; \$2.10 per 500.

THE VEGETABLE SLICER AND CABBAGE CUTTER

5187—Every housewife needs a vegetable slicer. This is the best obtainable. It is strongly constructed and with ordinary care should last a lifetime. Is A-No. 1 for slicing cabbages, apples, carrots, cucumbers, radishes, etc. Five slices are cut with every stroke of the hand. Price, 75c; 3 for \$2.10, postpaid.

BUG DEATH

5428—Kills all bugs and worms that chew leaves and foliage; it is non-poisonous, containing no Arsenic and Paris Green. May be used dry or in solution. It is in high favor among market gardeners, who use it extensively for cabbage and tomato worms, potato and cucumber bugs, etc. Use at the rate of about 12 lbs. per acre. Price: 1b., 30c; 3 lbs., 80c; 5 lbs., \$1.20, postpaid.

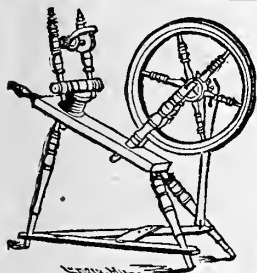

LAWN MOWER SHARPENING COMPOUND

5699—Order a can of Clover Grinding and Lapping Compound, and sharpen your lawn mower every time you use it. Any boy, girl, man or woman can sharpen a mower with this Compound. Simply apply to cutting blades. Price, each, 58c, postpaid.

WATCH-EM-GROW PLANT FOOD

A LITTLE GOES A LONG WAY

All Commercial Fertilizers must contain among other things, these three basic chemicals in some form or another, Ammonia, Phosphoric Acid and Potash. But the secret of good fertilizer is the proportion of each. In the form it is offered to you in Watch-em-Grow, this plant food not only has just the right proportion but is highly concentrated, so that a little goes a long way. Send us 10 cents for a large trial package of Watch-em-Grow Plant Food, with directions for using. After using the contents, you can send us the empty package and only forty cents and receive one regular fifty-cent can of Watch-em-Grow Plant Food. This makes the trial package cost you nothing in the end. Large Trial Package only 10 cents; Big Eight-Ounce Can 50 cents, postpaid.

SPINNING WHEEL

5288—An extra strong and well made spinning wheel, made of best hardwood.

Three spools with each wheel. Spindles and cranks of the best malleable iron. Flywheel 18 inches in diameter. Fine for spinning flax and wool and perfect in every respect. Price, \$9.95, not prepaid.

5293—Extra spools, 30c each, postpaid.

5294—Wing or Flyer, 60c each, postpaid.

5289—Wool Cards, each, 75c; pair, \$1.45, postpaid.

Write for prices on other repair parts.

Inoculate your legumes, such as Peas, Beans, Clovers, Alfalfa, Vetch, Alsike, Soy Beans, etc., with this inexpensive, highly-oiled, nitrogen-gathering bacteria. Inoculation is simple and there are full directions on each package. Order by number according to the crop and number of bushels you wish to inoculate.

RAT CORN—Kill Your Rats, Mice and Gophers

5433—Kills rats, mice, gophers and ground squirrels. It mummifies them. No matter where they die they simply dry up and will positively not smell. Rat Corn is not dangerous to handle, and is harmless to human beings and all domestic animals. Can leave it around anywhere without fear. Also kills mice, ground squirrels and gophers.

Price: Small size, 30c; medium size, 55c; large size, \$1.10, postpaid.

Salzer's Improved Constellation Garden Tools

Salzer's Improved Constellation Complete is a combination outfit which may be used as a hill or drill seeder, double or single wheel cultivator, plow, or hoe, as conditions require. It has all the equipment to serve you from the initial seeding to the final cultivation.

1—SALZER'S IMPROVED CONSTELLATION COMPLETE, as illustrated. Shipping weight, 60 lbs. Price, not prepaid, \$16.35.

2—SALZER'S IMPROVED CONSTELLATION HILL and DRILL SEEDER. Will sow all seeds from beans down to finest garden seeds either in continuous drills, or in hills spaced from 4 to 24 inches apart. Can be made into a complete machine by adding the cultivating equipment. Shipping weight, 50 lbs. Price, not prepaid, \$13.10.

3—SALZER'S IMPROVED CONSTELLATION DOUBLE WHEEL CULTIVATOR. May be used as a double wheel hoe, plow or cultivator astride the row during early cultivation, and as a single wheel cultivator between the rows later. Adding seeder parts will make the complete machine. Shipping weight, 35 pounds. Price, not prepaid, \$11.15.

4—SALZER'S IMPROVED CONSTELLATION DOUBLE WHEEL HOE. For those who want a machine with the hoes only. By adding necessary parts later on, you can have the complete machine. Shipping weight, 30 pounds. Price, not prepaid, \$9.45.

5—SALZER'S IMPROVED CONSTELLATION SINGLE WHEEL CULTIVATOR. For the small gardener. Can be used as a hoe, plow, or cultivator, working between the rows. Shipping weight, 35 pounds. Price, not prepaid, \$10.25.

6—SALZER'S IMPROVED CONSTELLATION SINGLE WHEEL HOE. Hoes are the most necessary tools in garden cultivation. This single wheel tool is very popular with the small gardener. Shipping weight, 27 pounds. Price, not prepaid, \$8.70.

We raised a wonderful garden from your seeds and took many prizes at the Fair.—Mrs. Geo. Kirn, Box 642, Poplar, Mont.

MAGAZINES AT SPECIAL LOW PRICES!

Few indeed are the homes where magazines are not read, and in order to give our customers plenty of good reading material at lowest rock bottom prices, we have made arrangements to supply the following magazines in club offers.

Simply order Club No. 400, No. 402, No. 413, or whatever you wish, enclosing the necessary remittance. We will have your subscription entered at once and the magazines will then be sent as quickly as possible, but in case the publisher should be delayed in sending them, please wait two weeks before writing us. We receive a large number of these subscriptions, and therefore urge you to order early. These Club offers cannot be altered. In case you are now receiving any of these magazines, the subscription will commence at the expiration of your present subscription. Canadian subscribers, please add 75c extra to each club price.

SALZER'S BABY CHICKS SHIPPED C. O. D.

100 Per Cent Live Delivery Guaranteed

We mean just that! 100 per cent live, and full delivery guaranteed,—or we will promptly and cheerfully refund your money. As far as we know, we are the only seedsmen that are selling chicks on this basis. There's a reason. Salzer's Baby Chicks are bred from such high class, pedigreed stock, are so sturdy, strong and healthy (although only a day old), that we know for a certainty they will reach you in A No. 1 shape.

SALZER'S SUPER BABY CHICKS

Every single chick hatched, comes from parent stock that has had the care, culling, mating and grading necessary to make a Bred-to-Lay and Bred-to-Pay strain of poultry. Hundreds of our customers write us that they secure fine show birds from these Super Chicks and carry off first prizes. Whether you purchase entire flocks or only enough to build up the blood lines in your utility or superior flocks, it will pay you and pay you well to use Salzer's Super Chicks.

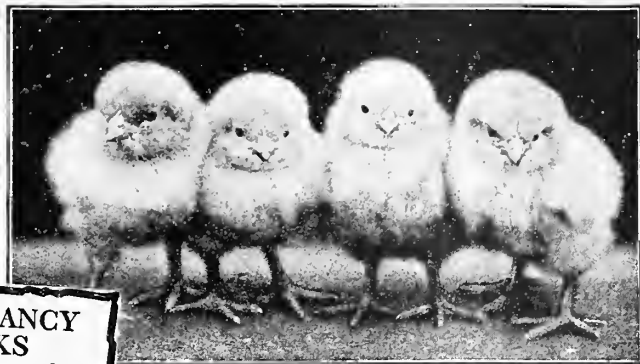

We have a large force of skilled employees who rogue and cull our flocks, of pedigreed parent stock, so that you get only the best and healthiest baby chicks. This means a heavy expense to us, but it saves you many dollars in the end. Don't—buy cheap chicks at cheap stores. Salzer's Super Chicks are the healthiest, strongest, most highly bred and developed chicks obtainable, regardless of price, and are the best investment in poultry that you can make.

EXTRA-FANCY CHICKS

When you order baby chicks from us, you are not going to get chicks that were hatched from eggs bought at any source from which eggs happened to be obtainable at the lowest price. Our Extra-Fancy Chicks are all from parent stock that has been carefully culled, rogued and mated. They have been bred for high egg production and not infrequently, show birds are found among them. They are strong, healthy, hardy, free from disease and just the thing for the good all around poultry flock.

FULL-OF-PEP

A splendid first class grade of chicks, better than those obtainable from most sources, at a real bargain price.

HOW TO ORDER

We will ship your order C. O. D., if you wish. This permits you to order your chicks far in advance, and then to simply pay the Postman when he brings them. Or, you may send money-order or check with your order. Be sure to state when you want the chicks. We will notify you just about when they will arrive, and if they aren't delivered on that date, phone the Postmaster as the carrier may have missed them and they would then lay in the Post Office over night. Full instructions sent on how to care for them on arrival. Please give first and second choice, to save delay.

NO MORE HATCHING WORRIES

When you order Baby Chicks from us, you are relieved of all your hatching worries. Your chicks come just when you want them. You know just how many chicks you will get. You can order them at once (we urge you to order early) and we will then book them and ship at any date you specify. They are all one size and one age. You can have delivered to your home 50 or 5,000. 100% live delivery guaranteed.

Note: Prices on this page are for delivery of Baby Chicks during February, March, April, and May. If you order Baby Chicks for delivery any time from June 1 to November 1, 1929, deduct 20% from these prices. For example, 50 Super White Leghorns, delivered June 1, would cost \$7.40, postpaid.

SOW SALZER'S SEEDS

I ordered 13 English White Leghorns, 12 Buff Orpingtons, and 25 Black Minorcas Super Baby Chicks. Didn't lose a single chick from sickness, and the postman said they were the liveliest chicks he had ever delivered. They arrived April 18 and commenced laying Nov. 23. Up to April 11 they laid 1526 eggs. Four Minorcas laid from 21 to 24 eggs a month. I am trapnesting them all and know just what they are doing. I don't believe I could have gotten better chicks had I paid five times the price.—Earl R. Brogg, 427 E. 2nd St., Monroe, Mich.

SOW SALZER'S SEEDS

Salzer's Cliffwood, Giant
Double Carnations 111B

See Also Page 79

Beautiful in the extreme, elegant
in design, large and perfectly
double, this new variety is growing profusely and
is a real beauty. This new strain of
Carnations is a real eye-seeder. It is a seedling
of a very old and famous strain, for
it is the result of many years of work. If you wish,
you can have the plants for indoor bloom-
ing.

Mr. William L. K. Jr., 4319 171st
Street, Flushing, Station A, L. I., New York,
has tried all kinds of Carnation
Seeds but none can compare with your
seed.

We offer the following lovely sorts:

Rose Pink	Queen of the Yellows
Crimson King	Flesh Pink
Queen of the Whites	Cardinal Red
Mixed	

Any of above, Per Packet, 15c postpaid.
One packet each of these six colors for
75c postpaid.

Carnations:
